VEGETINE

The Great Blood Purifier.

A valuable Indian compound, for restoring the health, and for the permanent cure of all diseases arising from impurities of the blood, such as Scrofula Scrofulous Humors, Cancers, Cancerous Humor Erysipelas, Canker, Salt Rheum, Pimples and Humors on the Face, Ulcers, Coughs, Catarrh, Bronchitis, Neuralgia, Pains in the Side, Rheumatism, Dyspepsia, Constipation Costiveness, Dizziness Piles, Headache, Nervousness, Faintness at the Stomach Pains in the Back, Kidney Complaints

Female Weakness, and General Debility.

This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon these complaints are surprising to all. Many have been cured by the VEGETINE that have tried many other remedies. It can well be called

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Cough, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

AMERICAN & FOREIGN PATENTS,

R. M. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents or inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUCHS, and Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

CORNS, Bunions, Bad Nails, and other diseases of the feet, Scrofulous and Cancerous Humors, Piles, etc., skillfully treated at the great central Chiropodical and Healing Institute, No. 703 Broadway, New York. DR. J. SHRIGGS, President; DR. ALEXANDER WEBBER, Secretary. ap9

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to fall off prematurely, and either effect is unsightly and unpleasant to be hold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the glow and freshness of youth. To comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

"Pse Doin' for Blackberries."

Among the "young contributors" to the September number of *Our Young Folks*, is one "C. B. D," (aged thirteen), who furnishes the following charming little poem under the above heading:

Two blue eyes like two bright stars,
Two little hands taking down the bars;
One pouting mouth like a rosebud red—
"I'se doin' for blackberries," was what it said.

Tripping across the fields so green,
Laughing and singing, came Mamie Elreane,
And she prettily told all that she met,
"I'se doin' for berries wis Carlo and Pet."

"Pet" was her kitten, her plaything and "pride,"
"Carlo, the dog, who walked by her side;
And they both seemed to say, as they joined her play,
"We'se doin' for berries over the way."

* * * * * * * *

Two blue eyes like two bright stars,
Two little hands taking down the bars;
One pouting mouth like a rosebud red—
"I'se dot my berries," in triumph it said.

A PLEA FOR THE BRAKEMAN.—The number of brakemen who are killed and wounded by accident every year exceeds than of any other class of railroad employees, four times over. And yet, in seeking situations, they are compelled to sign a contract exempting the road employing them from any damages in case of accident. There is hardly a more responsible position on any train than that of brakeman, and to stand at their posts in time of danger is almost certain death, and as the record of almost any disaster will show, they very seldom desert them. It is hard to see the justice of accepting men for dangerous places, where every hour of the day they are liable to be crushed in the couplings of the cars—not through their own carelessness, either—on wages not proportionately large, and at the same time, in case of their death, refuse their families a small part of the support they have lost.

THE LAST CHANCE.—A man in Massachusetts had an unreasonable grudge against his minister, that lasted twenty-five years. But at last the hands of death knocked at the door of the parishioner, and he sent for his pastor. The man hastily obeyed the summons with a solemn delight, as his being thus callled showed a mellowing of the heart of the dying man, which promised reconciliation both with heaven and himself.

"You sent for me?" he said, as he approached the bedside.

"Yes," answered the dying man, whose breath was short and difficult, "I have but a few—a few hours to live, and I sent—for you to say that—that this is your last chance to apologize!"

—A quaint Scotch minister was given somewhat to exaggerating in the pupit. His clerk reminded him of its effects on the congregation. He replied he was not aware of it, and wished the clerk, the next time he did it, to give him a cough by way of a hint. Soon after, he was describing Sampson's tying the foxes' tails together. He said: "The foxes in those days were much larger than ours and they had tails twenty fut long." "Ahem!" came from the clerk's desk. "That is," continued the preacher, "according to their measurement; but by oors they were fifteen fut long." "Ahem!" louder than before. "But, as you may think this is extraordinary, we'll just say they were ten fut." "Ahem! ahem!" still more vigorously. The parson leaned over the pulpit, and, shaking his finger at the clerk, said: "You may cough there all the night long, mon; I'll nae tak' off a fut more. Would ye hae the foxes wid nae tails at a'!"

—It is reported that the fifth and only unmarried daughter of Queen Victoria has been betrothed to the Marquis of Stafford, son and heir to the Duke of Sutherland. As the marquis is son of one of the richest nobles in Great Britain, the British people will be spared the expense of supporting any pauper princes. When the princess has been married, which probably will not be for a year or two at least, the Queen will probably turn her attention to settling her sons in life. The princes do not seem to be marrying men, however, only one of them, the Prince of Wales, having married.

—We commend the following letter as a pattern of conciseness and philosophic presence of mind. It was addressed to a lady friend, by a young Chichago widow: "Dear Annie:—Husband is dead, died yesterday, of diptheria, there is a balm in Gilead, loss severe, partially covered by insurance, say ten thousand dollars, money will be paid to-morrow, send your sympathies by return mail, in haste.—*Josie.*

—The Christian *Intelligencer* discusses the extravagance of public funerals as a "demoralizing nuisance." It asks: "what can justify the custom which now unhappily prevails of making the funerals of private and even obscure persons occasions of idle display and studied pomp?"

The Daily Chronicle,

Portsmouth, N. H.

THURSDAY, SEPTEMBER 26, 1872.

The News.

The official report of the investigation in the Metis disaster results in revoking the license of the captain and first and second pilots. The report states that the responsibility of the disaster rests upon Capt. Burton and the two pilots, and some blame is attached to Doane, the first mate.

Milwaukee has had the heaviest rainstorm ever known there. Streets and cellars were flooded and considerable damage was done. Several barns in the country were struck by lightning and consumed. A young man at Hebron, a girl at Palmyra, and two men in Greenfield were killed by lightning. The lightning was continuous during the storm.

Pittsfield, Mass., dedicated its soldiers' monument on the 24th. It will bear the names of 94 citizens of Pittsfield who lost their lives in the Union cause.

A lad of 15 years, named Franklin Hall, was fatally stabbed in Boston by a young scoundrel named Hughes, while attempting to prevent a robbery by the latter. Hughes is but 18 years old.

State News.

On Friday, the barn of John Willis, of Manchester, containing some four or five tons of hay, was consumed. The L of the house caught fire also, and the house itself was only saved by tearing away the L.

A son of Mr. Wright Gould of Ashulot, nine years old, was accidentally shot. While out gunning on the 14th inst., and died next day.

Denison vs. Wilson.

"Rev." C. W. Denison, of Washington, D. C., recently published an attack upon the President, in which he asserted that Senator Wilson once told him (Denison) that "Grant drinks too much." Mr. Wilson has flatly denied having ever said anything of the kind, but that does not prevent the "reverend" Denison and the Greeley press from repeating the charge. As might have been expected, Denison's assault on Grant led to an examination of his own record, which has resulted in a counter-charge—as yet uncontradicted—that Denison, as chaplain of a regiment during the war, was guilty of "conduct unbecoming an officer and a gentleman," and was removed in consequence. The Middletown correspondent of the *Evening Post* writes that paper as follows, further illustrating the lofty honor of the man whose word is staked against Senator Wilson's, and the eager avidity of the Greeleyites to accept the unsupported statements of most contemptible characters as uncontrovertible, if only they will slander their political opponents:

Last year the first ecclesiastic society of Portland employed the notorious Denison to supply their pulpit four Sundays. After leaving, Rev. Mr. Clark, with whom Denison boarded, presented the society's committee with a bill of $25 for his board, which he had gone off without paying. The committee, although under no obligation to do so, paid the bill. He had also procured medicine of Dr. Blodgett, the druggist, and went away without paying for it, besides borrowing money from several persons, which he has never returned.

Railroad Matters.

The number of passengers conveyed over the European and North American Railway for the month of August was 30,322, an increase of about 8000 over July.

The aldermen of Portland, for the second time refused to pass an order authorizing a loan of $43,000 for the completion of the Marginal Way, so that enterprise, which has already cost $47,000, will remain in its present unfinished state.

The project of building the carriage-road to the summit of Kearsarge Mountain for which a charter was granted several years ago, is being discussed. The height of Kearsarge affords not only an excellent view of Mount Washington, but also almost invariably in pleasant weather one can see the seacoast and have a view of places at a very great distance, such as is rarely obtained on Mount Washington. The estimated cost of a carriage road to the summit is ten thousand dollars. By the present arrangement of trains over the Eastern Railroad passengers leaving Boston in the morning could dine at North Conway, ascend the mountain and return in the afternoon and reach Boston at one o'clock P. M. The recent rains, while they seem not to have injured the excellent roads in North Conway and Bartlett, have contributed greatly to the beauties of Goodrich's Falls, Artist's Falls and other places of resort in the Conway region.

Political.

Blanton Duncan has started a paper at Louisville called the *True Democrat*. It has for a figure-head the picture of a rooster, with the legend, "Neither Grant nor Greeley can scare this chicken."

The Chairman of the Democratic Liberal Committee in Missouri has sent out a confidental circular, in which the ground is taken that the coalition must be abandoned, the Democrats beaten on local tickets and the legislative Blair thrown overboard, the hope of Presidential success relinquished and efforts devoted to found a new free trade party for the future.

Two military companies of colored men took a vote at New Haven recently as to the Presidential candidates, resulting as follows: Skidmore Guards, for Grant gave 79 votes, for Greeley, 0. The Wooster Guards voted 74 for Grant and 0 for Greeley. Only a straw.

Had we been among Mr. Greeley's trusted counsellors, says the New York *World*, we should have advised him to forbear speech-making altogether during this canvass. When the political supporters of H. G. talk in this way, what is the probable sentiment of the general public?

Gen. Bradley T. Johnson, who left a loyal State to take part in the rebellion, and justified that rebellion because of the election of a President not of his choice, now argues that a failure to elect Horace Greeley will be a justification for another war. This looks like asking for reconciliation!

A. P. Edgerton, the straight democratic nominee for Governor of Indiana, is a Greeley man and will not accept.

The Republican congressional committee are preparing for a campaign document the proceedings and resolutions of the Pittsburg soldiers' convention, accompanied by Horace Greeley's speech, a day after in the same city, criticising and condemning the convention.

—The Republicans say they are going to carry Biddeford in November.—*Biddeford Times.*

A brother of General Rawlins writes to the Baltimore *Gazette*: "The whole course of the President during the illness and since the death of my brother has been so generous, and given such earnest evidence of his great regard for General Rawlins, as to place our whole family under the deepest gratitude."

Three presidential candidates are now stomping for themselves, Mrs Woodhull) Tilton's first love), Mr. Greeley (Tilton's second love), and George Francis Train. Betting men consider their chances equal, although Mr. Tilton's second love has rather lost ground recently.—*Hartford Courant.*

Senator Cameron says that a careful estimate shows that less than five thousand Republicans in the whole State of Pennsylvania will refuse to vote for Hartranft, whose majority, he predicts, will be 12,000.

The Republicans of the Fifth (Mass.) Congressional district have nominated Hon. Daniel W. Gooch of Melrose to succeed Gen. Banks in Congress.

—What agonies must that poet have endured who, writing of his love, asserted in his manuscript that he "kissed her under the silent stars," and found the compositor had made him declare that he "kicked her under the cellar stairs."

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

THE LATEST SWINDLE.—Certain sanctimonious charlatans would fain persuade the world that diffusive stimulants have no medicinal value, and that destestable slops, composed of griping acids and drastic purgatives, are better tonics than the finest vegetable ingredients combined with the purest and mellowest products of the still. But this sort of thing won't go down. The stomach of our common sense rejects it, as the physical stomach of every man with an undeprayed palate rejects, with loating and abhorrence, the nauseous abominations, "free from alcohol," which Humbugs are trying to thrust down the throats of Temperance Invalids under the pretense that the filth will do them good? It is not likely that while PLANTATION BITTERS, the Standard Tonic of America, is anywhere accessible, such sickening frauds can make headway, but it is as well to put the public on their guard against them.

THE THIEF who was arrested for robbing Parsons' store in this town, was found to have a quantity of Ayer's Hair Vigor in his possession. When asked why he wished to steal that article, he answered that he "wanted to restore his hair, for it was hard to be a thief and bald too." If that invention of the great chemist could restore a faded character as effectually as it does their natural beauty to bald and grey heads, it would surely be, as they say it now is, truly invaluable.—*Lewiston (Me.) Journal.*

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

TEETH IN RUINS are a sure drawback on personal appearance and personal comfort. Therefore keep them in good repair with that established antidote for all the diseases that assail them, fragrant SOZODONT.

SOUR STOMACH.—If the food taken into the stomach is not digested it decomposes. In the latter case a pungent gas is developed which causes sour eructations or else the stomach itself secretes an acid, which rising upward at intervals stings the gullet sharply. These extremely disagreeable sensations are attributable to impaired digestion. To get rid of them, or prevent their recurrence, it is only necessary to tone and regulate the gastric organs with Hostetter's Bitters. It will not answer to postpone the great corrective with the idea that the unpleasant symptoms will disappear of themselves. So far from that being the case, they almost invariably culminate, if neglected, in chronic dyspepsia, with its concomitants of gnawing in the stomach, dizziness, perverted vision, headache, and sleeplessness. It is true that all disagreeables may be obviated by a course of the Bitters; but how much wiser to anticipate their arrival with one or two doses of that sure preventive of indigestion and strengthener of the alimentary organs.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

HOLLOWAY'S OINTMENT.—Sore leg and all ulcers, eruptions, and injuries of the flesh, heal kindly and swiftly under the operation of the Ointment, and the Pills by their gentle aperient action, assist the cure. Sold 78 Maiden Lane, N. Y. Price 25 cents per pot. Ask for new style; the old is counterfeited.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away life thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will soon end such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

FOR SALE,

A SPAN of Dark Chestnut **MARES**, aged 7 and 8 years, with black manes and tails, alike in color, weight and gait, in good order and *without a fault*, have trotted together in 2:50, perfectly gentle and kind, and so well trained that a young lady of 15 years has driven them through the streets of Boston to Newton and back without assistance. One of these mares is a sister of the famous trotter Jessie Wales, and the other a half-sister. For further particulars inquire at this office. Weight 1060 lbs. each and *good* in single harness and saddle.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success o the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. It does now finish the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

T. Tilton.

By the published call for this evening's meeting, "men of all parties and ladies are invited," to listen to one of the most brilliant young orators in behalf of the sinking cause. Theodore Tilton would interest any person, no matter on which side of any question he might choose to talk; and so we have no hesitancy in advising our Republican friends to attend. We should indeed feel sorry if all the eloquence of the evening should be wasted on an average Portsmouth Democratic audience; and the addition thereto of a half dozen Greeley Republicans would hardly bring it up to the standard of appreciation of the distinguished speaker's effort. That there may be no empty benches, that the "golden haired" advocate of the credulous Philosopher may not be dismayed or demoralized by the audience which might be drawn together by the call of Democratic bugles, we again urge that Republicans attend, and that sufficient encouragement be given to the "Liberals" to eliminate some of the enthusiasm which has so long lain dormant in their hearts.

There be many, we regret to say, who are not aware that Theodore's first choice for the Presidency was not Horace Greeley, but that Mrs. Victoria Woodhull Claflin Blood had the honor of receiving his support at an early period, and that in his enthusiasm Theodore wrote Victoria's biography and for a while was happy. The pungency of his paragraphs in the *Golden Age* may have for a time exercised a counterbalancing influence in our mind and led us to eagerly scan the columns of that brilliantly edited weekly for the gems of wit and polished sarcasm with which every line was wont to be embellished. But when Mr. T. abandoned the Woodhull for the Greeley, departed the favorite exchange from our table and the wonderfuls sayings from our sight. Unknowing the silent influences which Theodore felt, we have only as a matter of record his former position and so have no alternative but to judge him by his earlier utterances.

Prior to the issue of his "Biography" of Mrs. Demosthenes, that lady had indulged in various expressions of opinion which had startled the community. Said Victoria:—

Law cannot change what nature has already determined. Neither will love obey if law command. Law cannot compel two to love. It has nothing to do either *with* love or with its absence. Love is superior to all law, and so also is hate, indifference, disgust and all other human sentiments which are evoked in the relations of the sexes. It legitimately and logically follows, if *love* have *anything* to do with marriage, that *law* has *nothing* to do with it. And, on the contrary, if *law* have anything to do with marriage, that *love* has nothing to do with it. Two persons, a male and female, meet, and are drawn together by a *mutual* attraction—a *natural* feeling unconsciously arising within their natures of which *neither* has any control—which is denominated love. This is a matter that concerns *these two*, and *no* other living soul has *any human* right to say aye, yes or no, since it is a matter in which none except the two have any right to be involved, and from which it is the duty of these two to exclude every other person, since no one can love for another or determine why another loves. * * *

They are sexually united, which is to be united by God. This marriage is performed without special mental volition upon the part of either, although the intellect *may* approve what the affections determine; that is to say, they marry because they love, and they love, because they can neither *prevent* nor *assist* it. Suppose, after this marriage has continued an indefinite time, the *unity* between them departs, could they any more prevent it than they can prevent the love? It *came* without their bidding, may it not also *go* without their bidding? And if it go, does not the marriage cease, and should any third persons or parties, either as *individuals* or as *government*, attempt to compel the *continuance* of a unity wherein *none* of the elements of the union remain?

If our sisters who inhabit Greene Street and other filthy localities *choose* to remain in debauch, and if our brothers *choose* to visit them there, they are only exercising the *same* right that we exercise in remaining away, and we have no *more right* to abuse and condemn *them* for exercising their rights that way than they have to abuse and condemn us for exercising our rights our way.

I protest against this form of slavery I *protest* against the custom which compels the women to give the control of their maternal functions over to anybody. It should be *theirs* to determine *when*, and under what circumstances, the greatest of all constructive processes—the formation of an immortal soul—should be begun. It is a *fearful* responsibility with which women are intrusted by nature, and the very *last* thing that they should be compelled to do is to *perform* the office of that responsibility against their will, under improper conditions or by disgusting means.

Free love, then, is the law by which men and women of all grades and kinds are attracted to or repelled from each other, and does not describe the results accomplished by either; these results depend upon the condition and development of the individual subjects. It is the *natural* operation of the *affectional* motives of the sexes, unbiased by *any* enacted law or *standard* of public opinion. It is the opportunity which gives the opposites in sex the conditions in which the law of chemical affinities raised into the domain of the affections can have unrestricted sway, as it has in *all* departments of nature *except* in enforced relations among men and women.

Theodore showed his ardor and belief in Mrs. Woodhull and her doctrines by inditing the biography from which comes the following extracts:—

I shall swiftly sketch the life of Victoria Claflin Woodhull, whose ability is of a rare, and whose character of the rarest, type; whose personal sufferings are of themselves a whole drama of pathos; whose name (through the malice of some and the ignorance of others) has caught a shadow in strange contrast with the whiteness of her life; whose position as a representative of her sex in the gratest reform of modern times renders her an object of peculiar interest to her fellow-citizens; and whose character (*inasmuch as I know her well*) I can portray without color or tinge from any other partiality save that I hold her in uncommon respect. * * *

From her childhood till now (having reached her thirty-third year) her anticipation of the other world has been more vivid than her realization of this. She has entertained angels, and not unawares. These gracious guests have been her constant companions. They abide with her night and day. They dictate her life with daily revelation, and, like St. Paul, she is not disobedient to the heavenly vision.

One-third of human life is passed in sleep; and in her case, a goodly fragment of this third is spent in trance. Seldom a day goes by but she enters into this fairy-land, or rather into this spirit-realm. In pleasant weather, she has a habit of sitting on the roof of her stately mansion on Murray Hill, and there communing hour by hour with the spirits. Moreover, I may as well mention here as later, that every characteristic utterance which she gives to the world is dictated while under spirit-influence, and most often in a totally unconscious state. The words that fall from her lips are garnered by the swift pen of her husband, and published almost verbatim as she gets and gives them.

Further on, the discreet Theodore informs us that the master spirit who is responsible for her utterances is Demosthenes, that she went to Indianapolis as a medium, that her rooms were crowded, and her purse grew fat.

She reaped a golden harvest—including, as its worthiest part, golden opinions from all sorts of people. Her countenance would often glow as with a sacred light, and she became an object of religious awe to many wonder-stricken people whose inward lives she had revealed. Moreover, her unpretentious modesty, and her perpetual disclaimer of any merit or power of her own, and the entire crediting of this to spirit-influence, augmented the interest with which all spectators regarded the amiable prodigy. First at Indianapolis, and afterward at Terre Haute, she wrought some apparently miraculous cures. She straightened the feet of the lame; she opened the ears of the deaf; she detected the robbers of a bank; she brought to light hidden crimes; she solved physiological problems; she unveiled business secrets; she prophesied future events.

One day, during a severe illness of her son, she left him to visit her patients, and on her return was startled with the news that the boy had died two hours before. "No," she exclaimed, "I will not permit his death." And with frantic energy she stripped her bosom naked, caught up his lifeless form, pressed it to her own, and sitting thus, flesh to flesh, glided insensibly into a trance in which she remained seven hours: at the end of which time she awoke, a perspiration started from his clammy skin, and the child that had been thought dead was brought back again to life—and lives to this day in sad half-death. It is her belief that the spirit of Jesus Christ brooded over the lifeless form, and reawrought the miracles of Lazarus for a sorrowing woman's sake.

Not satisfied with Mr. Woodhull as a husband, she formed another marriage with Col. Blood, who had been like Victoria, "the legal partner of a morally sundered marriage." At his first visit "they were betrothed on the spot by the powers of the air."

The marriage stands on its merits, and is, to all who witness its harmony, known to be a sweet and accordant union of congenial souls. * * * *

For this piece of noble conduct—what *is commonly called* her living with two husbands under one roof—she has received not so much censure on earth as I think she will receive reward in heaven. No other passage of her life more signally illustrates the nobility of her moral judgments or the supernal courage with which she stands by her convictions. And I say she is right: and I will maintain this opinion against the combined Pecksniffs of the whole world.

This act and the malice of enemies, together with her bold opinions on social questions, have combined to give her reputation a stain. But no slander ever fell on any human soul with greater injustice. A more unsullied woman does not walk the earth. She carries in her very face the fair legend of a character kept pure by a sacred fire within. She is one of those aspiring devotees who tread the earth merely as a stepping-stone to heaven, and whose chief ambition is finally to present herself at the supreme tribunal, "spotless, and without wrinkle, or blemish, or any such thing." Knowing her as well as I do, I cannot hear an accusation against her without recalling Tennyson's line of King Arthur,

"Is thy white blamelessness accounted blame?"

Her political and social views are thus given by Theodore:—

In politics she is a downright Democrat, scorning to divide her fellow citizens into upper and lower classes, but ranking them all in one comprehensive equality of rigut, privilege and opportunity.

On social questions her theories are similar to those which have been taught by John Stuart Mill and Elizabeth Cady Stanton, and which are styled by some as free love doctrines, while others reject this appellation on account of its popular association with the idea of a promiscuous intimacy between the sexes—the essence of her system being that marriage is of the heart and not of the law, that when love ends, marriage should end with it, being dissolved by nature, and that no civil statute should outwardly bind two hearts which have been inwardly sundered.

We copy the foregoing extracts from the New York *Times*, presuming Mr. Tilton will not deny their accuracy. They go to show that his opinions are valuable, although it is said he endeavored to buy up the first edition of the "Biography" that was published, and that he has since confessed that he was wrong, while Greeley was right in denouncing him. It is said that being pressed with the subject by a questioner at a meeting in Portland, Mr. Tilton boldly admitted his error and very gallantly covered his confusion by asking his questioner why he opposed Greeley. The repartee deserves to be placed on record for future use by any sore pressed orator! Why Mr. Tilton deserted Mrs. Victoria, we are unable to state, but perhaps the "poet" illustrates his position by the following rhyme:—

When now I thinks on what I is,
And what I used to was,
I finds I throwed myself away,
Without sufficient cause.

To show further how his advice should be heeded, we append the following letter dated March 20, 1865, and addressed to President Lincoln:—

Dear Sir:—As I learn that Mr. J. F. Bailey of New York is an applicant for the fourth collectorship, I take pleasure in saying that I have long known him; not only generally but intimately, and that he is possessed of extraordinary abilities as an administrative officer, and is moreover an incorruptibly honest man. I have never met a young man in whose business capacity and integrity I more thoroughly believe, or more heartily admire. He is personally known to all the leading Republicans in New York, and is universally esteemed. I am sure his appointment would be hailed with satisfaction. Truly yours,

THEODORE TILTON.

At that time, he was on the same tack with his present Presidential candidate, for on Jan. 10th, of the same year, the following letter was written to the Secretary of the Treasury:—

Dear Sir:—Mr. J. F. Bailey, who has, for some two years, been special agent of the Treasury Department in this city, and has commended himself to general esteem by his intelligent and earnest devotion to the correction of abuses and the reduction of expenses. Whether his services shall hereafter be required in this or some other position, I feel sure that they will be found effective and his whole conduct trustworthy.

Yours, HORACE GREELEY.

Mr. J. F. Bailey was appointed to the position and absconded with a vast sum of money, and was at last accounts living in princely style at Montevideo.

We have given great space to the eloquent orator of the evening, knowing that to be properly appreciated he should be heard. The extracts we publish indicate the dependence to be placed on his recommendations, one of his former epigrams on Greeley being "First in peace; last in war; and least in the hearts of his countrymen"—an epigram, we may remark, more brilliant than polite. For an evening's entertainment, we commend Theodore Tilton to our Republican friends, ladies included, and hope a little enthusiasm will be shown. Will our friend Coffin preside?

Laconics.

They are talking about forming a veteran company in Portland. How about that veteran company here, Capt. Towle? They will be needed for escort duty next Fourth of July.

The fourth auditor of the Treasury is preparing to pay the navy employes the amount due them for the reduction of wages under the eight hour law. About 40,000 persons came in for allowance. The payments will begin at the different navy yards about October 1st or very soon after.

Parties are preparing to erect a large shoe manufactory in Dover. Several citizens in that city offer to give them outright all the land they need on the proposed Portsmouth and Dover Railroad.

First-Asst. Engineer Nathan P. Towne, U. S. N., and Lieut. Fred. P. Ela, U. S. M. C., are detached from this naval station and ordered to U. S. S. Hartford.

Tickets from Portsmouth to Dover and return, including a ticket of admission to the State Fair will be sold from Oct. 1st to 5th, inclusive, at $1.10 each.

The City Marshal arrested a suspicious looking fellow named John Smith, Tuesday evening, and took from him a quadrant and spy-glass. It was afterwards ascertained that a schooner at Rollins' wharf had been broken into and robbed of these instruments. Smith took advantage of a moment's absence of the Marshal to leave his comfortable quarters at the lock-up. In the dark, his whereabouts could not be ascertained, and the Marshal waited for day-light to help him. Taking the cars for Boston, Wednesday morning, he had the satisfaction of seeing Smith get aboard the train at Greenland, arrested him, took the down train at Seabrook and brought John to grief and the lock-up again.

The Grant & Wilson Guards will have a street drill, Tuesday evening at 1-2 past 7.

New Publications.

Harper's for October is a brilliant number. For illustrated articles we have the famous poem of The Buccaneer, by Richard Henry Dana the elder, first published in 1827; Down the Danube, by Junius Henri Browne, the first paper; the New York Harbor Police; and a sketch of Nathaniel Hawthorne. In addition to these, a new serial is begun in this number,—the New Magdalen, by Wilkie Collins,—and the third instalment of A. Simpleton, by Charles Reade, is given.

The Galaxy is bright and readable. There are several short stories, the conclusion of Mr. "Samuel Blotter's" Sanguinary Simpson and some additional chapters of Trollope's Eustace Diamonds. S. G. Young discourses of Foreign Modes of Living; and Mr. J. W. DeForest writes a chapter of history eight hundred years old, under the title of a Revival of the Papacy.

Old and New gives additional chapters of Ups and Downs, by Mr. Hale, and of Mr. MacDonald's story, The Vicar's Daughter. Among other notable articles in this number may be mentioned one by Rev. James Martineau on God in Humanity. Mr. J. W. DeForest treats of the Great Deluge, which, according to his theory, was not a great over flow of water but a political revolution, which is mythically described by the sacred chronicles as we have the account in the book of Genesis. This number also contains a story entitled Daisy Sergeant, which was one of the latest productions of the late Fred W. Loring. The opening article, Old and New, is as usual bright and witty, and the succeeding paper, entitled People and Parties, is a keen and convincing political article.

The *Transatlantic* for October has among its contents, "Lanzan," "Pearl and Emerald," from the *Cornhill Magazine*, "Betwixt Two Stools," "Lanzee Terrible," from *Macmillan's*, "Hyacinth," from *Temple Bar*, "Tot," from *London Society*, and "On Going To Bed," from *St. Paul's*. For sale at the book stores.

EPILEPSY OR FITS.

A SURE CURE for this distressing complaint is now made known in a Treatise of 48 octavo pages on Foreign and Native Herbal Preparations, published by Dr. O. PHELPS BROWN. The prescription was discovered by him in such a providential manner that he cannot conscientiously refuse to make it known, as it has cured everybody who has used it for Fits, never having failed in a single case. The ingredients may be obtained from any druggist. A copy sent free to all applicants by mail. Address DR. O. PHELPS BROWN, Grand St., Jersey City, N. J. sept24tw

For Coughs, Croup, Diphtheria, Asthma, &c.

USE BUCHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the choice of PREVENTION. Children exposed to Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning; when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

AYER'S PURGATIVE PILLS.

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness or Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood.

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skilled physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Cough, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, it the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The present should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

SOMETHING NEW!

LADIES' FRENCH KID & CLOTH BOOTS, with Calf Soles, best thing in the market, for sale by CHAS. E. SHEDD & CO.

$1000 REWARD.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, quenches the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUGHS. Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies do no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

CORNS, Bunions, Bad Nails, and other diseases of the feet, Scrofulous and Cancerous Humors, Piles, etc., skillfully treated at the great central Chiropodical and Healing Institute, No. 765 Broadway, New York, M. E. HERRICK, Proprietor; DR. ALEXANDER WEBBER, Secretary. ap9

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to fall off prematurely, and either effect is unsightly and unbecoming to behold. Dr. Ayer in consummate skill has produced an antidote for these deformities, which has won gratitude for him from millions of the aged, and youthful. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the glossy and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of Ayer's Hair Vigor, for renewing the hair. The head and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

The Chronicle.

All About Dogs

Would be a long story for a sheet the size of the CHRONICLE to tell in one issue, and therefore I will be brief in adding my tribute to an animal whose fidelity has no equal in man or beast. If I ever had a doubt as to the value of this trait, it was only as regarded the dog in attaching his faith to the human.

Every paper seems to have its "Dog Story" to contribute to canine literature, but in most cases the subjects have been the mountebanks or prodigies of their various breeds. The simple, enduring, every-day traits which have ever made the dog man's near companion, are the rule in all breeds; the pug, the cur, and the poodle possessing them in common with the breeds of higher blood. Despite scant fare, harsh usage, and long neglect, the dog rarely forgets or forsakes the master to whom he has once attached himself. I don't mean to bore you with a repetition of enumeration in the way of what has been so often written, and written in language much better than I can command.

The dog is social, and any soldier who has formed an integral part of a large army in motion can tell you of the fascination such a body of men have for the wandering pariah of canine society. When the troops under Sydney Johnston moved from Corinth to attack Grant at Pittsburg Landing, large numbers of dogs (as I have noticed elsewhere in similar cases,) attached themselves to the long lines of armed men that threaded the roads which lead some to possible victory, some to probable defeat, and many to actual death

In the battle, two dogs which attached themselves to our regiment seemed thoroughly to enjoy the noise and confusion of that terrible conflict; never straying from the organization, racing and barking with glee at the roar of the heavy guns and rattle of small arms, and following the broken and shattered line on its wearisome return to Corinth. Many in Portsmouth will remember the battered hulk of a small dog that returned with Capt. John H. Jackson from the Mexican War, but whose remains were doubtless already in the dust when Jackson assumed a colonelcy in the N. H. Regiment during the rebellion.

Darwin writes that "Puppies reared by cats have been known to lick their feet and wash their faces, after the manner of their foster-mothers." A few years since I owned "Andy," a pert black and tan, whose first morning occupation was the washing of his face in a manner precisely such as is employed by well-deported felines. (I don't know of his parentage, as he had belonged to O. A. Frost, mine host of the Atlantic, Wells Beach, and Jeff. C. Rowe, the hero of the Revere disaster.) This brings me to the statement of Mr. Darwin that "There can be no doubt that dogs feel shame as distinct from fear." "Andy" would slink away from any eye he found watching him while he washed his face, though reared in a public room of a hotel; seeming conscious his act of cleanliness was an attribute of a distinct specie. "Tiger," a large mastiff, who accidently lacerated my hand, while repelling the assaults of a smaller dog, paid no farther attention to the attacks of his adversary after he saw the blood dripping from the wounds, but with downcast head and dreaping tail followed me for days, until I made a serious business of persuading him that I knew he did not mean to hurt me.

All hens have chickens of the white kind, all parents have children of peculiarly wonderful characteristics, and all lovers of dogs have at some time owned one possessing most remarkable traits. Mine was the black-and-tan "Louisiana," symbolical of but not named for the government of that State in office during her early life. Never punished by me more severely than by placing a finger on the end of her nose, or a serious look, she was yet very sensitive to words of reproof mildly spoken; and "Lou. you shouldn't have done that," would send a most abashed canine of the feminine persuasion in confusion to a distant corner. "Sailor," a well-named country dog of my acquaintance, resident in the good old Democratic town of Newington more than a score of years since, had a penchant for climbing ladders, and would ascend those fixed perpendicular to the posts in the barn, but never could bring himself to descend the same. His melancholy howls from the top round often brought one of us to his relief, much to his embarrassment, which he expressed in a dogged way by placing himself in the same predicament at the earliest inconvenient movement.

"Colonel," multitudes of the people know "Colonel," and have expected to hear of his death for a dozen years or more,—is but an instance of the tenacity of memory shown by the dog. When only a puppy of six months, a member of the family which still retains this antiquated specimen, departed for "foreign parts." Twelve years later a bronzed and bearded sailor rolled into the yard where "Colonel" fancied himself guardian. Barking furiously he approached the wall of old Neptune; took a sniff, ceased his barking; took another sniff, jumped and fawned upon the stranger (who was yet unknown to his own blood;) and then sat down to give utterance to such a dolorous pean of welcome as made the Mariner wish he hadn't come home, and his sisters wish the dog had gone away before the prodigal returned.

"Louisiana" seemed never to forget anything. Her anxiety to properly care for all pertaining to her owner caused infinite perplexity to his relatives after he evacuated Strawberry Bank. Like many of the "Sons" he sent his weekly quota of soiled clothing to be made clean at his old home in Portsmouth. The receptacle for such was a tall, square, willow basket. Never disturbed by the dog at other times, no sooner had her master's clothes been deposited therein than Louisiana was in a ferment until she had upset the ponderous receptacle, opened the lid, and withdrawn the entire contents. Carefully making selection, she would deposit every article of his—never leaving even collar, cuff or handkerchief, and never taking the least article belonging to any one else—in a distant corner, curl herself thereon with an expression of content, and use no other resting place until the hard-hearted washerwoman reclaimed the linen for the laundry.

This dog also gave good expression of the vein of sentimentality existing in the species. Knowing her master's valise, she exhibited much delight on its arrival by express or otherwise, and an equal amount of dejection on seeing it packed for departure. If the owner accompanied it upon its leave she would look from the window commanding the longest view of the route he must take until he was out of sight, and cry—not vocally, but with good genuine tears, that streamed from the bright eyes down over the black muzzle—and for a day or two be insensible to the allurements of the most tempting bone.

Some dogs are born sportsmen, and the denizens of "Rock Pasture" long erst the Sagamore Mills profaned its befrogged precincts well remember "Old Bone," a hound that was ever ready to accompany a genuine sportsman on a tramp; and, lacking such, would "go a gunning" on his own responsibility, generally returning with some trophy of the chase. "Sailor" would hunt the *Mephitis Americana* day in and day out, sometimes remaining 72 hours at a single point, until axes and shovels removed the obstructions his teeth and paws were powerless to overcome. My dogs in Texas, too, were good rabbit hunters, but the trouble there was that they attacked the old adversary of woman and did not always come off best. A more vicious dog than our "Brindle" was rarely seen—one that never became a pet or even domesticated, although the finest watch dog I have ever known—but when he was badly bitten by a rattlesnake one day, in a victorious encounter, no attention seemed too much to lavish upon him. Twenty wounds on flank, and shoulder, and neck, were almost imperceptible at first, but as day followed day they sloughed away in perfect circles, until it seemed as if the hide had been cut in a wad-cutter for rifle of large calibre. The dog recovered, but from that day knew a venemous snake, and would only kill those which were harmless.

"Bone," (alluded to above,) like most hounds, when not on a hunt was

a good-tempered, stolid-looking dog, apparently fearing nothing and having no desire to make anything fear him. One day the "Rock Pasture boys" captured the confiding hound, and while one youthful Iscariot betrayed him into sitting still by patting his head and calling him pet names, the others tied one end of a stout cod-line to his tail, the other end being made fast to a huge tin affair called a tin-kitchen. Then the conspirators stood back, expecting to see Bone and the tin-kitchen go tearing down street in a cloud of dust, making a hideous din as they went; but alas! the old dog no sooner felt the string come taut than he stopped, unconcernedly turned around to see what was wrong, discovered the appendix with which he had been furnished, resented himself and chewed off the string, and then trotted off with his tail elevated in the air and a remnant of the string swaying about with each wag of it, like a pennant.

I fear I exceed my limits already, but will say more hereafter. M.

The Daily Chronicle,

Portsmouth, N. H.

FRIDAY, SEPTEMBER 27, 1872.

Ohio.

A dispatch from Cincinnati to the New York *Times*, dated Sept. 22d, says:

Horace Greeley left here yesterday afternoon, just in time to escape the painful spectacle of the grandest Republican demonstration, both as to numbers and enthusiasm, the city has ever seen. He had attracted crowds, brought by curiosity alone, but he had scarcely departed when the streets were filled with marching crowds of Republicans shouting lustily for Grant. For an hour Ward Grant Clubs were filing into Court Street, Market Space, and the adjacent streets, until all that neighborhood was densely packed with masses bearing torches, banners and transparencies, until not less than 10,000 men were wedged into Market Space alone. The most significant incident was the fact that a large portion of those present were Germans, and that German wards made as a large a display as ever before, thus putting an effectual stop to the slander that they had been carried off like sheep by Schurz and Hassaurek. But more cheering even than the vast numbers of the display was the intense enthusiasm manifested. For more than an hour the Republican jubilee was so great, and the cheers for Grant and Wilson and Hayes and Eggleston so continuous and lusty, as to drown even the stentorian tones of Gen. Logan and the bell-like voice of Gov. Hawley, both of whom tried in vain for a time to make themselves heard, while at the other stand Secretary Delano and Gen. Butler made their speeches to the reporters and a few hundred gathered immediately about the stand. It was such a demonstration as no Greeleyite had deemed possible, as no Republican had dared hope for, and was so entirely overwhelming as to wring from the *Commercial* to-day this admission:

"It had been contended by all the Liberals and Democrats of the county, and conceded by many Republicans, that it would be impossible to approach the Schurz demonstration either in numbers or spirit, particularly as no German speaker could be presented to attract through curiosity or devotion to the cause the masses from over the Rhine. This view of the case, candor compels us to say turned out erroneous, and we must say of the meeting last night, as we did of that of Tuesday night of last week, that it was an immense success, both as to the crowds of people drawn out and the enthusiasm manifested. Until last night the Schurz meeting was without compeer; then it was surpassed."

POOR DICK YATES.—The Chicago *Times* thus alludes to the man who was Governor of Illinois during the dark days of the war, who was the friend and adviser of Abraham Lincoln, who succeeded Stephen A. Douglas in the Senate of the United States and to whom the country owes a debt of gratitude for discovering the merits of Captain U. S. Grant and making him Colonel of an Illinois regiment, and Major Gen. of Illinois troops, thus starting him in the path which led to the White House. The *Times* says that now he "is but a mere wreck of his former self, and those who used to see him when the flames of eloquence lighted up his countenance, and when he was the peer of any speaker in the land, would hardly know him now, pale, haggard, slovenly in attire, and broken down physically and mentally. He is truly an object of sympathy, and a sad example of the evil effects of liquor." But only one example of thousands.

The weather throughout England is tempestuous, and some damage has been done to the shipping on the coast.

It has been snowing along the Union Pacific railroad from Cheyenne west ward.

In the joint session of the Oregon legislature a ballot was taken for Senator, which resulted as follows: Mitchell, 32; Slater, 11; Corbett 11; Prim, 8; Whitaker, 4; Nesmith, 4; Gates, 1. The Republicans voted mostly for Mitchell.

Political.

The Toledo *Blade* says that the Republicans who have gone over to the Democrats and support the Tammany candidate got mad because they couldn't get anything else.

The following is reported to be the history of Greeley's nomination: In 1870 an informal Republican caucus was held in Washington, when it was decided to run Grant again, and conciliate Greeley by giving him second place on the ticket with Grant. Colfax agreed to withdraw. This was at the time Colfax published his letter of declination. Greeley was present at this caucus and accepted the arrangement. In accordance with this plan Greeley went West and spoke at St. Louis, and in the spring of 1871 made his famous Southern trip to Texas. Returning from thence Greeley informed his friends that he thought himself strong enough to take the first place on the ticket, instead of the vice presidency and avowed his determination of running in 1872. This information is valuable, as showing that Greeley was to run on the same ticket with Grant, and meditated so running over a year before the Cincinnati convention. This announcement is made by the St. Louis *Democrat* (a Republican paper).

The Pennsylvania *State Journal* is sure of twenty thousand majority for Hartranft in October.

A very weak letter is published purporting to be written by C. P. Kimball, late Democratic candidate for Governor of Maine. He says;—"If the Grant party lose either Pennsylvania or Indiana in October, Greeley will be the next President sure." Now, Indiana gave 2500 Democratic majority at the last election. Will the redoubtable Kimball please inform the public how the Grant party can lose that State?

Capt. T. L. Cogley, of Laporte, a prominent Democrat of Northern Indiana, is making speeches for the Republican State ticket.

C. A. Sumner, of Massachusetts, has come out for Greeley. He is a son of Increase Sumner—no relation to Charles, who does not belong to the increase family.

Doolittle is not so bad after all. He could not endure the public gaze when his operation in cotton with his "friend Conatty," while Senator, became known. The Hon. James immediately made himself invisible by blowing out his torch and his gentle voice is heard no more in the land calling for "reform."—*Illinois State Journal.*

North Carolina Republicans are claiming at least eight thousand majority for Grant in the State in November, Merrimon having received many votes in August which will not be wasted on Greeley.

"E. C.," the well informed correspondent of the New York *Times*, writing from Indiana, says: "It is not premature to advise the country to expect a Republican triumph in Indiana, more splendid than the most sanguine dared to hope a short time ago."

THE TEMPERANCE REFORM. — The State convention of the temperance reform clubs of Maine, held at Portland Tuesday and Wednesday, may be regarded as the re-inauguration of the grand reform movement which was started last winter, and which did so much to advance the cause of temperance. It is the design of the leaders in this movement to push this movement through Maine during the autumn and winter, until every town shall have its temperance reform club.

It is impossible to measure the influence for good of such a movement as this. When it is borne in mind that nearly all the leaders in this movement were drinking men one year since; and that of the 12,000 members already enrolled, a large proportion were of that class,—we can gather some idea of the value of the work already accomplished, and its capacity for good in the future. We are sure that every good citizen, every friend of humanity, will not only give his sympathy, but also his personal assistance to this movement, which is doing so much for the material, moral and religious welfare of the State. The great need of the movement at present, is funds. Let us hope that these will be forthcoming, and that the reform will not delay for want of material aid. Even the State itself could well afford to appropriate the means necessary to carry on this work to a successful issue.

It is a peculiarity of this movement that it enlists men of every shade of politics and religion, and unites the efforts of every person who stands on the platform of total abstinence—the only platform on which permanent good can be accomplished. While it recognizes that laws prohibiting tippling shops have the same relation to the promotion of temperance, that laws prohibiting gambling-saloons and houses of ill-fame do to promotion of virtue, yet this movement properly regards the work to be done as that of greatest importance, and confines its attention exclusively to the promotion of the cause by such means as the pledge and the inculcation of the great truths which lie at the basis of reform. In such a movement as this every friend of humanity can but feel the deepest interest.—*Lewiston Journal.*

ANTI GREELEY DEMOCRATS.—A conference of Democrats opposed to Greeley, from all parts of the Union, was held at the Astor House, New York, Wednesday evening, for the purpose of taking action regarding the present campaign. Mr. Warral of Pennsylvania was chairman, with Mr. Wilson of Alabama as secretary. It was resolved to appoint a national committee of two members from each State to take such action as may be deemed best, pending the present canvass, and issue and distribute documents over the country. A committee of seventy-four was appointed, with Hon. John H. Gilmore of Virginia chairman, and H. C. Page of New York secretary. A committee was also appointed to draft an address to the independent Democracy in regard to the present campaign. Resolutions were adopted endorsing the nominations of Grant and Wilson. A large number of letters were read from Democrats favoring the movement, and endorsing Grant in preference to Greeley.

USE BUCHMAN'S FULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

THE LATEST SWINDLE.—Certain sanctimonious charlatans would fain persuade the world that diffusive stimulants have no medicinal value, and that destestable slops, composed of griping acids and drastic purgatives, are better tonics than the finest vegetable ingredients combined with the purest and mellowest products of the still. But this sort of thing won't go down. The stomach of our common sense rejects it, as the physical stomach of every man with an undepraved palate rejects, with loating and abhorrence, the nauseous abominations, "free from alcohol," which Humbugs are trying to thrust down the throats of Temperance Invalids under the pretense that the filth will do them good? It is not likely that while PLANTATION BITTERS, the Standard Tonic of America, is anywhere accessible, such sickening frauds can make headway, but it is as well to put the public on their guard against them.

THE THIEF who was arrested for robbing Parsons' store in this town, was found to have a quantity of Ayer's Hair Vigor in his possession. When asked why he wished to steal that article, he answered that he "wanted to restore his hair, for it was hard to be a thief and bald too." If that invention of the great chemist could restore a faded character as effectually as it does their natural beauty to bald and gray heads, it would surely be, as they say it now is, truly invaluable.—*Lewiston (Me.) Journal.*

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

TEETH IN RUINS are a sure drawback on personal appearance and personal comfort. Therefore keep them in good repair with that established antidote for all the diseases that assail them, fragrant SOZODONT.

SOUR STOMACH.—If the food taken into the stomach is not digested it decomposes In the latter case a pungent gas is developed which causes sour eructations or else the stomach itself secretes an acid, which rising upward at intervals stings the gullet sharply. These extremely disagreeable sensations are attributable to impaired digestion To get rid of them, or prevent their return, it is only necessary to tone and regulate the gastric organs with Hostetter's Bitters. It will not answer to postpone the good corrective with the idea that the unpleasant symptoms will disappear of themselves. So far from that being the case, they almost invariably culminate, if neglected, in chronic dyspepsia, with its concomitants of gnawing in the stomach, dizziness, perverted vision, headache, and sleeplessness. It is true that disagreeables may be obviated by a course of the Bitters; but how much wiser to anticipate their arrival with one or two doses of that sure preventive of indigestion and strengthener of the alimentary organs.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is simply a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

HOLLOWAY'S OINTMENT.—Sore leg and all ulcers, eruptions, and injuries of the flesh, heal kindly and swiftly under the operation of the Ointment, and the Pills by their gentle aperient action, assist the cure. Sold 78 Maiden Lane, N. Y. Price 25 cents per pot. Ask for new style; the old is counterfeited.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Research made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more *competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Grant and Wilson Club.

Believing the present to be an appropriate time for the organization of the friends of Grant and Wilson for the sake of making an effective and continuous canvass during the remaining six weeks of the political campaign, the subscribers earnestly call on the legal voters of Portsmouth favorable to the re-election of Gen. Grant to the Presidency to meet at the Republican headquarters on FRIDAY EVENING, Sept. 27th, for the purpose of forming a Grant and Wilson Club:

A Gratz Brown Hat.

A well dressed man who had evidently been struggling with the soft-shell-crab and had gotten seriously damaged in the encounter, was taking his devious way along one of our principal streets a day or two since, with a white "plug" hat on his head. This hat at length found another resting place, on the margin of a mud-puddle, and after gyrating around a few moments in an effort to capture it, the proprietor thereof sat down upon it. He managed to regain his feet, and after straightening himself and his hat as well as he could he stuck the hat on the back of his head and took a new departure up the street. A gentleman who had observed him, asked "if that was a Greeley hat?" instantly receiving in answer, "No; *'twas* Greeley hat, but it's—hic—Gratz Brown hat, now!" The questioner is of the opinion that however fierce the Portsmouth soft-shell crabs may be, they are not half so injurious to the wits of a man as the New Haven species.

Navy Yard Changes.

A Kittery correspondent of the Portland *Press* says:—

Capt. D. M. Fairfax, the Executive officer of the yard, and Commander J. C. P. DeKrafft, of the equipment department, whose terms of service expired on the fifteenth inst., leave behind them a host of friends. No men have ever left behind them a better record for fidelity to the Government, and equal justice to the employees. "Having no friends to reward, or enemies to punish," they have acted impartially in transacting the business of their departments. The highest meed of praise bestowed upon their administration would not be out of place in its application to them.

They carry with them the best wishes of their numerous friends for their future prosperity. The above commendation is equally applicable to Admiral Pennock, the commandant of the yard, who will be detached on the 9th of next month. Admiral Pennock is to take charge of the South Pacific Squadron, and Commander DeKrafft is to be on his staff. Capt. Fairfax is not yet assigned to duty. The officers who succeed them in command, are highly spoken of as to their ability and qualification for their several positions.

Sour Grapes.

From the constant flings of our neighbor, the editor of the Greeley organ, at office-holders, some people have got an idea that he is opposed to office-holders and office holding, "on principle." This is an error; he only contemns office-holding when he can't get an office to hold, and only dislikes the present office-holders because so long as they stop in he will have to stop out. When his party won a victory in this State, he hastened to stick his spoon in the "government pap," and was made assistant secretary of the Senate as a reward for his services (!) as secretary of the Democratic State committee. It wasn't a very hearty meal he got, certainly, for a man who had been famishing for a long time, but it was very good as far as it went; it tasted real good, and the thought that the present "corrupt and inefficient set of office-holders" prevents him from again drawing his chair up to the festal board whenever are spread the inviting and longingly-remembered "loaves and fishes," naturally excites his ire. That's all the trouble with him.

Road to Dover.

Messrs. Editors:—In some paper of a recent date, I saw an article suggesting that a Co. road be run from Dover to Portsmouth, and that the bridge to cross the river—the Portsmouth and Dover R. R. bridge—be constructed wide enough to accommodate the travel. We are at a loss to know why the cities of Portsmouth and Dover should take stock in such a road without having an eye to its location. The proposed route is very costly indeed compared with one surveyed on the Maine side of the river some years since.

The bridge at Dover Point, or at the old bridge crossing, will require a large amount of money to construct. By running on the Maine side of the river, and using Portsmouth bridge, a very large amount of money and time can be saved. The road can be put in running order months sooner on the Maine side than on the N. H. side of the river.

Our friends in Dover could then have a direct road constructed—at the expense of Maine for a large proportion of the distance—without a continual expense in keeping a bridge in repair. The road would receive a larger amount of freight, and a very much larger amount of passengers on the Maine side than on the proposed route. The cities can afford to wait the action of the Maine Legislature, in procuring a charter for the above named road, and can, if successful, complete the road sooner and for a far less amount of money than on the one where the bridge will use both a large amount of time and money. OBSERVER.

Laconics.

True W. Jones' stallion Southerner won three heats in four and a purse of $150 at Rochester, Sept.. 25th, in 2:54, 2:54, 2:56 1-2, 2:53.

Ship Emily Farnum, 1195 tons, built here in 1854, metalled last Spring, and well found, has been sold at $30,000.

Billy Forrester's wife, at Memphis, Tenn., publishes a card stating that they were married in this city in October, 1869.

James Stanley, who broke into a schooner and carried off a quadrant and spy-glass, has been held for trial in the sum of $300.

State News.

The annual conclave of the grand commandery of Knights Templar and appendant orders in the State of New Hampshire was held Friday at the asylum of Mount Horeb commandery in Concord. The following officers were elected and installed for the ensuing year: Abel Hutchins, Concord, R. E. grand commander; Joseph W. Fellows, Manchester, V. E. deputy grand commander; Solon A. Carter, Keene, E. grand generalissimo; John R. Holbrook, Portsmouth, E. grand captain-general; Thomas J. Sanborn, Concord, E. Grand prelate; Chauncey H. Greene, Littleton, E. Grand senior warden; Daniel R. Marshall, Nashua, E. grand recorder; Joseph W. Robinson, Claremont, E. grand standard-bearer; Samuel B. Page, Concord, E. grand sword-bearer; John N. Bruce, Manchester, E. grand Warden; Joel Taylor, Manchester, E. grand captain of the guards.

At Mason, Tuesday morning, Harrison Nutting, a farmer living in the westerly part of the town, shot his housekeeper, Mrs. Mary Keyser, on her refusing to marry him, and then went to the barn and shot himself; but neither of the four shots he fired to take his own life proved fatal. Mrs. Keyser was shot in the neck, but the ball glanced and came out. Nutting is about thirty-five years of age, and on account of some domestic difficulty has not lived with his wife for some time. Both parties were alive at last accounts.

The Boston and Maine railroad have decided to materially extend their terminal facilities at Dover, and work will be begun upon new buildings and track accommodations without delay.

The hotel proprietors at Dover are already overrun with applications for accommodations during the State fair, next week, and the various committees are hard at work completing the arrangements. The prospect now is that the fair will be one of the most successful ever held in the State.

A herd of forty six hundred head of cattle recently imported from Texas, was lately sold at Salt Lake City at profitable prices.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.

The Success o the Company is far beyond that of any other similar concern; the

Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tucksum or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

Morning Chronicle.

A BOOTLESS BARGAIN.—A fellow in Otisfield, Me., whose estimate of the dearly bought privilege of voting was rather mean, having announced that he was "in the market" for the party that would pay best, and the Liberals being sadly in need of voters in that precinct, a zealous wire-puller of that persuasion "went for" this high-minded young man, who accepted the offer of a pair of boots on condition that he would vote for Kimball, Frost & Co. So these worthies started for the polls in much haste, driving at a furious rate. As they approached the town house to within a few paces, Mr. Liberal leaped from his carriage and ran hastily into the house for the purpose of securing votes for himself and the individual he had bargained for, whom he left sitting in his wagon outside. As soon as his coat-tail disappeared inside the door, a naughty Republican who was watching the proceedings and smelt a large mice, addressed the noble suffrage-pawner abruptly, asking him how much he was to have for voting the "Liberal" ticket.

"A pair of boots," was the reply.

"Well, I'll give you five dollars to just get out of that wagon and go home; *now you git!*" and our naughty Republican afore-aid passed over a greenback, which was quickly snatched, tucked into a vest pocket, and giving a vigorous spring the receiver landed several feet from the carriage, and cleared the stone-wall at a bound, taking a bee-line across the field and through the bushes for his home, his speed seeming to be stimulated by the shouts and cheers of a group of his fellow citizens who witnessed the affair.

As he was just disappearing in the gray birches, his friend, Mr. Liberal, appeared in the door and was in the act of beckoning to his man to come and vote, when his countenance assumed quite an astonished expression. He looked this way, then that; his eyes wandered around in the attempt to find the missing bolter; he scanned the persons composing the hilarious crowd near the door; he went and peeped around the corners of the house, but in a state of most comical perplexity, was compelled to give up the hunt and conclude that the stalwart voter whom he had taken so much pains to bring to the polls had been mysteriously spirited away or had sunk into the earth.

A CO(W) MOTION.—Quite a little excitement was created yesterday from the fact that a drove of some nine or ten cows had climbed from Cumberland street on the narrow path that skirts the high embankment in the rear of T. O. Gould's house on New High street. They proceeded along in single file until the leader reached the end of the path when she stopped short and gazed with despair on the abyss filled with jagged rocks some twenty feet below. There was apparently no room to turn, and there she stood for some time until the rest of the herd, growing impatient, pressed against her rear. To this admonition she responded by a kick and in a few moments things were lively. But the majority carried the day and the poor animal was thrown down the precipice, and her calf after her. That feat accomplished the rear cow by great labor managed to back in her tracks until all were released from their unpleasant dilemma. The cow and calf that were thrown on the rocks appeared to be badly hurt but managed to limp away. Where was the agent of the society with a long name? He should have arrested those other cows for cruelty.—*Portland Advertiser.*

--Everybody is supposed to have heard of Ike Bromley, late editor of the Hartford *Post*. He is a scholar, a gentleman, a man of sense and wit, and something of a wag besides. After his return from California he wrote a lecture, chiefly on the wonders of Yo Semite valley. The paper was carefully prepared, and attracted uncommon attention wherever it was delivered. He read it before a large audience in a church in New Haven. The New Haven postmaster, a keen, sharp man, a wonderfully effective politician, and a warm friend of Bromley, was greatly edified by the production. Congratulating the lecturer upon his success as the crowd was dispersing the postmaster observed that there was one drawback—he only heard imperfectly. Bromley thought he spoke loud enough for the size of the church.

"Didn't you see me hold my hand up to my ear, thus?" suiting the action to the word.

"Thunder!" said Ike, "I thought it was your ear."

A Democratic friend illustrates to us his position by a story of an Indian who got very drunk and lost his way. Meeting a white man, the latter says:

"Why, Johnny, you are lost!"

The Indian was ready with a reply.

"No; Indian not lost. Indian here. Wigwam lost!"

For Coughs, Croup, Diphtheria, Asthma, &c.

USE BUCHMAN'S PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified, in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

Geo. C. Goodwin & Co.,

WHOLESALE AGENTS,

HANOVER STREET, BOSTON.

And at the N. E. P. UNION STORE, Market St.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could procure, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croup, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the choice of PREVENTIVE. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

AYER'S PURGATIVE PILLS.

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The present should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly Eruptions, Itching, Humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Alleviator absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUGHS, and Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no solid or potash, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, inflamed and Ulcerated Bunions, the soreest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Alleviator for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

AYER'S HAIR VIGOR,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; other of them disposes to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the glossy and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents or inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington, to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL Inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. The Chronicle.

"SOFT SHELL CRABS."—Bob B. is one of the best fellows in the world, although he imbibes pretty freely on festive occasions, and is the President of a Greeley Club. A few days ago Bob came to town to transact some business and attend a meeting of the Executive Committee of the Liberal Club, and of course stopped at the Tremont. Business was dispatched in short order, and Bob made an evening with a few other choice spirits. He took his favorite beverage, "Anything to beat Grant," with great regularity and promptness, and about 10 o'clock his friends thought the peace of the city would be promoted by his returning. To this end they escorted him as far as Wabash avenue and Jackson street, and saw him safely started upon a good reliable sidewalk, and then left him to his own dreams. It is necessary to premise that this sidewalk is twenty-five feet wide, and has on one side of it, for a hitching post, a figure of a little negro made of cast iron, and painted to represent life. Bob ambled around, in a circuitous route, and directly brought up in front of the little nigger. Bob patted him tenderly on the head and said:

"Out late, sonny, ain't you? Well, run on now, and don't get in a gentleman's way."

Dismissing him thus tenderly, Bob let out again.

It may be necessary to state that the sidewalk is twenty-five feet wide, and affords considerable leeway to individuals half-seas over. At all events Bob hauled up again in front of the diminutive African. Said he:

"Sonny, this sidewalk's not very wide, and there's a good deal of building material lying around loose. You see yourself it ain't wide enough for two. Now run ahead, won't you. Here's a nickel for you, if I can find it."

Again Bob started on his way. Philosophers say that men, when confused or lost, always have a tendency to veer off to their right, and thus travel in a circle. Be this as it may, it will be taken for granted that Bob was confused, for two minutes more saw him standing by the side of that self-same darkey.

If it will help the reader's comprehension of the case any, it may be stated here that that pavement is twenty-five feet wide, if it is an inch. Said Bob:

"Bub, don't you think this thing is getting rather thin—kind of gauzey, or perhaps tissue-ey? Come, now, I don't see any need of your being mulish about a trifle like this; if you can't keep ahead of me, why in thunder don't you get behind?"

With this kind advice Bob took up his line of march anew, and as accurate measurement will demonstrate the space between the door and the curb-stone to be twenty-five feet if anything, he had ample room to perform his evolutions, and came round this time in masterly style—broadside on. That inevitable and irrepressible darkey still blocked the way. Quoth Bob, with rising anger—

"You——little son of Canaan, what do you mean by such conduct as those? Move on sir, and save trouble. Don't you know how to behave, you pesky little feller, since the Thirteenth Amendment has gone into operation? Move on, I tell you, or I'll give you a taste of the toe of my boot. You don't know how I can kick. I once had a kicking match with a mule, and I beat him so badly that he went off and died with pure disgust with himself. Fact! Won't you go ahead, or shall I have to hoist you over Aiken's Theater? I give you fair warning, so it's your own fault if you get your crupper knocked off. Don't wait 'nother minute or you'll get it. Won't, eh! Well, take it, then!"

The next instant a policeman was roused from his slumbers against a neighboring lamp-post by a shriek of more than mortal agony, and beheld Bob writhing in pain over that twenty-five feet sidewalk. Bob now wears a list-slipper and a crutch. He tells his sympathizing friends how, when passing the new Pacific Hotel, a stone dropped from one of those death dealing derricks, and ends the thrilling recital with "Wonderful escape, wasn't it, by Jove?"—*Cincinnati Chronicle.*

—A party of nine gentleman, of South Windham, who wished to attend the town meeting here, Monday, took a very novel and ingenious way of accomplishing their object. They were intending to come up on the Providence freight train, but the station agent told them that he had no freight to send; the train would not stop for passengers. Seeing their dilemma, two of them procured a large sized stone and demanded of the agent that it be sent to Willimantic. The agent billed the rock, the train was flagged, and the passengers and freight came safely to Willimantic. —*Willimantic Journal.*

—A New York paper says that the streets are now in a much cleaner condition than a few weeks ago, and that by holding a handkerchief to one's nose it is possible to pass through several of the principal thoroughfares.

—A rash carpet-bagger, addressing a colored audience in South Carolina recently remarked, "My friends and fellow-citizens, my skin is white, but my heart is as black as this audience!"

The Daily Chronicle,

SATURDAY, SEPTEMBER 28, 1872

The News.

The first colored cadet at the naval academy, James H. Conyers, of South Carolina, arrived at Annapolis on Saturday.

Augustus J. Keeling (colored) was arrested in Halifax on Sunday night for the murder of his wife in Boston. The chief of police has sent an officer with the necessary papers for the extradition of the prisoner.

Billy Forrester is on his way to his old prison quarters in Illinois.

By a fire in Boston, Thursday night, nearly a half million pounds of wool, owned by John McInnes & Co., on Congress Street, were destroyed. The loss will not fall far short of $120,000.

John McKeon, senior counsel for Stokes, says that he sees no reason for a change of *venue*. The new trial will take place next month, but McKeon fears he will be unable to conduct it on account of his health.

The official statement shows a decrease in county expenditures of New York for the year ending September 1, compared with the previous year, of nearly $2,000,000.

At base ball in Philadelphia the Mutuals defeated the Athletics, 14 to 13.

The bureau of statistics has just published its fourth annual list of American vessels, which shows an increase of over twenty-nine hundred craft of all classes during the fiscal year, ending last June. Only the name, port, tonnage and signal number of the vessel are given, making a volume of over 500 pages.

At base-ball in Baltimore the Athletics defeated the Baltimores by a score of 11 to 6.

Rev. Peter Cartwright, the famous Methodist preacher, died in Chicago on Wednesday.

By the burning of the Newburg, Ohio, insane asylum, six persons were killed.

Barque Newcastle, Capt. Wilkins, from Liverpool for Savannah, has been wrecked. Thirty lives were lost.

Mr. George Alfred Townsend, of the Chicago *Tribune*, who cast the six votes of the State of Delaware in the Cincinnati convention, except once, when he went out to an adjoining restaurant to consult, who has attended all the political conventions and traveled through one half the States of the Union during the last couple of months, gives it up for Greeley. "S. M.," the Washington correspondent of the Philadelphia *Star*, sends a racy interview a reporter of that paper had with Mr. Townsend, in which he is made to say:

"I am puzzled about New York. I am convinced that there are more Greeley Republicans in that State than in any other, but the Democracy are wofully split up. The Grant managers seem to be totally outwitting the Greeley people. Thurlow Weed, Tom Murphy, Pat. Jones and Wm. Orton are the best wire-pullers in the world, and I am afraid of them. Our people seem to have no head. We have a little Jackanapes, named Allen, a friend of Whitlaw Reid, at the head of one national committee, and a cold-blooded aristocrat, Augustus Schell, at the head of the other, with that crazy old drybob, John Cochrane, the chairman of the State committee. Schell is mad because he wasn't nominated for Governor, and won't give any money. Cochrane and Allen have no money. What little they collected lately in the campaign they spent for Greeley hats and Greeley fans. They think Greeley can be sung and fanned into the White House. I tell you I am afraid of New York."

Strauss and Waltzes.—We are told by a well-informed musical man that since Strauss conducted the performance of his inimitable waltzes at the great jubilee, quite a revolution has gradually taken place in the playing of waltz music,—that musicians rely more on an observance of light and shade to give life and spirit to the music, and much less on hurrying over the notes at railroad speed, than formerly. The Manchester *Journal of Music*—a publication, by the way, deserving an abundant support from the musical people of this State and section—says on this subject:

Since seeing Strauss, some of our musical people have become convinced that Americans play waltzes too fast; yes, at a *tempo* that has left light and shade out of the question. We are glad of this, and hope our pianists will hereafter play waltz music with a gliding grace, and not as if they were dizzy whirlings of a madman.

—The body of a man was found floating on the Sound, Monday. There was nothing about his person to indicate his name or how he would have voted in November.—*Danbury News.*

Political.

Hon. Alexander Meggett, a life-long and leading Democrat of Wisconsin, and two years ago his party's candidate for Congress in the Sixth District of that State, has addressed a letter to Hon. E. W. Keyes, in which he forcibly presents some of his reasons, from a Democratic standpoint, for refusing to vote for Mr. Greeley and for supporting President Grant. He also consents to fill appointments to speak for Grant and Wilson in October.

Notwithstanding the opposition of many of the Republican journals of Pennsylvania, the Union League of Philadelphia have voted to support Hartranft for governor.

Georgia holds a State election on Wednesday next. By a special act of the legislature, passed in August last, a governor, legislature, and nine Congressmen are to be chosen. The State will, of course, give a Democratic majority. At the last election in December, 1871, to fill Bullock's unexpired term, the Republicans made no contest. In 1868, Seymour had a majority of 45,688. There is a great deal of disaffection among the Democrats over the nomination of Mr. Greeley, but it is not likely to show itself before November.

Five of the congressional districts in Kentucky have put in nomination old-line Democrats against the coalition candidates.

In the New York *Tribune* of November 29, 1870, less than two years ago, Horace Greeley said: "The Cincinnati *Commercial* will be good enough to inform its readers that there is no office in the universe that would be any inducement to Horace Greeley to forego or postpone his advocacy of protection to home industry."

Senator Wilson is announced for eleven speeches in Pennsylvania.

Greeley has a special Pulman palace car to haul his little chasm in. When Grant travels in a Pulman car the liberties of the country are in danger and despotism is at our door. — *Missouri Democrat.*

Hon. Glenni W. Scofield, candidate for Congressman-at-large in Pennsylvania, who has made a thorough canvass of that State, writes that Hartranft is certain to be elected.

The New Orleans Italians have a Christopher Columbus Greeley Club.

When last heard from, says the Missouri *Democrat*, the "tidal wave" in Maine was 18,182. That is the Republican majority on Congressmen. "Anything to beat Blaine." If the Greeleyites are not very careful they will make Blaine President in 1876.

The veteran soldiers and sailors of Bridgeport, (Ct.) have organized a Grant and Wilson club under the name of "The Unconditionals," and have promulgated the following general order:

Art. 1 The name of this corps shall be the "Unconditionals."

Art. 2. Our terms are unconditional surrender.

Art. 3. "We propose to move immediately upon the enemy's works."

Art. 4. "We shall fight it out on this if it takes all summer."

Art. 5. "Let's have peace."

Art. 6. "Guide Left."

"Show me a Democratic district," said Mr. Greeley once, "and I will show you a district where there are ten gallons of whisky for every spelling-book."

Judge Woodson, the confederate candidate for governor of Missouri, declines the challenge of ex-Senator Henderson, the Republican candidate, to a joint canvass of the State, on the ground of ill-health and previous engagements.

One of the latest campaign stories comes from the recent Adventist camp-meeting. During a sermon one of the preachers announced that the world would come to an end in October. "Amen!" ejaculated an ardent Democrat in the audience. The preacher repeated the prediction and again the fervent "Amen" was heard. One of the brethren was impressed by the zeal of the supposed new convert, and at the close of the meeting approached him and asked him if he felt resigned to the decree. "Yes," was the response, "it will beat Grant, and I won't have to vote for Greeley."

Mr. Greeley told the people of Indianapolis that he believed they could not be bought, and he knew they could not be bullied. Then, why stay there? For isn't it already settled that everybody who does not vote for Greeley is either bought or bullied?

The anti-Greeley Democrats of Delaware exhibit so much strength that the Wilmington *Commercial* thinks the vote of the State will be for Grant.

After having devoted a score of its most prominent editorial columns to accusations of fraud against General Grant in connection with the purchase of land in Chicago, the *Tribune* on Saturday gave two or three lines of small type in one corner of the paper to a retraction.

It is the universal verdict of the Democracy that they would be stronger to-day with Hoffman or Hendricks or Pendleton as their candidate for President than they are with Greeley. They must bear the odium of having nominated a Republican without receiving any equivalent therefore.

The New York *Commercial Advertiser* says: "The Chicago *Times* prates about the 'unpurchasable Democracy of the Keystone State.' This is richness! Why a man never knows how far a fifty-cent stamp will go till he tries to buy up Pennsylvania Democrats."

That was not a bad retort of the anti-Greeley Democrat, who declared that the idea of his party aspiring to the control of the government, after having been conquered by the Republicans, was not a whit more preposterous than if Gen. Lee, after surrendering to Grant, in April, 1865, had quietly asked to be placed at the head of the Union forces!

The Prairie du Chien (Wis.) *Courier*, which hoists the names of O'Conor and Adams, says: The Democrats of Western Wisconsin and Northern Iowa are fairly wild with enthusiasm for Charles O'Conor. There is not a true Democrat in the Northwest but will cast his vote for O'Conor and Adams.

The claims of the Greeley men to Senator Hill of Georgia are denied on the best authority. The senator himself writes that he is unqualifiedly for the Republican ticket, though prevented by circumstances from taking active part in the campaign.

A few days ago Frank Blair, in a speech at St. Louis, reported by the Greeley organ of Missouri, said: "The speaker, in common with the entire Democratic party, resisted the endowment of the colored people with the suffrage. We do not believe, nor does any honest man believe, that they were capable of exercising honestly the ballot."

The Congressional Republican committee have prepared, and will print soon a statement relative to Mr. Hassaurek, editor of the Cincinati Volks-Blatt, and his attempt to obtain $15,000 from the Republican party for proffered services as a speaker in behalf of Grant and Wilson. The offer, which was pressed with great vigor by those who had the matter in charge, included the advocacy of the ticket by the Volks-Blatt, and an extra circulation of the paper. The Greeley men claim that Hassaurek is making a marked impression in Indiana, but advices are different.

Hon. Geo. F. Hoar has been unanimously nominated for Congressman by the Republicans of the 9th Massachusetts district.

Hon. Willis B. Machen has been appointed U. S. Senator from Kentucky.

Michaelmas.

Sunday, Sept. 29, is observed in the Episcopal church as the "festival of St. Michael and All Angels"—in England commonly called Michaelmas. The design of this service, (which but once in many years falls on a Sunday,) is to remind us of the relations of Angels to the church, as being concerned in our Redemption; as being with us members of the same family of God; as being guardians of our souls, and ministers to our bodies, in life and in the hour of death.

"Angels and living saints and dead,
But one Communion make."

The services in St. John's Church will be appropriate to the occasion, both in the morning at quarter past 10 and in the afternoon at 5 o'clock.

DEATHS.

In this city, at 4 o'clock on the afternoon of Sept. 26th, Mrs. Mary Jane Harvey, wife of Mr. John S. Harvey, aged 64 years.

The Latest Swindle.—Certain sanctimonious charlatans would fain persuade the world that diffusive stimulants have no medicinal value, and that destructive slops, composed of griping acids and drastic purgatives, are better tonics than the finest vegetable ingredients combined with the purest and mellowest products of the still. But this sort of thing won't go down. The stomach of our common sense rejects it, as the physical stomach of every man with an undepraved palate rejects, with loating and abhorrence, the nauseous abominations, "free from alcohol," which Humbugs are trying to thrust down the throats of Temperance Invalids under the pretense that the filth will do them good! It is not likely that while Plantation Bitters, the Standard Tonic of America, is anywhere accessible, such sickening frauds can make headway, but it is as well to put the public on their guard against them.

The Thief who was arrested for robbing Parsons' store in this town, was found to have a quantity of Ayer's Hair Vigor in his possession. When asked why he wished to steal that article, he answered that he "wanted to restore his hair, for it was hard to be a thief and bald too." If that invention of the great chemist could restore a faded character as effectually as it does their natural beauty to bald and grey heads, it would surely be, as they say it now is, truly invaluable.—*Lewiston (Me.) Journal.*

Teeth in Ruins are a sore drawback on personal appearance and personal comfort. Therefore keep them in good repair with that established antidote for all the diseases that assail them, fragrant Sozodont.

Sour Stomach.—If the food taken into the stomach is not digested it decomposes. In the latter case a pungent gas is developed which causes sour eructations or else the stomach itself secretes an acid, which rising upward at intervals stings the gullet sharply. These extremely disagreeable sensations are attributable to impaired digestion. To get rid of them, or prevent their recurrence, it is only necessary to tone and regulate the gastric organs with Hostetter's Bitters. It will not answer to postpone the great corrective with the idea that the unpleasant symptoms will disappear of themselves. So far from that being the case, they almost invariably culminate, if neglected, in chronic dyspepsia, with its concomitants of gnawing in the stomach, dizziness, perverted vision, headache, and sleeplessness. It is true that all disagreeables may be obviated by a course of the Bitters; but how much wiser to anticipate their arrival with one or two doses of that sure preventive of indigestion and strengthener of the alimentary organs.

Castoria.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. Corns.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

LOCAL AFFAIRS.

Mr. Tilton

On Thursday evening delivered one of the most brilliant yet superficial addresses we ever heard, to the most respectable audience ever gathered at a Democratic meeting in this city, — at least one-half the very large audience present being staunch Republicans before Mr. Tilton appeared and equally staunch Republicans now. He was listened to with attention by all,—the usual crowd of noisy boys having been kept out by the police,—and even those who could easily discern the sophistry of his special pleading could but admire his brilliant word-painting and his graceful language; his brilliant eulogy of the achievements of the Republican party and his anathemas of the record of the Democratic party, were doubtless agreeable to all his hearers, particularly to the Democratic vice-presidents of the meeting and the old-liners in the audience. After a few preliminary remarks having no bearing upon political matters, and announcing himself a Republican of the most radical type, he proceeded to assail the Republican party, using the Philadelphia platform as a bill of indictment, and assuming and attempting to prove that by it the Republican party is self-condemned.

First he attacked the plank opposing further land grants to corporations, and argued that it is a confession that past land grants were wrong. He did not mention that the largest land grant ever made was engineered through the House of Representatives by a leading Democrat, Eldredge of Wisconsin, backed by *the* Democratic leader, Beck of Kentucky; that the same men worked hard to secure several million acres for a railroad, from Congress at its last session, that many of their Democratic associates voted for the scheme, and that it was defeated by the Republican majority, as was every other land-grab attempted,—and that the Philadelphia platform but endorsed the action of that Republican majority. His attempt to torture it into a confession of past misdeeds was more creditable to his cunning than to his honesty, for it simply announces that the Republican party opposes land grants in the future, —the necessity for making them no longer existing,—without denouncing or commending those made in the past. The disbanding of the Union armies at the close of the rebellion was precisely such a confession that those armies should never have been called together, as the opposition of the Republican party to further land grants is a confession that past ones were wrong.

He attacked the statements concerning the payment of the national debt, and the collection of the national revenue. He said that the first thing a Republican would say, when questioned concerning what Grant has done, would probably be "he has paid off a large part of the national debt;" and within one minute thereafter he said no Republican would pretend that the President has paid the debt, as it is Congress alone that can make laws looking to that end; he further said that no man in the country has done so much to build up and increase the debt as President Grant—*how* he has done it he did not pretend to explain, and we cannot understand how Grant can be any more responsible for the nation's incurring the debt than for its payment, on Mr. Tilton's own showing.

He gave one illustration of "how Grant collected the revenue," by saying that in Brooklyn, where he (Mr. Tilton) resides, the smoke of vast numbers of illicit stills fills the air, and that not a cent of duty is paid the government on all the "hell-broth" they brew; but he did *not* say that every one of those illicit stills is run by a Greeley Democrat, and situated in Democratic wards which are "wild with enthusiasm" for Greeley, and into which wards the officers of the revenue can only penetrate under guard of large bodies of soldiery, and even then at peril of their lives,—but all this he might have said with truth, and it is folly to suppose him ignorant of such facts.

He said the plank affirming the rightful subordination of the military to the civil power is a confession that the civil power has in the past been wrongfully subordinated to the military power—referring, unquestionably, to the Ku-Klax enforcement act; and he brilliantly declaimed about the infamy of "bayonet laws" to influence elections, of the despot's sword and the iron heel. Whether or not Mr. Tilton always felt as he does now on those subjects, it is certain the man he is stumping for is but a recent convert to that way of thinking; for no man in the Union wrote more ably and persistently in advocacy of laws to protect the Union men—black and white—of the South, and none called more loudly or more earnestly for "bayonets," if need be, to protect the purity of the ballot in general and in New York in particular, than Horace Greeley before he became the Presidential candidate of the southern Ku-Klux and the Tammany ballot-box stuffers. Then, Mr. Greeley did not want their votes; now he does.

Mr. Tilton read from government reports a statement of the increase in the public debts of various Southern States, (amounting to $150,000,000, we believe he said,) and asked where all that money had gone; he also asked if it had been spent for internal improvements—railroads, etc,—in a tone which implied, as it was doubtless meant to imply, that all but a very small percentage of it had been stolen. No one doubts that large sums have been stolen by the "carpet-bag governments," but it is equally certain that much larger sums have been expended legitimately in repairing the ravages of the war; and for the stealing part of the performance the entire subversion of society consequent on the destruction of slavery is largely responsible. Mr. Tilton did not think to remark, while denouncing the corruption which has so increased the debt of Louisiana, that Gov. Warmoth, the "carpet-bag governor" of that State and the leader and one of the chief beneficiaries of the corruptionists' work, is also the leading Greeleyite in that State and led a delegation "one hundred strong" to Cincinnati to nominate Greeley, nor did he impress upon his hearers that Alabama has not been under "carpet-bag rule" for years, nor that Geqrgia gave Seymour more than 45,000 majority in 1868 and has been overwhelmingly Democratic ever since. He did not explain how Grant has been responsible for corruption in the South any more than for building up the national debt, leaving us to infer that whatever goes wrong is Grant's fault, and whatever goes right somebody else should have the credit for. His attempt to make political capital out of the Alabama claims—by a false statement—he is welcome to; but we should really like to have him explain what he meant by saying "if Grant is elected, the carpet-bag governments will stand; if Greeley is elected, the carpet-bag governments will fall." Bayonets, eh?

Mr Tilton said that two months ago the "Liberal" movement was sneered at as a "bolt;" now it has arrived at the proportions of a "thunderbolt",—doubtless the same one which smashed things so in Vermont and Maine. He said "the people" nominated Mr. Greeley at Cincinnati, not the politicians,—which shows that the term "politicians" has been wrongfully applied to Frank Blair, Reuben E. Fenton, Gratz Brown, Warmoth of Louisiana and "Rocky" Moore of New York, and that the sharp but unscrupulous trick by which Mr. Tilton boasted, in the *Golden Age* that he and three other editors defeated Judge Davis for the nomination which Blair, Fenton & Co. secured for Greeley, was not a political trick at all. In magniloquent style and fine language Mr. Tilton announced that "the people" were represented at Cincinnati,—as they were, "the people" of a whole State being "represented" by one man and he not a resident of it. "New Hampshire was represented at Cincinnati," said Mr. Tilton; but he neglected to add, "by three men, one of whom at least is as notorious and unblushing a political trader as there is in the State—Wm. H. Gove, who served in the Republican party as long as he could get office, then joined the Labor Reformers and sold them out to the Democrats for office, and finally became a 'reformer' because he could hope for nothing more from any party."

Mr. Tilton re-hashed and reaffirmed the various charges against President Grant which have repeatedly been proved to be false; said the Republican party will not last a thousand years, (who cares if it does? we shan't last half that time;) spoke feelingly of the "embrace of Holiness and Peace"—meaning probably Theodore Tilton and Horace Greeley; said "when Mr. Greeley is elected his Cabinet will be composed of the best and purest statesmen in the land"—doubtless including Mr. Tilton; endorsed the glorious honesty of Mr. Greeley as stoutly as he once did that of the "incorruptibly honest man," Joshua F. Bailey; eulogised Mr. Greeley's virtues as warmly as he once did the "blameless purity" of the Woodhull in "living with two husbands under one roof;" tacitly acknowledged the truth of the charge that "Mr. Greeley is surrounded by bad men," in defending him, by saying "a man should not be judged by the company he *keeps*, but by the company he *selects*," and asserting that the companions of Mr. Greeley's *choosing* are not bad; argued that the Democratic record is bad and the Republican record good; that the Republican party is wholly corrupt, and the Democratic party, having joined the Republican party, is wholly virtuous and altogether lovely; and speaking for himself and his "Liberal" friends, said, we shall never elect Grant again, —so the Republican party will have to elect him, according to the original programme; he saddled a speech upon Senator Morton which that gentleman never made, and charged the Republican party with being responsible for the destruction of American commerce! We left just as the orator introduced the Archangel Michael, and did not find out what he was introduced for.

Altogether, we do not doubt but that Mr. Tilton made as good a showing for the coalition and its candidate as a brilliant speaker, very much in earnest and not too particular about truth and justice, could do; but though his language and manner of delivering it were both admirable, yet the wondrous lack of depth in his speech and the flimsy sophistry of nine-tenths of his attempts at argument, convinced us that either Demosthenes has deserted the Tilton in revenge for the Tilton's desertion of the Woodhull, or else even the great Athenian cannot dictate a strong argument without something to argue from. The meeting throughout was the most attentive and least enthusiastic political gathering we ever attended.

Laconics.

The meeting for organizing a Grant and Wilson club, Friday evening, adjourned to Monday evening at half past 7 o'clock.

Tickets can be obtained at stations on the Portland, Saco & Portsmouth, Great Falls & Conway division of the Eastern Railroad at one-half the regular rates, with a coupon attached, admitting to the State Fair, at 35 cents additional, on Oct. 1st, 2d, 3d and 4th.

The conglomerate on the Temple stage, Thursday evening, did not know when to applaud Tilton's points; and 'twas fun to see the brogans in suspension, held half-calf high waiting for the cue to stamp.

The second lecture in the Washingtonian course will be delivered in the Temple to-morrow (Sunday) evening, commencing at quarter before 8 o'clock. Francis Murphy, Esq., of Portland, who is the speaker on this occasion, is thus spoken of by *Zion's Herald:*

The most effective address was that of Francis Murphy, the converted rum-seller of Portland. Every temperance address that this wonderful man makes is a glorious tribute to the wonderful saving power of the grace of God.

The editor of the Greeley organ—which he was assistant-secretary of the State senate and hopes to be again—fails to see why we published Mrs. Woodhull's "vile trash," seeing that Mr. Tilton repudiates her and her doctrines and Mr. Greeley rebuked him for giving her any encouragement. We will enlighten him: our object was to show the exact value of Mr. Tilton's endorsement of any person's "virtue"—and our publication of Mr. Tilton's letter vouching for Joshua F. Bailey,—"he is an incorruptibly honest man,"—was to show what his idea of an "honest man" is.

In consequence of the absence of Rev. Mr. Martyn, the usual morning service of the North Church will be omitted to-morrow.

Several of the gentlemen whose names are appended to a call for the organization of a Grant and Wilson club that appears in the *Chronicle*, declare that they did not sign it or in any manner authorize their names to be used.—*Evening Lyre.*

We should like to be informed who the gentlemen are. We have the names in black and white, as handed us. Tell us of one man in the list whose signature has been forged, Billy, or admit that you are a liar.

They visited the principal battle fields of Virginia and speak in glowing terms of the reception and courtesies tendered by brethen of the Order.

Three men confined in the jail at Dover captured the jailer on the evening of Sept. 24, as he was bringing in their supper, and having securely confined him, took French leave and have not since been heard from.

Morning Chronicle.

SMALL-POX is making frightful ravages on the western South American coast. The character of the disease is said to be much more pernicious than the ordinary type, and is terribly fatal. In one hospital in Santiago fifty-six out of fifty-eight patients died, and the death rate in the hospitals at the various seaport towns is said to be nearly as high. The reason for this extraordinary fatality is said to be the gross negligence of the Spanish and native authorities in regard to sanitary affairs.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. It does twenty-thirty-fifty sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

USE BUCHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified, in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

Geo. C. Goodwin & Co.,

WHOLESALE AGENTS,

And at the N. E. P. UNION STORE, Market St.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultimate choice of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle cathartic, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the ounce of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best means to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human racelies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stages at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

AYER'S PURGATIVE PILLS.

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

VEGETINE
The Great Blood Purifier.
A valuable Indian compound, for restoring the health, and for the permanent cure of all diseases arising from impurities of the blood, such as
Scrofula Scrofulous Humors, Cancers, Cancerous Humor Erysipelas, Canker, Salt Rheum, Pimples and Humors on the Face, Ulcers Coughs, Catarrh, Bronchitis, Neuralgia, Pains in the Side, Rheumatism, Dyspepsia, Constipation Costiveness, Dizziness Piles, Headache, Nervousness, Faintness at the Stomach Pains in the Back, Kidney Complaints
Female Weakness, and General Debility.
This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood, it has no equal. It never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon these complaints are surprising to all. Many have been cured by the VEGETINE that have tried many other remedies. It can well be called

AYER'S
CHERRYPECTORAL
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.
The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

$1000 REWARD.
BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lapelina, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Alleviator absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.
COUCHS, Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.
CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and certain, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Alleviator for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.
PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.
For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREPEHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

CORNS, Bunions, Bad Nails, and other diseases of the feet, Scrofulous and Cancerous Humors, Piles, etc., skillfully treated at the great central Chiropodist and Healing Institute, No. 155 Broadway, New York. DR. J. BRIGGS, President; DR. ALEXANDER WEBBER, Secretary. ap9

AYER'S HAIR VIGOR
FOR RESTORING GRAY HAIR
TO ITS NATURAL VITALITY AND COLOR.
Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S compound still has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces the color, and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.
As an elegant dressing for beautifying the Hair, it has no superior.

De darkies hear Massa Sumner tell
How Grant's a berry big scamp,
But his speech chimes too well wid de ole rebel yell
An' dey kick him out of camp.
Dey'll all for 'Lysses get enlisted,
An' fight in his regiment;
Dey won't let his wote gat circumtwisted,
But dey'll make him president.

Ole Greeley's licked, ha! ha!
Massa Grant he sticked, ho! ho!

New Mode of Extracting Teeth.

Nearly twenty years ago, in one of the Western States, very near the limits of civilization, stood a small village which boasted of several hotels, three or four stores, a blacksmith shop, a lawyer's office and a doctor's residence, besides a dozen or so log houses. The physician's office was situated at one end of the town; a rude log cabin, with a huge, broad door, over which hung a rude sign, on which was painted, in large letters, the words, "Dr. Nutton, Doctor and Physician." Why the sign had painted on it both "physician and doctor" was no doubt from the reason that these words widely differed in their meaning to the unsophisticated mind of the backwoodsman; as in the case of a huge ox driver who entered the town one day and enquired for a physician.

The doctor's office was pointed out to him, when, turning to the speaker, he said, with a look of wisdom: "Tarnation with yer doctor; I've taken doctor stuff to kill the ager, but nary kill it made. I wants a real physician, that's what I wants, and none o' yer humbug!" So you see, reader, the sign was really useful, and contained no redundancy to the mind of our friend the ox driver.

It was a cold windy day, and the doctor's sign went creaking in the wind, as it blew to and fro. The doctor sat in his office before the fire, his feet elevated above his head and resting on a table, while he was eagerly devouring the contents of one of the weekly newspapers which had reached the village, and which was ravenously read by the population; for nearly the only thing which broke the monotony of the village was the weekly arrival of the mail carrier, who brought all the news the inhabitants ever got, except that which they obtained from an occasional new settler or passing traveler.

Doctor Nutton read on in silence, except for a casual grumble at the unpleasant weather, when he was suddenly interrupted in his reverie by the unexpected entrance of a great, raw-boned Hoosier, who carried in his hand a huge ox whip while a large red handkerchief was fastened around his jaw; his pants were tucked in his boots, and he wore a large overcoat which nearly reached to the floor.

"Waal, stranger," said the Hoosier, "be you the doctor of this yere place?"

"Yes, sir, I am a physician. Is there anything I can do for you?" replied Nutton.

"You be's a physish? No, no, sir; I wants a doctor," angrily said the backwoodsman.

"Well," said Dr. Nutton, with a merry twinkle in his eye, "physician and doctor mean the same thing—they are synonyms?"

"Theye're what?" exclaimed the Hoosier. Synnams, synnams—what's synnams?"

"Synonyms," said the doctor, "are words which have the same meaning, or nearly the same meaning; thus doctor and physician are synonyms, for they mean the same."

"They do, eh? Look a here, stranger," continued the Hoosier, grasping the whip tighter and shaking it significantly, "I don't want any of yer foolishness."

"Well, my man," asked the doctor, "what's the matter—any of the folks sick?"

"Waal' no, doc, not exactly; but I've got a tarnation toothache, for as if it were gwine to split my jaw."

"Want's pulling out," [illegible] Nutton.

"Don't know but what it [illegible] but doc, can't stand it [illegible] pulled out. I tell yer—I tell [illegible] doc, it would kill me; the [illegible] been aching for nigh th[illegible] couldn't stand it, doc, to have her pulled out at once!"

"But," said the doctor, "it would take me but a short time to pull out the tooth, and then the pain would be all over."

The Hoosier shook his head, and said, as his face brightened up, as a suggestion crossed his mind, "No, doc; but look a here—couldn't yer pull it out by—by——by"

"Degrees?" suggested the doctor, as he suppressed a smile.

"That's the word, doc,; now could ye pull her out by degrees?"

"I don't know," said Nutton, smiling, though he tried hard to hide it; "but it would," continued he, "hurt you more that way than to pull it out at once."

"Can't stand it to have her pulled out at once; I tell yer, doc., degrees is the only way for me."

"But it will hurt you more to pull it out by degrees than it would to pull it out at once; and I do not know whether I can pull it out at all without pull it out at once"

"I tell yer, doc., by jingo, I couldn't no more have that 'ere tooth pulled out at once no more'n I could kill an Injin with a fine-tooth comb. No, Doc., as I sed before, degrees is the only way for me."

"Well, then," said Nutton, who had made up his mind to draw out the tooth without further cermony if he should ever get hold of it; but the Hoosier seemed to divine his purpose, for many times did the physician try to grasp the too h with his instrument, but all to no avail.

At last the Hoosier declared "that ere newfangled thing to be of no account;" and wanted to know if the doctor could tie a string around the tooth; for said he, "that's the way I used to pull 'em out, 'an I guess it's better,n all yer new fangled fixin's."

Dr. Nutton, to please him, said he would try, and producing from a drawer a fine strong piece of fish-line, after a great deal of trouble and yells of pain from the Hoosier, it was firmly secured around the tooth. The Hoosier then proposed to fasten the string to the door-knob, which was accordingly done.

The backwoodsman then commenced a series of easy jerks on the line, each of which was followed by yells of pain.

The doctor resumed his seat, smiled audibly behind the paper, occasionally glancing toward the door; and then turning quickly again to the paper, to hide behind it the convulsions of merriment which crossed his face.

Thus matters stood, until at last the fire burnt low, and Nutton arose to replenish it. As he threw in the wood and stirred the red coals into a blaze, a brilliant idea seemed to strike him, for his face shone unusually merry. Arising from the floor, he left the poker in the fire, and seating himself, awaited the change of affairs.

The backwoodsman had relapsed into despondency, for a melancholy expression had settled on his face. He steadily gazed downward, as if he were in deep thought.

The doctor, as I have said before, resumed his seat, but threw aside his paper, and sat looking intently into the fire, with an expression of merriment playing on his features.

Thus he sat for some time. At last, noiselessly arising from his chair, he drew the poker from the fire, one end of which was glowing with a red heat. He suddenly brandished it in the air, and brought it rapidly toward the Hoosier's nose. The backwoodsman threw himself back with a jerk.

The cord did not break, nor the door-knob come out, but the tooth loosened from it roots, and bounded against the door with a click like a bullet.

The doctor "slid" under the table, to escape the wrath to come, while the Hoosier, for the time blinded by the pain, kicked over the chair which the doctor had just vacated, in hopes of punishing him for his joke; but Nutton was safely esconced under the table. He knocked over everything in his way as he danced around the office, yelling with pain, and at intervals, heaping anathemas on the man of medicine.

When the pain had nearly ceased, and the Hoosier had relapsed into silence, the doctor crawled out from under the table, when he was greeted by the Hoosier with "Hello, doc!"

"Hello! Is the tooth out?" said Nutton with a grin.

"Yes, I guess she bes; but 'twas a tarnation pull, that. But I'm tarnation glad she's out."

CIRCLE SWINGING.—Whenever, in our later history, a candidate for the presidency has clearly foreseen that he must shortly set out on the dismal journey "Up Salt River," he has proceeded to "swing around the circle." Douglas, in 1860, knowing that his election was out of the question, swung around the circle, making speeches on his own behalf. Seymour, in 1868, did the same so soon as he was enabled to foresee his own defeat. And now comes Dr. Greeley. Foreseeing the certainty of his defeat, and the likelihood that he will be the worst beaten aspirant to the presidential office since General Scott, the apostle of spoliation is about to set out on a "swing around the circle," in the course of which he will probably tell the people what he knows about many things; but doubtless will refrain from allusion to many very uncomplimentary things which the people know about him.—*Chicago Times.*

Connecticut.

A dispatch to the New York *Times* from New Haven says:—

The Republican primaries were held in this city last night, and in each of the seven wards there was a considerable attendance of Democrats. In the First Ward there were thirty Democrats, and they said by their spokesman that they had always been with the Democrats, but this Fall had determined to vote for Grant, and asked to be received as Democratic Grant men. In the other wards a number of Democrats took part. It is predicted that there will be a very general defection of Democrats in this city, and there are but few Greeley Republicans. As it has been the Democratic majority in New Haven which has carried the State two or three times, the Republicans feel perfectly confident of a good majority for Grant in November.

Political.

I saw, the other day, a suggestion that I would probably be the best Democratic candidate to run against Gen. Grant for President. I thought that about the most absurd thing I ever heard or read. If the Democratic party were called upon to decide between Grant and myself, I know that their regard for what they must call principle would induce nine-tenths of them to vote against me. Why? I am a decided enemy of that party, even in its most respectable aspects.—*Horace Greeley.*

The "Council of Political Reform," of New York city, composed of good citizens of both parties, is called by the *Tribune* a "Grant campaign organization." It was this organization that accomplished the overthrow of Tammany at the polls last November, which accounts for the *Tribune's* animosity. The president, William H. Neilson, a prominent banker, is a life-long democrat.

Horace says, in his historical account of the battle of Chancellorville: "Gen. Schurz was the first to run away, and his whole German division followed him like a flock of sheep." Schurz is now travelling over the country telling the people that Horace is an honest and truthful man.

The Toledo *Blade* says that Horace Greeley was born to make Andrew Johnson respectable by contrast.

The straight-out Democrats of Michigan have nominated Colonel William M. Ferry for governor, with a full State ticket.

At Sunbury, Pa., Horace Greeley and Gen. Harriman arrived the same day. Harriman's reception was a great affair, while Greeley was treated as if he was a nonentity.

Hon. Samuel Hooper has been nominated for Congressman by the Republicans of the Boston and Chelsea district.

Gen. Hartranft's election as Governor of Pennsylvania is claimed by a larger majority than Governor Geary received.

Secretary Chandler of the national Republican committee has bulletined the estimate of the result of the November election, giving Greeley Delaware, Kentucky, Maryland, Tennessee, Texas and Virginia, putting Alabama, Louisiana, Missouri, New Jersey, New York and West Virginia as doubtful, and giving the rest to Grant. The committee say their preparations to prevent fraud are complete and they hope for an honest vote, unless the Democrats devise some new plan.

In Iowa they compare the enthusiasm for Greeley to the racing qualities of a mud-turtle.

A vote taken among the students of Dartmouth stood: Grant, 297; Greeley, 74; doubtful, 11.

The Pittsburg Convention made 20,000 votes for Hartranft in Western Pennsylvania.

The Syracuse *Courier* asks us to "think of the destinies of the Republican party hanging on the 'Yes' of a woman?" When any man is astonished at important events hanging on a woman's "Yes," it is fair to presume that he never had anything better than a "No" from her to hang on.

Benjamin Parke, at one time editor of the *Keystone*, the central organ of the Democracy of Pennsylvania, has declared himself for Grant and the whole Republican State ticket. He has delivered several able speeches during the canvass.

Greeley is a remarkable agricultural candidate, truly. His nomination at Cincinnati was a queer turnip, and the end of him will be a beat.

SUICIDE.—Some of the scientific men of our day are trying to ascertain if a thoroghly sane person ever commits suicide. These gentlemen meet with difficulties, some of the chief of which arise from the impossibility of placing the suicides themselves on the witness stand. They find it impossible to get any just inferential evidence of a self-destroyed man, as to his mental status at the time he killed himself.

Some queer facts have been brought to light, however. One man had been told by a fortune-teller that he would die within three weeks, and having a great horror of death, he took a dose of strychnine to escape it. That man was clearly of unsound mind. His visit to the fortune-teller showed that.

Another case, almost the reverse of the above, occurred in Paris. A man bent on suicide climbed up the parapet of a bridge over the Seine, and was about to jump into the river, when a sentry pointed his musket at him and threatened to shoot him dead unless he immediately came down. Singularly enough, this man at once came down, instead of staying on the parapet and achieving death at the hands of the sentry without committing suicide. Was that man in his right mind?

A still more singular case was that of an old bachelor, who in a moment of weakness, entered into a marriage engagement. On coming to what he called his right mind, this unfortunate man resolved to escape the consequences of his folly by committing self-destruction. This resolved, he had his razor aimed at his jugular vein, when word came that his fiancee had eloped with a younger and handsomer man. Here was unexpected deliverance; but now mark the vagaries of a perturbed mind? Jealousy of his rival succeeded to horror of his betrothal, and after writing a plain statement of his grievance, the bachelor resumed his razor and cut his throat.

SUCKERING TOBACCO.—A correspondent in Southern Missouri gives the following delightful picture of society in that delightful region:

Driving along the road we encountered a slender, sallow female, with arms bare to the shoulders, and not much clothes on, if we except the copperas colored petticoat, who was working a small patch of tobacco. The work was that of pulling off the shoots which are known as "suckers," and crushing the monstrous green worms.

I required if we could get a drink of water. She spat out a mouthful of tobacco juice with a "chirt," and said; "Thar's the spring over yander, and thar's gourd in it."

Having slaked my thirst with a draught of highly medicated fluid, which tasted strongly of old horse shoes and hoop iron, I sought to strike up a conversation. In passing to the spring, I saw a man with a very red and scotched face and two fearfully bunged eyes, sneaking off in the corn.

"Is that your husband back there?" I enquired.

"Him! Not much I reckon. My old man's gone in the bottom to see if he kin kill a mess o' squirrels, or mebbe a young turkey. Thar's Arkansas Jim, the oberist, triflinst, good for nothinest whelp this side o' the Nation. He hangs round and helps my old man with the hosses, but he aint worth his salt. Come out o' thar, ye durned galoot, an' show yourself. Yesterday he tuk a cow down to Bresh crick, we sold to Ferris, an' he got holt o' some whisky, an' got drunk as a matter o' course. Then he got into a fight, and the other feller rather got away with him, I guess. I wish he'd a killed the blasted beast."

"What is that truck?" I enquired innocently, pointing to the tobacco.

"Well, stranger," she replied with a twinkle in her black eyes, "you must be awful green not to know that. Whar you been livin' all yer life? Why, that's terbacker. We raise a little for our own use. People may say what they please, but I tell you terbacker's a great comfort. I couldn't get along without it. I say, stranger, have you got any store terbacker about ye! I got plenty o' twist, but I like navy the best."

Unfortunately I don't chew, but offered her a segar.

"A seegyar! Well I generally smoke a pipe, but I don't mind tryin' your seegar just for a change."

She wiped the green gum of the sucker on her petticoat and took the offered segar, while I struck a match. After a few puffs she said:

"Well I rather like this. It's one o' them what they calls Havanners, ain't it? Mighty nice tasted, but it don't go to the spot like the pipe. I say stranger, wouldn't ye like to see my old man? Just hitch yer hoss, an' tell the nigger to come in out o' the sun, and I'll blow the horn for him to come up."

I mildly suggested that I was afraid the old man might get jealous—that men with good looking wives were subject to the complaint.

"Jealous? I'd give him sumthin to be jealous for. He knows durned well that I'm all right, and that I won't have any airs put on over me. Es for bein' good lookin'. I've seen the time stranger, when you might have said so, an' told no lie, nuther. But hevin's the ager, and a raft o' young uns, and livin' like this takes the starch outen a young gal mighty quick, I tell you. This is a mighty fine country for cows, but its — malarious. Morning stranger. Next time you see a patch o' terbacker you won't have to ask what it is."

[illegible] asserted that the Russian sea-go[illegible]ship Peter the Great is the [illegible] man-of-war afloat. —Max Adeler tells the following: "We do not remember that we ever told the story of Perkinson's gunboat. Perkinson was in the navy, and during the war he conceived an idea that he could build a small and light gunboat which would carry a heavy gun, so that expeditions could be undertaken up shallow rivers. The department gave him permission to try the experiment, and he built a boat in accordance with his theory. The first time he went into action was down in the waters of South Carolina. The commanding officer of the troops upon one of the islands sent Perkinson up stream with his craft, with orders to fire at a certain fort. Perkinson paddled up for about two miles, and then loading up his one great gun he aimed at the rebel works. It was very singular, but entirely true, that the boat was so light that the ball in the gun remained stationary, while the boat was fired away from it two miles down stream, where it lit among the Union troops and killed three privates and a corporal. The ball was afterward found in the stream exactly at the spot where the gunboat stood."

—The *Courier Journal* says that we shall never know the age of Niagara Falls, because Susan B Anthony is the only person now living who was alive when the Falls were built, and she has forgotten the date.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

A DISABLING DISEASE.—No disease which does not confine a man to his bed so completely unfits him for business as dyspepsia. When the stomach is foul, the brain is always muddy and confused, and as the cares and anxieties of life are a sufficient burden for the organ of thought to bear, without being tormented by the miseries born of indigestion, it is highly desirable for the brain's sake, as well as for the sake of every other portion of the system, that the disordered stomach should be restored with the utmost dispatch to a healthy, vigorous condition. This object can always be accomplished by a course of Hostetter's Stomach Bitters, the purest and best of vegetable specifics, which eviscerates the morbid humors through the bowels, rouses and tones the torpid stomach and regulates the liver, imparts firmness to the nerves and clears the sensorium of its mental cobwebs. Persons subject to attacks of indigestion, bilious headache, irregularity of the bowels, sickness at the stomach, or "the blues," should take the Bitters once or twice a day throughout the present season.

TEETH IN RUINS are a sore drawback on personal appearance and personal comfort. Therefore keep them in good repair with that established antidote for all the diseases that assail them, fragrant SOZODONT.

CUPID'S AMBUSCADES.—The sly archer, Love, shoots his arrows from many colgne of vantage, but it is doubtful if he delivers his heart-taking shafts from any ambush with more effect than when he arms them from the braids and folds and ringlets of a superb head of hair. Ladies who have not been favored by Nature with this crowning charm of womanhood, can readily and certainly increase the volume of their hair and impart to it a silken lustre by using Lyon's Kathairon as a daily dressing; while those whom Providence has blessed with a superabundance of this "Glory" of the sex, can preserve it, undiminished in quantity and undiminished in beauty to the latest period of life. There is a germinating principle in the Kathairon which literally *compels the hair to grow.* It extirpates scurf, dandruff, and all exfoliations and excrescences of the scalp which interfere with the rapid and healthy development of the fibers.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

PILES.—The unceasing torture from internal bleeding, external and itching piles is put awaiting away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

THE THIEF who was arrested for robbing Parsons' store in this town, was found to have a quantity of Ayer's Hair Vigor in his possession. When asked why he wished to steal that article, he answered that he "wanted to restore his hair, for it was hard to be a thief with bald top." If that invention of the great chemist could restore a faded character as effectually as it does their natural beauty to bald and grey heads, it would surely be, as they say it now is, truly invaluable.—*Lewiston (Me.) Journal.*

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure in each case such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

HOLLOWAY'S PILLS.—They revive the appetite, promote digestion, sustain the vital powers, relieve all pain and uneasiness in the stomach and bowels, and strengthen the constitution as well as expel disease. Sold 78 Maiden Lane, N. Y. Price, 25 cents per box. Ask for new style; the old is counterfeited.

If you feel dull, drowsy, debilitated, have frequent headache, mouth tastes bad, poor appetite, and tongue coated, you are suffering from Torpid Liver or "Biliousness," and nothing will cure so speedily and permanently as Dr. Pierce's Golden Medical Discovery. Sold by all Druggists. 610

AYER'S PURGATIVE PILLS.

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only many of every day complaints of the body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

WELL

Old Whitney, what's the matter with you and why are you shaking up so?"

"Wheezhoo-oodo! Can't speak aloud. My throat is so sore and lungs so oppressed it pains me to talk."

"Now, Old Boy, I was in the same predicament and have been wonderfully cured. Met a friend who urged me to take

Not only WHAT! But also WHERE!

A FIFTH deciding *what* kind of Sewing Machine to buy, the next thing to be duly considered is where to buy it. E. A. ROWE, who sells *six* kinds of Sewing Machines and Findings, is permanently located here, and has sold more Machines during the past 3½ years than all the others together, to all dig the agents who have quit the business because they could not pay expenses. He has sold nearly one-half of one kind during the past year, thus showing that purchasers will be given if desired and has twenty other kinds to choose from. Mr. Rowe seems destined to be the only Sewing Machine dealer in this vicinity, for people have learned that there now that the warfare of an immense agent or pedlar amounts to nothing. You can't get from a book of nearly one hundred machines of different kinds at

These who circulated the call say that but one person declined to sign and they know of no unauthorized signature in the above list.

Laconics.

The Boston *Post* declined to receive by telegraph a brief report of the meeting in this city last evening that was addressed by Theodore Tilton.—*Lyre, 27th.*

Probably the *Post* didn't believe in Theodore or hadn't faith in the person who wanted to send the dispatch.

Marcellus Eldredge's lucky share "Lady Franklin" won second money at the Merrimack county Fair.

The office of the Western Union Telegraph Company has been removed to the room in the Kearsarge House formerly occupied by Mr. William H. Laws

At the fifth annual meeting of the American Academy of Dental Science, at Boston, to-day, Dr. A. P. Stevens of this city will deliver an essay on "Culture demanded by a Professional Life."

An indignant Democrat accosted us on the Post-office steps, Saturday, and asked why we did not "show up that ——— fool of the *Lyre* for putting my name and others in the list of Liberal Republican officers at the Tilton meeting." We told him we hadn't time to attend to all the falsehoods of the kind and that the thing was too monotonous as a steady business.

The Kearsarge Prize Money.

"J. W. Y.," one of the crew of the Kearsarge, writes as follows to the Boston *Herald*, from this city:—

I wish to make a short statement in regard to the distribution of the Kearsarge prize money to let the people know how it has been divided. The first money we got was from the New York Chamber of Commerce. There was $21,000 divided and the men got $25 apiece. There were $10,000 divided in Boston, or rather $5000 of it was given to the officers, and the men did not get a cent. I believe it was put in trust with some one, or in some house in Boston, but how the men are to get any benefit from it I do not know, and do not believe any of the crew know, but they would like to know something about it.

The Government has divided $190,000 and the men get from $800 to $541, and that is the large fortune the men have received. Rear-Admiral Winslow gets $23,000 and Capt. Thornton $6200. Why Rear-Admiral Winslow gets $23,000 is more than I can tell. It may be for letting the blockade runner Juno get away after he had taken charge of her by sending an armed crew on board of her, hauling down the English flag and hoisting the American. She went directly South, landed her cargo and was captured coming out. Or perhaps it was for letting the English yacht Deerhound get away with the officers and crew of the Alabama. There was no one to blame except himself, for Capt. Thornton said to him, "That yacht is making off," but he paid no heed to it; and after the yacht had got to the English shore, all Admiral Winslow said was "I placed too much confidence in the Englishman's honor." Capt. Thornton should have sail the honor for sinking the Alabama, and I do not think there is a man who was in the ship but will say so. Had Capt. Thornton been in command I think we should have brought the blockade runner home and got some money from the sale of the same.

A GOOD PLACE.—Charles H. Parker, who has been running a first class eating house in Portsmouth, has recently taken the Franklin House in that city which has been newly arranged for the accommodation of travelers. Parker knows all about the sublime art of preparing food for reception by man, and you can't find a better meal anywhere in your travels than he will furnish you.—*Biddeford Times.*

From the Portsmouth Journal.

—Circulars for the names of those who take an interest in the proposed Lyceum course here, can be found at Preston's and Foster's.

—Over two hundred shares in the Portsmouth and Dover railroad have already been taken up in this city, and double the number spoken for.

—A substantial and ornamental depot is to be erected at the Greenland station on the Eastern road, preparations for which have already begun.

—The U. S. S. Illinois at this navy yard has been completely demolished, and works on the new Marion somewhat advanced. The Monongahela is nearly ready to receive her boilers. The floating dock is now repairing in good earnest, a large portion of the timber and plank having been prepared beforehand, so that workmen will not be hindered in prosecuting the work.

—The Young People's Union is to be reopened with renewed vigor the coming season. Classes for penmanship, bookkeeping, etc., will be formed early and be continued through the winter, free to all members, and other inducements made to bring in the young people. A meeting for general purposes is to be held the second Monday in October at which all past and present members will be welcome.

—On and after Tuesday next, Oct. 1, money orders for any place in Germany can be secured at our Post Office at the following rates:—On orders not exceeding $5 in cents. Over $5 and not exceeding $10 35 cents. Over $10 and not exceeding $20 50 cents. Over $20 and not exceeding $30 75 cents. Over $30 and not exceeding $40 $1,00. Over $40 and not exceeding $50 $1,25. No fractional cents to be included in any order. United States Treasury notes or National Bank notes only received or paid. Money orders issued to any foreign country can now be secured at this Post Office.

—The improvement of the highly discreditable old lot on Market Square, called, "want of" a better one, our "City Hall," was last May. It is a matter of regret that there is any building at all on the lot, for if not, we should have a new edifice correspondingly proportions where now we shall only have the old form in a new dress. The improvements will consist of Mastic front and sides; a hipped roof running from the eaves at the front to the ridgepole about twenty feet back, and new windows in place of the old. The market remains below, and is to have a large glass window in the front, the entrance to the city rooms being on one side of the window and that to the market on the other. The interior of the building remains unchanged. All this luxury for about $8000!

—In the window of the store of Messrs. E. R. Leighton & Co. on Congress street, is exhibited a genuine curiosity, perhaps the only one of its kind and age, extant—an apple *one hundred years old*, the property of Mr. Henry Shute of this city. It was picked in the year 1772, the outside being carefully stuck with whole cloves, so that no part of the fruit could be discovered peeping through. The grandfather of Mr. Shute, who died at the age of 85 years, came into possession of this curiosity when quite a youth, and at his decease it descended to the present generation. The flavor of the cloves even is still quite perceptible, while the apple itself is plump and solid. Looking at this remarkable specimen of fruit preservation, we are reminded that a gentleman of this city has a doughnut which is within a few weeks of being *twelve years old*, kept as a relic of a donation party held in Stratham in 1861. It is in good condition, and with care must last for many years yet.

State News.

There are thirty-six manufacturers of cotton goods in this State.

Stephen L. Gresley's store at Germanton was burned on Thursday; loss $5000; no insurance. The fire is supposed to be the work of an incendiary.

The State Fair commences to-morrow, at Dover. Governor Straw and staff have accepted invitations to be present on Thursday. The factories of Dover, Great Falls, Salmon Falls, Norway Plain, Gonic and Newmarket are to stop that day to allow the operatives to attend.

The President and his family have returned to Washington for the winter.

—According to the *Food Journal* the great national vegetable of the Chinese is the white cabbage of Shatung, which is grown all over the northern part of the Empire. It is eaten raw as a salad, and is said to be equal to the best lettuce, or boiled, in which condition the flavor reminds one of the finest asparagus. It is both hardy and prolific, surviving the severe winters of the North. Specimens are occasionally met with weighing as much as twenty pounds.

—Mr. H. of the Burlington and Missouri land office was among the passengers of the Metis. He is a nervous man, and while floating in the water imagined what his friends would do to acquaint his wife with his fate. Saved at last, he rushed to the telegraph office and sent this message: "Dear P., I am saved. Break it gently to my wife."

—Moonlight funerals are the fashion now.

PAD FOR THE POYS.—An up town Teuton has had his good nature imposed upon "thusly," as the Baron von Deiderische woold remark:

"I pese clad to see you, like ash never was, Mister Cris; when did Zionzinuati goome away from you?"

Such was the warm salutation of a Teutonic friend whom we met the other day. The reader might not guess in a long time what business our friend was engaged in, so we will tell you; he kept a lager beer saloon.

"How do you like your new location?" we inquired after his raptures had somewhat abated.

"Nice poys in this town, nice poys. The first night vot I opens my saloon they goomes in and galls for lager peer, doo, eight, seox, half a tozzen of 'em; unt ven I says, 'Woo makes pays for dis too zoon already!' by tam dey say, 'put it on de schlate.' I dole ten 'I don't geep no schlate.' Den dey say 'you petter send out and pay a schlate.' Vell, I wants to aggommodate—there's oate by mail. Address Dr. O. PHELPS BROWN, Grand St., Jersey City, N. For Coughs, Croup, Diphtheria, Asthma, &c.

USE BUCHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredient "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified, in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Cough, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times provide it, is the office of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, forced with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

SARSAPARILLA

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs,* No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON, After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters appertaining to the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. VEGETINE

The Great Blood Purifier.

A valuable Indian compound for restoring the health, and for the permanent cure of all diseases arising from impurities of the blood, such as

Scrofula, Scrofulous Humors, Cancers, Cancerous Humor, Erysipelas, Canker, Salt Rheum, Pimples and Humors on the Face, Ulcers, Coughs, Catarrh, Bronchitis, Neuralgia, Pains in the Side, Rheumatism, Dyspepsia, Constipation, Costiveness, Dizziness, Piles, Headache, Nervousness, Faintness at the Stomach, Pains in the Back, Kidney Complaints, Female Weakness, and General Debility.

This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon these complaints are surprising to all. Many have been cured by the VEGETINE that have tried many other remedies. It can well be called

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

$1000 REWARD.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUCHS, Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely sure remedy, blending, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREPETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER's consummate skill has produced an antidote for these defects, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, therefore, now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

Happy Go Lucky.

Happy go lucky, cheeks rosy red,
Ten times a day he will stand on his head.
Happy go lucky brim full of fun,
Up in the morning as soon as the sun.
Sliding on bannisters all the way down,
Playing at circus and bumping his crown.
When he has shocked all the house with the fright
Off he goes screaming with roguish delight.

Happy go lucky once climbed up a tree,
Just to look round and see what he could see;
Crack went the bough—such a terrible fall,
Didn't hurt Happy go lucky at all.

Maybe the fairies with some potent charm,
Because he's so cheerful kept him from harm—
Mother so wishes that he would be still,
Only for once, but the rogue never will.

Happy go lucky runs out in the street
Asks into dinner each beggar he meets.
Happy go lucky, now just think of that,
Ties granny's spectacles on the poor cat;
When he knows mother is going to scold,
Off he runs gravely in tears, I am told;
And then he will hug her and kiss her with joy.
Anyone got such an out an out boy?

A RIFLE EXPERIMENT.—Alexander Hammil, of Silver City, Lyon County, Nevada, performed a most ingenious experiment with a United States breech-loading rifle with which he had previously been practicing by firing at a target. It appears that he in some manner got two sets of cartridges into the gun, and discovering this to be the situation, he did not care to fire off the double charge. Having duly studied over the matter, he took the gun to a blacksmith's shop, screwed the barrel fast in a vice, and then opening the breech, he picked out all the powder till he came to the lower ball. Then he heated an iron red hot, and with it commenced to melt the ball out. By frequently heating the rod he succeeded admirably till he melted a hole clear through the ball and touched the powder of the cartridge beyond, when there was a sharp and unexpected explosion. It shot both ways, one ball going out at the muzzle and the other at the rear. The ball which came out in the rear took but a small piece out of Aleck's cheek, and Dr. Kirby has every confidence that the poultice in which Mr. Aleck's head is now bound up will draw out the ounce or two of powder blown into his face.

WHAT CAUSES HAIR TO TURN GRAY.—An English writer has recently asserted that an undue portion of lime in the system is the cause of premature gray hair, and advises to avoid hard water, either for drinking pure or when converted into tea, coffee or soup, as hard water is always strongly impregnated with lime. Hard water may be softened by boiling it; let it become cold, and then use it as a beverage. It is also stated that a liquid that will color the human hair black, and not stain the skin, may be made by taking one part of bay rum, three parts of olive oil, and one part of good brandy, by measure. The hair must washed with the mixture every morning, and in a short time the use of it will make the hair a beautiful black, without injuring it in the least. The article must be of the best quality, mixed in a bottle, and always shaken well before applied.

BLUNDERS OF TRANSLATORS.—A most entertaining volume might be made from the amusing and often absurd blunders perpetrated by translators. For instance, Miss Cooper tells us that the person who first rendered her father's novel, "The Spy," into the French tongue, among other mistakes, made the following. Readers of the Revolutionary romance will remember that the residence of the Wharton family was called "The Locusts." The translator referred to his dictionary, and found the rendering of the word to be *Les Sauterelles*, "The Grasshoppers." But when he found one of the dragoons represented as tying his horse to one of the locusts on the lawn, it would appear as if he might have been at fault. Nothing daunted, however, but taking it for granted that American grasshoppers must be of gigantic dimensions, he gravely informs his readers that the cavalryman secured his charger by fastening the bridle to one of the grasshoppers before the door, apparently standing there for that purpose.—*Harper's Magazine.*

—The extraordinary growth of London may be appreciated, to some extent, when it is known that, since 1849, 250,000 new houses have been built in that city. Since that period, also, the "beats" of the police have been extended by 1,100 miles. It requires 8,000 police to patrol and protect that vast and not easily governed mass of people—a population scarcely less than that of Scotland. On extraordinary occasions, however, the Guards or Household troops are called out to assist the police force.

The Daily Chronicle,

Portsmouth, N. H.

TUESDAY, OCTOBER 1, 1872.

The October Elections

Commences this week with Georgia, which gave Seymour 44,608 majority over Grant for President in 1868. In 1870, the Democrats had 26,86– majority on Congressmen. The present legislature has 14 Democratic majority in the Senate and 113 majority in the House. The Republicans have nominated for Governor Hon. Dawson A. Walker, formerly Judge of the Supreme Court of the State. The Democratic candidate is Hon. James M. Smith, the present incumbent of the office. The Democrats of Georgia are much divided on the question of Presidential candidates, very many of them openly opposing Mr. Greeley. They seem, however, to be well united on their nominee for Governor, and the vote for Mr. Smith, therefore, will not be a fair criterion by which to estimate the probable vote for Greeley in November. The election takes place on Wednesday.

On the 8th, Pennsylvania, Indiana, Ohio and Nebraska are to vote. Iowa, in Presidential years, holds its election for State officers, Congressmen, &c., at the time of the Presidential election. In other years it is held in October.

In Pennsylvania, a large vote will be thrown. Gen. Hartranft, the Republican candidate for Governor, is opposed by the Forney Republicans, who are for Grant. We anticipate the election of the whole Republican State ticket, the true test on national questions being the vote for Congressmen-at-large. The Republican majority at the State election in 1868 was 6677. Last year the majority was 14,490. Pennsylvania's delegation in the present Congress consists of 13 Republicans and 11 Democrats. The Legislature to be chosen will elect a United States Senator, in place of Hon. Simon Cameron, Republican, whose term expires in 1873. In the present legislature, the Democrats have the Senate by two majority and the Republicans have 12 majority in the House. Of the eleven districts which elect Senators this Fall, seven gave Republican and four gave Democratic majorities in 1871. Thus, to secure the control of the body, the Republicans must carry all these seven districts, or, failing to do so, must make it up by carrying one or more of those which gave majorities against them last Fall.

The campaign in Ohio will doubtless result in a grand Republican triumph. The Republican majorities for State officers for four years have been as follows;—in 1868, 17,383; in 1869, 7518; in 1870, 16,694; in 1871, 20,168. The members of the 42d Congress are politically classified as 14 Republicans and five Democrats. In the legislature, the Senate is a tie; the House has nine Republican majority.

Indiana is a close and doubtful State. In a vote of 342,189 in 1868, the Republicans chose their candidate for Governor by only 961 majority. President Grant's majority, however, a month later, was 9572. At the last election, in 1870, the Democrats had 2568 majority in a total vote of 317,550. Gen. Thos. M. Browne is the Republican candidate for Governor. His opponent is Hon. Thos. A. Hendricks, who has twice before been defeated for Governor. Indiana is represented in Congress by six Republicans and five Democrats, one Republican having but four majority. The Democrats have both branches of the legislature—two majority in the Senate and six in the House. The Legislature to be chosen will elect a United States Senator in place of Hon. Oliver P. Morton, whose term expires in 1873. The Legislature last chosen was dissolved in February, 1871, by the resignation of most of the Republican members, leaving the body without a quorum.

Nebraska will elect State officers, a Congressman and legislature. Hon. Robert W. Furnas is the candidate supported by the Republicans for Governor. Hon. H. C. Lett is the Democratic nominee. The present legislature is Republican in both branches—seven majority in the Senate and 21 majority in the House. Nebraska has given Republican majorities as follows;—in 1868, for Governor, 2491—for President, 4290; in 1870, (last election,) for Governor, 2478—for Congressman, 4408.

South Carolina will hold an election for State officers and Congressmen, Oct. 16th. There are two Republican tickets for Governor in the field, the Democrats having made no nomination. The Republican majority for President in 1868 was 17,679. The Republican majority for Governor at the last election, in 1870, was 33,534 in a total vote of 136,608—the largest ever cast. The delegation in the lower House of Congress consists of four Republicans. The present legislature has 20 Republican majority in the Senate and 79 majority in the House. The Legislature to be chosen will elect a United States Senator, in place of Hon. Frederick A. Sawyer, whose term expires in 1873. Thirteen members of the Senate hold over, leaving seventeen to be elected at this time. There are but five Democratic members of the Senate.

Political.

Mr. Greeley thinks he ought to be President because there is a young man in Charleston, South Carolina, acting as clerk for a negro assessor at two dollars per day, who, when that State seceded, was living in Paris on an allowance from his father of $25,000 a year. It would be pleasing to know whose fault it is. Is it the negro's or General Grant's? And is the young man positively forced to earn his $2 a day in this degrading manner? Perhaps it would have been wiser in him to have saved about $20,000 a year when he had a chance, and gone west. But what does Mr. Greeley propose to do about it when he becomes President? Remove the young man or remove the negro?

This is the way the Democrats talk when they frankly speak their thoughts:

The Providence *Herald* says "the Louisville fizzle has killed Hartranft's chances." The killing was certainly justifiable, but it would have been much more so if Hartranft had been killed instead of his chances.—*Louisville Courier Journal.*

The Democrats of West Virginia will soon nominate a ticket for electors who favor O'Conor and Adams.

The Knoxville *Chronicle* fears that things are getting terribly mixed among the Democrats of Tennessee. Quarles, one of the Democratic Electors, supports Greeley and Cheatham bitterly opposes Johnson. Fleming, another of the Electors, supports Greeley and Johnson. Johnson supports Greeley, and, in casting his vote for him, will have to vote for Quarles, who intends to make a strong canvass against him.

Some enthusiastic Greeleyites are expressing their admiration for their great leader because he is able to make so many speeches and not repeat himself. But how can a candidate repeat himself whose opinions change at every other railway station?

The Union Republican Congressional Committee publishes a *Grant and Wilson Campaign Song Book*, which is sold for twenty cents a copy.

The New York *Star*, a Greeley paper, is disturbed about the acceptance of O'Conor, which it fears will draw off Democrats who, down to the date of that acceptance, were for Greeley, though he was a bitter pill to hundreds of thousands of them. Many Democrats, the *Star* says, of Know-nothing proclivities, will vote against Kernan for governor, because he is a Catholic. This feeling, which that paper thinks will lose Kernan thousands of votes, will prevent Greeley also from getting those votes, from a dislike men have of scratching tickets. The rural districts the *Star* is especially afraid of on this question.

The official canvass of the State of Vermont shows the vote for governor to be as follows: Converse (Rep.), 41,946; Gardner (Dem.), 16,613; scattering 14; majority for Converse, 25,319.

A Philadelphia dispatch says Yerkes, the banker, has made a sworn statement before Mayor Stokely, fully vindicating Gen. Hartranft from all the charges recently made. His affidavit states that the affidavits photographed and sent broadcast over the State, purporting to be made by him before Alderman Dougherty, were forgeries; that he never made and signed them; that the account of Gen. Hartranft with him was perfectly legitimate, having no connection whatever with the funds of the State, and that in no way, shape or form did Hartranft through him derive any use, benefit or advantage of any State fund; that Dr. Paine, representing himself as attorney of one of the creditors, obtained access to Yerke's office and purloined therefrom his private papers, among them some letters of Hartranft which have been used to give credence to the false charges circulated. Yerkes' statement is supported by other strong evidence.

The Hartford *Times* (Greeley Democratic) has never manifested much love for the soldiers till the other day, when in describing a reunion of the Fourth Connecticut Heavy Artillery, it gushed with enthusiasm over a vote forced by the Grantites, which resulted; Grant 65, Greeley 63. Wherefore, it is very unkind for the Hartford *Courant* to take away that crumb of comfort, as follows:

In the first place, no vote was taken at the reunion, secondly, the reunion was not held at Mystic; thirdly, the regiment has not held any reunion this year; and finally, there never was such a regiment as the "Fourth Connecticut Heavy Artillery." With these trifling exceptions the *Times* has succeeded in finding a first rate "Greeley straw."

A Milwaukee (Wis.) dispatch says that the straight Democrats, besides putting an electoral ticket in the field are going to make nominations in every Congressional district in the State.

Hon. C. Mitchell, the Republican nominee, was chosen U. S. Senator by the Oregon legislature on the 27th. He received 41 votes, Corbett 12, Prince 4.

The Washington *Capital*, a Greeley paper, denies that Gen. Garfield has been connected with the Credit Mobilier.

The figure-head of the Greeley electoral ticket in Iowa is Gen. Fitz Henry Warren, who knows all about corruption in office. He held three at one time, drawing pay for all. The administration took two away and the people the other. Consequently he is clamorous for "reform" to get hold of some more offices.

This is the unkindest cut of all. The Alexandria City Council, which is composed almost entirely of Democrats, has rejected a resolution inviting Mr. Greeley to visit the city as its guest when he comes to Baltimore in October next. One member moved an amendment that Mr. Greeley pay his expenses, stating that he had done so on several previous visits.

THE PANORMO MURDER.—These are the particulars of the murder of Panormo in New York as given by William Higgins, the professional thief, who had them from Kane Cockney, now believed to be in Michigan: One of the gang grabbed Panormo by the collar and, in a rough voice, "What have you about you? come: pony up!" he said, at the same time shaking Panormo. As soon as he felt he was grasped he cried out, or attempted to cry out, for help, and another of the four pulled out a pistol and jabbed him in the neck with the muzzle and said, "—— your dirty soul, if you yell out again I'll blow your brains out." Feeling the muzzle of the pistol at his neck Panormo stopped and a third man proceeded to go through him and was just on the point of taking his gold watch when the man who pulled the pistol on him, thinking Panormo would not dare to cry out, replaced the pistol in his pocket. Seeing the pistol disposed of, Panormo again cried out for help, and that cry cost him his life, for, with a terrible oath, O'Brien struck him on the temple with a club, and as the unfortunate victim was reeling backward from the effects of the blow he again struck him, the club hitting him over the left eye and flat along the face to the upper lip, and this blow was the one which made the terrible wound which was so fully described at the time. Only two blows were struck, and the man who was robbing him of his watch grabbed it, and seeing him felled and bleeding they all ran off and reached New York in different directions. The weapon Panormo was struck with is a club made of lignum vitæ, exceedingly heavy, fourteen inches in length, and is what is known in the police force as a parade club. The police believe Higgins' story, because all he has told has thus been verified. Three of the ruffians have been arrested.

In the municipal election at Nashville, Tenn., Kercheval, Republican, was elected Mayor over Morris and Wilson, Conservatives.

A dispatch received at the Grant National headquarters says with a full, fair vote Indiana on Tuesday would give 10,000 Republican majority, and the Democrats cannot do cheating enough to overcome much more than half of it, so that the State is considered sure in any event to do better than at any election since 1866.

Base Ball.

The past week's games render it virtually certain that the Bostons will fly the whip pennant as champion club for the season, they having won thirty-four games, with seventeen yet to play, while the Mutuals have won thirty-one, the Baltimores thirty, and the Athletics twenty-eight. The Mutuals have still eleven games to play.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

A DISABLING DISEASE.—No disease which does not confine a man to his bed so completely unfits him for business as dyspepsia. When the stomach is foul, the brain is always muddy and confused, and as the cares and anxieties of life are a sufficient burden for the organ of thought to bear, without being tormented by the miseries born of indigestion, it is highly desirable for the brain's sake, as well as for the sake of every other portion of the system, that the disordered stomach should be restored with the utmost dispatch to a healthy, vigorous condition. This object can always be accomplished by a course of Hostetter's Stomach Bitters, the purest and best of vegetable specifics, which eradicates the morbid humors through the bowels, rouses and tones the torpid stomach and regulates the liver, imparts firmness to the nerves and clears the sensorium of its mental cobwebs. Persons subject to attacks of indigestion, bilious headache, irregularity of the bowels, sickness at the stomach, or "the blues," should use the Bitters once or twice a day throughout the present season.

CUPID'S AMBUSCADES.—The sly archer, Love, shoots his arrows from many coigns of vantage, but it is doubtful if he delivers his heart-taking shafts from any ambush with more effect than when he arms them from the braids and folds and ringlets of a superb head of hair. Ladies who have not been favored by Nature with this crowning charm of womanhood, can readily and certainly increase the volume of their hair and impart to it a silken lustre by using Lyon's Kathairon as a daily dressing; while those whom Providence has blessed with a superabundance of this "Glory" of the sex, can preserve it, undiminished in quantity and undiminished in beauty to the latest period of life. There is a germinating principle in the Kathairon which literally *compels the hair to grow*. It extirpates scurf, dandruff, and all exfoliations and excrescences of the scalp which interfere with the rapid and healthy development of the fibers.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

THE THIEF who was arrested for robbing Parsons' store in this town, was found to have a quantity of Ayer's Hair Vigor in his possession. When asked why he wished to steal that article, he answered that he "wanted to restore his hair, for it was hard to be a thief and bald too." If that invention of the great chemist could restore a fallen character as effectually as it does their natural beauty to bald and grey heads, it would surely be, as they say it now is, truly invaluable.—*Lewiston (Me.,) Journal.*

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit people instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. s12

HOLLOWAY'S PILLS.—They revive the appetite, promote digestion, sustain the vital powers, relieve all pain and uneasiness in the stomach and bowels, and strengthen the constitution as well as expel disease. Sold 78 Maiden Lane, N. Y. Price, 25 cents per box. Ask for new style; the old is counterfeited.

PROBATE NOTICE.

Rockingham, ss., by the Judge of Probate for said County.

TO GEORGE CHESLEY, HELEN L. CHESLEY and EDITH H. CHESLEY all of Portsmouth in said county minors under the guardianship of Caroline A. Penhallow of said Portsmouth, Greeting:

You are hereby notified that said Caroline A. Penhallow will present her account of administering the estate of her said wards at a Court of Probate to be holden at Portsmouth in and for said county, on the first Tuesday of November next, at 10 o'clock, A. M., for examination and allowance.

You are therefore hereby cited to appear at said Court to be heard thereon, and to make such objections as you may then have. And notice is hereby required to be given by causing this citation to be published three weeks successively in the Portsmouth Daily Chronicle, a newspaper printed at Portsmouth in said county, the last publication whereof to be at least one week prior to said Court. By order of the Judge,

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Falling to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER
IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

The Temperance Reform

Bids fair to accomplish a good work. An audience of over 1000 people gathered at the Temple on Sunday evening and evinced their sympathy for the grand movement for the redemption of inebriates by paying close attention to the speakers and applauding their remarks. City Marshal Johnson kept the boys orderly, in marked contrast to their conduct at the first meeting. J. Horace Kent, Esq., again presided and feelingly referred to his experience. Rev. Mr. Van Cise offered prayer, and Mr. Kent introduced Mr. Francis Murphy of Portland, who related his sad experience in a manner which drew tears from the eyes of his listeners. It is just such home talk which is needed to get the people interested in the reformatory cause. Mr. Murphy at times grew eloquent and his address was a most effective one. At the close of his remarks, the President of the meeting invited all who would like to join in organizing a Reform Society to go forward and sign the pledge, and sixty-one persons did so. It is evident by the constantly increasing interest in the movement that the heart of the community beats in quick response to the cause which appeals to the best feelings of old and young. No family is without interest in the redemption of friends and relatives who have been overcome by the poisonous liquors dispensed about the city. Let the good work go on; those who have opposed prohibition of the sale of liquors by law have an opportunity of joining with the Reformers in the popular method, moral suasion. Mr. Kent has been chosen President of the Reform Society.

Naval Changes.

Two most efficient and gentlemanly officials are to leave this Station in a few days, after a term of service alike creditable to themselves and the position they hold. We refer to Rear Admiral Pennock and Chief Engineer Moore. Mr. Moore has been ordered to duty on U. S. S. Hartford as Fleet Engineer of the Asiatic Squadron and is to be succeeded at the Yard by Chief Engineer Thom. Williamson, whose orders to the Hartford are revoked. May their official and social relations be as pleasant in their new sphere of duty as they have been here, and their successors be equally fortunate in administering their trying duties to the satisfaction of the Government and the public.

Paymaster Edwin Putnam left this city on Monday for the Pacific coast, having been ordered to U. S. Steamer Benicia. He has discharged the perplexing duties of Purchasing and Disbursing Agent at this Station for three years past with signal ability, and retains the esteem of our citizens generally, of both political parties.

Laconics.

The Grant and Wilson Guards will have a street drill this evening, leaving Republican Headquarters at half past 7 o'clock. The procession will march through the following streets: Daniel, State, Cabot, Islington, Summer, Austin, Middle, Court, Washington, Gates, Water, Pleasant and Congress Streets.

The State Fair commences to-day at Dover. A fine lot of cattle were sent from this city on Monday by Charles Hayes & Son.

The late Miss Arabella Rice bestowed money upon the following named Boston charitable institutions: Association for Relief of Aged and Indigent Females, $3000; Channing Hospital, $5000; Society for Prevention of Pauperism, $5000; Sailors' Snug Harbor, $20,000; Boston Dispensary, $5000; Seamen's Aid Society, $10,000; General Theological Library, $3000; Howard Benevolent Society, $5000; Boston Provident Association, $5000; Home for Aged Men, $5000; Consumptives' Home, $5000; Massachusetts Infant Aslyum, $5000; Massachusetts General Hospital, $5000. Total, $81,000.

A live young alligator was on exhibition at Andrews' fruit store on Congress Street, Monday. He smiled largely but took no one in.

Mrs. Shepherd, an Illinois lady, delivered a temperance lecture at Kittery, Sunday evening.

The Great Falls *Journal* says Mr. Chas. K. Pemberton of that town is the oldest locomotive engineer in New England.

The Grant and Wilson Guards

Will assemble at the Republican Headquarters this evening at half-past 7 o'clock, *promptly*, for street drill.
Per order commandant,
J. E. JONES, Adj't.

Portsmouth City Hall.

The reconstruction of Jefferson Market brings to mind the dreams indulged in before the Rebellion and the plans brought out for a more ornamental building on the site occupied by the present much abused structure. Fourteen years ago, it was thought that Portsmouth needed a new city Hall, and Mr. S. S. Woodcock, who made the plans and designs of the High School, North Church and Rockingham Bank, (and afterwards drew the plans for Mr. Frank W. Miller's Lincoln Hill Cottage) presented plans and estimates for a new City Hall, of which the neat woodcut which adorns the head of this articles is a front view.

It was thought then that the proposed new building would be "a suitable companion, on the Square, for the Rockingham Bank, North Church and Custom House, as well as for the four story blocks of stores on the Square and on Market Street." The front, in the lower story, was to be of hewn granite; the other stories of brick covered with mastic; the ornaments, all of iron. The lower story was to contain sixteen market stalls, with good passages, and an Arcade on the sides, with ample entry and staircase.

The second story was to have commodious rooms on the South for the Mayor, Aldermen and Common Council; on the North, three large offices, suitable ante-room, safes and closets. The third story was to be reserved for a large Hall, 75 feet, 6 inches, by 52 feet, 3 inches, with a gallery 12 feet by 52, the entire building to have been 89 feet, 8 inches long, and 55 feet, 3 inches wide. Mr. Woodcock estimated the probable cost of the proposed building at $30,000.

Arithmetical Problem.

The question that appeared in your papers of the 26th ult., viz: how to arrange the figures from 1 to 9, inclusive, so that added together they will amount to 100, has been solved by Winfield Marden of North Portsmouth, with the following correct answer:

$$\begin{array}{r} 57\tfrac{9}{18} \\ 42\tfrac{3}{6} \\ \hline 100 \end{array}$$

Grant and Wilson Club.

There was a large and enthusiastic gathering at Republican headquarters, Monday evening. Some of our most prominent citizens who have not heretofore taken an active part in politics were present. A Grant and Wilson Club was formed and a constitution adopted. The following officers were chosen:—

President, William H. Y. Hackett.
Vice Presidents, William Simes, Ichabod Goodwin, Charles H. Mendum, Geo. W. Peudexter, Wm. H. Rollins, J. E. Ham.
Secretary, John E. Colcord.
Treasurer, Wm. H. Sise.
Executive Committee, E. G. Peirce, Jr., Henry M. Clark, W. A. Vaughan, Jr., D. J. Vaughan, Wm. F. Noyes.

The Glee Club was present and enlivened the occasion by campaign songs. Regular meetings of the Club will be held Monday evenings.

Rascality.

A few evenings since, as a well known and highly respected lady of the South Ward was proceeding alone to the Christian church on Court Street for the purpose of attending a meeting of prayer and conference, a stranger accosted her when nearly opposite the Stone Church and invited her to take a walk with him. Somewhat frightened at such an insolent request she replied in as firm a tone of voice as she could command that she was not in the habit of walking with strangers and that she would thank him to leave her to go on her way alone. The man, however, choose to accompany her, and when they had nearly reached the church above mentioned, the cowardly fellow, seeing he was about losing his game, drew a large knife and brandishing it in the face of the terror stricken woman, threatened her that if she did not accede to his wishes he would kill her. The lady finding that her situation was growing desperate shrieked "murder" and ran for the church door, where she sank down upon the steps paralyzed with fear. In the meantime the rascal who had forced his attention upon her took to his heels and ran away.

Those "Libs."

Only thirty-four of the half dozen Liberal Republicans of Portsmouth, which the Radicals allow to exist, were Vice Presidents and Secretaries at the great Tilton meeting in that city on Thursday evening, and the other hundred and thirty were on the floor of the hall. When the whole half dozen come out, what a rattling there will be among the dry bones of the Radicals!—*Concord Patriot.*

Don't be deceived by a parade of names, Mr. *Patriot*. There were not thirty-four Liberal Republican Vice Presidents and Secretaries at the "great" Tilton meeting. There were men named in the list who were *ashamed* to be called Liberal Republicans and who declare that they never voted the Republican ticket in their lives. Other names were used without the consent of the gentlemen named, who have since declared they are Grant men. The entire "Liberal" party was on the stage and not in the audience. You 'uns will be lucky, Mr. *Patriot*, if you get the votes of half a dozen "Liberal Republicans."

The News.

A terrible storm swept over the village of Osceola, Arkansas, Saturday noon, uprooting trees, sweeping away fences, demolishing houses, etc. Three churches and several residences were destroyed and two persons were killed. The crops were ruined along the line of the tornado, which crossed the river and then swept up the Tennessee shore.

At the official investigation of the Bienville disaster on Saturday, Chief Engineer Wright testified that if the steam pipes on the Bienville had been larger and laid to the bottom of the hold, he could have extinguished the fire with steam.

John Burke, who has been on trial at Nashua for the last two weeks, for the murder of his wife at Manchester last spring, was found guilty on Saturday of manslaughter and sentenced to the State Prison for fourteen years.

TUESDAY, OCTOBER 1, 1872.

The October Elections

Commences this week with Georgia, which gave Seymour 44,608 majority over Grant for President in 1868. In 1870, the Democrats had 26,86– majority on Congressmen. The present legislature has 14 Democratic majority in the Senate and 113 majority in the House. The Republicans have nominated for Governor Hon. Dawson A. Walker, formerly Judge of the Supreme Court of the State. The Democratic candidate is Hon. James M. Smith, the present incumbent of the office. The Democrats of Georgia are much divided on the question of Presidential candidates, very many of them openly opposing Mr. Greeley. They seem, however, to be well united on their nominee for Governor, and the vote for Mr. Smith, therefore, will not be a fair criterion by which to estimate the probable vote for Greeley in November. The election takes place on Wednesday.

On the 8th, Pennsylvania, Indiana, Ohio and Nebraska are to vote. Iowa, in Presidential years, holds its election for State officers, Congressmen, &c., at the time of the Presidential election. In other years it is held in October.

In Pennsylvania, a large vote will be thrown. Gen. Hartranft, the Republican candidate for Governor, is opposed by the Forney Republicans, who are for Grant. We anticipate the election of the whole Republican State ticket, the true test on national questions being the vote for Congressmen-at-large. The Republican majority at the State election in 1868 was 6677. Last year the majority was 14,490. Pennsylvania's delegation in the present Congress consists of 13 Republicans and 11 Democrats. The Legislature to be chosen will elect a United States Senator, in place of Hon. Simon Cameron, Republican, whose term expires in 1873. In the present legislature, the Democrats have the Senate by two majority and the Republicans have 12 majority in the House. Of the eleven districts which elect Senators this Fall, seven gave Republican and four gave Democratic majorities in 1871. Thus, to secure the control of the body, the Republicans must carry all these seven districts, or, failing to do so, must make it up by carrying one or more of those which gave majorities against them last Fall.

The campaign in Ohio will doubtless result in a grand Republican triumph. The Republican majorities for State officers for four years have been as follows;—in 1868, 17,388; in 1869, 7518; in 1870, 16,694; in 1871, 20,168. The members of the 42d Congress are politically classified as 14 Republicans and five Democrats. In the legislature, the Senate is a tie; the House has nine Republican majority.

Indiana is a close and doubtful State. In a vote of 342,189 in 1868, the Republicans chose their candidate for Governor by only 961 majority. President Grant's majority, however, a month later, was 9572. At the last election, in 1870, the Democrats had 2568 majority in a total vote of 317,550. Gen. Thos. M. Browne is the Republican candidate for Governor. His opponent is Hon. Thos. A. Hendricks, who has twice before been defeated for Governor. Indiana is represented in Congress by six Republicans and five Democrats, one Republican having but four majority. The Democrats have both branches of the legislature—two majority in the Senate and six in the House. The Legislature to be chosen will elect a United States Senator in place of Hon. Oliver P. Morton, whose term expires in 1873. The Legislature last chosen was dissolved in February, 1871, by the resignation of most of the Republican members, leaving the body without a quorum.

Nebraska will elect State officers, a Congressman and legislature. Hon. Robert W. Furnas is the candidate supported by the Republicans for Governor. Hon. H. C. Lett is the Democratic nominee. The present legislature is Republican in both branches—seven majority in the Senate and 21 majority in the House. Nebraska has given Republican majorities as follows;—in 1868, for Governor, 2491—for President, 4290; in 1870, (last election,) for Governor, 2478—for Congressman, 4408.

South Carolina will hold an election for State officers and Congressmen, Oct. 16th. There are two Republican tickets for Governor in the field, the Democrats having made no nomination. The Republican majority for President in 1868 was 17,579. The Republican majority for Governor at the last election, in 1870, was 33,534 in a total vote of 136,608—the largest ever cast. The delegation in the lower House of Congress consists of four Republicans. The present legislature has 20 Republican majority in the Senate and 79 majority in the House. The Legislature to be chosen will elect a United States Senator, in place of Hon. Frederick A. Sawyer, whose term expires in 1873. Thirteen members of the Senate hold over, leaving seventeen to be elected at this time. There are but five Democratic members of the Senate.

Political.

Mr. Greeley thinks he ought to be President because there is a young man in Charleston, South Carolina, acting as clerk for a negro assessor at two dollars per day, who, when that State seceded, was living in Paris on an allowance from his father of $25,000 a year. It would be pleasing to know whose fault it is. Is it the negro's or General Grant's? And is the young man positively forced to earn his $2 a day in this degrading manner? Perhaps it would have been wiser in him to have saved about $20,000 a year when he had a chance, and gone west. But what does Mr. Greeley propose to do about it when he becomes President? Remove the young man or remove the negro?

This is the way the Democrats talk when they frankly speak their thoughts:

The Providence *Herald* says "the Louisville fizzle has killed Hartranft's chances." The killing was certainly justifiable, but it would have been much more so if Hartranft had been killed instead of his chances.—*Louisville Courier Journal.*

The Democrats of West Virginia will soon nominate a ticket for electors who favor O'Conor and Adams.

The Knoxville *Chronicle* fears that things are getting terribly mixed among the Democrats of Tennessee. Quarles, one of the Democratic Electors, supports Greeley and Cheatham bitterly opposes Johnson. Fleming, another of the Electors, supports Greeley and Johnson. Johnson supports Greeley, and, in casting his vote for him, will have to vote for Quarles, who intends to make a strong canvass against him.

Some enthusiastic Greeleyites are expressing their admiration for their great leader because he is able to make so many speeches and not repeat himself. But how can a candidate repeat himself whose opinions change at every other railway station?

The Union Republican Congressional Committee publishes a *Grant and Wilson Campaign Song Book*, which is sold for twenty cents a copy.

The New York *Star*, a Greeley paper, is disturbed about the acceptance of O'Conor, which it fears will draw off Democrats who, down to the date of that acceptance, were for Greeley, though he was a bitter pill to hundreds of thousands of them. Many Democrats, the *Star* says, of Know-nothing proclivities, will vote against Kernan for governor, because he is a Catholic. This feeling, which that paper thinks will lose Kernan thousands of votes, will prevent Greeley also from getting those votes, from a dislike men have of scratching tickets. The rural districts the *Star* is especially afraid of on this question.

The official canvass of the State of Vermont shows the vote for governor to be as follows: Converse (Rep.), 41,946; Gardner (Dem.), 16,613; scattering 14; majority for Converse, 25,319.

A Philadelphia dispatch says Yerkes, the banker, has made a sworn statement before Mayor Stokely, fully vindicating Gen. Hartranft from all the charges recently made. His affidavit states that the affidavits photographed and sent broadcast over the State, purporting to be made by him before Alderman Dougherty, were forgeries; that he never made and signed them; that the account of Gen. Hartranft with him was perfectly legitimate, having no connection whatever with the funds of the State, and that in no way, shape or form did Hartranft through him derive any use, benefit or advantage of any State fund; that Dr. Paine, representing himself as attorney of one of the creditors, obtained access to Yerke's office and purloined therefrom his private papers, among them some letters of Hartranft which have been used to give credence to the false charges circulated. Yerkes' statement is supported by other strong evidence.

The Hartford *Times* (Greeley Democratic) has never manifested much love for the soldiers till the other day, when in describing a reunion of the Fourth Connecticut Heavy Artillery, it gushed with enthusiasm over a vote forced by the Graotites, which resulted; Grant 65, Greeley 63. Wherefore, it is very unkind for the Hartford *Courant* to take away that crumb of comfort, as follows:

In the first place, no vote was taken at the reunion, secondly, the reunion was not held at Mystic; thirdly, the regiment has not held any reunion this year; and finally, there never was such a regiment as the "Fourth Connecticut Heavy Artillery." With these trifling exceptions the *Times* has succeeded in finding a first rate "Greeley straw."

A Milwaukee (Wis) dispatch says that the straight Democrats, besides putting an electoral ticket in the field are going to make nominations in every Congressional district in the State.

Hon. C. Mitchell, the Republican nominee, was chosen U. S. Senator by the Oregon legislature on the 27th. He received 41 votes, Corbett 12, Prince 4.

The Washington *Capital*, a Greeley paper, denies that Gen. Garfield has been connected with the Credit Mobilier.

The figure-head of the Greeley electoral ticket in Iowa is Gen. Fitz Henry Warren, who knows all about corruption in office. He held three at one time, drawing pay for all. The administration took two away and the people the other. Consequently he is clamorous for "reform" to get hold of some more offices.

This is the unkindest cut of all. The Alexandria City Council, which is composed almost entirely of Democrats, has rejected a resolution inviting Mr. Greeley to visit the city as its guest when he comes to Baltimore in October next. One member moved an amendment that Mr. Greeley pay his expenses, stating that he had done so on several previous visits.

THE PANORMO MURDER.—These are the particulars of the murder of Panormo in New York as given by William Higgins, the professional thief, who had them from Kane Cockney, now believed to be in Michigan: One of the gang grabbed Panormo by the collar and, in a rough voice, "What have you about you? come: pony up!" he said, at the same time shaking Panormo. As soon as he felt he was grasped he cried out, or attempted to cry out, for help, and another of the four pulled out a pistol and jabbed him in the neck with the muzzle and said, "—— your dirty soul, if you yell out again I'll blow your brains out." Feeling the muzzle of the pistol at his neck Panormo stopped and a third man proceeded to go through him and was just on the point of taking his gold watch when the man who pulled the pistol on him, thinking Panormo would not dare to cry out, replaced the pistol in his pocket. Seeing the pistol disposed of, Panormo again cried out for help, and that cry cost him his life, for, with a terrible oath, O'Brien struck him on the temple with a club, and as the unfortunate victim was reeling backward from the effects of the blow he again struck him, the club hitting him over the left eye and flat along the face to the upper lip, and this blow was the one which made the terrible wound which was so fully described at the time. Only two blows were struck, and the man who was robbing him of his watch grabbed it, and seeing him felled and bleeding they all ran off and reached New York in different directions. The weapon Panormo was struck with is a club made of lignum vitæ, exceedingly heavy, fourteen inches in length, and is what is known in the police force as a parade club. The police believe Higgins' story, because all he has told has thus been verified. Three of the ruffians have been arrested.

In the municipal election at Nashville, Tenn., Kercheval, Republican, was elected Mayor over Morris and Wilson, Conservatives.

A dispatch received at the Grant National Headquarters says with a full, fair vote Indiana on Tuesday would give 10,000 Republican majority, and the Democrats cannot do cheating enough to overcome much more than half of it, so that the State is considered sure in any event to do better than at any election since 1866.

Base Ball.

The past week's games render it virtually certain that the Bostons will fly the whip pennant as champion club for the season, they having won thirty-four games, with seventeen yet to play, while the Mutuals have won thirty-one, the Baltimores thirty, and the Athletics twenty-eight. The Mutuals have still eleven games to play.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Mincrals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

A DISABLING DISEASE.—No disease which does not confine a man to his bed so completely unfits him for business as dyspepsia. When the stomach is foul, the brain is always muddy and confused, and as the cares and anxieties of life are a sufficient burden for the organ of thought to bear, without being tormented by the miseries born of indigestion, it is highly desirable for the brain's sake, as well as for the sake of every other portion of the system, that the disordered stomach should be restored with the utmost dispatch to a healthy, vigorous condition. This object can always be accomplished by a course of Hostetter's Stomach Bitters, the purest and best of vegetable specifics, which evacuates the morbid humors through the bowels, rouses and tones the torpid stomach and regulates the liver, imparts firmness to the nerves and clears the sensorium of its mental cobwebs. Persons subject to attacks of indigestion, bilious headache, irregularity of the bowels, sickness at the stomach, or "the blues," should take the Bitters once or twice a day throughout the present season.

CUPID'S AMBUSCADES.—The sly archer, Love, shoots his arrows from many coigns of vantage, but it is doubtful if he delivers his heart-taking shafts from any ambush with more effect than when he arms them from the braids and folds and ringlets of a superb head of hair. Ladies who have not been favored by Nature with this crowning charm of womanhood, can readily and certainly increase the volume of their hair and impart to it a silken lustre by using Lyon's Kathairon as a daily dressing; while those whom Providence has blessed with a superabundance of this "Glory" of the sex, can preserve it, undiminished in quantity and undiminished in beauty to the latest period of life. There is a germinating principle in the Kathairon which literally *compels the hair to grow*. It extirpates scurf, dandruff, and all exfoliations and excrescences of the scalp which interfere with the rapid and healthy development of the fibers.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

THE THIEF who was arrested for robbing Parsons' store in this town, was found to have a quantity of Ayer's Hair Vigor in his possession. When asked why he wished to steal that article, he answered that he "wanted to restore his hair, for it was hard to be a thief and bald too." If that invention of the great chemist could restore a faded character as effectually as it does their natural beauty to bald and grey heads, it would surely be, as they say it now is, truly invaluable.—*Lewiston (Me.) Journal.*

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

HOLLOWAY'S PILLS.—They revive the appetite, promote digestion, sustain the vital powers, relieve all pain and uneasiness in the stomach and bowels, and strengthen the constitution as well as expel disease. The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

"WELL

Old Wheezy, what's the matter with you and why are you muffled up so?"

"Wretched cold! Can't speak aloud. My throat's so sore and lungs so oppressed it pains me to talk."

"Now, Old Boy, I was in the same predicament and have been wonderfully cured. Met a friend who urged me to take

PULMOCINE CORDIAL

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL It has been known to the public about forty years, by a long continued series of marvelous cures which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupulise, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the fever, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUGHS, and Much has been said and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to fall off prematurely, and either effects is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these infirmities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

The Chronicle.

The Baby in Breeches.

It was all owing to the other baby. There was no call for that baby, that I know of. There were babies enough before. When, as breakfast neared its close, Harry was heard thumping slowly down the stairs, pit-pat, pit-pattering through the parlors and the library, and presenting himself at the dining-room door in fresh white frock and radiant face, emitting angelic warwhoops of delight, the old house seemed full of babies. And when he rushed around the room with eyes, bent head, and shoulders thrust forward in frenzied eagerness for a chair, and when he had made good his divine right to a seat at the table by pushing his chair headlong into a place regardless of what broadcloth or ruffles might interpose, when he had painfully climbed up into the adult chair, and had brought his precious nose very nearly to a level with the table—with what serene delight, with what entire self-approbation and world-satisfaction did he gaze around upon us, his aspiring, ambitious, unsatisfied elders! With what sweet frankness he poked his sudden fingers into the peach preserve! With what sublime abstraction did he upset all the cups and saucers in his endeavor to reach the oranges! What a small thing it seemed to him in flashes of adventurousness, to rise up in his chair, climb up on the table, and creep along to the otherwise unattainable sugar-bowl; and when a blind and unreasonable prejudice interfered with this, his simple and honorable ambition, what hearty howls attested to his keen sense of right to life, liberty and the pursuit of sugar-bowl on the floor, and restored the equilibrium to the universe.

Certainly Harry was the baby though to satisfy a reasonable mind. Hi-ignorance was of the most approved pattern, and penetrated every fastness in the whole province of knowledge. He not only, like Sir Thomas Moore, did not know Greek at three years of age, but he was very imperfectly acquainted with English. He had never so much as heard whether there be any alphabet. He knew how to tumble all the collar, ribbons and trinkets out of the upper drawer into kaleidoscopic confusion. He could toss Billy the fireman toward the ceiling in such eccentric orbits that he would be sure to strike against the vase and upset the flowers on his way down. But of any useful knowledge—or of any knowledge that promised to be useful—he was destitute to a degree that would have charmed the heart of the most devoted believer in vital statistics.

But another king arose who knew not Joseph. Another baby must needs come peeping and prying into the world, and baby Harry must abdicate. The badges of his royalty must go. All his little cambric flounces, all his lovely silken-stitched flannel petticoats the folds and tucks and ruffles and ribbons of his infantile grace—the insignia of his innocence, the vestiges of his heavenly creation—were to be ruthlessly rent away; he was to make his debut in the straight lines and plain surfaces and monotonous hues and unmitigated bifurcations of the unbeautiful sex, the sex which is not lovely in it-elf, and which borrows no loveliness from its dress; for even the most thorough advocate of the equality of the sexes must admit that the handsome man is but a rough and primitive creation compared with the handsome woman, and that while the plain woman, by correct combination of color and outline, can at least reduce her plainness to its lowest terms, and sometimes combine it altogether out of sight, the plain man has nothing to do but to put on his hat and coat and to fight it out on that line.

Of course we all knew that Harry must come to it in time, why array him prematurely in the somber garments of manhood? Why put his awful baby ignorance and innocence in such grotesque contrast with his manly garb? It is only for his brief blossoming that he can have the beauty of drapery. Once out of it, he returns, returns no more. Once robbed of his cambrics and muslin, and there remains for him through life nothing but a dreary waste of trowsers—pitless stretch of dun broadcloth, scarcely brightened, certainly not relieved, by the stiffness of starch and uncompromising linen. The time may come in the flood-tide of youth and love when he will put a bouquet in his button-hole. In his famished craving for color he may possibly indulge a blue-bordered handkerchief; but not for him the broad expanses of lustrous hues; never for him the rainbow tints, the sunset blendings, wherein his sister may luxuriate. It is only the short sweet morning of his babyhood that can be tricked out in curve and color, in feathers and flowers, and all fantastic finery.

But the decree goes forth. Off come the bobbing little petticoats that I love, the chunky little sleeves so full of the chunky little arms, the baby waist that has nothing in common with the tyrant man, and never so much as suggests the arrogance and domination of the oppressing sex—and Baby Harry goes into breeches and extacies.

But I have my revenge. With the robes he has not put on the soul of manhood. His awful innocence is too fresh from heaven to be smothered by jacket and trowsers. He has by no means yet unlearned the contorions and climbing, the crawlings and rollings of his lost estate, and his clothes have hard work to stay on. It is only by the skin of their teeth that the trowsers keep connected with the jacket. He emerges from his dress-room dainty and decorous, "close buttoned to the chin," collar straight, shoes tied, stockings fast—a little man. An hour passes, and the little man has one shoe off, the string of the other gone. One red stocking has been displaced by a black and white striped one, with the heel cocked defiantly over his instep, and the other stocking is reefed around the ankle. Both bare, brown, battered knees are surmounted with a white cotton crown, and the minute breeches are tucked up as high as they will go around the minute legs. Buttons have treacherously parted company with button-holes, and alow and aloft bears Harry his flag of truce. Dear little dilapidated man—comical mockery and travesty of a man—minikin, midget, baby in breeches—such and so great confusion comes upon all impatient and evil-minded parents who are not content to wait the flower's slow unfolding, but will have the tiny and tender bud spring suddenly into the broad-bannered rose.

"Harry Midget, come here and be reconstructed. What did you see at the circus yesterday?"

"A leffalent and a baby leffalent!"

"And where is Kathrina gone?"

"Gone to Frank-an-cisco!"—pulling out for freedom.

"Stop. Tell me what is the Japanese Embassador's name?"

"I-hack-u-ura!" — tugging mightly away.

"How much do you love me? Then you shall go."

"Tin-dollar."

"That all?"

"And a gold locket!"

Bless the baby, with or without his "troublesome disguises," which, after all, rather emphasize than disguise his boyhood.—*Gail Hamilton.*

A PLEASANT SUGGESTION.—It will give any one a strong desire to wash himself and an immediate longing for wine jelly to read the following which is given as a fact:—

"Prime old Brown Windsor Soap is said to be now manufactured almost entirely from 'bone grease.' In the preparation of this material, bones of every description and in every stage of putrefactive decomposition are ground to a fine powder and submitted to the action of water boiling under pressure in a digester. The resulting mixture is then cooled, when the undissolved bone earth settles to the bottom, while fats or oils rise to the top, and between these rests a solution of the bone gelatine in water. Out of this gelatine solution by solution processes a patent isinglass is manufactured for the preparation of the soups and jellies of the pastry cook, while the oil or grease is saponified and converted into Fine Old Brown Windsor. In the soap thus produced there remain fine particles of bone earth, which when the soap is rubbed on the face, as in shaving, lacerate or scratch the skin, and the wounds thus produced are, according to some, poisoned by noxious matters originally existing in the bones, and which all the processes of putrefaction, extraction at high temperature, and even saponification have failed to destroy."

FOR LADIES TO READ.—A philosophic editor thus discourses to the ladies. Its effects on their movements wont be, as Dominie Sampson would say, "prodigious:" "Among the young men in the matrimonial market, only a small number are independently rich, and in America such rarely make good husbands. But the number of those beginning in life, who are filled with a noble ambition, who have a future, is very large. These are worth having. But such will not, they dare not, ask you to join them, while they see you so idle, silly, and gorgeously attired. Let them see that you are industrious, economical, with habits that secure health and strength; that you would be willing to begin at the begining in life with the man you would consent to marry; then marriage becomes the rule, and not, as now, the exception."

—John of the New York *Sun* thus spreads the pinions of his truthfulness: I swallowed the second joint of the star-board codfish ball, and I thought of what a narrow escape I had once in a foreign land. It was in New Jersey, where I had to wear an old iron grate over my face of nights to keep the mosquitoes from digging wells into my head. One night I awoke from a deep trance. In my dreams I thought I had married Miss Amelia Spotted Tail. When I awoke I found I hadn't: but I found a mosquito at work at the grate whetting his sucker on it preparatory to sampling me, when swift Jersey justice came to the rescue. The police rushed in and arrested him for opening a bar without a license, and that saved me.

—An absent-minded man entered a Troy shoe store, and wanted his boy measured for a pair of shoes. "But where's the boy?" said the dealer. "Thunder!" said the man "I've left him at home. I'll go and bring him;" and off he started for his house, six blocks away.

Morning Chronicle.

—The *Scientific American* describes a strange fertilizer. At Stratford, Conn., where mosquitoes are as thick as fog, lives an ingenious Yankee, so they say, believe it who may, who puts these insects to profitable uses. He has invented a large revolving scoopnet covered with lace, which is put in motion by a windmill, water power or steam. The lower half of the scoop is placed in water, the upper half moves through the atmosphere, and at each rotation draws an immense number of the "squitoes" down into the water, where they drown and sink to the bottom. Every revolution of the net draws in one ounce of mosquitoes, or a ton for 32,000 turns of the machine. The mosquitoes thus collected make a splendid manure for land, worth $45 a ton.

—A gentlemen recently married in Chicago presented his bride at the wedding with the original transcript of one of the first despatches ever sent over the telegraph line, from Baltimore to Washington. It was the announcement to the lady's grandmother of her birth, and read, "Only a girl."

—A story is told of a Davenport boy who two years ago was given ten cents, which he invested in matches and sold at retail, and reinvested the proceeds in trade, and to-day is worth one thousand one hundred and fifty dollars, all made in legitimate trade from that ten cents.

—One of the Mesdames Brigham Young has been paying a visit to Chicago, and they say that the competitive attention shown her by divorce lawyers who were anxious to get the business of the family was something quite overwhelming.

For Coughs, Croup, Diphtheria, Asthma, &c.

USE BUCHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was put up by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

In the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the choice of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pale, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best means to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

AYER'S

SARSAPARILLA

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

The Spirit of Love

Generated by the wire-pullers' convention of Cincinnati, ushered into the world by the Baltimore convention of political marketmen and nursed by the national conglomeration of hand-claspers across bloody chasms, was well exemplified in the great Chappaquack's unjust, insulting and bitter tirade against the past soldiers and sailors of the Union, because they dared to prefer some other man to him for President; and the same "conciliatory" spirit has been exhibited by Mr. Greeley's followers in many places on numerous occasions—notably in this city, when the wounds of the war have been torn open afresh and the delicate sensibilities of our Southern brethren outraged by Republican processions.

A fresh proof that Honest Horace was right when he said that "the lewd, ruffianly, criminal and dangerous classes" his a body train in the ranks of his present supporters, was given by them on Monday evening, when the junior organization of Grant and Wilson Guards had a street parade. These little boys, some of whom are not more than eight or ten years of age, were subjected to assault and violence throughout almost the entire line of their march. One boy was struck in the face by a brick and badly injured,—the brick being thrown, as we are informed, by a young candidate for State Prison, named Sullivan, who is well known to the police; one big fellow, a man grown, exhibited much activity in the hand-clasping business, and a rap on the head received by one of Mayor Marvin's little boys is credited to him; a son of Mr. Daniel L. Randall was knocked over with a club, and went home faint and sick; several other boys received slighter conciliatory admonitions that the hand-clasping Democratic party will not tolerate Republican processions, and torches were shattered by blows from stones and in several instances twisted out of shape by persons who strove to take them away from their bearers. "Conciliation" may be brooding over the Demo-Greeley party, but it evidently hasn't brooded long enough yet to hatch out much universal love in the hearts of "the lewd, ruffianly, criminal," etc.

Room For Reform.

A good subject for the Washingtonians to practice on went down State Street about 1 o'clock Monday afternoon, in the shape of a boy apparently about fourteen years of age, "rolling drunk." His name was given us, but we do not care to print it. Our informant, on our expressing surprise at so small a boy being in such a condition and that anything calling itself a man could be so degraded as to furnish intoxicating drink to a mere child for the sake of a few coppers' profit, replied, "O! he don't find any trouble in getting all he wants; he hasn't been sober for two years!" a statement which—however exaggerated it may seem—several bystanders corroborated. We cannot tell where or of whom this boy got the rum or whatever it was he was drunk on, Monday, nor whom he has patronized for the last two years; but we fancy "moral suasion" would have its hands full in reforming the boy drunkard, and do not believe the microscope has yet been made which would reveal the soul of the creature or creatures who have sold him or given him intoxicating drink. The temperance movement "has a large field to plough" in this city, and the reform has commenced none too soon. We only hope it will go on until every grog-shop in the city closes its doors for lack of custom.

Laconics.

It is moved and seconded that the Market Street Grant and Wilson flag be taken from its present hiding place and be hung out.

A company of O'Conor and Adams Guards is to be formed in this city. Fifty signatures have already been obtained. Now, if the Greeley Greybacks would only organize, there would be lively times; it is said that arrangements for furnishing uniforms at low rates were completed several weeks since, and it is very discouraging to the managers that men cannot be found to fill them.

A master builder informs us that Mr. S. S. Woodcock did not furnish the plans for the construction of the North Church and High School.

The amateur editors, publishers and printers of New Hampshire met at Haseltine's Hotel, Manchester, on Saturday, and organized the Granite State Press Association. Harold S. Dana, of Woodstock, Vt., was chosen President; F. H. Pinkham, of Newmarket, Vice President; G. E. Towksbury, of Manchester, Secretary; and L. G. Hoyt, of Exeter, Treasurer. A letter was read from Mr. Wm. L. Terhune of this city regretting his inability to be present.

Officer Currier, of Salisbury, made a seizure on Monday afternoon of fourteen barrels of ale consigned to Gallagher at the Mills village from Portsmouth. The ale was locked up in the watch house.—*Newburyport Herald.*

Edwin Booth, the eminent tragedian, appears at the Temple on Thursday and Friday evenings, in his great characters of *Hamlet* and *Cardinal Richelieu.*

We are informed that the Portsmouth Music Society, with Harlow's Orchestra, are making arrangements to give a grand concert of the Jubilee music, at the Temple, on a Sunday evening in November; and that a rehearsal for the same will be held at Mr. Tilton's room on Market Street, on Sunday evening, Oct. 13th, at 7 o'clock. The Society also hold weekly rehearsals of the Jubilee music each Wednesday evening.

Mr. Edwin A. Hills, formerly of Dover, has commenced the issue of a sprightly daily at Lowell, Mass., called the *Times.* Mr. Hills takes great interest in his new sphere of duty and deserves success in the new enterprise.

The Eastern railroad rests heavily on the Lynn *Reporter's* stomach.

The members of the Grant and Wilson Cavalry Company are requested to meet at the Republican headquarters this (Wednesday) evening at 7 o'clock, for the election of officers.

Old Time Chronicles, No. 58.

BY UNCLE JOSEPH.

INDIAN TROUBLES IN EPPING.—Epping was originally a part of Exeter, and was incorporated in 1741. But one instance of fatal depredation by the savages took place, and that was in 1710, when it was a part of Exeter, when Col. Winthrop Hilton of Newmarket was killed. He with others was cutting timber for masts in the easterly part of the town, probably not far from the place where a Camp Meeting is now held each year. Two of his party fell with him, two were taken prisoners and a brother of the Colonel was missed and never heard of afterwards.

The early inhabitants had grave fears of the Indians. There were three garrison houses in town, to which many fled for safety in time of danger. One of these was two miles west of the center, where now stands the dwelling of Mrs. Rhoda Murray. Between that and the center, usually called "the corner," lived a man who 50 years ago used to relate in our hearing what he knew about those troublesome times.

After 1747, in which year the first minister, Mr. Cutler, was settled, men went armed to church, stacked their guns near the place of worship and had a sentinel placed over them. He had also seen guns carried into the fields and other places of labor, ready for use if necessary. He gave as an instance of alarms they experienced the case of a man named Norris, whose great-grandson now lives near the spot and on a part of the same farm, who ran into the house one day and told his wife and children to hide in the cellar, for, said he, "the black di-vels have come." They fled and he watched in one of the rooms. He was relieved by discovering that it was only his horse feeding beyond a fence, and that it was its head occasionally raised that he mistook for a savage foe.

In 1752 three persons were killed in Nottingham, a town adjoining, and the people in Epping were in terrible fear. But about ten years later the storm of Indian warfare ceased, the town increased rapidly in population, and industry and good order prevailed, while former fears were given to the winds. We have said the population increased: in 1769 it was 1410, or 140 more than it was at the census of 1870.

—Gloucester fishermen are making a good season in their business this fall.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs.* No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON. After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Research made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

AYER'S PURGATIVE PILLS.

For all the purposes of a Family Physic, CURING Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood.

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organs into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous disease. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

For Coughs, Croup, Diphtheria, Asthma, &c.

USE BUCHMAN'S PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients of "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

Geo. C. Goodwin & Co., WHOLESALE AGENTS, HANOVER STREET, BOSTON.

And at the N. E. P. UNION STORE, Market St.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe. Years were spent in experimenting with it before he was satisfied that the Materia Medica could add nothing to its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of an ALARMING DISEASE. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the ounce of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pains in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

AYER'S

SARSAPARILLA

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Pustules Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

VEGETINE

The Great Blood Purifier.

A valuable Indian compound for restoring the health, and for the permanent cure of all diseases arising from impurities of the blood, such as

Scrofula, Scrofulous Humors, Cancers, Cancerous Humor, Erysipelas, Canker, Salt Rheum, Pimples and Humors on the Face, Ulcers, Coughs, Catarrh, Bronchitis, Neuralgia, Pains in the Side, Rheumatism, Dyspepsia, Constipation, Costiveness, Dizziness, Piles, Headache, Nervousness, Faintness at the Stomach, Pains in the Back, Kidney Complaints,

Female Weakness, and General Debility.

This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon these complaints are surprising to all. Many have been cured by the VEGETINE that have tried many other remedies. It can well be called

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Cough, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, colds, consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy and $1000 will be paid if found different from representation.

COUGHS, Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no salt or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the softest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Alleyantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to full of premature old age. The effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores the faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum,

Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a *man more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGART."

The Chronicle.

THE JUNK SHOP.—The "port" of the river thief, his warehouse, and his bank is the junk-shop; and nothing that he can land will come amiss to these capitalists of South and West streets, from an old rope to a ship's chronometer. The liberality and extent of their dealings may be guessed from the fact that they are prepared to fill orders from sale parties for almost any thing, except it might be not house flowers or an iceberg. The main point with the thief is to get his cargo in with secrecy and safety. It is the junk dealer's perpetual problem to get all questionable goods away, beyond searching distance, before the gentlemen in blue come after them, as they are reasonably sure to do. Of course, and beyond all doubt, there are honest junk dealers, who will neither buy nor sell that which does not bear the clean stamp of honest traffic, just as there are very honest pawn-brokers, but perhaps not to so great an extent.

The difficulties in the way of trade, referred to above, are greatly increased by the shore police, and a brace of detectives, in citizen's dress, who constantly patrol the whole water-front from shop to shop. Broad noon is a good time for the river men to run in, when every probable watcher is at his midday lunch. A "pack" of vessels in the dock will afford a good chance for concealment till a favorable opportunity occurs. The shades of night have in all time been friendly to such undertakings. The junk dealers are never off duty or unready for business, and but for the constant vigilance of the harbor police and their allies on shore this class of commercial transactions would speedily assume proportions truly interesting. As it is, not a few junk men have lately complained bitterly of the slackness of their trade, and some have even retired from business altogether for lack of encouragement.—*Harper's Magazine, for October.*

THE WHIP HOLDERS.—This great world is full of mysteries. I can comprehend the pleasure to be got out of the hydraulic engine; but what can be the fascination of a whip, when one has nothing to flagellate but the calves of his own legs, I could never understand. Yet a small riding whip is the most popular article with the miscellaneous New Englander at all great gatherings,—cattle shows and Fourth-of-July celebrations. If Democritus and Heraclitus could walk arm in arm through one of these crowds, the first would be in a broad laugh to see the multitude of young persons who were rejoicing in the possession of one of these useless and worthless little commodities; happy himself to see how easily others could purchase happiness. But the second would weep bitter tears to think what a rayless and barren life that must be which could extract enjoyment from the miserable, flimsy wand that has such magic attractions for sauntering youths and simpering maidens. What a dynamometer of happiness are these paltry toys, and what a rudimentary vertebrate must be the freckled adolescent whose yearning for the infinite can be stayed even for a single hour by so trifling a boon from the venal hands of the finite!

Pardon these polysyllabic reflections, beloved, but I never contemplate these dear fellow creatures of ours without a delicious sense of superiority to them and to all arrested embryos of intelligence, in which I have no doubt you heartily sympathize with me. It is not merely when I look at the vacuous countenance of the mastigophori, the whip-holders, that I enjoy this luxury (though I would not miss that holiday spectacle for a pretty sum of money, and advise you by all means to make sure of it next Fourth of July, if you missed it this), but I get the same pleasure from many similar manifestations.—*Atlantic Monthly.*

CHEAP FUNERALS IN LONDON.—Prentice Mulford writes from London to a California paper: "All about London you see advertised 'cheap funerals.' You can be shrouded, coffined and buried, with four mourners, for about twenty dollars. Of course these mourners do not know who you are, what you are, where you come from, or where you are going to, but they will look as if you were the last friend they had expected to have on earth, with a yard of black crape dangling and waving from their hats like so many pirate flags, and when you are covered up they will adjourn to the nearest public house, and over their porter and cheese pray for some one else to die as soon as possible, with cash enough to be mourned over. No cash here, no mourners. All these professional mourners have red faces and bottle noses, black suits, second hand, well inked at the seams, and black gloves one-third too large. The friends and relatives within the carriages have all the outward semblance of woe on them. The last appear contented, and many never enjoy a ride in a coach, save on such mournful occasions. Who ever saw one shed tears at a city funeral? If you would have your friends 'weep not for me when I am gone,' die in the metropolis. Tears are for the country, along with dew, flowers, snakes and hop toads."

TO ADVERTISERS.

We shall print 5000 copies of the

NEW HAMPSHIRE GAZETTE

With the commencement of the 117th volume, next week. A *fac simile* of the first issue, Oct. 7th, 1756, will be sent to each of our subscribers. Advertisers are requested to send in their advertisements as early as Tuesday, as we go to press Wednesday morning.

The Lake Disasters.

The disasters on Lake Huron were much worse than on Lake Erie. Many lives were lost. The barque Table Rock was wrecked on Towers Point and all hands lost but one. Schooner White Squall sank off Fish Point, and only one man was saved. Schooner Neshoto was sunk at White Fish Point, and five of the crew drowned. An unknown schooner on her beam ends, and a propeller with a spar and smokestack above water were passed on Saginaw Bay. Schooner Corsair foundered off the highlands of Sauble, and only two were saved. Many vessels are reported ashore above Sauble. Propeller Detroit is a total loss at Greenbush; brig Globe sunk at Truro; schooner Rebecca is ashore at Alabaster.

Indiana.

Each day is now a "field day" in Indiana. Yesterday Gen. Butler and others addressed a mass meeting estimated at 20,000 in Kokomo. He spoke for two hours with great effect, and the enthusiasm was at the highest pitch. Hon. Jason B. Brown, Democratic State Senator, made a rousing speech for Grant to an immense throng at Jeffersonville last night. Gen. Browne, Republican candidate for Governor, made his ninety seventh speech of this canvass to a vast crowd at Vincennes yesterday afternoon, and was followed by Hon. W. H. Wadsworth of Kentucky. At night there was a splendid display of torch-lights and fireworks, and the enthusiasm was unbounded.—*Cincinnati Chron.*

Political.

New Yorkers have sold pools on the Pennsylvania election. Hartranft was the favorite, and numerous bets of ten to seven, five to three and five to four were made, the majority of them being five to three. Several bets were made on the election in New York, the odds in favor of the Republicans, and about $2000 were offered, five to four on the Republicans carrying the State, but without takers.

Mr. Ludwig, Presidential elector on the Greeley ticket for the Seventh district of Missouri, repudiates the concern and withdraws his name.

The straight-out Democrats are beginning to make some stir, and seriously think of putting an electoral ticket into the field. They will probably take no active steps, however, until after the October elections.—*Biddeford Times.*

John S. Barber, Esq., a life-long Democrat, and recently one of the leading speakers on the Greeley coalition side, has declared for Grant and Wilson, and will go upon the stump for the Republican ticket. It creates immense enthusiasm and sensation here, says a telegram from Cortland, N. Y.

The new "minority representation" plan of elections which is to be applied to the coming election for State Representatives, will make a marked change in the way of doing things. The county is divided into seven districts, from each of which three Representatives are to be chosen, but as the opposition, by concentrating their votes on one man can certainly elect him, the Republican Committee have decided to nominate only two men, so as to make their election more sure. Thus each voter will cast three votes for Representative, and he can cast them in either of the following ways; For John Smith 1, John Jones 1, and John Jenkins 1; and for either Smith, Jones or Jenkins three. The Liberals, by casting all their votes for one man can certainly elect him, even in the districts where the Republicans are strongest, and *vice versa*. Hence the seeming mistake in the call for the nomination of but two candidates where three are to be elected.—*Chicago Mail.*

The News.

The decrease in the national debt during the month of September was $10,376,337.09.

The exodus from Alsace and Lorraine has been immense during the past few days, on account of the expiration of the time granted the inhabitants to choose between German and French citizenship. Fully 1200 men, women and children left the city on Sunday for French territory. The trains on the railways leading into France were crowded and proved insufficient to carry all who wanted to go.

Seven masked men entered the residence of Samuel Pope in Patterson, N. J., and while five pistols were pointed at Pope's head he and his wife were securely tied. The thieves then rifled the house, carrying off $1600 in money, jewelry and silver-ware, and $700 in railroad bonds.

Editorial Notes.

Horrible thought! The Boston *Advertiser* declares that there is "a malicious and despicable rumor afloat that some coolness has arisen between the two branches of the Greeley household in" —— Massachusetts. Think of the momentous consequences!

If the Biddeford *Journal* man promises to insert a notice of the New Hampshire State Fair and forgets to do it, what do you propose doing about it?

They call killing a "horrid crime" in Illinois.

It is estimated that travellers in New Hampshire have inhaled 12,896,734.-329,806 gallons of air the past season; 19,208 persons have been cured of the hay fever, 108,906 consumptives have been cured of pulmonary complaints, and the landlords among the mountains and at the sea side have pocketed $2,-500,000.

Charles Sumner was quite shocked on learning of his nomination for Governor of Massachusetts by the Democrats.

The Haverhill *Gazette* has a poet who in speaking of an accident to a teamster, says, "the load of sand passed over his band."

That excellent evening paper, the Boston *Times*, is enlarged and shows signs of increasing prosperity under its indefatigable manager, R. C. Dunham. It is a favorable exchange.

Paymaster George Plunkett has been ordered as purchasing paymaster at Boston in place of Paymaster A. H. Gillman, ordered as inspector of provisions.

The celebrated Lord Timothy Dexter estate in Newburyport, now occupied by Mayor Kelley, will be sold by auction next week.

TRAINING FOR FARMERS.—A few of the best educated and cultured men of America are farmers, and their studious sons are gracing the same occupation. But such are a small proportion of the whole.

"The fault, dear Brutus, is not our stars,
But in ourselves, that we are underlings."

Farmers ought, as a class, to cultivate better manners in parlor, kitchen, field; at fireside and table. Urbanity and rusticity originally meant merely city life and country life; it is not by accident that these words have come to signify politeness and boorishness; there must be added to these, intercourse with well-bred people.

To recover what we have lost, or gain what we have missed, let us seek to construct a society about us, to encourage neighborhood gatherings, farmers' clubs, agricultural societies and evening parties of every innocent kind, that bring us in contact with others. To this end let us try co-operative farming—thousands fly to the city because they wish to "see folks." To this end, also, we can, if we will, learn from our wives, for they are often better read, and usually better mannered than we.—*Hearth and Home.*

ABRUPTLY TERMINATED COURTSHIP.—The arrest of a watch swindler, one Strauss, in New York formed quite a dramatic episode. He had apparently in the character of a substantial commission merchant won the heart of a young lady named Rosalie Mayor, belonging to a respectable and wealthy family, and was engaged to be married to her. The two lovers had gone out for a walk, and on their return, about half-past ten, Strauss was arrested in the presence of his betrothed, whose grief and shame knew no bounds. The deceived girl appeared at Police Headquarters, where all the prisoners concerned in the business were confined, to learn the true state of the case. At her request she was permitted to have an interview with Strauss, whom when admitted to his cell she overwhelmed with reproaches and flung the ring of their betrothal into his face, after which she abruptly turned her back to her disgraced lover, and taking, the arm of her guardian, who had accompanied her, left the building.

"THE SMITHS."—John Smith—plain John Smith—is not very high sounding; it does not suggest aristocracy; it is not the name of any hero in die-away novels; and yet it is good, strong and honest. Transferred to other languages it seems to climb the ladder of respectability. Thus in Latin it is Johannes Smithus; the Italian smooths it off into Giovanni Smith; the Spaniards render it Juan Smithus; the Dutch adopt it as Hans Schmidt; the French flatten it out into Jean Smeet, and the Russian sneezes and barks Jonloff Smittowiski; When John Smith gets into the tea trade in Canton he becomes Jovan Schimmit; if he chambers about Mount Hecla, the Icelanders say he is Jahn Smithson; if he trades among the Tuscaroras he becomes Ton Qua Smittin; in Poland he is known as Ivan Schmittiwiskie; should he wander among the Welsh mountains they talk of Jihon Schmidd; when he goes to Mexico he is hooked as Sontli F'Smitti; if of classic turn he lingers among Greek ruins, he turns to 'Ion Smikton; and in Turkey he is utterly disguised as Yoe Seaf.

—At a metropolitan hotel telegraph office, early Monday morning, the young gentleman operator, after repeated calls for a young lady operator in a branch office, at last gets a response, and then, "click, click, click, click," (fortissimo) he telegraphs back to her vehemently, "I have been trying to catch you for the last half hour." In a moment the sollowing spicy reply comes tripping back to him over the wires from the telegraphic suburban maiden: "Pooh! That's nothing; there is a young man here who has been trying to do the same thing for the last two years, and he hasn't caught me yet."

—At Carlinville, Ill., a wife becoming angry because she could not have the last word in a dispute, recently put her sick husband out of doors at midnight and in a thunder storm. In the morning she found him on the stoop, dead from exposure. She is in an insane asylum.

NOTHING ELSE WILL ANSWER!—If you are hoarse, have a cold, or a hard cough, ask your druggist for *Hale's Honey of Horehound and Tar*. Take nothing else. It is the one sovereign remedy for all complaints of the throat and lungs. Crittenden's 7 6th Avenue. Sold by all Druggists. 29

Pike's Toothache Drops cure in 1 minute.

SO GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastilles for Coughs, Cherry Pectoral Cough Drops, Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

A DISABLING DISEASE.—No disease which does not confine a man to his bed so completely unfits him for business as dyspepsia. When the stomach is foul, the brain is always muddy and confused, and as the cares and anxieties of life are a sufficient burden for the organ of thought to bear, without being tormented by the miseries born of indigestion, it is highly desirable for the brain's sake, as well as for the sake of every other portion of the system, that the disordered stomach should be restored with the utmost dispatch to a healthy, vigorous condition. This object can always be accomplished by a course of Hostetter's Stomach Bitters, the purest and best of vegetable specifics, which evacuates the morbid humors through the bowels, rouses and tones the torpid stomach and regulates the liver, imparts firmness to the nerves and clears the sensorium of its mental cobwebs. Persons subject to attacks of indigestion, bilious headache, irregularity of the bowels, sickness at the stomach, or "the blues," should take the Bitters once or twice a day throughout the present season.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

CUPID'S AMBUSCADES.—The sly archer, Love, shoots his arrows from many cologns of vantage, but it is doubtful if he delivers his heart-taking shafts from any ambush with more effect than when he arms them from the braids and folds and ringlets of a superb head of hair. Ladies who have not been favored by Nature with this crowning charm of womanhood, can readily and certainly increase the volume of their hair and impart to it a silken lustre by using Lyon's Kathairon as a daily dressing; while those whom Providence has blessed with a superabundance of this "Glory" of the sex, can preserve it, undiminished in quantity and undimished in beauty to the latest period of life. There is a germinating principle in the Kathairon which literally *compels the hair to grow*. It extirpates scurf, dandruff, and all exfoliations and excrescences of the scalp which interfere with the rapid and healthy development of the fibers.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

UNFADING LOVELINESS belongs only to the immortals, but whoever uses the fragrant SOZODONT can at least defy time to injure one of the elements of beauty, a good set of teeth.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

HOLLOWAY'S PILLS.—They revive the appetite, promote digestion, sustain the vital powers, relieve all pain and uneasiness in the stomach and bowels, and strengthen the constitution as well as expel disease. Sold 78 Maiden Lane, N. Y. Price, 25 cents per box. Ask for new style; the old is counterfeited.

SAWING WOOD BY ELECTRICITY.—The *Scientific American* records the change of one of the "impossibilities of the past into a reality." George Robinson, M. D., of New York, has invented a mode of sawing or cutting wood without saw or ax, by electricity. The galvanic current, when passed over platinum wire in sufficient quantity, heats the wire to white heat. The wire, thus heated, does the work of saw or ax, without any appreciable expenditure of muscular force. By arranging the wires with handles, or other means by which it may be guided, any kind of lumber, whether in trees, logs or plank, may be cut as desired. The battery need be only of the simplest kind, as quantity, not intensity of current is required. A child by this means may fell the largest tree in the forest, divide it into logs, or cut it into boards, without saw or ax. Only think of it! The idea of cutting down a high pine tree with a wire! Some wiseacre stands up and declares: "I don't believe it. It can't be done." But such should remember that they talked just so when the telegraph was projected. It is another proof that the impossibilities of to-day are the scientific facts of to-morrow.

—California expects soon to become a great coffee growing country.

LOCAL AFFAIRS.

New Advertisements to-day.

Temple—Buckley & Sharpley.

Booth.

It is so seldom that a really first class actor, supported by a first class company, consents to favor a Portsmouth audience with his presence, that we confidently hope such encouragement may be offered on this and to-morrow evenings as will tend to a repetition of such exhibitions of a high order of talent. The sale of reserved seats at Preston's drug store, yesterday, was quite large, and Edwin Booth is likely to be greeted by large audiences if the sales to-day and to-morrow are correspondingly great. We hear of one gentleman who invested about $10 in tickets, Wednesday, who declared that he did so for the sole purpose of encouraging the manager who dare bring such an array of talent to our city, being unable to attend. Probably the Booth company is the most complete organization of the kind, which has visited us; the fame of the eminent tragedian should be alone sufficient to attract audiences limited only by the seating capacity of the Temple. The prices of admission are by no means too large, considering the great expense attendant. We are informed that the daily expenses of the company exceed $600. Many of our citizens often waste half dollars on entertainments which lack refinement and merit, and should be pleased with the opportunity of witnessing the greatest actor of the age, who needs no praise from any one to commend him to the public. "Hamlet," Booth's greatest delineation, is announced for this evening.

Laconics.

The second of the series of Social Assemblies given by the "Dolly Varden Club" will take place this evening at Congress Hall, the managers proposing to eclipse the unexpected success of their first essay. Turner's full Quadrille Band will furnish the music, and the Grand March will commence at 8 o'clock precisely. Floor tickets 50 cents; gallery, 25 cents.

Excursion tickets over the Eastern Railroad to North Conway and Wolfeborough are good during the month of October.

Mr. T. H. Mills has been appointed to the responsible position of "train despatcher" for the Eastern railway, with headquarters in this city. He is to have general charge of the running of all trains on the line betwen this city and Conway. When trains are off their regular time he will run them by telegraph.

This is to be the best day at the State Fair. The display of apples, pears and grapes is fine. At 2 o'clock this afternoon, there will be a trot for a purse of $500; and at 3 o'clock, a race for a purse of $250, open to all horses that have not beaten 2:45.

The Grant and Wilson Cavalry, forty-eight in number, organized Wednesday evening by choosing the following officers: *Captain*, John Stokell; *1st Lieut.*, Alfred Stavers; *2d Lieut.*, Henry Smith; *Quartermaster*, Chas. C. Akerman; *Q. Sergt.*, John A. Lamprey; *1st Sergt.*, Chas. M. Laighton; *2d. Sergt.*, Floron Barri; *Surgeon*, Brainard Dearborn.

ROUGH ON 'EM.—Old Jones has been playing a sharp game on the mosquitos. You see, he had a mosquito net on his bed, but the persevering insects used to get inside in the daytime, and when old Jones sought his couch to court the drowsy god, they used to make sweet music for him, and let his blood out, and old Jones, you understand, could't stand it at all. But he is square on the mosquitos now, Jones is. You see, he goes to bed and leaves the net about half open, and then the mosquitos, thinking they have got a soft thing, swarm in and begin to buzz. When he thinks they are all inside, old Jones quietly slips out and closes up the net tight, and there he has them. And then he makes up a nice bed on the floor, and lays there and kicks up his old heels, and laughs at those poor, swindled mosquitos, and those mosquitos tear around in that net, and break their necks against the bars trying te get out, and they hold indignation meetings, and protest, and all that. Why, the mosquitos in that room look like living skeletons, and still old Jones is heartless enough to keep right on foolling these poor insects, and laughing at them.

THE SAME OLD CRY.—Little Boy—"Be you the drugger man?"

Druggist—"Yes, sonny. What can I do for you?"

Little Boy—"Dad has got 'em ag'in! His boots is full of 'em, and he's a howlin' like thunder, and mother sent me over to get suthin' for him quick."

Druggist—"What does he want?"

Little Boy—"Don't know; but he is yellin' for 'anything to beat Grant.'"

—A band which serenaded a young married couple, in one of our suburban towns, selected a peculiarly happy and flattering piece known as "The Monkey Married the Babboon's Sister."

The Leather Interest.

Nothing is more valuable than of intelligence concerning the most important sources of net wealth in the country. Most persons will be surprised to learn that the article of leather is one of the chief of these. David A. Wells, the eminent statistician, showed that in 1869, next to agricultural products and mining, with the figures large enough to frighten people, came leather and its manufactures, far ahead of iron, steel and everything else. The new tariff, it is believed, will in a few months develop increased prosperity in all branches of the leather trade. Leather enters so largely into manufactures that the interest is one of the most important that our tariff has to consider. The vast wealth and large number of people engaged in the production of boots and shoes is something astonishing.

The manufacture of harness, also, is so extensive an interest as to deserve careful attention. A leading house in this line, whose name appears on the finest carriage harness all over the coast, sold at reasonable rates, has drawn our attention to the importance of this industry. Its prosecution in this city has been on an extensive scale, employing many hands and the use of considerable capital. The number of establishments engaged in manufacturing saddles and harness is about thirty, and the house referred to above stands as the leading one among these, turning out articles of great variety and superior quality, including harness, bridles, saddles, whips, collars, saddleware, and leather of every description.

This establishment is one of the largest in the United States, being supplied with every article in the various branches of the business. A visitor, in going through it, would be surprised at its extent and completeness. The first floor is the hardware department and general salesroom. The second is devoted to the display of saddles and harness. On the third floor, in the sewing-machine rooms, thirty hands are employed, besides fifteen girls in the binding room. The fourth door is the main workshop, where seventy hands are employed; there is also a buggy-whip shop, running ten hands. The cellar is used as a leather room and for general storage purposes. Besides this main establishment at Nos. 214 and 216 Battery street, the proprietors, Messrs. Main & Winchester, have a branch collar shop on Market street, where twenty-five men are employed. These details of the operations of this house will give the reader an idea of the importance of the leather trade. Such are the facilities of Messrs. Main & Winchester's establishment, that harness sufficient for five hundred horses can be turned out in an hour. Such an establishment is a credit to our city, and a benefit to the entire coast, in the quickness and cheapness with which it is enabled to fill any orders for articles, large or small. —*San Francisco News Letter.*

State News.

The workmen on the Mount Washington Railroad have a way of adjusting a board to the rails and sliding down very fast. On Saturday, a Frenchman was descending rapidly, and a heavy mist prevailing, he ran into a locomotive killing him instantly.

The nineteenth annual meeting of the New Hampshire State Teachers' Association, will be held at Plymouth, on Thursday and Friday, October 24 and 25.

George Foss of Campton, while trading in Robinson's store in that town, laid his wallet on the counter and forgot it James. Wallace picked it up and appropriated its contents, $140, and was in turn picked up and sent to jail; but little of the money was found.

A N-ATIONAL (W) HYMN.—"A Connecticut Yankee" goes on after the following fashion for the space of two columns in the Toledo *Blade*:

Democrats of every station!
Let us take an observation
Of our old organization,
Which has had our veneration,
For it needs resuscitation
To prevent annihilation,
And a speedy restoration
Of our powers of respiration,
For our often vibration,
Which by constant irritation,
Has produced a visication,
Which has grown to ulceration,
And by constant suppuration,
May result in sphacelation,
And it needs cauterization,
To prevent mortification,
And our speedy inhumation.
This needs no verification.

—An apothecary in Portland recently injected, according to request, an arsenical preparation instead of creosote into the cavity of a tooth of a railroad conductor, who left the store and took the train for Montreal, but on arriving at Island Pond was compelled to call a physician, he felt so ill. Some relief was afforded him, but after reaching Montreal he was very sick, and all of one side became paralyzed. He intends to bring an action against the apothecary for $5000 damages unless he pays the expenses of his illness and a bonus besides.

Morning Chronicle.

AN ANCIENT CORPSE.—A Prince Edward Island correspondent gives what purports to be the particulars of the finding of a corpse, supposed to be that of Sam Belding, a sailor who died about a hundred years ago, and of whom there are traditions afloat on the Island. A man was plowing in his field when suddenly his team was brought to a stand-still by some hard substance. A neighbor happened to be in the field at the time, and the two men, with pick and shovel, soon unearthed what had the appearance of a human form, wrapped in some kind of dark matted stuff, and liberally covered with pitch. The two men opened the awful looking package and found it to contain the remains of an ancient mariner, with clothes in a good state of preservation. There was a striped vest or shirt, buffy breeches, or a skirt of a curious kind of material; a red woollen cap; on the feet was a pair of jack boots; around the waist was a belt with ancient daggers and pistols. Upon examination it was found that the material which enveloped the body was composed of birch bark and coal tar, which rendered the package hermetical. In a little iron box enclosed with the body were some silver coins of the reign of Queen Anne.

—A writer in the British *Medical Journal*, on the wearing of false hair, makes the following alarming announcement: Every hair in a false plait ends with "a nodosity;" each nodosity contains fifty "psorosperms," and each psorosperm throws off minute spheres which become "pseudo-navicellæ." But this is by no means the end of a bad matter. The pseudo-navicellæ in a ballroom containing fifty ladies, all with the spurious tendrils, amount to 45,000,000, which when inhaled, make their way into the circulation and bring on cardiac affections.

EPILEPSY OR FITS.
A SURE CURE for this distressing complaint is now made known in a Treatise (of 48 octavo pages) on Foreign and Native Herbal Preparations, published by Dr. O. PHELPS BROWN. The prescription was discovered by him in such a providential manner that he cannot conscientiously refuse to make it known, as it has cured everybody who has used it. The remedies are easily tried in a single case. The ingredients may be obtained from any druggist. A copy sent free to all applicants by mail. Address Dr. O. PHELPS BROWN, Grand St., Jersey City, N. J. sept24tw

For Coughs, Croup, Diphtheria, Asthma, &c.
USE BUCHMAN'S
PULMOCINE CORDIAL.
The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pasture" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

HANOVER STREET, BOSTON.
And at the N. E. P. UNION STORE, Market St.
FOR SALE BY ALL DRUGGISTS,
Buchman's Pulmocine Cordial
BUCHMAN'S PULMOCINE CORDIAL is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.
In the ultima thule of Medical Discovery.
Among its many ingredients are WILD CHERRY BARK, QUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.
CLEAR YOUR THROAT!
Relieve Your Lungs.
For the terrible diseases engendered by the lung-trying climate of New England,
Pulmocine Cordial
Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the choice of PREVENTION. Children seized with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As a stitch in time saves nine, "so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

AYER'S
SARSAPARILLA
FOR PURIFYING THE BLOOD.
A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Cutaneous Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

VEGETINE

The Great Blood Purifier.

A valuable Indian compound for restoring the health, and for the permanent cure of all diseases arising from impurities of the blood, such as

Scrofula Scrofulous Humors, Cancers, Cancerous Humor Erysipelas, Canker, Salt Rheum, Pimples and Humors on the Face, Ulcers, Coughs, Catarrh, Bronchitis, Neuralgia, Pains in the Side, Rheumatism, Dyspepsia, Constipation Costiveness, Dizziness Piles, Headache, Nervousness, Faintness at the Stomach Pains in the Back, Kidney Complaints

Female Weakness, and General Debility.

This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon these complaints are surprising to all. Many have been cured by the VEGETINE that have tried many other remedies. It can well be called

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures which have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lapulins, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUCHS. Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the severest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; and in most cases the process to fall off prematurely, and either effect is unsightly and unpleasant to be hold. DR. AYER'S compound is still the most perfect and reliable for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR restores to the scalp the hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The compound is free from lead and gray hair, but we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

Are the most compound purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

The Chronicle.

STEALING THUNDER.—The author of "Desultory Sketches," in the September *Galaxy*, tells the following story of John Van Buren:

In the campaign of 1856 he took an active part in support of Mr. Buchanan, the "great moral question" having ceased to interest him. I accompanied him on an electioneering tour through a part of Ohio, and in some of the southern counties. He had prepared a strong, political speech, and as reporting in those days was not as general or perfect as it is now, the intellectual labor of the expedition was not exhausting. He was to speak in a town on the Western Reserve, and as considerable preparation had been made to get a large number of people together, the services of several local orators had been engaged, but, of course, Mr. Van Buren's speech was expected to be the principal feature of the entertainment. Unfortunately John was taken ill the night before, and although he was able to take a seat on the platform, he was too much indisposed to address the audience.

In this exigency Van Buren insisted that I should make a speech. I had previously spoken briefly, when there was a dearth of competent orators, but speech-making was not in my line. Still, as he was pressing, I concluded to make an effort. As it was an unusual occasion, the reporters were present in force. I had heard Van Buren's speech so often that I knew every word of it, anecdotes and all; and to require his ill offices in getting me into the scrape, I determined to make his speech. He saw the trick I was practising upon him before I had uttered three sentences, and he began to scold and swear at me in an undertone with so much vehemence and affected indignation as to horrify pious old Democrats who were on the platform with us.

"Curse your impudence!" he exclaimed, *sotto voce*, "who the deuce expected you to take the words out of my mouth?" I proceeded, paying not the slightest attention to his objurations, and he quieted down after a while. But when I recited one of his most piquant anecdotes, which he never told without a general burst of applause, and which was received with the most uproarious manifestations of delight, he broke out again: "The meanest thing ever done. You might just as well pick my pocket. Catch me taking you along as a fall again. I'd rather have a dummy for a companion. You shall have my hat and clothes when the meeting breaks up."

By this time the gentlemen on the platform saw through the thing, and evidently enjoyed the joke and speech a great deal more than John did.

WORKING UNDER WATER.—An illustration of how much work may be performed under water, was recently shown in Boston. About a month since, a portion of one of the wharves gave way under the weight of two hundred tons of pig iron, letting the iron into the water, and burying it deeply in the mud. Work was immediately commenced to recover the iron by aid of divers, and has been successfully performed. The Boston *Post* thus describes the manner of working:

The divers work each four hours per day. Such is the admirable contrivance as to the supply of air, and the connection between the operators at the top and bottom of the water, that the business is conducted with great expedition. From one to five pieces of iron are raised every three minutes, a steam engine being employed for the purpose. The water is muddy and the divers are unable to see the sought for treasure. They therfore depend entirely upon the sense of feeling. The water is from seven to fifteen feet deep, as the tide is high or low. The operation is daily witnessed by many interested spectators. The divers are not men of especially vigorous physical power, but they labor without difficulty for full four hours at a time. The sensation is then of chilliness, not exhaustion. The air is supplied by a pump which is connected with the top of the diver's costume by a rubber pipe. The pump is in constant operation, the effect of which is seen in bubbles rising to the surface and which indicate the precise location of the diver. The latter is kept at the bottom by shoes with leaden soles and a belt of cast iron. There is also a rope about his waist reaching above water, which he pulls in a jerking way when there is a sling of iron ready to be raised.

—Mrs. Catherine Strang of Ottumwa, Ia., has just completed two miles of grading upon the Brownville and Nodaway Valley railroad. When the contract was received by Gen. Remick, last Saturday, she informed him that she had paid off all her hands, and didn't owe one dollar for work. The general paid her cheerfully, and more than was due, for all of which she was duly thankful. Her portion of the road compares quite favorably with that constructed by old and experienced contractors.

—It is suggested that Stanley be sent to find the man who struck Mr. William Patterson, deceased.

TO ADVERTISERS.

We shall print 5000 copies of the

NEW HAMPSHIRE GAZETTE

With the commencement of the 117th volume, next week. A *fac simile* of the first issue, Oct. 7th, 1756, will be sent to each of our subscribers. Advertisers are requested to send in their advertisements as early as Tuesday, as we go to press Wednesday morning.

State Elections.

The election in Delaware on Tuesday, Oct. 1, for assessor and other local officers, resulted in unexpected Republican gains. The Democratic majority in the State as shown by this vote is eighty-two. A special despatch to the Washington *Chronicle* says two of the three counties (Sussex and Newcastle) were carried by the Republicans, who have thus gained one county. They claim the electoral vote of the State as sure for Grant and Wilson.

The Georgia election occured Oct. 2. Most of the accounts thus far received say the election was quiet and the vote heavy. Smith, Democratic candidate for governor, is of course re-elected—Democrats claiming a majority ranging all the way from 20,000 to 50,000. There is no question of his re-election by a large majority, but experience has shown that it is safe to wait a few days after an election in a Southern State before saying *how* large a majority it has given.

ALABAMA.—W. B. Jones, Republican candidate for elector in Alabama, publishes a letter fully confirming the recent reports of violence and terrorism in that and the adjoining States. While crossing a ford in Sumpter county a few days ago Jones was shot at by an ambushed party, fourteen shots having been fired, several of which passed through his clothes. Jones says that the spirit of the rebellion in Sumpter county to-day is worse than in 1860, but that with a fair vote Alabama is sure for Grant and Wilson by 12,000 majority.

OHIO.—The Washington correspondent of the Boston *Advertiser* says private advices from leading Germans of Ohio represent that a marked and decisive reaction is apparent among the German voters of that State, and that the disclosures of the motives which influenced Hassaurek's change of position have more than neutralized the strength which he expected to develop in favor of Greeley. A careful estimate by the editor of the leading Republican paper of Ohio gives that State to the Republicans by 10,000 to 15,000 majority Indiana by 5000 to 8000, and Pennsylvania by 10,000 to 15,000 for the congressmen-at-large and a smaller figure for Hartranft.

THE EXPERIMENT TRIED.—The experiment of shaking hands over bloody chasms,—in other words, of making a coalition with Democrats for the purpose of reforming the government—has been tried in Tennessee, and the results are thus summed up by the New York *Times*: "All the principle offices in the State Government are held by men who served in the Confederate army; the State has been doubly gerrymandered to disfranchise Republicans, once in the Legislative districts and once in the Congressional districts; the payment of the public debt—which had been lessened $1,250,000 in three years under Republican rule—has stopped; the schools are nearly all closed; the treasury is empty, (with $700,000 State warrants out; the State credit has sunk, and over $2,000,000 is overdue from State tax-collectors. Tennessee is not run by carpet-baggers, but by the full-blooded native Democrats, who, we are asked to believe, are angels of benevolence and purity."

Editorial Notes.

After the October elections look out for a grant stampede from Gredley to O'Conor.

No better commentary on the utter recklessness with which the Greeley-cratic advocates of "purity and reform" hurl falsehood and slander at every one who does not endorse their "peculiar" ideas of political morality can be given, than is found in the New York *Tribune's* course on the Credit Mobilier and Pacific Railroad slanders. That paper has repeatedly asserted that Speaker Blaine received $1,930,000 of Pacific Railroad stock for his services and influence as Speaker of the House in procuring the passage of the original Pacific Railroad bill in 1862. Mr. Blaine answers that not only did he never, at any time, directly or indirectly, receive a cent from the Credit Mobilier, but that at the time the *Tribune* says he was bribed to give his influence as Speaker of the House to favor the Pacific Railroad he was not the Speaker of the House; had not taken his seat as a member of Congress; had not been elected to Congress; in fact had not even been nominated for Congress! The New York *Sun* must look to its laurels; Reid is already neck-and-neck with Dana, and if he can only keep up the pace another month will stand well ahead as the most unscrupulous—not to say blundering—liar connected with the New York press.

A Greeley drink—Lager beer and scraps.

"Charge along the line," says Schurz.

The News.

Two women named Renton have been arrested and held to bail in $1000, in Brooklyn, for manufacturing and passing counterfeit money.

With one or two unimportant exceptions, the press of California are unanimous in denouncing the verdict in the Fair case as a mockery of justice.

The Bostons defeated the Baltimores in the sixth game of their series for the base-ball championship; score, 8 to 3. In New York the Mutuals defeated the Atlantics, 10 to 2.

The Hartford *Times* has been sold to a company in Hartford for $80,000, and is to be placed under the editorial management of "Ike" Bromley, late of the Hartford *Post*. Mr. A. E. Burr retires on account of failing health.

Mayor Alvord of San Francisco has vetoed the subsidy ordinance allowing the people to vote upon the question of giving $2,500,000 to the Central Pacific Railroad Company to build a bridge at Ravenswood, thirty miles south of the city. The mayor has also vetoed the ordinance allowing the people to vote a donation of $10,000,000 to the Colorado Railroad Company.

Nine persons were killed and a large number injured by an accident to a passenger train on the London and Edinburg Railroad in Great Britain, Oct. 2.

The famous Escurial, a palace and mausoleum of the King of Spain, situated twenty-five miles from Madrid, was struck by lightning Oct. 2, and set on fire. At the latest accounts the royal palace was in flames, and the mausoleum and King's summer residence were in great danger. The splendid and magnificent monastery was begun in 1563. Twenty-one years' labor and a sum equal to $15,000,000 were expended in its completion.

Reports of further disasters on the lakes continue to come in. Schooner Rapidan has been passed lying on her beam ends,—all hands supposed to be lost. James Low, the only survivor of eight men who composed the crew of schooner Rapid, was picked up after being six hours in the water.

Political.

A correspondent, writing to the New York *Evening Post*, from Stamford, Conn., says: "Last evening a Grant and Wilson club was orgnized at this place, consisting of forty-five Democrats, who resolved to vote for Grant and Wilson at the next Presidential election, and who have always previous to this voted a Democratic ticket."

It was Mr. Greeley who said on May 6th, 1871: "We hold that the President would have been unfaithful to his trust, and would have had the blood of innocent martyrs to equal rights on his head, had he not sought legislation. The ku-klux act and the President's action under them will harm no one who keeps the peace, obeys the laws and respects the rights of others. Our only fear is that it cannot be so enforced as to crush out the villainies at which it is aimed."

For happy metaphor, the chaste columns of the *World* are unrivaled. Here is one of its most successful efforts at illustration of the merits of the two candidates: "True, they are both protectionists; but Grant is an active and Greeley has become a passive protectionist, which is the difference between a serpent in its summer venom and another in its winter torpor. As we must needs take one of them into our bosom, it is more prudent to take the one which is undergoing the hibernating sleep which renders it harmless."

A correspondent in the northern part of the State writes as follows: "When I hear the orators of the 'reform' party abolishing the administration and all connected with it, especially the postmasters, and when I listen to their howls about the franking privilege, I am led to wonder how it happens that Harry Bingham's speech gets into the same envelop with Senator Sumner's, and both go through the mails under the frank of M. C. Slocum. Are they smuggled in at Sinclair, Bingham, & Co.'s headquarters, re-sealed and re-mailed,—or how is it done? Is it a patriotic and reformatory transaction, intended to lighten the burden of the mails, or is it the work of some dishonest postmaster and of reformers who need reforming themselves." We are not able to answer our correspondent's questions and suggest that he write to Mr. Bingham or Mr. Sinclair on the subject.—*Monitor.*

Gen. Banks is renominated for Congressman by the Democrats and Liberals of the Fifth Massachusetts district.

W. P. Schell, the Labor Reform candidate for Governor of Pennsylvania, has declared in favor of Buckalew.

NOTHING ELSE WILL ANSWER!—If you are hoarse, have a cold, or a hard cough, ask your druggist for *Hale's Honey of Horehound and Tar*. Take nothing else. It is the one sovereign remedy for all complaints of the throat and lungs. Crittenton's 7 6th Avenue. Sold by all Druggists. 29

Pike's Toothache Drops cure in 1 minute.

SO GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastiles for Coughs, Cherry Pectoral Cough Drops Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

A DISABLING DISEASE.—No disease which does not confine a man to his bed so completely unfits him for business as dyspepsia. When the stomach is foul, the brain is always muddy and confused, and as the cares and anxieties of life are a sufficient burden for the organ of thought to bear, without being tormented by the miseries born of indigestion, it is highly desirable for the brain's sake, as well as for the sake of every other portion of the system, that the disordered stomach should be restored with the utmost dispatch to a healthy, vigorous condition. This object can always be accomplished by a course of Hostetter's Stomach Bitters, the purest and best of vegetable specifics, which evacuates the morbid humors through the bowels, rouses and tones the torpid stomach and regulates the liver, imparts firmness to the nerves and clears the sensorium of its mental cobwebs. Persons subject to attacks of indigestion, bilious headache, irregularity of the bowels, sickness at the stomach, or "the blues," should take the Bitters once or twice a day throughout the present season.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

CUPID'S AMBUSCADES.—The sly archer, Love, shoots his arrows from many coigns of vantage, but it is doubtful if he delivers his heart-taking darts from any ambush with more effect than when he arms them from the braids and folds and ringlets of a superb head of hair. Ladies who have not been favored by Nature with this crowning charm of womanhood, can readily and certainly increase the volume of their hair and impart to it a silken lustre by using Lyon's Kathairon as a daily dressing; while those whom Providence has blessed with a superabundance of this "Glory" of the sex, can preserve it, undiminished in quantity and undiminished in beauty to the latest period of life. There is a germinating principle in the Kathairon which literally *compels the hair to grow*. It extirpates scurf, dandruff, and all exfoliations and excrescences of the scalp which interfere with the rapid and healthy development of the fibers.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

UNFADING LOVELINESS belongs only to the immortals, but whoever uses the fragrant SOZODONT can at least defy time to injure one of the elements of beauty, a good set of teeth.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

HOLLOWAY'S PILLS.—They revive the appetite, promote digestion, sustain the vital powers, relieve all pain and uneasiness in the stomach and bowels, and strengthen the constitution as well as expel disease. Sold 78 Maiden Lane, N. Y. Price, 25 cents per box. Ask for new style; the old is counterfeited.

THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Daillies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Successo the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. It does two-thirds the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

Laconics.

Mangling crow disturbs the Democratic stomach, which accounts for the dyspeptic condition of sweet William.

Mr. James H. Pinder fell from the train from Boston for this city, about half past nine o'clock, Wednesday morning, one mile beyond Hampton depot. He was passing from one car to another and fell off backwards, clear of the cars, striking the back of his head and producing concussion of the brain. When taken up he was found to be insensible and lived but four hours. Deceased resided on the Whidden place near the South Cemetery. He was 56 years old and leaves a wife and four children. He was returning home from New York at the time of the accident.

Poor little silly Billy goes tearing around in his tread-mill, over the fifty signatures obtained for the O'Conor and Adams Guards. What Democratic voters have to do with it, we are at a loss to explain. The O'Conor Guards are from 16 to 20 years old, each, Billy, and are to be clad in green uniform, Billy, which might be appropriate for you, Billy.

A pair of horses ran away with a wagon on Market Street, Thursday afternoon throwing out and injuring a man and boy, and knocking over a horse belonging to Mr. Uriah Blaisdell, which was standing beside the curbstone. The three horses fell in a heap, and the runaways were captured.

The crow eaters in this vicinity have lost their enthusiasm; and cannot masticate their food properly, there is a great demand among them for second-hand teeth four week's use, only.

Mr. L. Blumauer has returned from New York city with a complete new stock of Fall and Winter Goods of the latest styles and designs, and all the novelties of the season—which he will be gratified to exhibit to all who will favor him with an early call at 41 Market Street.

The Greeley Greybacks have finally organized by the choice of J. Albert Sanborn as Captain. They have four days to parade in before their hopes are extinguished.

Edwin Booth

Met with a good reception, Thursday evening, by a fashionable audience. The manager, Mr. Henry Magonigle, announces this as the last evening, Mr. Booth appearing as Richelieu, in the grand historical play of that name. Many tickets have been sold and choice seats may be purchased to-day of Wm. R. Preston. The fine company and the fame of Booth should fill the Hall.

That Stone-Throwing.

The ex-office-holder who turns the monotonous crank of the local office-seekers' organ has adjusted the agony stop of the machine, and grinds out a dolorous tune at us for objecting to the proofs of Greeleycratic tolerance given to Republican paraders in this city. The grinder — which was a "pap-sucker" and hopes to be again—informs us that "the Democratic and Liberal Republican party is not responsible for these petty acts of mischievous young villains." Who is, then? The boys—if they are boys—who throw stones at Republican processions are every one in training to be Democratic voters; and though the older heads of the party have learned that offering outrage and violence to political opponents is a good way to help their opponents' cause, and have consequently pretty much abandoned it in this section, yet the same spirit which formerly impelled them to break up "abolition" meetings by force and in more recent days has been the bond of union among the Ku-Klux, is now exhibited by the more eager if less sensible juniors of the party in stone-throwing at anti-Greeley processions. On every occasion when the junior Grant and Wilson Guards have paraded they have been assaulted by missiles thrown from alleys and yards, —thrown by boys or men of Republican proclivities, no doubt! And probably the brick which struck Major D. J. Vaughan while leading the senior Guards on the night of the first parade was thrown by some prominent Republican,—certainly not by a Demo-Greeley hand-clasper across the bloody chasm, oh no! No rational person would suppose, because Republican processions were stoned right along, that Democrats had anything to do with it; but it is a little odd that though a dozen Greeley boys have paraded our streets time and again, with torch and drum, cheering for Greeley and Brown, they have been entirely unmolested. Straws show which way the wind blows, and that Democratic boys parade and shout without let or hindrance while Republican boys are knocked over with bricks and clubs for doing the same thing, is a pretty good indication as to where the charges of "intolerance" and "oppression" should rest.

State News.

The entire property of the Pine Valley Manufacturing Company was sold at auction at Wilton for ninety-five thousand dollars, the amount of its indebtedness, though when the company suspended operations about three weeks ago the debt was represented to be but fifty-seven thousand dollars. Dr. Edward Spalding of Nashua was the purchaser. The mill, real estate and buildings cost $240,000. The increase in the debt from the first report was owing to various bills not rendered until recently.

Geo. T. Pebbles had his thumb torn off while oiling machinery at Plymouth.

A large, black, wild hog was shot in a cornfield in Great Falls, on the 21st. He had been eating considerable corn for several days.

Manchester fears that the dreaded "rinderpest" has made its appearance among the cattle in that vicinity, three valuable animals dying last week with symptoms resembling those of that disease.

This is the last day of the State Fair. There was a large attendance, Thursday, but the rain interfered somewhat with the day's amusement.

BURNING OF THE AMERICA.—By the arrival of steamship China at San Francisco, from Yokohama, Japan, full particulars are received of the burning of the Pacific Mail Steamship America. The latter vessel arrived at Yokohama on a Saturday, and at 11 o'clock the same evening was discovered to be on fire and burned until the afternoon of Sunday, when she was towed out of the way of shipping and sunk. Three Americans and 59 Chinese were lost besides a number of Japanese. Three hundred thousand dollars in treasure and a light freight remained on board of the vessel when she was burned. The ship had been coaling all day. At ten o'clock all was reported safe. When the officers retired, a little before 11 o'clock, the stewardess smelt something burning and smoke was discovered rising from the frieght deck below the ladies' saloon. An alarm was immediately sounded. Captain Doane was the first man in the saloon with the hose, but was driven back by the smoke. With a sudden and furious roar the flames burst forth, deciding the fate of the ship. The smoke prevented the flooding of the magazine and attention was turned to save the passengers. The Chinamen crowded the ladder, which gave way, precipitating them into the water. Several unsuccessful attempts were made to sink the ship by shot from war vessels in the harbor. A court of inquiry was convened August 31, Consul Shepard presiding, assisted by Minister Delong and Captains Shirley and Percy. After hearing the evidence they found that the fire apparatus was in good working order, but the long time which elapsed before a stream of water was started denoted a want of preparation or great tardiness in the engineer department. If steam to the amount of twenty pounds had been on the donkey boiler at the time the alarm was given, and the fires in proper condition, with prober expedition in working, the fire might have been extinguished and the ship saved. Praise is due to the officers and crew for their gallantry and perseverance. The court is convinced that the fire was the result of intention, not accident. The inducement may have been antipathy toward the steamship company or the officers, or the fact that the Chinese passengers were supplied with large sums of money.

CASE OF PAYMASTER REESE.—The offence for which Major Henry B. Reese, paymaster in the regular army, is soon to be courtmartialed in New York, is misapplication of government funds in his hands, having used various amounts from time to time for a year or two, past in stock speculations and other private operations. All of these illegal and irregular loans have, however, been restored in full, so that the government will lose absolutely nothing. Reese's accounts were discovered to be involved more than three months ago, and since that time he has been relieved from duty and under arrest at Louisville. Reese is a nephew of General and Senator Sherman, both of whom, when appealed to by him and his friends, resolutely refused to interfere in his behalf, or to avert in any way the regular course of military discipline.

Morning Chronicle.

—Mr. Beecher recently earned twenty-five cents. While at the Twin Mountain House a young sprig rode up and asked Mr. Beecher to take his horses to the stable; which he did in the best style. The story was too good to keep, and the young sprig started in search of quarters in a hotel which had a less famous hostler. We have not heard what Mr. Beecher intends to do with his money. Though it was earned by taking the bits, it is hardly fair to infer that it was spent for bitters.—*Golden Age.*

—A young man lately attempted to shoot some tender verses into his sweetheart's window, but her papa intercepted the correspondence, catching one of the letters in his ear, and the young man has not been seen in that neighborhood since.

—A Malay rajah is said to possess a larger diamond than any in the world, and more valuable than any of the great gems of Europe. It is said to be much larger than the Koh-i-noor and to weigh 365 carats.

For Coughs, Croup, Diphtheria, Asthma, &c.

USE BUCHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in gardens" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified, in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

Geo. C. Goodwin & Co.,

WHOLESALE AGENTS,
HANOVER STREET, BOSTON.

And at the N. E. P. UNION STORE, Market St.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is endorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves restlessness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Cough, Croup, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the ounce of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

AYER'S

SARSAPARILLA

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

VEGETINE

The Great Blood Purifier.

A valuable Indian compound for restoring the health, and for the permanent cure of all diseases arising from impurities of the blood, such as

Scrofula Scrofulous Humors, Cancers, Cancerous Humor Erysipelas, Canker, Salt Rheum, Pimples and Humors on the Face, Ulcers, Coughs, Catarrh, Bronchitis, Neuralgia, Pains in the Side, Rheumatism, Dyspepsia, Constipation Costiveness, Dizziness Piles, Headache, Nervousness, Faintness at the Stomach Pains in the Back, Kidney Complaints Female Weakness, and General Debility.

This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon these complaints are surprising to all. Many hundreds have testified VEGETINE that have tried many other "Pedlar-dies." It can well be called

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, hunors, &c. It equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, scientists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUCHS, Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative's healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Alevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to fall off prematurely, and either effect is unsightly and unpleasant to behold. Dr. Ayer's consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

Are the most concentrated purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

PRETTY WOMEN.—After all, is the world so very absurd in its love of pretty women? Is women so very ridiculous in her chase after beauty? A pretty woman is doing a woman's work in the world, not making speeches, nor making puddings, but making life sunnier and more beautiful. Man has forsworn the pursuit of beauty altogether. Does he seek it for himself, he is guessed to be frivolous, he is guessed to be poetic, there are whispers that his morals are no better than they should be. In society resolute to be ugly there is no post for an Adonis, but that of a model or guardsman

But women does for mankind what man ceases to do. Her aim from childhood is to be beautiful. Even as a school-girl she notes the progress of her charms, the deepening color of her hair, the growing symmetry of her arms, the ripening contour of her cheek. We watch, with silent interest, the mysterious reveries of the maiden; she is dreaming of coming beauty, and panting for the glories of eighteen.

Insensibly she becomes an artist, her room is a studio, her glass an academy. The joy of her toilet is the joy of Raphael over his canvas, of Michael Angelo over his marble. She is creating beauty in the silence and loneliness of her chamber; she grows like any art creation, the result of patience, of hopes, of a thousand delicate touchings and retouchings.

Woman is never complete. A restless night undoes the beauty of the day; sunshine blurs the evanescent coloring of her cheek; frost nips the tender outlines of her face into sudden harshness. Care ploughs its lines across her brow; mother-hood destroyes the elastic lightness of her form; the bloom of her cheek, the quick flash of her eye, fade and vanish as the years go by.

But woman is still true to her ideal. She won't know when she is beaten, and she manages to steal fresh victories even in her defeat. She invents new conceptions of womanly grace; she rallies at forty, and fronts us with the beauty of womanhood; she makes a last stand at sixty, with the beauty of age. She falls like Cæsar, wrapping her mantle around her—"buried in woollen! Lawsoul a mercy! provoke!" eighteen.

THE REAL CULPRIT IN THE CASE OF THE REBEL CRUISERS.—The Liverpool correspondent of the Chicago *Tribune* writes as follows regarding Mr. Laird, the builder of the Alabama: "I am not without hopes that some of the wrath will fall upon the right heads. It is Liverpool that ought to be made to pay. Liverpool was the slave capital in England. The American Consul could hardly step from his door without being made aware of the sympathy of the Liverpool merchants with the South. There is Mr. Laird, the builder of the Alabama, and the wealthy member for Birkenhead. That personage is high in the Tory counsels. He associates with the leaders of his party. His black has turned gray, and he is not so upright as he was on the evening when I heard him boast in the House of Commons of his complicity. He is a tall, thin man, and in those days a black curl of hair fell over his forehead. He is of what novelists call a 'sinister aspect.' Mr. Bright denounced him in terms which Mr. Laird will never forget. He has built a hospital since, and he has been visited by Mr. Reverdy Johnson; but he is not forgiven. If he possesses any conscience, he must have had some mental disturbance since the close of the war, and, at the present moment, he must be particularly uncomfortable. During the discussions of the past session, when the indirect claims so nearly threw everything into confusion, and while Parliamentary debate was conducted with anxious care, I observed him steal in and out of the House with a forced smile upon his lips. Can he be a happy man? Does he wish he could erase from the pages of Hansard the works in which he gloried, which even he must admit was a matter for shame? Mr. Laird is a very rich man, but not many can envy him. If Liverpool could be made to pay half the award pure justice would be done."

—The Greenbush *Gazette* is responsible for the following: A prominent citizen of this village went home a few nights since at a late hour, and gently tapped on the door. "Who is it?" inquired his better half. To which very proper inquiry the heartless man replied by asking, "Who do you expect at this hour of the night?"

—This is the style of the Western papers: "Jacob Bumgander blew into the muzzle of his gun to see if it was loaded. It was. Funeral on Sunday."

—Gen. Spinner has just decided that when a mutilated note has five-eighths left it shall be redeemable at its full value.

—Coats of arms of "new and original design" are breaking out with greater virulence than ever before this Fall.

—A load of bricks passed over an Iowa boy last week without hurting him. He was under a bridge.

TO ADVERTISERS.

We shall print 5000 copies of the

NEW HAMPSHIRE GAZETTE

With the commencement of the 117th volume, next week. A *fac simile* of the first issue, Oct. 7th, 1756, will be sent to each of our subscribers. Advertisers are requested to send in their advertisements as early as Tuesday, as we go to press Wednesday morning.

The News.

Dr. Paul Schoeppe of Carlisle, Penp., has adopted a new mode of proceeding to obtain possession of the property of Mrs. Stennecke, of whose murder he was lately acquitted after three years' imprisonment. He abandons his former claim as her heir and asks the Baltimore court to appoint him administrator of her estate, their marriage, to which he makes oath, revoking under the Maryland laws her previous will in his favor.

The son of one of the most respected citizens of Portland, and a young man of great natural ability, who was laboring for a few days under the effects of dissipation, attempted suicide at the American House, Boston, a few days since, but remedies were promptly administered and he was soon out of danger and taken to his home.

The official returns of the West Virginia election show that the new constitution was carried by 4306 majority in a total vote of 81,002. The Democrats elected eighteen senators to three Republicans and forty-seven representatives to seventeen Republicans.

A rather curious accident occurred last week at the Gambo powder mills, near Portland. A man named George Kennison, while at work in the mills, got his clothes permeated with powder, and without brushing himself went to dinner. Chancing to go near the hot stove the powder upon his person ignited and exploded with a marked effect, setting fire to his clothes and badly burning him. He thinks that he will not again make a walking magazine of himself.

After The Flood.

In a confidential letter to the ex-rebel General Hodge of Kentucky, which the recipient hastens to publish, Blanton Duncan writes: "From the information before me Indiana will give a radical majority of 7,000, Ohio 10,000 and Pennsylvania 8,000 in October, and all the other States will go overwhelmingly radical. Fifteen States will then have declared against Greeley, and you have sagacity enough to know that the Democrats everywhere will refuse to support him any longer and would go for O'Conor. Now we ought not to allow the radicals to carry Kentucky by any division among ourselves. *They confidently rely upon it.* I believe we can carry it for O'Conor even if you continue your canvass, for there are not 80,000 voters who would support an old radical, without hopes of success, when a staunch Democratic ticket was in the field."

Delaware.

The Republican net gain in Delaware is over 2000. They carry Newcastle county by 340 majority; in 1870 they had but 44. The Democrats had over 1000 majority in each Democratic county, Sussex and Kent; now they have only 115 in Sussex and 306 in Kent.

Indiana.

"E. C." of the New York *Times*, writing from Indianapolis, says—"I am forced to conclude that Indiana is sure for Browne, (the Republican candidate for Governor,) by 3000 majority, and for Grant by five times that figure. The Republicans will fight rather than be cheated, and, knowing a man to be a non-resident, will not allow him to vote where they have the power to prevent it, no matter what he may swear." He predicts that the Republicans will elect their two candidates for Congressmen-at-large and secure nine of the thirteen Congressmen. Now they have six of out eleven. The Democrats are striving hard to control the legislature and defeat Senator Morton's re-election.

Pennsylvania.

A dispatch to the Washington *Republican* says Philadelphia will give a Republican majority of 13,000. Hartranft will come into the city 3000 to 5000 short. His total majority will be from 8000 to 10,000. Disaffections are settled in Luzerne, Crawford, Tioga and Lancaster counties. The general State ticket majority is estimated at 20,000. Large gangs of Baltimore and New York roughs, brought and registered by the Democracy, have been run out of the city, and their names have been stricken from the register.

Exaggeration Disproved.

Gen. Farnsworth and other Greeleyite speakers charge that the expenditures of the government amount to $160,000,000 per annum. The actual expenses are $94,952,000. An approximate estimate at the Treasury shows that even this sum includes about $30,000,000 which are directly charged as expenses growing out of the war of the rebellion.

Editorial Notes.

Old Probabilities had his hands full the past week. He hardly does justice to himself east of Boston, and slips up frequently on prognostications. Two distinct and very extensive storms have traversed from west to northeast. A high, aerial wave was at this time central over the Carolinas and the temperature continued increasing everywhere east of the Mississippi. Continuing its northeasterly direction, at the rate of 26 miles an hour, the storm in the northwest moved centrally over northern Wisconsin and Lake Superior, raging forlorn, thence southward over Lake Michigan and eastward to the St Lawrence valley on Monday night, and on Tuesday attended by torrents of rain. The westerly winds which succeeded the storm-centre were almost as high as the easterly gales which preceded it, and they continued violent over the upper lakes and adjoining country until Thursday, when the low depression was in Canada some 400 miles to the northwestward of Lake Huron and beyond the cognizance of old Prob. The rainfall attending this storm was generally quite heavy, being greatest in Wisconsin and western Michigan, where over four inches of water fell. At Milwaukee the city was quite flooded, and the storm was one of the most destructive known there for years. On Thursday a snow-storm raged over Lake Superior, extending thence southwestward into Canada.

Wasn't the Portland *Press* stretching it a little when it said the State Fair at Dover was superior in every department to any previous shows? Or did the *Press* mean inferior?

Now that Sumner has declined the Dolly Varden candidacy for Governor of Massachusetts, Hon. Geo. M. Stearns, the nominee for Lieutenant Governor, follows suit.

Didn't we say anything about the Lewiston *Journal*? Well, we forgot it. It is the newsiest paper in Maine and in its new dress looks "as booty as a bink."

THAT POISONING CASE.—We received a call from the conductor of the Pullman car who was poisoned by an apothecary's clerk in this city a short time ago. He informs us that it was a preparation of strychnine, not arsenic, that was given him to put in his tooth. That he spent the same evening at the theatre but did not feel well, and when he woke next morning on board the car—in which he sleeps every night while lying at the station in this city—his left hand and side appeared to be paralyzed. He did not know what was the matter. At breakfast he would find his mind wandering, and his mouth fill with froth. He told the conductor of the train about his case and he telegraphed to Dr. White of Gorham, who met him on the arrival of the train at that place and said, upon examining him, he thought he must have been poisoned. The doctor prescribed, but the conductor grew worse rapidly and, on reaching Island Pond, Dr. Adams, a very skillful physician, got aboard the train and at once declared it a case of strychnine poisoning. Dr. Adams further said that if one half the amount of strychnine that had been placed in the tooth had got into the stomach, instant death would have resulted. For over a week the patient has been very sick at his home in Montreal and has only been able to resume work within a day or two.

Under these circumstances we should like to enquire if there is to be no reliance placed on druggists' clerks. Here is a case of a stranger going into the first apothecary shop and getting poisoned through sheer ignorance or carelessness. We are aware that the majority of the druggists' clerks in the city are young men who understand their business, but it seems to us in view of the many serious mistakes that have been recorded abroad as well as at home that the severest measures should be taken with the proprietor when such a case occurs, either pecuniarily or legally. We understand that in this case the sufferer will refrain from prosecuting in case his loss of time and physician's bills are paid. He is by no means well yet.—*Portland Advertiser.*

NOTHING ELSE WILL ANSWER!—If you are hoarse, have a cold, or a hard cough, ask your druggist for *Hale's Honey of Horehound and Tar.* Take nothing else. It is the one sovereign remedy for all complaints of the throat and lungs. Cricktenon's 7 6th Avenue. Sold by all Druggists. 29

Pike's Toothache Drops cure in 1 minute.

SO GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villians are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastiles for Coughs, Cherry Pectoral Cough Drops, Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, promotes natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

A DISABLING DISEASE.—No disease which does not confine a man to his bed so completely unfits him for business as dyspepsia. When the stomach is foul, the brain is always muddy and confused, and as the cares and anxieties of life are a sufficient burden for the organ of thought to bear, without being tormented by the miseries born of indigestion, it is highly desirable for the brain's sake, as well as for the sake of every other portion of the system, that the disordered stomach should be restored with the utmost dispatch to a healthy, vigorous condition. This object can always be accomplished by a course of Hostetter's Stomach Bitters, the purest and best of vegetable specifics, which evacuates the morbid humors through the bowels, rouses and tones the torpid stomach and regulates the liver, imparts firmness to the nerves and clears the sensorium of its mental cobwebs. Persons subject to attacks of indigestion, bilious headache, irregularity of the bowels, sickness at the stomach, or "the blues," should take the Bitters once or twice a day throughout the present season.

CUPID'S AMBUSCADES.—The sly archer, Love, shoots his arrows from many coigns of vantage, but it is doubtful if he delivers his heart-taking shafts from any ambush with more effect than when he arms them from the braids and folds and ringlets of a superb head of hair. Ladies who have not been favored by Nature with this crowning charm of womanhood, can readily and certainly increase the volume of their hair and impart to it a silken lustre by using Lyon's Kathairon as a daily dressing; while those whom Providence has blessed with a superabundance of this "Glory" of the sex, can preserve it, undiminished in quantity and undiminished in beauty to the latest period of life. There is a germinating principle in the Kathairon which literally *compels the hair to grow.* It extirpates scurf, dandruff, and all exfoliations and excrescences of the scalp which interfere with the rapid and healthy development of the fibers.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

UNFADING LOVELINESS belongs only to the immortals, but whoever uses the fragrant Sozodont can at least defy time to injure one of the elements of beauty, a good set of teeth.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

HOLLOWAY'S PILLS.—They revive the appetite, promote digestion, sustain the vital powers, relieve all pain and uneasiness in the stomach and bowels, and strengthen the constitution as well as expel disease. Sold 78 Maiden Lane, N. Y. Price, 25 cents per box. Ask for new style; the old is counterfeited.

THE GRAND GIFT CONCERT.

GIFT MONEY ALL UP.

$500,000 in Bank to Pay Prizes.

A Full Drawing in Sight.

The Grand Gift Concert, for the benefit of the Public Library of Kentucky, is postponed to Saturday, the 7th of December, for the following reasons:

1. The failure of certain agents to make returns in time for the drawing to take place Sept. 28.

2. The accumulation of orders during the last few days to such an extent that it was not possible to fill them and have the drawing on the 28th.

3. The generally expressed desire of ticket holders that a full drawing might be had, even if it made a short postponement necessary.

4. The belief of the management that by a short postponement the remnant of unsold tickets can be disposed of, and all the prizes paid in full without the necessity of any pro rata scaling down.

For these reasons, coupled with the earnest desire to benefit the Public Library by a larger balance and the ticket-holders by larger gifts, the concert and distribution have been postponed to Saturday, the 7th of December, 1872. On that day and no other the drawing will positively and unequivocally come off in the great hall of the Public Library building, beginning at precisely 8 o'clock A. M., and continue until the whole of the one thousand gifts are awarded.

The payment of the gifts will begin the 31 day after the drawing, and continue for six months, in current funds, by the Farmers' and Drovers' Bank, or by sight draft upon the Fourth National Bank, New York, at the option of the gift ticket-holders.

The money necessary to pay in full all the offered gifts is now upon deposit in the Farmers' and Drovers' Bank, as will be seen by the following certificate of the Cashier:

FARMERS' AND DROVERS' BANK,
LOUISVILLE, KY., Sept. 26, 1872.

This is to certify that there is now on deposit in this bank over half a million of dollars to the credit of the Gift Concert fund, $500,000 of which is held by this bank as Treasurer of the Public Library of Kentucky, to pay off all gifts to be awarded at the drawing. R. S. VEACH, Cashier.

Hon. JOHN BAUMER, Manager of the Royal Insurance Company, Liverpool, and Col. ALSON P. JOHNSON, Proprietor of the Galt House, will act as a committee on the part of the Trustees to take charge of the bags before the drawing, count them, place them in the wheel, and personally see that corresponding numbers for all the tickets sold go into the wheel, which with its contents, will be placed in the hands of a committee on the part of the ticket-holders to satisfy themselves whether all the tickets sold were represented in the drawing.

Blind children, in full view of the audience, will alternately draw the tags from one of the glass wheels and the gifts belonging to them from the other, and the official record of the drawing thus conducted will be kept by three tellers chosen from different banks in the city. The drawing will be published in the Louisville papers and New York Herald, and official copies mailed to all parties out of Louisville to whom tickets have been sent by letter.

The remnant of tickets yet unsold will be furnished to those who first apply for them, and as general a distribution of them will be made among agents as their limited number will permit. No agent will be permitted, on any account whatever, to hold or sell a ticket for the management after the 25th of November, 1872.

The postponement has been made by advice of the Trustees, with the sole object of the real benefit of both the ticket-holder and the Public Library, and all concerned may rest perfectly assured that the positive final programme here announced will be carried out to the letter.

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

Jefferson Market's new front is rising.

The Amherst *Cabinet* says a most remarkable family gathering was held at Lower Gilmanton, recently, the occasion being the sixtieth anniversary of the marriage of Mr. and Mrs. Wm. Newell; and their twelve children, all of whom are married, were present to join in the festivities of the home visit. Among the sons were John P Newell, of Manchester, for many years a popular teacher in that city; Jackson Newell, leader of the Dover Cornet Band; L. V. Newell, merchant in Portsmouth. We doubt if a like meeting was ever held in the State.

The rails on the Boston and Maine extension are now laid between Salmon Falls and North Berwick village.

An elegant new lantern has been placed at the entrance of the Rockingham billiard hall on Warren Street, and the light now makes that street less desolate by night.

The Biddeford *Times* says Miss Sarah Ann Cole, daughter of Mr. Abner Cole, of Eliot Neck, met with a severe and dangerous accident at that place a few days since. Miss Cole had occasion to go into her father's boat house, which projects out over the river, and the flooring giving away she was precipitated some fifteen or twenty feet to the ground beneath, receiving, it is feared, fatal injuries, the water at the time being at low tide; had it been otherwise her injuries would doubtless have been less severe.

The Grant & Wilson drum corps is a decided success. To be appreciated, they must be heard—all eleven of them.

Engineer Johnson has nearly completed the location of the Portsmouth and Dover Railroad, and the directors will probably be ready to give out contracts by the 15th inst. The great amount of rainy weather has delayed the work for some weeks, says the Dover *Enquirer*.

At the State Fair, Thursday, M. Eldredge's bay mare "Lady Franklin" won the first heat in the race for a purse of $500. "Belle Dean," owned in Concord, won the three next heats and the race. Time, 2:41, 2:37 1-2, 2:39, 2:37, "Lady Franklin" was awarded second money, $125.

Many shares of the Portsmouth Railroad have been sold. "How many?" Not knowing, can't say.

The Vesper services at the Unitarian church will commence hereafter at seven o'clock, P. M.

Mr. J. Frank Shannon, foreman of S. F. Engine Co. No. 1, has been presented with a $50 gold badge by the S. B. Breed Hook & Ladder Co. of Lynn.

What is it that annoys you, sweet William? Aren't you willing we should print 5000 GAZETTES? Had we thought your opinion worth having, we should have consulted you about it. Don't be so nervous!

There will be evening services tomorrow in St. John's church, commencing at quarter past 7 o'clock.

The eighteenth annual N. H. State Fair closed on Friday, in good style. The 2:40 trot was won by Frank Jones' stallion Fearnaught Prince, in three straight heats, in 2:44, 2:42 1-2, 2:43 3-4, Col. Cross getting the first heat in 2:41.

Mind-your-own-business Billy says our proposed issue of 5000 NEW HAMPSHIRE GAZETTES is "thin." It seems to be altogether too thick for his comprehension, though.

Auction sale this day, Saturday, on the premises, by J. P. Morse, of stock and fixtures of grocery store No. 109 Market Street. By H. F. Wendell, at his Auction Store, No. 70 State Street, of China and glass ware, room papers, furniture, etc. See advertisements.

Sam Sharpley and G. Swaine Buckley are announced for a performance at the Temple, this evening, with a travelling company. They propose to show what they know about clasping hands in the minstrelsy business, and will make lively music.

Rev. Geo. M. Adams will preach in the Congregational chapel on Middle Street, Sunday forenoon.

At the meeting of the Board of Aldermen, Thursday evening, the name of Miller's Avenue was changed to Summer Street. Geo. L. Hersey and Geo. Hoyt were appointed special policemen without pay. William F. Batten was appointed watchman. City bonds of $500 and $1000 for the loan to the Portsmouth & Dover Railroad were ordered printed.

Portsmouth people were awarded premiums, as follows, at the State Fair:—Frank W. Miller, Fearnaught filly, "Junie," rec.; C. Hayes & Son, Fearnaught and Hambletonian filly, two years old, dip.; C. Hayes & Son, native and grade cattle, herd, 2d, $10,— cow, "Star," 2d, four years old, $6;—Ayrshires—bull, "Tom," 3 years old, 1st, $15; bull, 1 year old, 1st, $8; cow, "Lady Geraldine," 5 years old, 1st, $15; cow, "Lady Floy," 3 years old, 1st, $10; cow, "Jennie 2d," 2 years old, 1st, $8; heifer, "Lucy," 2 years old, 2d, $4; calf, 3 months old, 1st, $1.

The Mountain Delivered.

The local office-seeker's organ, in its report of a meeting of the Young Men's Greeley and Brown Club and the formation of a "guard," says: "The club numbers about sixty, composed mostly of young men between the ages of 18 and 23." Isn't that rather a small mouse for the Greeley mountain to bring forth after the agonized travail of so many weeks? If but one new member had joined the club each time a meeting has been called, the show of heads would have been nearly up to the number above given.

The Greeley hand-organ did a good deal of piping about "boys" in the Grant and Wilson Guards, and was very anxious to be informed how many "voters" there were among the 113 persons who joined that organization on the first evening for which a meeting was called; now will it please tell us how many of the sixty "young men between the ages of 18 and 23" are voters, how many are "between eighteen" and how many are older, and what difference there is in the ages of an eighteen-year-old "boy" in the Grant and Wilson Guards and an eighteen-year-old "young man" in the ranks of the Greeley Greybacks?

"Rambles About Portsmouth."

Ever since the publication of the "Second Series" of Rambles about Portsmouth, by the late Charles W. Brewster, we have been urged to reprint the first series, which is now out of print. We have finally concluded to do so, provided we can commence the work with four or five hundred of the books subscribed for—the undertaking involving considerable expense. Those who wish their republication and who have not already handed in their names, will please address, Lewis W. Brewster, Portsmouth, N. H., by mail or otherwise. Price $2.25 to subscribers, or five copies for $10. The price after its issue will be $2.75.

We have on hand copies of the Second Series, a complete book of itself. Price $2.75.—*Journal.*

Kittery Schools.

A Kittery correspondent of the Biddeford *Times* writes:—

No town in York County, I think, pays higher wages to their teachers, according to requirements of the school than old Kittery. We have five graded schools—two in No. 5, three in No. 9, but no teacher receives a thousand dollars salary. Sixty-five dollars per month is the highest wages ever paid. I hope the day is not far distant when we can have a central High School, to which all qualified pupils may be admitted. Our town is able to pay *two* thousand per year, but no district can well afford to pay more than they now do.

We approve of High Schools, but even the city of Portsmouth would tire of sustaining their High Schools if the class, rank, and excellent teachers' salaries depended on one district; talent is not a local endowment. We hope instead of the everlasting harping on R. Rs. this Winter, they will do something to raise the tone of our country schools, allowing us to maintain a public High School, where the smart boys and girls of No. 4 may stand side by side with those of 1 or 9, and our teachers receive adequate recompense. For a few extra hundreds is more satisfactory in the pocket, than in the newspapers.

—When the telegraph operator at Auburn on Sunday morning opened the office for the Sunday morning hour, he found in his door a pair of shoes. Attached to one of the shoes was the request to send to Michael F., Bangor.

THE LOBSTER. — When a lobster shakes hands with you you always know when it takes hold, and are exceedingly pleased when it gets done. They have small features, and lay no claim to good looks. When they locomote they resemble a small boy shuffling off his father's boots. They are backward, very. They even go ahead backward. They occasionally have a row like people, and in the melee lose a member, but have the faculty of growing out another. The process is patented both in this country and Europe, which accounts for it not coming to general use with the human lobster, so to speak.

A lobster never comes on shore unless he is carried by force. They are afflicted with but one disease, and that is boils. There is more real excitement in harpooning a whale, or in having the measles, than there is in catching lobsters. The fisherman provides himself with a small hen-coop, and places in it for enticers several dead fish. He then rows his boat to the lobster ground (which is water) and sinks his coop to the bottom, and anchors it to a small buoy (one from eight to ten years will do), and then goes home. When he feels like it again—say in the course of a week or so—he goes back and pulls his poultry-house, and if he has good success he will find the game inside the coop.

As an article of food, the real goodness of the lobster is in the pith. Very few persons relish the skin, and physicians say it is hard to digest. We, therefore, take the lobster and boil it until it is ready to eat. Nothing is better for colic than boiled lobster. It will bring on a case when cucumbers have failed. For a sudden case, we advise them crumbled in milk. Eaten at the right time, and in proper quantities, lobster stands second to no fruit known.

USE BUCHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified, in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Cough, Croup, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the choice of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a minute's warning, and a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, the fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

AYER'S

SARSAPARILLA

FOR PURIFYING THE BLOOD.

A medicine that cures in a real public blessing. AYER'S SARSAPARILLA makes positive cures of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns,

AYER'S
CHERRY PECTORAL
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.
The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed consumption, dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The present should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Plaster, has no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.
PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

AYER'S HAIR VIGOR
FOR RESTORING GRAY HAIR
TO ITS NATURAL VITALITY AND COLOR.
Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either premature baldness or to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S compound is what has produced so manifold a change in the hair, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR restores perfect vigor to the hair; and always restores to faded and gray hair its natural color, with the glossy freshness of youth. The compound is free from all poisonous ingredients, and, as now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.
As an elegant dressing for beautifying the Hair, it has no superior.

Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,
Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take, and being purely vegetable, they are entirely harmless.

THE BOTTOM OF THE ATLANTIC.—The soundings which were made between Ireland and Newfoundland before laying the Atlantic cable have made the bottom of the Atlantic almost as well known as the surface of Europe or America. It is covered with a fine mud, the remains of microscope insects, which will one day doubtless harden into chalk. Of the inequalities of this ocean bottom, Prof. Huxley says:

"It is a prodigious plain, one of the widest and most even plains in the world. If the sea were drained off, you might drive a wagon all the way from Valentia, on the west coast of Ireland, to Trinity Bay in Newfoundland; and, except upon one sharp incline, about 200 miles from Valentia, I am not quite sure that it would ever be necessary to put the skid on, so gentle are the ascents and descents upon that long route. From Valentia the road would lie down hill for about two hundred miles, to the point at which the bottom is now covered by seventeen hundred fathoms of sea water. Then would come the central plain, more than 1,000 miles wide, the inequalities of the surface of which would be badly perceptible * * * Beyond this the ascent on the American side commences, and gradually leads for about 800 miles to the Newfoundland shore."

THE DIAMOND DISCOVERY.—Diamond stocks no longer go off like hot cakes in this market. In fact most persons are by this time aware that the sales, or pretended sales, of diamond stock in this city was a put-up job, as audacious as it was sharp and unconscionable in character. If the diamond discoveries had really been one tenth part of the value reported, there never would have been a dollar of the stock offered for sale. Stones of uncertain value, and some of them of uncertain origin, were exhibited here; stories were set afloat, which, if they had a grain of truth in them, had ten grains of falsehood. A fever of excitement was created, and a few persons were ready to buy anything at any price. Cheap rubies were supposed by the ignorant to represent enormous sums. Stones which might or might not be diamonds were rated at thousands of dollars, and were represented as so abundant that they could be exhibited by the quart.

The diamond fever has suddenly subsided. Many adventurous men have gone off to hunt for precious stones, and if they fail in finding diamonds, there is still a chance left that they make other discoveries of some importance.

So far as we can learn, the average value of all the precious stones in New Mexico and Arizona has not exceeded a hundred dollars a bushel. There are many old miners who would be glad to contract for the delivery of precious stones at that rate. They will empty old boot legs and oyster cans at that price.

The diamond excitement secures an incidental good in stimulating adventurers to explore a country of which little is known. It also serves to impress upon the public mind the fact that the class of speculators who offer diamond stocks in the market, while they have taken the wild cat by the tail, are holding him in the most favorable attitude for clawing the crowd.—*San Francisco Bulletin.*

PRAYING WITH CAUTION.—We have a fresh anecdote of Elliston, one of the most delightful actors of England a hundred years ago. When scarcely eighteen he was one day engaged in earnest conversation with the hostess of a tavern at Wapping, with whom he was smitten. An alarm of fire was given, and as it was necessary to conceal young Robert William, he was placed in a hasped chest. Five minutes passed; still the noise continued—nay, it increased. He tried to raise the lid, but she had prudently fastened it. He listened; the confusion in the house became more evident. He could hear persons running to and fro; he heard the drippings of water. All considerations but those of personal safety vanished. He sought with all his might to extricate himself—in vain; frightful thoughts of being burned alive flashed through his mind. "At last," to use his own words, "I had nothing for it but patience and prayer."

"Prayer!" exclaimed his hearer; "you should have said repentance also."

"Sir," he replied, "I did not pray directly for myself, but that those who were endeavoring to subdue the fire *might be induced to take care of the furniture.*"

Elliston's flame went out with the fire and he went to that tavern no more.

Greeley's Consistency.

The New York *Tribune* of August 18, 1871, contained the following "official" announcement of Mr. Greeley's views;

The personal views of Mr. Greeley are exactly these: He favors the one term principle, and believes that another Republican candidate for President can be elected who will encounter less opposition and win more support than General Grant; and he therefore advocates such selection. But should his views be overruled, and General Grant nominated, he holds his election infinitely preferable to that of any candidate whom the Democrats may nominate, for a Democratic triumph involves the return to power of the great mass of those who for years plotted the disruption of our Union, and at length forced the southern States into secession and rebellion, contrary to the wishes and the judgment of a decided majority of the people.

The Democrats nominated Horace Greeley; and he now discerns in Grant's re-election the most fearful calamity which ever threatened the country, and in "the return to the great mass of those who for years plotted the disruption of our Union," the Union's only hope of salvation. He still gabbles about the "one term principle," Greeleymocrats support him as a "one-term-candidate;" but if his views concerning the desirability of Grant's re-election over" any candidate whom the Democrats may nominate, and of the results of a Democratic triumph, are so easily and quickly turned about by a Democratic nomination of editor Greeley to the Presidency, it requires but little of the spirit of prophecy, to tell how long President Greeley's one term crotchet would stand up under the weight of a possible re-election. He would repudiate that flatly and promptly,—as flatly and promptly as he did at Cincinnati the secession doctrines he preached at Pittsburg but a few hours before.

Mr. Greeley not only endorses the one term principle, but he heartily disapproves of a Presidential candidate taking the stump in behalf of himself or to explain the principles of the party he represents,—and since his last swing around the circle his Demo-Liberal supporters entirely agree with him. The *Tribune's* report of Mr. Greeley's famous civil service reform speech at Portland, in which he promised to divide the spoils equitably among his adherents, contained the following paragraph:

It is a part of the unwritten law of our country that a candidate for President may not make speeches in vindication and commendation of the principles whereupon his election is intended to promote; though a candidate for Vice President is under no such inhibition. I acquiesce in this restriction. *I recognize and affirm its propriety.*

Within a few days of making the above affirmation of the impropriety of a Presidential candidate taking the stump, Mr. Greeley commenced the most remarkable series of speeches—the stumpiest of all stump speeches yet made in this campaign, to whoever would gather to hear him in cities or at county railroad stations. In one thing only is Mr. Greeley consistent, and that is, in determining to get office if possible, no matter what or whom he has to swallow. Happily, a willingness to be "all things to all men" is not regarded by a majority of the people as the one thing needful in a President, and Mr. Greeley will be spared the mortification of being the poorest President ever elected, not excepting even James Buchanan.

Indiana.

Gen. Butler addressed a vast audience at Indianapolis on the 3d. Hendricks, Democratic candidate for Governor, had repeated the exploded "spoons" slander. Ben denounced him as a liar and blackguard. The State canvass has been worked up better than ever before and closed with immense mass meetings, 50,000 people participating at Indianapolis and 20,000 at Richmond.

Ohio

"Cymon" of the New York *Times*, writing from Cincinnati, says:—If my observation thus far qualifies me for an expression of an opinion as to the effect of Greeley's speeches, I would say that the most conspicuous effect thus far is to deeply intensify Republican activity, and to furnish Republican speakers and newspapers with new themes for discussion and new reasons, as found in the speeches themselves, demonstrating the unfitness of the candidate. The soldier element in the West is more quick-tempered than that at the East, and it has seized with vindictive avidity the insults of the Pittsburg speech, and resents them with hot indignation "all along the line." While here in Cincinnati among the business men Greeley has suffered severely, because of his speech on 'Change' where he aired his financial heresies, and in his unsophisticated innocence declared himself ready to deplete the Treasury, in order to reduce the debt forthwith, and thus give free rein to the gold gambling cliques throughout the country. The business men say they admire Mr. Greeley's candor and frankness in thus stating his peculiar views, for it gives them a warning in ample time to avoid the calamity of his election. This license which he has indulged in has put an arsenal of weapons into the hands of three hundred Republican speakers now on the stump in these three great middle States, and while Mr. Greeley's admirers may sing his praises as a versatile speaker, it is inevitably certain that his speeches will materially increase the Republican majority.

More Clasping of Hands.

M. H. Hale, chairman of the Savannah (Ga.) Republican committee, telegraphs Judge Edmunds, secretary of the Republican congressional committee, the following statement of affairs at the election is that city:—

The Greeley party had full control of all the polls. The managers were all Democrats, and disregarded the provisions of law, and would not allow Republicans entitled by law to cast their votes. After attempting to vote for several hours they abandoned the polls and went home. Over two thousand Republican voters were deprived of their right to vote. The good behavior of the colored men only prevented serious trouble. Colonel E. Bryant, deputy collector of customs, was seriously assaulted by plug-uglies who had been appointed special deputy sheriffs. The very worst class of the white Democratic element were sworn in as special deputy sheriffs. Great outrages upon the rights of citizens have been perpetrated. The polls were surrounded by a large body of police armed with muskets. A sabre club patrolled the streets, mounted. This morning the roads leading to the city were picketed and voters from the country were driven back and not allowed to come into the city to vote. Only four voting-places were provided for eight thousand voters in the county, and those all in one building.

Had these Republican voters been protected by a company of U. S. soldiers, what a howl would have gone up against President Grant! The condition of these unprotected American citizens under such an administration as Horace Greeley's can be better imagined than described or realized.

Base Ball.

The Mutuals defeated the Baltimores on Friday, 18 to 8. The Bostons defeated the Athletics, 10 to 8. On Saturday, a great game was played at Boston by the Bostons and Athletics. The Bostons played an almost perfect game, did some heavy batting and fine fielding. They scored ten runs and blanked the Athletics in every inning. The game was a very remarkable one. The Athletics reached first base but six times during the game and did not get to third base once. This was the seventh game between these clubs, the Philadelphians winning three by scores of 10 to 6, 9 to 1 and 6 to 4. The Bostons have won four by scores of 13 to 4, 16 to 4, 10 to 8, 10 to 0.

Two heavy failures were reported in Newburyport last week—one for $70,000 and the other for $80,000 liabilities.

—Camp Meeting John Allen made the prayer at the opening of the Supreme Court at Farmington, Me., recently, and as follows: "O Lord, help us to pray for the lawyers, for thou knowest they have abundant need for prayer."

—M. C. Mitchell, the new United States Senator elect from Oregon to succeed Corbett, will be one of the youngest men in the Senate, being only about thirty-six years of age.

—What is the difference between the girl of the period's seat on horseback and her gait in walking? One is a side-saddle and the other a sad sidle.

Political.

The straight-out Democrats of New York held a State convention in Albany and nominated a full electoral ticket, including Peter Gilsey, John A. Goodlett and George Sprague at large. Resolutions in support of O'Conor and Adams and the Louisville platform were adopted.

A good story is told of an old line Democrat who put up $100 on the election of the "old rat." It so happened in some of his wanderings that he saw his candidate, whereupon he returned to the gentleman with whom he made the bet, and handed him an order for the money. The gentleman's astonishment was quickly allayed by the remark that "I've seen him and I have got more faith in the American people than to believe they will elect him."

There may be some people, says the Brooklyn *Union*, who believe in Mr. Greeley's honesty since he sold himself to the Tammany Democracy, but Judge Hoadley of Cincinnati is clearly not of their number. Judge Hoadley has a good memory, and he has lately brought before the public, in one of his speeches, the facts about Mr. Greeley's corrupt connection with the Des Moines Improvement Company when he occupied a seat for a brief term in Congress. The *Evening Post* says, in reference to this subject, that "if infamous lobbies beset our Legislatures, both State and national, it is largely owing to the pernicious doctrines which Mr. Greeley has taught."

Grant took a horseback ride across the Potomac on Tuesday last, and visited Arlington Heights. He was gone all the afternoon. Can anything exceed the infamy of a man who will desert the seat of government in this way? ask the Chicago *Post*.

The Republicans of Nashua had another torchlight demonstration, Friday night, numbering about 700 men, including a cavalry company of 100.

The New York *Tribune* recently stated that Speaker Blaine received nearly two millions of stock from the Eastern division of the Union Pacific Railroad company, for his aid to them in Congress in passing the act of incorporation in 1862. Mr. Blaine denies the charge and says he was not a member of Congress in 1862!

Hon. Gustavus A. Finkelnburg, one of the original Liberal Congressmen from Missouri, has declared for Grant.

Gen. Harriman addressed 15,000 Republicans at Reading, Pa., on the 3d.

The Chicago *Inter Ocean* is prepared to hear that Speaker Blaine acting in behalf of a dozen respectable Republicans in Congress, and one or two railroad corporations, assassinated Abraham Lincoln in 1865, fired Chicago in 1871, and sprung the earthquake in Syria in the spring of the present year.

Hon. Geo. W. Smith, of Port Chester, New York, an influential Democrat, wants to be counted in for Grant.

SO GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastiles for Coughs, Cherry Pectoral Cough Drops, Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.

CASTORIA.—A substitute for Castor Oil—a physic which does not distress or gripe, but is are to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothe and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

THE JUSTICE OF THE VERDICT rendered by the public years ago in favor of the MEXICAN MUSTANG LINIMENT must be apparent to all who have used that famous preparation or seen it used. Its healing influence is irresistible. The most obstinate forms of neuralgic or rheumatic disease are totally cured by it, in an inconceivably short space of time. External injuries or sores, whether of man or beast, as well as all equine or human maladies for which a liniment may be used, are speedily remedied by its use. Remember it is not merely a palliative but an eradicant of disease.

TROOPS OF AILMENTS VANQUISHED.—On account of the promptness with which it checks the fevers generated by unhealthy exhalations Hostetter's Stomach Bitters is considered an indispensable family medicine on the borders of our Southern and Western rivers, and in new settlements where the plough and the axe are for the first time disturbing the solitudes of nature. Its reputation, however, is not confined to such localities. Wherever the elements of disease are rife it is the surest safeguard of health; wherever sickness prevails, it is efficacious as a remedy. Among the serious diseases which it is guaranteed to control are indigestion, biliousness, and all the minor ailments connected with derangements of the stomach, the liver, and the bowels—such as heartburn, headache, flatulence, costiveness, nausea, distaste for food, languor and debility, palpitation of the heart, trembling of the hands, noises in the ears, disordered vision, disturbed sleep, and mental inquietude. As these physical and mental disturbances tend to a general failure of all the powers of the system, they should be at once corrected—as they always may be by a course of Hostetter's Stomach Bitters.

HOLLOWAY'S OINTMENT.—Asthma, tightness of the chest, and the various diseases of the throat and lungs, as well as the innumerable eruptions and ulcers which attack the skin and flesh, yield invariably to this preparation. CUPID'S AMBUSCADES.—The sly archer, Love, shoots his arrows from many colgns of vantage, but it is doubtful if he delivers his heart-taking shafts from any ambush with more effect than when he arms them from the braids and folds and ringlets of a superb head of hair. Ladies who have not been favored by Nature with this crowning charm of womanhood, can readily and certainly increase the volume of their hair and impart to it a silken lustre by using Lyon's Kathairon as a daily dressing; while those whom Providence has blessed with a superabundance of this "Glory" of the sex, can preserve it, undiminished in quantity and undiminished in beauty to the latest period of life. There is a germinating principle in the Kathairon which literally *compels the hair to grow*. It extirpates scurf, dandruff, and all exfoliations and excrescences of the scalp which interfere with the rapid and healthy development of the fibers.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

UNFADING LOVELINESS belongs only to the immortals, but whoever uses the fragrant SOZODONT can at least defy time to injure one of the elements of beauty, a good set of teeth.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Heels, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. al2

FALL AND WINTER PATTERNS,

At No. 2 MARKET STREET, on the 16th.

WARD 2 REPUBLICAN COMMITTEE

ARE requested to meet at general headquarters, WEDNESDAY evening, Oct 9th, at 7½ o'clock.

THE GRAND GIFT CONCERT.

GIFT MONEY ALL UP.

$500,000 in Bank to Pay Prizes.

A Full Drawing in Sight.

The Grand Gift Concert, for the benefit of the Public Library of Kentucky, is postponed to Saturday, the 7th of December, for the following reasons:

1. The failure of certain agents to make returns in time for the drawing to take place Sept. 28.

2. The accumulation of orders during the last few days to such an extent that it was not possible to fill them and have the drawing on the 28th

3. The generally expressed desire of ticket holders that a full drawing might be had, even if it made a short postponement necessary.

4. The belief of the management that by a short postponement the remnant of unsold tickets can be disposed of, and all the prizes paid in full without the necessity of any pro rata scaling down.

For these reasons, coupled with the earnest desire to benefit the Public Library by a larger ballance and the ticket-holders by larger gifts, the concert and distribution have been postponed to Saturday, the 7th of December, 1872. On that day and no other the drawing will positively and unquivocally come off in the great hall of the Public Library building, beginning at precisely 6 o'clock A. M., and continue until the whole or the one thousand gifts are awarded.

The payment of the gifts will begin the 31 day after the drawing, and continue for six months, in current funds, by the Farmers' and Drovers' Bank or by sight draft upon the Fourth National Bank, New York, at the option of the gift ticket-holders.

PRICE OF TICKETS.

Whole Tickets, $10; halves, $5; quarters, $2.50; 11 whole tickets for $1000; 28 for $315; 56 for $560; 113 for $1,000; 255 for $2 500; 575 for $5,000. No discount on less than $100 worth of tickets at a time.

The money necessary to pay in full all the offered gifts is now upon deposit in the Farmers' and Drovers' Bank, as will be seen by the following certificate of the Cashier:

FARMERS' AND DROVERS' BANK,
LOUISVILLE, KY., Sept. 26, 1872.

This is to certify that there is now on deposit in this bank over half a million of dollars to the credit of the Gift Concert fund, $500,000 of which is held by this bank as Treasurer of the Public Library of Kentucky, to pay off all gifts to be awarded at the drawing. R. S. VEACH, Cashier.

Hon. JOHN BARNEY, Manager of the Equitable Insurance Company, Liverpool, and Col. JILSON P. JOHNSON, Proprietor of the Gault House, will act as a committee on the part of the Trustees to take charge of the tags before the drawing, count them, place them in the wheel, and personally see that corresponding numbers for sale, the tickets sold go into the wheel, which with its contents will be placed in the hands of a committee on the part of the ticket-holders to satisfy themselves whether all the tickets sold were represented in the drawing.

Blind children, in full view of the audience, will alternately draw the tags from one of the glass wheels and the gifts belonging to them from the other, and the official record of the drawing thus conducted will be kept by three tellers chosen from different banks in the city. The drawing will be published in the "Louisville papers and New York Herald, and official copies mailed to all parties out of Louisville to whom tickets have been sent by letter.

The remnant of tickets yet unsold will be furnished to those who first apply for them, and as general a distribution of them will be made among agents as their limited number will permit. No agent will be permitted, on any account whatever, to hold or sell a ticket for the management after the 25th of November, 1872.

This postponement has been made by advice of the Trustees, with the sole object of the real benefit of both the ticket-holder and the Public Library, and all concerned may rest perfectly assured that the positive and final programme here announced will be carried out to the letter.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

— OF —

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model, does two-thirds the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

LOCAL AFFAIRS.

Laconics.

Two young girls stole a lady's valise from the ladies' room of the Eastern depot on Friday. The valise contained articles of considerable value and was recovered by the police. The girls were arrested but were discharged, as the owner of the valise, who lives in Hampton, declined to prosecute the case.

Mary Esterbrook, a young damsel recently sent to the House of Correction for vagrancy, escaped a day or two ago, but was recovered in Newburyport by Marshal Johnson and returned to her former prison quarters.

"Fearnaught Prince" won the 2:40 race and $175 at Dover, Friday. Two Portsmouth horses, "Jim" and "Ben," came in third and fourth in the running race, the winning horse going the mile and repeat in 2:04 and 2:08.

Sweet William thinks it a "curious proceeding" for the NEW HAMPSHIRE GAZETTE, which fifteen years ago was a Democratic paper, to be advocating the election of Republicans to office. 'Tisn't any more "curious" however than the editing of the present juvenile Democratic organ in this city by a renegade Republican who deserted to Democracy ten years ago and now in common with the leading marketmen of that ancient organization advocates the election of that virtuous and consistent Democrat, Horace Greeley, to the Presidency!

THE NEW HAMPSHIRE GAZETTE (Portsmouth, N. H.,) will commence its 117th volume next week, at which time a *fac simile* of its issue, Oct. 7, 1756, will be sent to each subscriber. Send us a *fac*, George. Notwithstanding its great age, the Gazette can thread a needle or see to read the signs of the times without spectacles, as quickly and sharply as it could a hundred years ago. *The New Hampshire Gazette.*—Long may it live; never more prosperous, more ably conducted than under its present management (as near as we can recollect from a drawing taken on the spot.)—*Biddeford Journal.*

Commodore John C. Howell formally assumed command at the Navy Yard on Saturday, salutes being fired from the battery and the R. S. Sabine. Rear Admiral Pennock retires from the responsible and often thankless position of commandant with the highest esteem and best wishes of the public at large, and of the employes of the yard, of every rank and station.

Dolly Varden Financiering.

Greeley tries here but only this-a-way:—Firstly, $25 that they can name twenty-three States that will vote for Greeley; Secondly, $100 that they can name the twenty-fourth State that will vote for Greeley; Thirdly, both bets must be taken together. Prospective result, Greeley man loses first bet of $25, names Maryland as the "twenty-fourth" State and wins the second bet of $100. Net Dolly Varden gain, $75.—P. S. The proposal is so thin that no one accepts the proposition. Actual result commensurate with the satisfaction the D. V.'s experienced after the North Carolina, West Virginia, Vermont and Maine elections.

Clippings.

From the Portsmouth Journal.

—It is said that fashion has a last made the sensible decree that a long dress on the street next winter will be entirely out of place—in fact, "quite vulgar," so Demorest's Magazine says.

—A great need here—a singing school. Our reputation as a "musical community" will be among the dead issues, unless something is done to develope the musical talent of the rising generation.

—We understand that a large number of rooms are already engaged at the public and private houses at Rye Beach, for next summer, the countless disappointments this year causing would-be visitors to speak in season.

—Cod, hake and mackerel have been plenty here this week. A cod, weighing eighteen pounds, was caught off the second bridge at Newcastle on Friday afternoon last. The fishing from this point has been lively the present season.

—A new and larger style of rice is making its way into our kitchens, from the source of so many novelties and wonders, the East Indies. The specimens we have seen are as large as a melon seed, and not unlike that in its creamy white color. Of its qualities for table use we have yet to learn.

—The Portland Press says, Rev. Geo. W. Bicknell, recently of this city, the pastor of the India Street Universalist Church, a few nights since was surprised at his residence by some of his parishoners and friends with an elegant set of parlor furniture. He has, during the few months of his ministry, given new impetus to the society; the church inside and vestry has been finished and large accessions been made to the society.

—The silver wedding of Mr. & Mrs. Geo. W. Plumer was celebrated at their residence, corner of Congress and Fleet streets, on Thursday evening last. A host of friends offered their congratulations, and not a few brought their argentine welcome with them. In behalf of quite a number of the members of the Middle St. Baptist Society, their pastor, Rev. Mr. Alden, presented the happy couple with a handsome silver ice-water pitcher and salver. The presentation and the response by Mr. Plumer, in which words could be but a poor expression of the deep feeling evinced, having been made, the company gave themselves up to the usual enjoyments of such an occasion.

—Those who are accustomed to take walks into the country around us would do well to study botany as regards at least the shrubs and plants that are poisonous. We met a gentleman of this city this week whose investigations in this line though entirely unintentional were remarkable fruitful in results, his face hands and arms and other parts of the body being inflamed and scabbed by contract with a pithy shrub (water alder?) that is found growing in a hollow beside the Concord Railroad, on the left hand as you go from town, about half a mile above the Plains—a milky sap exuding freely from a twig cut by him, covering his hands. It was of an odor not disagreeable, and he consequently took no pains to wash it off. His face was exposed to the excalation. Next day the trouble began and the interesting results mentioned above soon followed. As he is not alone in this experience, we have thought proper to give this caution.

BOSTON, Oct. 4.

Boston is proud of her streets, and deservedly so, for the cleanliness which is akin to godliness reigns in most of them. But Boston can never have *good* streets because of three things:—the Gas Company, the Water Works and Horse Railroads. No sooner is an old street repaved, no sooner is the paving of a new avenue completed, than some one of these corporations seems possessed of a demon and begins tearing up the pavement which has cost so much to place. Never again will the roadbed be so even, never again will it have its original solidity, never again will it even look so well. Why this digging and delving cannot be done with equal satisfaction *before* paving on a new street will ever be a conundrum to me.

The Sons of Portsmouth resident in this city look anxiously for some action on the part of your city fathers regarding their return home on the 4th of July next. To have a display that shall creditably contrast with the fine reception of twenty years since (in which by the way your correspondent had the honor to be one of the welcomed "Sons,") it will be necessary to have some definite plan at an early day, in order that no other arrangements be made by the absent boys. Wouldn't the return of the Sons be a grand opportunity to celebrate the opening of the new Portsmouth & Dover railroad? And if the dedication of the Portsmouth Public Library could only be added for the same date, "we boys" would depart to the new homes we have adopted with renewed pride in our old home, and doubtless leave some memento of our visit for the benefit of the Library. But, there! I suppose Kittery will have its library first, although Mr. Jones so generously placed the nucleus for that in your city three years since. When Elwyn Park, Cutts' Avenue and Jones' Library are all accomplished facts, I have several other improvements to suggest to your citizens.

Galvin Brothers, the popular florists, are remodelling their salesroom, on Tremont Street, near Beacon. This well-known firm will decorate the Coliseum for the Gilmore Testimonial Ball, and all who know much of Boston floral work expect an exceedingly fine show.

I have protested strongly in the past against the omissaries of the Tract Societies. My room has been invaded, I have been intercepted on the Common, I have feared to frequent the principal hotels,—because at all these points I have been confronted by propagandists who bore or left tracts with such personal conundrums as:—"Are You a Christian?" "Have You a Reason for the Faith that is in You?"—or the more sombre enunciations:—"Prepare to Meet thy God," "Never do anything today that you can put off till to-morrow," &c. Now I am a quiet man, seeking to interfere with no one's business, political or religious belief, and this constan persecution of an inoffensive person worries me in a manner equalled only by that I receive nightly (Sundays excepted) by the various bands of Tanners, Woodchoppers, Boys in Blue, Greeley Guards, and the like, who prowl about my residence with torches, drums, full bands, banners, capes and an attendant throng of the strongest lunged, loudest-throated and most demonstrative street urchins that New-England can produce.

But my crowning grievance was to be stopped a day or two since, in broad daylight, on a public street, by a well-dressed man (apparently respectable,) who urged upon me a tract entitled "Old Jacob Moore," and wished to know if I had "the pearl of great price." The question came first, and I naturally took him for a detective working up some great jewel robery; but when I assured him I had neither pearls, rubies, diamonds, nor other jewels, he presented me the tract, which represents Jake as being 78 years old, and by his own confession "a poor guilty creature." Yet he is held up ere the close of the book as an example beneficial to follow. I don't like this idea of holding up "old sinners" as exemplars for young people,—I even prefer the lessons offered in the lives of young sinners like Jack Shephard and Claude Duval whose speedy punishment affords a "frightful example" to those who would become evil doers. I do not moor my faith to tracts, and I do not want any more, about Jacob Moore, Othello, or any one else.

—The average cost of a courtship is about sixty-three dollars.

STATE DEBTS. — The State debts range from $37,879,350, to $300,000 New York having the largest, and Iowa the smallest. Louisiana ranks next to New York, $30,244,752. The debt of Massachusetts is only a trifle smaller than that of North Carolina, $29,560,664, and about $3000 more than that of Pennsylvania, which is $28,656,876. Alabama is credited with a debt of $25,181,967; Missouri, $20,869,000; Georgia, South Carolina, Maryland and Arkansas range from $18,267,500 to $11,200,000. The debt of Ohio is $500,000 more than that of Maine, $7,212,000; and Florida's debt is $461,435 less than Connecticut's, which is $5,769,300. Indiana, Texas and California are between three and four millions each in debt; New Jersey and Rhode Island about the same, $2,500,000. The debt of New Hampshire is $1,968,000; Nevada, $760,000; Vermont, $412,000; Oregon, $306,177.

And now, is it not about time that the *Tribune* turned its attention to Greeley's swindling in the tobacco business with Tweed? Or does it prefer to explain the bribe of $1,000 which was placed in Mr. Greeley's hands in connection with the Des Moines Navigation bill in Congress? Or will it throw some light upon the persistent lobbying in Washington and in the *Tribune* for the Mediterranean and Oriental Steamship Company's scheme, by which $10,000,000 of the people's money, and millions of acres of land were to be assigned to a company which had not a dollar of real capital, but upon whose books Mrs. Greeley, and Mrs. Cleveland—Greeley's sister—and Mrs. Sinclair—the wife of Greeley's partner, appear, as receiving without paying for them, handsome interests? Or will it give the history of the persistent lobbying in Congress and in the *Tribune* in favor of the Norman Wiard claim? In that claim Greeley has an interest of $12,000 or $13,000 and Sinclair of as much or more. It has been reported upon by a military commission as utterly groundless, yet Mr. Greeley has not only given up columns of the *Tribune* to the advocacy of its payment, but has made more than one journey to Washington to lobby and bully members by Congress into voting to pay it, all the time concealing the fact that he was personally interested in it. When the *Tribune* has explained all these things, it will perhaps expose Mr. Greeley's operations at Washington in connection with Indian lands, and if it wants more work of this kind, we shall be prepared to give it.—*N. Y. Times.*

—It is related of a Detroit editor, that being lost overboard from a steamer in the middle of Lake Superior, on a dark, stormy night, and with nothing to cling to, he was in a fair way to drown, when he lost straightened up his ears, upon which the wind acted as upon sails, and scudded before the gale, making good time and a safe landing on Canadian soil, after his perilous voyage.

For Coughs, Croup, Diphtheria, Asthma, &c.
USE BUCHMAN'S
PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified, in some form or other, but the recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

Geo. C. Goodwin & Co.,
WHOLESALE AGENTS,
HANOVER STREET, BOSTON.
And at the N. E. P. UNION STORE, Market St.
FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians, as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!
Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. Every FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred TROUBLESOME DISEASES at all times prevalent, it is the ounce of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this affliction. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

AYER'S
SARSAPARILLA
FOR PURIFYING THE BLOOD.
A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

VEGETINE

The Great Blood Purifier.

A valuable Indian compound, for restoring the health, and for the permanent cure of all diseases arising from impurities of the blood, such as

Scrofula Scrofulous Humors, Cancers, Cancerous Humor Erysipelas, Canker, Salt Rheum, Pimples and Humors on the Face, Ulcers, Coughs, Catarrh, Bronchitis, Neuralgia, Pains in the Side, Rheumatism, Dyspepsia, Constipation Costiveness, Dizziness Piles, Headache, Nervousness, Faintness at the Stomach Pains in the back, Kidney Complaints Female Weakness, and General Debility.

This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon these complaints are surprising to all. Many have been cured by the VEGETINE that have tried many other remedies. It can well be called

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded. If the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the veracity, and $1000 will be paid if found different from representation.

COUGHS, Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Inflamed Corns, Inflamed and Ulcerated Bunions, the sorest Instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and purposes their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

CORNS, Bunions, Bad Nails, and other diseases of the feet, Scrofulous and Cancerous Humors; Piles, etc., skillfully treated at the great central Chiropodical and Healing Institute, No. 766 Broadway, New York. DR. J. BRIGGS, President; DR. ALEXANDER WEBBER, Secretary. ap9

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to fall off prematurely, and either effect is unsightly and unpleasant to behold. Dr. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR restores the youthful color to the hair; it always restores to faded and gray hair its natural color, with the glossy and freshness of youth. The compactness of the hair, and gray locks, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, lawyers, statesmen, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. This is opening week for chestnuts. In falling out of the trees we have noticed that good boys generally strike on their heads, while bad boys invariably land on their feet. The Legislature should look into this matter.

One of the saddest sights in this season of the year is a young man who has waited outside the church of an evening until he is chilled through only to see his girl walk off with some rascal who has been inside all the time toasting his sinful shins at the stove.

A Danbury sportsman has contributed to the personal improvement of our farming friends by planting a charge of bird shot-into the back of presumable scarecrow but which unfortunately proved to be a Brookfield agriculturist contemplating his fields in fatigue dress.

We are glad this liquor trouble is settled, and no one shares the feeling to any greater extent than does Mr. O'Clarence, on North street. Mr. O'Clarence is the sexton of one of our leading temperance organizations. On the passage of the first town vote, killing license, his joy knew no bounds. He slept in the lock-up that night. The next vote killing the vote that killed license, completely took him unawares. We hope to never see grief like that again. He slept in a meadow back of the cemetery that night and pretty much all of the next day, and only got fully awake in time to attend the meeting, Saturday, and see temperance once more triumphant. We guess he didn't sleep at all that night, for he was seen Monday morning on his way to a cabinet makers, with a back full of furniture for repairs.

—An excellent old deacon, who, having won a fine turkey at a charity raffle, didn't like to tell his severe orthodox wife how he came by it, quietly remarked as he handed her the turkey, that the "Shakers gave it to him."

—Two long hungry Americans, two Irishmen, one Indian, two cadaverous beings of unknown nationality, John Q. A. Carter and an Indian dog, are said by a Texas paper to make up the census of Red River City.

—Nellie Grant and Mr. and Mrs. Borie will sail for home on the 12th prox., and arrangements have been already made for fair weather, by an express contract with old Bories himself. —*Chicago Post.*

—A Knoxville bog is the last suicide. His sensitive spirit revolted at the indignity of being chased up stairs, and he sprang, head foremost, from a third story window.

TO ADVERTISERS.

We shall print 5000 copies of the

NEW HAMPSHIRE GAZETTE

With the commencement of the 117th volume, this week. A *fac simile* of the first issue, Oct. 7th, 1756, will be sent to each of our subscribers. Advertisers are requested to send in their advertisements as early as Tuesday, as we go to press Wednesday morning.

Political.

The State elections in Pennsylvania, Ohio, Indiana and Nebraska take place to-day. Great interest is felt in the result. We hope to receive returns decisive of the result, in season for to-morrow morning's issue, by telegraph.

The chief good accomplished by the so called "liberal" movement is in compelling the Republicans to nominate their best men for office.

How North Carolina was gerrymandered for Congress by the Democracy is indicated by the fact that the vote in the Second District in August was 31,699, while in the Seventh District it was 18,531. There's honesty and respect for equal rights for you! That is the way the Democracy came to carry five out of eight districts.

The Fort Smith (Ark.) *New Era*, heretofore Liberal, has come out for Grant and Wilson.

Grant will carry California. All the gamblers and thieves have gone to the Arizona diamonds mines, and cannot get back till after the election.—*Toledo Blade.*

A Liberal exchange thinks that Gratz Brown dealt "staggering" blows to the administration in his Indianapolis speech. So he did in New Haven.

It was disgraceful in Horace Greeley to attempt to prove Mr. Colfax a bribe-taker and corruptionist, as he did in his speech in Cincinnati. Colfax has been his life-long friend. Greeley knows he is a pure and honest man. He knows, moreover, that it is Mr. Colfax's warm personal regard for him that keeps him out of the canvass.

Has any person heard a Democrat crowing over the Delaware election this year?

The New York *World* is in trouble about Kennebunk, a port of entry where the salaries of the officials amount to more than duties received. As Kennebunk was made a port of entry by a Democratic administration, it is entirely proper for the *World* to be troubled about it.

We have received the fifth number of "*The New World*, published every day by the straight-out Democratic Association, office 614 Chestnut Street," Philadelphia. It goes in strong for O'Conor and Adams, and denounces both Grant and Greeley; it also opposes Hartranft as governor of Pennsylvania, and vigorously advocates the claims of Buckalew. It says the Georgia election "has no significance with respect to Grant or Greeley," as "Smith was the candidate of the straight-out Democracy, and was supported by A. H. Stevens and all the straight-out-papers." It declares that O'Conor will carry Texas "by a large majority," and says "O'Conor and Adams stock is rising rapidly" in the West. Its first page is almost covered with a big cartoon representing "the Kutztown Exhibition," intended to heap contumely on the heads of Greeley, Schurz and—Tweed. Straight-out Democrats will probably be pleased with the *New World*; Greeleymocrats will probably be disgusted at it; Republicans will take little interest in it either way, unless the O'Conor and Adams movement gathers more strength than it now promises to do.

The "liberal" campaign is flagging. It is time to start up the "bull pop" story again.

Great consolation is derived by the New York *Sun* from the letter of a Honolulu correspondent, who announces that Horace Greeley is very popular in the Sandwich Islands. Greeley should make a note of this and after November, when it is found that his new friends have dropped him, should go there and grow up with the country.

"Brick" Pomeroy is willing to make an affidavit that he was offered $50,000 to support Greeley.

Our principal joker, who is simply incorrigible, says that in one respect he thinks Grant has the start of Greeley in this campaign, for Grant quietly smokes his cigar and Greeley takes the stump.—*New York World.*

Mr. Greeley to Democratic committee man: "Have you read my last speech?" D. C. M. to Mr. G.; "Yes,—you, I hope so."

The total decrease of the public debt since the beginning of Gen. Grant's administration is $358,468,552.55. Greeley said, some months ago, that these monthly bulletins of the reduction of the national debt were for Gen. Grant's administration what victories during the war were for Mr. Lincoln's administration. And he was right.

The French Republicans of Manchester have a beautiful tri-colored flag suspended across Elm Street, bearing the inscription "Grant et Wilson.'

The St. Jo. *Herald* calls Judge Woodson, Democratic candidate for Governor of Missouri, "the great bond-grabber of the Northwest."

A dispatch from Philadelphia says "it is not feared that Hartranft can be defeated." The New York *Times* claims 15,000 Republican majority in Philadelphia.

A Specimen.

Until Monday we had never seen a genuine specimen of Horace Greeley's penmanship; but on that day we were afforded that inestimable privilege, through the kindness of a friend who has recently been in correspondence with Mr. Greeley. Although the letter was marked "private," it would be perfectly safe to leave it around for public inspection, for nobody on earth could read it. The gentleman who received the letter wrestled with it in secret for three hours, magnified it with a microscope, compared it with examples in all the standard works on phonography, called in his wife and friends, and finally (so he says) deciphered all but one word. It reads as follows:

N. Y. Oit, 4. 1872.

Æea tv:—Book for you utter. I cawot corsee but I mew to lo my duy in the ooesent. I wink my weather eye was uxebok in safe voting the tone lwm the oolse issns. Tvostiv to New Hampshire bit a quod visuit 9 vieaux.

Yours, Hesvice Gredey.

We hope the Greeley men will consider the disastrous results which would arise from putting such a penman as Mr. Greeley in the Presidential chair. No act of Congress would stand good in law, because nobody would be able to swear to the President's signature if the legality of any Act was disputed, and without the President's signature an Act of Congress cannot become a law; and the first complimentary note written by Mr. Greeley to any European diplomat would probably involve the country in a bloody foreign war.

New York.

Some of our friends in the States which vote next week write to us asking what report we can make as to the prospect in this State. We hesitate to express our opinion in its full force, for there is danger that any expression of the confidence we feel may lead some of our friends to relax their exertions. But, premising that we assume that our friends throughout the State will continue to work as they are now working, we have no hesitation in saying that the State of New York will cast its electoral vote for Gen. Grant, and will elect the Republican State ticket. We base this opinion upon the information which we receive from every part of the State from those who are in a position to know, and whose candid opinion has been sought. The Greeley defection has, for some weeks, steadily diminished in amount, and the number of Democrats who will either openly or quietly cast a direct vote for Grant, or will not vote at all, undoubtedly exceeds the number of Greeley Republicans.

So far as this city is concerned, we are prepared to say that if Greeley gets any majority whatever, he will do better for his cause than we now expect. This is a strong statement to make with reference to a city which, in 1868, gave a Democratic majority of sixty-one thousand, and which even last year gave nineteen thousand Democratic majority. But only those who have carefully examined the matter have any idea of the extent of the demoralization which prevails in the Democratic organization. The old deposed chiefs in each Assembly district "sulk in their tents," not because they like Grant, but because they want to secure such a result as will show that the present managers cannot successfully lead the party. The rank and file are disorganized, and acknowledge no party obligation to vote for Greeley. The real contests in such Wards as the Tenth, Eighth and others bids fair to transform the Democratic majorities of thousands, which they have hitherto given, into Republican majorities. Moreover, the Greeleyites have rendered it impossible, come what may, for O'Brien and his followers to support Greeley, and O'Brien's strength is despised by no one who knows the facts. The Democratic leaders do not know whom they can rely upon. Even in the lists of inspectors and supervisors which they recommended, they have, through ignorance, included many who are opposed to them. We, therefore, expect that there will not be over 120,000 votes cast in this city at the coming election, and that of these Gen. Grant will receive not less than sixty-thousand.—*Times.*

Why Did Jacob Weep?

"Jacob kissed Rachel, and lifted up his voice and wept."—*Scripture.*

If Rachel was a pretty girl, and kept her face clean, we can't see that Jacob had much to weep about.—*N. Y. Globe.*

How do you know but that she slapped him in the face?—*N. O. Delta.*

Gentlemen, hold your tongues. The cause of Jacob's weeping was the refusal of Rachel to allow him to kiss her again.—*Flag.*

It is our opinion that Jacob wept because he hadn't kissed Rachel before, and regretted the time he had lost.—*Age.*

Green—verdant, all of ye. The fellow boohooed because she didn't kiss him in return.—*Dunchester Adv.*

Pshaw! none of you are judges of human nature. Rachel was the first girl that Jacob kissed, and he got so scared that his voice trembled, and tears came trickling down his cheeks.—*Auburn Adv.*

Jacob was a man that labored in the field. When he kissed Rachel, he had just returned from his labors, and had not washed his lips. After he had soiled Rachel's cheek, he wept for fear she would think he was one of the "free-soilers."—*Detroit Free Press.*

No, gentlemen, none of you are correct. The reason why Jacob wept was, he was afraid Rachel would tell his mamma.—*Jersey Telegraph.*

The reason why Jacob wept was because Rachel would not let him stop kissing her when he once began.—*Penn. Register*

May be she bit him.—*Yazoo Whig.*

May it not be that it was his first attempt at kissing? If so, she ought to have bit him.—*Nansemond Eng.*

What a long list of innocents! We know, for we have tried it on. There were no tears shed, and the good book does not say there were. It was only his mouth that watered, and the lifting of his voice forced it out of his eyes.—*People's Paper.*

Jacob wept! Yes, tears of joy! for well he knew he might; when Rachel, beauty, all confessed, stood fore his ravished sight.—*Louisville Democrat.*

Wrong, wrong, one and all of ye! Rachel was preserved by the Lord expressly for Jacob, and the taste of a good pickle always fetched the brine to Jacob's eyes.—*Land and Law Advertiser.*

None of the above reasons seem satisfactory to us. Jacob wept because there were so few Rachels to kiss. Had there been half a dozen more Jacob would have laughed and "smacked" away.—*Liquor Men's Advocate, Pittsburg.*

He wept at his rashness in rendering himself liable to a breach of promise case. He didn't want to be hauled into court and cried about it.—*Somerville Journal.*

Our "cherub," who is a flippant young man and parts his hair in the middle and affects girls, handed us the above list with the annexed lines, in pencil, assuring us that he knew all about these things.

Wrong, gentlemen! you all are wrong!
Wouldst know why wept the lad?
He wept—alas, alas! that this
Should dash aside the cup of bliss
We hope to quaff with love's first kiss!—
Because her breath was bad.

Chelsea Public.

Ye no read Scripture aright. Jacob had been driven from his father's house, and after so long absence, at this first sight of a pretty woman, he kissed her and wept for joy.—*Haverhill Gazette.*

Joy declares that he can do his own tear-shedding. Jake hutt himself lifting a voice that had been shattered while crying for milk before he was able to digest solid food.—*Portsmouth Chronicle.*

THREE CHEERS FOR THE PREACHER. At a certain place on a Methodist circuit, in this county, an enterprising preacher stopped for a week last winter, to stir up some religious interest. Other veteran preachers had been there before him, but their efforts had been unavailing in the direction of a revival. The point was considered as lost to religious instruction or conversion. But the new preacher pitched in with much zeal. He held meetings every night for a week, preached loud and strong; got his mourner's benches ready, and called upon seekers of religion, but none appeared. Night after night he appealed to them to seek salvation, but, though the congregations were large, none appeared at the mourners' benches. The meetings were kept up for a week, and finally the preacher got discouraged. But he said he would try it one more night. That night came, and with it a big congregation. The preacher was eloquent, and wound up with an exhortation, inviting persons forward to the seekers' benches. Not one rose. The preacher waited and pleaded, but no one moved. Finally he said said he would have to abandon his effort; that he had tried hard to produce conviction, but no one was moved. He had now made his last appeal, and after a few mild, kind words, he sat down. At this juncture a tall son of the soil arose and said that the preacher had been working hard, and had labored faithfully with them, and now, as a token of their appreciation and respect for him, he moved that the congregation give the preacher three cheers, which was carried.—*Ironton (O.) Register.*

THAT POISONING CASE.—We received a call from the proprietor of the drug store whose clerk was accused of putting strychnine into a Pullman car conductor's tooth. He insists that the story is an attempt at blackmail on the conductor's part. That the conductor went into the store drunk, with a portion of a bad whiskey in his possession, and after asking the clerk to taste it—which the clerk refused—said he had a bad toothache and at his request the clerk inserted some oil of cloves such as he had often given for toothache. That the next the clerk heard of the matter was the conductor had made the charge we published to a lawyer whom he visited and who was so convinced by the clerk's statement that he declined to proceed with the case. That if the conductor had paralysis it was caused by poisonous whiskey. That the clerk is a good, worthy fellow who understands his business and that if the conductor goes any farther in the matter this will not end the affair. Such are the two stories, and we now await further developments.—*Portland Advertiser.*

SO GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastiles for Coughs, Cherry Pectoral Cough Morphine, Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

THE JUSTICE OF THE VERDICT rendered by the public years ago in favor of the MEXICAN MUSTANG LINIMENT must be apparent to all who have used that famous preparation or seen it used. Its healing influence is irresistible. The most obstinate forms of neuralgic or rheumatic disease are totally cured by it, in an inconceivably short space of time. External injuries or sores, whether of man or beast, as well as all equine or human maladies for which a liniment may be used, are speedily remedied by its use. Remember it is not merely a palliative but an eradicant of disease.

TROOPS OF AILMENTS VANQUISHED.—On account of the promptness with which it checks the fevers generated by unhealthy exhalations Hostetter's Stomach Bitter's is considered an indispensable family medicine on the borders of our Southern and Western rivers, and in new settlements where the plough and the axe are for the first time disturbing the solitudes of nature. Its reputation, however, is not confined to such localities. Wherever the elements of disease are rife it is the surest safeguard of health; wherever sickness prevails, it is efficacious as a remedy. Among the serious diseases which it is guaranteed to control are indigestion, billousness, and all the minor ailments connected with derangements of the stomach, the liver, and the bowels—such as heartburn, headache, flatulence, costiveness, nausea, distaste for food, languor and debility, palpitation of the heart, trembling of the hands, noises in the ears, disordered vision, disturbed sleep, and mental inquietude. As these physical and mental disturbances tend to a general failure of all the powers of the system, they should be at once corrected—as they always may be by a course of Hostetter's Stomach Bitters.

HOLLOWAY'S OINTMENT.T—Asthma, tightness of the chest, and the various diseases of the throat and lungs, as well as the innumerable eruptions and ulcers which attack the skin and flesh, yield invariably to this preparation. Sold 78 Maiden Lane, N. Y. Price 25 cents per pot. Ask for the new style; the id is counterfeited.

Grand chasmatic shake, to-night. Time!

A correspondent says it is agreed on all hands that Portsmouth has never had a better Street Commissioner than Mr. Ham, present incumbent; and certainly no one has ever made so many important improvements in our streets in so short a term of service as he. The latest evidence of his skill is exhibited in the widening of the roadway on South Street, and of Richards Avenue at the junction with South, both of which are much better than ever before.

That "broken sidewalk" on Islington Street was repaired on Monday. Good thing!

From a report of the ceremonies attending the formal opening of a new Town Hall in Hudson, Mass., we extract the following notice of a band-concert in the evening:

The Band led off in the first selection, a potpourri from the "Huguenots,"—a composition which subjected the instrumentalists to a very severe test of their ability; and it is but fair to say that they met the difficult requirements of the music in a manner worthy of great praise. Indeed the performance of the Band throughout the whole afternoon and evening elicited admiration from all, and expressions of surprise that so fine a Band could be found in this region. Mr. Thompson, its accomplished leader,—formerly leader of the Portsmouth (N. H.) Cornet Band—is a thorough musician, and is justly appreciated by the good citizens of Hudson, who take great pride in their Band.

They call Horace "the Chappaqua gabbler," now.

There were seventeen deaths by small pox in Boston last week, and eighteen new cases reported on Saturday.

Thomas Carley was killed at Boston Highlands in a drunken fight, Sunday morning.

Feet And Ears.

—The small-talk man of the Courier Journal explains the failure of the Blanton-Duncan convention, by saying it hadn't sufficient footing to stand on in but town, which we solemnly believe. —*St. Lou. Globe.*

— Louisville has representatives among her young ladies of the fairest types of womanhood, and can proudly hold them up as such.—*Courier Journal.*

Perhaps—but it is hard to work to raise them clear from the ground after their feet commence to develope.—*St. Lou. Globe.*

—The Chicago *Post* brilliant wraps himself up in his ears when he visits a masquerade ball.—*St. Lou. Globe.*

—The agitation of the earth's surface reported from Nashville as an earthquake shock, was caused by a fashionable ball in Louisville.—*St. Lou. Globe.*

—Shakespeare, of the Chicago *Post*, is only seventeen years old, yet he can sit at his desk and brush the cobwebs from the ceilings with his ears.—*St. Lou. Globe.*

—Louisvillians who intend visiting the amphitheater during the coming Fair, should reduce their feet as much as possible. One of them raised his unshapely hoof at De Bar's last night, shutting out a view of the stage from the larger portion of the audience.—*St. Lou. Globe.*

—A chiropodist who ascended Small Talk's corns the other day, came near perishing from cold on the summit, but was rewarded by discovering an immense glacier which was moving down the valley between two of the smaller (if the word can be used in connection with Louisville feet) toes.—*St. Lou. Globe.*

—By the way the personal men and St Louis *Globe* talk about boots, it is very mild to say that they conduct themselves like leatherheads. Their understanding is strictly limited to their feet. —*Chicago Post.*

—The Post man has 'em again. He means to state that the personal man of the *Globe* does not sit on his brains, as the *Post* man does.—*St. Lou. Globe.*

The "Small-Talk" man of the Louisville-*Courier-Journal*, and "Globules," of the St Louis *Globe*, have for a month past been "running a muck" about the size of the feet of their respective cities. They would meet and shake their bloody hands before the chasms in their faces, but "Small-Talk" is waiting for the fall freshet to bring down lumber sufficient to build snow-sheds over his corns, and as the railroads leading out of St. Louis are all narrow gauge, and "Globules" can't get a pass for his feet, the chances are they will not meet this year.—*Titusville Press.*

BALLOONING.—Mr. L. L. Holden of the Boston *Journal* furnishes that paper an interesting account of his recent balloon trip with Prof. King. The starting place was Plymouth, N. H., and the terminus the little settement of Sayabec, in the province of Quebec. The voyagers made five hundred miles in less than thirteen hours, crossing the White mountains at the rate of fifty miles an hour, spending a potion of the night over the wilds of Maine and Canada, and the rest out at sea in darkness and fog. They left Plymouth at eight minutes past 4 in the afternoon on the 26th, and landed in the tree tops at Sayabec at five o'clock next morning. The trip is one of the most successful and remarkable in the history of ballooning in this country.

—One of the best known men in Augusta, Me., a poor fellow who had nearly ruined himself by drink, in spite of numerous earnest and sometimes protracted efforts to reform, advertises in the Kennebec *Journal* as follows, under the caption "Caution to Liquor Dealers:"

Whoever sells or offers to sell to me any intoxicating liquor of whatever nature, or whoever sells any in my presence, *will be prosecuted to the full extent of the law.*

—They will have the gospel in peace at Yorkville, Tennessee, if they have to fight for it. A gentleman named Starkey was promptly shot on the spot for disturbing a meeting there.

Morning Chronicle.

GOOD FELLOW.—A Newfoundland dog belonging to the light-keeper at Mount Desert recently saw the little child of the light-keeper carried off into the waves by the undertow, and not only bravely rescued him, but tried to resuscitate him after bringing him to shore. The child was kept alive until help arrived, by the animal's noble efforts.

—Two Irishmen, on a sultry night, took refuge under the bed clothes from a party of mosquitoes. At last one of them gasping from heat, ventured to peep beyond the bulwarks, and espied a firefly, which had strayed into the room. Arousing his companion with a punch, he said: "Fergus, Fergus its no use. Ye might as well come out. Here's one of the crayters searching for us wid a lantern."

—A Cincinnati youth, guided by the advice of a fortune-teller, sought to make a girl love him by means of electricity working from under the chair. When the time came she sprang into the air about three feet; then she landed in her lover's hair and took about two handfuls and then told him she hated him. No match.

—A Milford boot-maker has invented a pattern for use on the prairies, the bottoms of which extend nearly a half inch beyond the uppers, so that the latter shall not be cut by the prairie grass.

—"Home is the place for boys," said Spinks to his eldest pride and joy. "Yes," said the young-ter, dutifully, "I like to stay at home all the time but ma sends me off to school."

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success o the Company is far beyond that o any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are so we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model, does two-thirds the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is lighter speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

For Coughs, Croup, Diphtheria, Asthma, &c.

USE BUCHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in paths untrod" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified, in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

Geo. C. Goodwin & Co.,

WHOLESALE AGENTS,

HANOVER STREET, BOSTON.

And at the N. E. P. UNION STORE, Market St.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, QUILLI ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Cough, Croup, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times, it is the cause of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pale, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, parents with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

AYER'S

SARSAPARILLA

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

AYER'S
CHERRY PECTORAL
For Diseases of the Throat and Lungs, such as Cough, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, it the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUGHS, Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The "Creative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. H. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

CORNS, Bunions, Bad Nails, and other diseases of the feet, Scrofulous and Cancerous Humors, Piles, etc., skillfully treated at the great central Chiropodical and Healing Institute, No. 765 Broadway, New York. DR. J. STEPHENS, President; DR. ALEXANDER WEBBER, Secretary. ap9

AYER'S HAIR VIGOR
FOR RESTORING GRAY HAIR
TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray either of them disposes to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR completely reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of HAIR VIGOR. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

Are the most compleat purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action and they impart health and vigor to the whole frame. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY Applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. DOGS' TAILS.—The following essay on dogs was written by a small New England boy, this summer: As this is the tale of a dog, it may be inferred that every dog has a tail, and that every tail has a dog. I have never seen a dog's tail run over two feet, but the tail of a dog can run any length, and two feet always run under the tail. As every dog has its tail and every tail its dog, so also has every tail its wag and every wag its tale; a dog can wag his tail one day out of two, but a wag can tell his tale eight days out of a week, making a total difference between the wag of a tail and the tale of a wag of two days, seven wags and a tail. Mr. Shakespeare (late of England) says that every dog has his day, but it can also be said that every day has its dog, so that we have day-dogs and dog-days—dog-days are twenty-four hours long without the tail, but day-dogs run to any length if they are not chained. A watch-dog on land is the same as the dog-watch on board ship, but they are entirely different from dogging a man's watch and watching a man's dog. I have often seen star-fish, but I never heard of a star-dog, although astronomers do say there is a dog-star, and that by falling down over a dog you can see stars, but this double vision does not affect the measurement of a dog; he contains just eight feet, two fore and two hind. There are many ways in which this dog's tail could be drawn out, but a good healthy dog's tail should not be over six inches long.

DECLINE IN THE GOLD YIELD OF CALIFORNIA.—The yield of this State in precious metals is decreasing slowly but steadily. Numerous claims that have been worked by sluicing and the hydraulic process are exhausted every year, and very few are opened. The production of auriferous quartz mines are not increasing in number and importance, perhaps because many of the most intelligent and enterprising miners and mining engineers find a large profit in the Nevada silver mines, which more than compensate, by their rising importance, for the decline in the yield of California.—*San Francisco Alta.*

WEDNESDAY, OCTOBER 9, 1872.

Georgia.

An Atlanta special reports the evidence of William Butts, one of the election managers, regarding Democratic fraud in the late election, which was given at a trial for violation of the enforcement act on the occasion. Butts swears that while he and the other election managers were receiving votes in the afternoon, the ballot box which had been used in the forenoon was stuffed by some persons unknown, and that all the tickets thus fraudulently placed were Democratic. Mr. Cutts is himself a Democrat and a justice of the peace, and his testimony corroborates the sworn statement of other parties. The cases of fraud in other districts were even more marked than this.

Connecticut.

At the city election in New Haven, Henry M. Lewis, regular Democrat and citizens' candidate, was elected by a plurality of 138 over Lieutenant-Governor Morris Tyler, regular Republican, and James Gallagher, Independent Democratic candidate. The candidates for other offices on the citizens' ticket, headed by Lewis, were elected over the regular nominees of both parties. The Republicans elect two-thirds of the common council, carrying five out of the seven wards. They also elect the town clerk.

In Hartford, the Republican candidate for town clerk, Gordon Rollins, is elected by 231 majority over Levi Woodhouse, Democrat, who has held the office for several years. The Republicans have a majority in the board of selectmen, who, with the town clerk, are a board of appeal in matters of registration of electors. Two of the selectmen and one of the assessors elected were on both tickets. All the Republican candidates are elected and four of the six grand jurors chosen are Republicans. The Democratic candidates for the board of relief are elected. Of the assessors one Republican and one Democrat on both tickets and one Greeley man on the Democratic ticket are elected. The principal interest was in the vote for town clerk and selectmen. The Republicans chose the former by a handsome majority and have a majority of the selectmen.

The Laboring-men's Champion

Mr. Greeley having declared in his recent Cincinnati speech that he was the champion of the laboring-men of the country, Gov. McCook of Colorado, in a speech narrated the following interesting incident showing both the novelty and sincerity of the liberal candidate for the Presidency in his role of labor reformer. The facts stated will be authenticated by Senator Wade or any other of the prominent gentlemen present, if disputed:—

Just after the war was closed I was sitting in the room of Senator Chandler of Michigan—Senator Wade of Ohio and others were present—when Horace Greeley's card, soon followed by himself, came up. After some conversation on other subjects, Mr. Greeley addressed himself to the Senators and said, "These d—d enormous expenditures on the part of the government must be stopped at once. There must be some sort of contraction of the currency that will reduce the price of labor."

Mr. Greeley said that he was building a house or something of that kind, and was compelled to pay four and a half dollars per day for labor and that so long as the government continued to pay out large amounts of money and so long as greenbacks continued so abundant, the wages of labor would remain exorbitant. Something must be done to remedy this; and what do you suppose this remedy was, as suggested by this champion of the laboring-men of the country.

It was to begin by reducing the pay of the soldiers and sailors and cutting down the pensions of the wounded and widows and orphans. This unselfish patriot and philosopher proposed there to two Senators of the United States, while the wounds of the gallant fellows who fought through the war are not yet healed, that the pay of the soldiers and sailors should be cut down and their pensions reduced in order that he could have his house built cheaper! This friend of the working-men insisted on calling in the aid of special legislation, that he and others like him might, in the future, pocket a dollar or two a day out of the hard earnings of the mechanics and laboring men that they might have reason to employ!

The Chicago *Inter Ocean* is *the* leading newspaper of the North-West, and has gained a circulation of thirty per cent. over the Chicago *Tribune*, which ratted to Greeley and lost the respect of fair minded men. The *Inter-Ocean* is a great newspaper, ably conducted and brim-full of news in every issue.

Charles O'Conor replies to Thomas B. Carroll, that of course he takes no offense at and makes no objection to the purpose of Democrats to vote for him.

THE STATE ELECTIONS.

Pennsylvania.

In Philadelphia, 8000 groggeries were closed. The colored voters came out early and voted, thus avoiding all chances of conflict with their opponents who attacked them last year and drove them from the polls. In Wards 5, 6 and 7 the negroes were in line around the polls at daybreak, and polled their votes solid for the Republican ticket. Their votes will add 1500 to the Republican majority. "Reddy the Blacksmith," from New York, was arrested after voting three times, and locked up for a further hearing.

At Scranton, a fight occurred, during which the Republican overseers were driven from the polls in four Democratic wards.

BOSTON, 11:10, P. M.

The returns received up to this hour indicate that the Republicans have carried Pennsylvania, Ohio and Indiana. The Republican majority in Philadelphia is 20,000,—returns steadily indicate gains on last year's vote, throughout the State. C. A. SHANNON.

PHILADELPHIA, Midnight.

The early reports are favorable to the Republicans. Hartranft, for Governor, runs well up with the ticket. Dispatches from Chester county state that Republican gains are heavy in all the towns.

PHILADELPHIA, 2 A. M.

Bradford county, Troyborough, Hartranft 83 majority, Republican gain 17 over last year. South Creek, Hartranft 71, gain 21.

Ohio.

BOSTON, 11 P. M.

An official dispatch says Hamilton county, Ohio, gives 3600 Democratic majority, a gain of 5900 in that county.

COLUMBUS, O. Midnight.

Returns received from 20 townships in various counties show net Republican gain over majority for Secretary of State in 1870, of 546; ten of these townships show Democratic gain of 20.

NEW YORK, 11 P. M.

It seems to be acknowledged on all hands that the results in Pennsylvania, Ohio and Indiana are decided beyond a doubt against the Democrats.

Political.

Mrs. Aurora H. C. Phelps' new independent party is to be organized at Boston on the 17th of October. Her ideas are: Land and labor, woman and home reforms; the vital element therein being woman's rights to unrestricted and other education, free advantage of employment, and a self sustaining, independent homestead ownership.

A Philadelphia paper says: "About three years since a distinguished literary gentleman of this city wrote to the editor of the New York *Tribune* that if his theory of immediate resumption of specie payments was carried out by the Republican party, it would be defeated, the national credit impaired, and the government bonds depreciated; to which Mr. Greeley sent the following laconic and characteristic selfish reply, written upon one of his visiting cards: 'The Republican party never did anything for me and it can go to hell. I own no bonds. H. G.'

This is a true specimen of Horace Greeley's heart and manners. We know the gentleman well to whom this polite answer was returned."

Butler on Hendricks.

During the Indiana campaign just closed, Hendricks at North Vernon said to his hearers: "Butler will be here soon. Look up your spoons."—

At Indianapolis Gen. Butler took this up and made it the subject of his most caustic sarcasm, saying: There are two kinds of lies in this world. There is the bold, manly, out-and-out lie, that somehow makes us respect the man who utters it, because he has couraged. It is the other one—the mean, covert, insinuated lie, uttered by a man that dare not say it and yet wants to; it was that kind of a lie that was told in North Vernon the other day. [Applause.] I was not elected in Massachusetts under the Democracy, but I was a delegate sent by my District to every Democratic National Convention from 1845 to 1860. I was the Chairman of the delegation at Cincinnati in 1856. In 1859 I was the candidate of the Democratic party in Massachusetts for Governor, and I got 53,000 and some odd votes, more than any Democrat has ever got since or ever will. More than that, I have been the personal friend and honored guest of every Democratic President since 1845; nay, I was the friend, neighbor, and family guest of President Pierce, who appointed Thomas A. Hendricks to a subordinate office in pay for his vote. (Applause.) If Mr. Hendricks wants any more of that I can tell a good deal more about that transaction. (Cries of "Go on." "Give it to him," "Tell it all.") I do not come here to bear false witness against my neighbors, or true witness about a transaction that should be confidential and ought not to be told. I am not here for that purpose. I only say that Mr. Hendricks makes a very large draught on my gentlemanly instincts. Every man judges every other man by himself, and whoever believes that I, a Major General of the United States, with life and death at my finger's end, exercising that unlimited and despotic power given me by the war, went around picking up spoons, knows that he would have done it if he had been in my place. (Tremendous cheering.) That is his conception of the office of a Major General; that is his idea of what a man should do, and what he he (Hendricks) would do if he had the courage to go where he could do it, as I have. (Cheers.)

But Mr. Hendricks said, in his speech made against the enfranchisement of the black men, that he never had volunteered himself, nor encouraged anybody else to volunteer, and therefore he can be excused. What can be the depth of that man's heart who can belittle and bemean himself so far as to utter this sort of thing? If some drunken, loafing rascal should say it I could pardon him. God knows he does the best he knows how. But here is a man who lived awhile with gentlemen; a man who has been in the Senate of the United States, and a man who, since my administration at New Orleans, has taken my hand in friendship, the hand he knows to be the hand of greed, or else he lies. (Cries of "He does lie," "of course he does," and cheers,) I have done with this matter, once and forever; but I want to lay two or three facts before you for the use of your *Sentinels* and your Hendricks. They say I took $3,500,000 from the people of New Orleans. There are my accounts at the War Department. They have been examined by every rebel, and every rebel sympathizer from that day to this and no hole has been found in the account. (Great cheering.) Go through and look, and when you have looked through tell the other side of the story. Don't put down a part and leave out the rest, lest God treat you as He did Ananias and Sapphira. I fed 32,000 starving women and children, most of them wives of rebels in the army, from the sixth day of June to the sixth day of September.

—Fechter and Carlotta Leclerq are not only no longer friends, but Miss Leclerq is said to be about to sue the great murderer of English for money that she advanced to him some time ago.

IN THE GOLDEN AGE OF GIRLHOOD Preserve the beauty of the teeth with SOZODONT, and then, when, the hair is silvered and the eyes dimmed with years, the mouth will still reveal two glittering rows of unsullied ivory.

MILLIKEN'S HOTEL long years ago had a most enviable reputation with our business men. More recently, as the "Parks House," it was also widely known. Four months of renovation and preparation have placed it in a state of perfection that *must* suit all who desire nice rooms, with the best of bed and board at reasonable rates. The "MILLIKEN HOUSE," 187 Washington street, will hereafter be kept by F. Milliken, Esq., who will be happy to receive his old friends and the public.

CASTORIA.—A substitute for Castor Oil—is a paregoric which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

THE JUSTICE OF THE VERDICT rendered by the public years ago in favor of the MEXICAN MUSTANG LINIMENT must be apparent to all who have used that famous preparation or seen it used. Its healing influence is irresistible. The most obstinate forms of neuralgic or rheumatic disease are totally cured by it, in an inconceivably short space of time. External injuries or sores, whether of man or beast, as well as all equine or human maladies for which a liniment may be used, are speedily remedied by its use. Remember it is not merely a palliative but an eradicant of disease.

TROOPS OF AILMENTS VANQUISHED.—On account of the promptness with which it checks the fevers generated by unhealthy exhalations Hostetter's Stomach Bitter's is considered an indispensable family medicine on the borders of our Southern and Western rivers, and in new settlements where the plough and the axe are for the first time disturbing the solitudes of nature. Its reputation, however, is not confined to such localities. Wherever the elements of disease are rife it is the surest safeguard of health; wherever sickness prevails, it is efficacious as a remedy. Among the serious diseases which it is guaranteed to control are indigestion, billiousness, and all the minor ailments connected with derangements of the stomach, the liver, and the bowels—such as heartburn, headache, flatulence, costiveness, nausea, distaste for food, languor and debility, palpitation of the heart, trembling of the hands, noises in the ears, disordered vision, disturbed sleep, and mental inquietude. As these physical and mental disturbances tend to a general failure of all the powers of the system, they should be at once corrected—as they always may be by a course of Hostetter's Stomach Bitters.

HOLLOWAY'S OINTMENT.—Asthma, tightness of the chest, and the various diseases of the throat and lungs, as well as the innumerable eruptions and ulcers which attack the skin and flesh, yield invariably to this preparation. Sold by Seidlitz Lane, N. Y. Price 25 cents per pot. Ask for the new style; the old is counterfeited.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

UNFADING LOVELINESS belongs only to the immortals, but whoever uses the fragrant SOZODONT can at least defy time to injure one of the elements of beauty, a good set of teeth.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Inflamed Joints, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

Laconics.

Ward Two Republican Committee are requested to meet at Headquarters this (Wednesday) evening.

At the regular monthly meeting of Kearsarge S. F. E. Co., No. 3, Mr. James A. Waterhouse resigned the position of Foreman and Mr. Ira C. Seymour was chosen to fill the vacancy.

The Portsmouth Music Society will not hold a rehearsal this (Wednesday) evening; but will rehearse, with orchestra, on Sunday evening next. All singers are invited.

Rev. Dr. Francisco Vinton, who died at Brooklyn Heights, on the 29 h ult., was admitted to the bar in this city, in 1834, and became a minister six years afterward.

The young people of the M. E. Church in Greenland will give an entertainment in the Town Hall on Wednesday evening, Oct. 16, commencing at 7 o'clock. The exercises will consist of charades, pantomimes, singing, tableaux, etc. Refreshments will be provided by the ladies of the society. Tickets 25 cents, for adults,—for children under 12 years of age, 15 cents.

Lieut. George B. Haycock, U. S. Marine Corps, has been detached from duty at this Naval Station, and is ordered to Washington.

The Christian Marriage Ceremony, its history, its significance, and curiosities, by Rev. J. Foote Bingham, D. D., is published by Messrs. A. D. F. Randolph & Co. Dr. Bingham gives the ritual most in use in this country and illustrates and explains minutely its various phrases and symbols and their derivation with a little general pastoral advice to young people who are about to take on the marriage state, or who feel a longing for it, to which they hesitate to yield. There follows a transcript of the text of the English, Roman, Greek and Jewish ceremonies. The book seems to have been compiled with much careful labor.

At the monthly meeting of Sagamore S. F. E. Co. No. 2, held Monday evening, John Durgin was elected 3d Asst. Foreman, in place of Frank Osgood, resigned.

The great sale of bankrupt stock at store 56 State Street, advertised to-day by Jos. P. Morse, is postponed to Friday, Oct. 11. See adv't.

The Republicans rallied in great force at headquarters, Tuesday evening, and received the news of the victories with storms of cheers. Vice President Pendexter presided and introduced Hon. John E. Butler, who spoke felicitously and closed by relating a story which brought down the house with roars of laughter. The Glee club and drum corps were present, and their performances were greeted with cheers. At a late hour, the drum corps paraded the streets and awoke the slumberers.

INSURANCE.—We would call attention to the advertisement in our columns of J. P. Bartlett, agent for the celebrated Mutual Life Insurance Company of New York, the greatest Life Insurance Company in the world, whose assets are 50,000,000. The Insurance Monitor for September says:

The statistical history of Life Insurance demonstrates without denial.

I. That the Mutual has been so managed as to secure upon its books by far the largest amount of business of any other company in the world.

II. That it has been so managed that the ratio of expenses to premium income is lower than that of any other company on this continent.

III. It has been so managed that the rate of mortality has been more favorable than that of any other company in the world.

IV. It has been so conducted that its dividends, or return premiums to members, have been larger than those of any other company.

A Marine Yarn.

The minds of the Greeleyites are haunted and their slumbers troubled by the phantom of bribery. Hardly has the great leader completed his litany of invocations to be protected against fraud and corruption and colonization, when his Western organ is out in a story of a cock and a bull and a navy yard at Kittery.

We are sorry that there should be anything wrong at Kittery. We remember when the pirate Semmes was hovering like a hawk over the New England coast, and it was feared he might select this euphonious station for his first fell swoop, how the "millish" rallied from far and near to its defense. Torn from the peaceful joys of home, their rights found utterance in the touching ballad beginning:

"I'm bound to Kittery,
To defend the cittery;
Oh! ain't it a pittery—
Oh, my! oh, my!"

and which has embalmed the name and memory of Kittery to all time.

And now the *Republican* has discovered that fifteen hundred superfluous hands were employed an unknown number of days in the navy yard there at three dollars a day, and that's the way Maine was carried by the Republican party.

The tale will do to tell to the marines, but it accounts for a very small amount of milk in a very large cocoanut. If fifteen hundred men at three dollars a day give a Republican majority of seventeen thousand, how many marines will have to be invented to account for a Republican majority of fifteen thousand in Pennsylvania, or of five thousand in Indiana?—*St. Louis Globe.*

PERSONAL.—Hon. Edward H. Rollins and wife, of this city, Col. Daniel Hall and Col. Andrew H. Young, and wife, of Dover, Col. R. N. Bachelder, and Major Miller, of the U. S. Quartermaster's Department, left New York to-day on an excursion to Colorado, and possibly to San Francisco, which will occupy about four weeks. During the absence of Mr. Rollins, Major Henry McFarland is Acting as Treasurer of the Union Pacific Railroad.—*Concord Monitor.*

The News.

One year ago to-day Chicago was burned down.

The man Carley, who was thought to have been killed at Boston Highlands on Saturday, proves to have died of suffocation, a sausage having stuck in his throat.

The Cuban steamer Virginius has escaped from Puerto Cabello. The Spanish vessels could not catch her and her destination is unknown.

At base-ball in Philadelphia, Monday, the Athletics defeated the Bostons by a score of 5 to 1.

Ship Golden Hind of Boston was wrecked on Charles Island, east of Terra del Fuego, and twelve of her crew died of starvation. The vessel was commanded by Capt. Robbins and sailed from New York, Feb. 9th.

An explosion at Morley, England, resulted in the death of thirty miners.

At Cincinnati, a riot occurred Monday evening, at ten o'clock, between Greeleyites and colored people. Many shots were fired but nobody was killed.

State News.

The Manchester mills report their profits as follows: Amoskeag, product of goods in ten months, $6,450,376; net earnings, $552,931; dividends 15 per cent. Stark, produce in eleven months, 5,063,652 pounds of cotton and 396,388 of linen goods; not earnings, $238,028; dividends 15 per cent. Langdon, product in eleven months, 1,038,667 pounds of goods. Manchester print works, product in twelve months, 16,970,000 yards. The officers of these corporations with a few exceptions were reelected on Wednesday.

The State Fair at Dover was a financial success. The total receipts amounted to $8120 53. The premiums amounted to about $6300; balance about $1820. The financial success of the fair is due largely to the excellent judgment of the Treasurer of the New Hampshire Agricultural Society, Col. George W. Riddle of Manchester. The amount of receipts last year was $9882; expenses, $9470. The largest amount ever taken at any of the fairs of the Society was at Manchester in 1869, when over $12,000 was received. It is probable that the State Fair of 1873 will be held either at Portsmouth, Manchester, Concord, Claremont or Plymouth.

Mr. Benjamin D. Emerson, a native of this State, died at Jamaica Plain, Mass., Oct. 1. He graduated at Dartmouth College, which institution he left $100,000. He was at one time engaged in publishing Emerson's Arithmetic, and left a fortune of $250,000.

Joseph J. Donahoe, of Manchester, a brother of Gen. Donahoe, died in Lowell recently. He was adjutant of the 10th N. H. regiment, having previously been a drummer in the 6th Massachusetts when that regiment marched through Baltimore, in 1861.

Surveyors are locating a railroad from Meredith Village through Centre Harbor Village, Moultonborough and Tamworth to Conway. It will be about thirty miles long.

A WAY TO ECONOMIZE.—Dr. Dio Lewis relates how he lived for a week on food that cost fifty-four and a quarter cents. He worked hard meantime, and gained half a pound. He took two meals a day. The following are specimen ones:—Sunday, breakfast, hulled Southern corn, with a little milk. Dinner the same. Total cost, six cents. Tuesday, breakfast, two cents' worth of beans, with half a cent's worth of vinegar. Wednesday, dinner, two cents' worth of beef stew, a quarter of a cents' worth of pepper, and a cent's worth of hominy pudding. Saturday, dinner, lobster, three cents; bread, one cent; hominy salad, one cent; cracked wheat and milk, two cents. This day he had a "spree"—cost seven cents.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents, in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

—Mr. Fechter is trying some very novel experiments in the construction of his new theatre in New York. The stage will stretch forward into the centre of the house. Its back will be in the shape of a quarter dome, with the concavity turned towards the audience. This will be painted blue, so as to have as natural a sky as possible. By an ingenious device, cloud shadows will be made to pass across it, when the scene is laid in the open air. The usual place of the orchestra will be filled with fragrant flowers and a stream of running water. The band will play under the stage. Careful acoustic arrangements insure their being heard, although they will be wholly unseen.

THE GRAND GIFT CONCERT.

GIFT MONEY ALL UP.

$500,000 in Bank to Pay Prizes.

A Full Drawing in Sight.

The Grand Gift Concert, for the benefit of the Public Library of Kentucky, is postponed to Saturday, the 7th of December, for the following reasons:

1. The failure of certain agents to make returns in time for the drawing to take place Sept. 28.
2. The accumulation of orders during the last few days to such an extent that it was not possible to fill them and have the drawing on the 28th.
3. The generally expressed desire of ticket holders that a full drawing might be had, even if it made a short postponement necessary.
4. The belief of the management that by a short postponement the remnant of unsold tickets can be disposed of, and all the prizes paid in full without the necessity of any pro rata scaling down.

For these reasons, coupled with the earnest desire to benefit the Public Library by the full balance and the ticket-holders by larger gifts, the concert and distribution have been postponed to Saturday, the 7th of December, 1872. On that day and no other the drawing will positively and unequivocally come off in the great hall of the Public Library building, beginning at precisely 6 o'clock A. M., and continue until the whole of the one thousand gifts are awarded.

The payment of the gifts will begin the 31 day after the drawing, and continue for six months, in current funds, by the Farmers' and Drovers' Bank, or by sight draft upon the Fourth National Bank, New York, at the option of the gift ticket-holders.

PRICE OF TICKETS.

Whole Tickets, $10; halves, $5; quarters, $2.50; 11 whole tickets for $100; 28 for $215; 56 for $500; 113 for $1,000; 255 for $2,500; 575 for $5,000. No discount on less than $100 worth of tickets at a time.

The money necessary to pay in full all the offered gifts is now upon deposit in the Farmers' and Drovers' Bank, as will be seen by the following certificate of the Cashier:

FARMERS' AND DROVERS' BANK,
LOUISVILLE, KY., Sept. 26, 1872.

This is to certify that there is now on deposit in this bank over half a million of dollars to the credit of the Gift Concert fund, $500,000 of which is held by this bank as Trustee for the Public Library of Kentucky, to pay off all gifts to be awarded at the drawing. E. S. YEAGH, Cashier.

Hon. JOHN HARRIS, Manager of the Royal Insurance Company, Liverpool, and Col. JILSON P. JOHNSON, Proprietor of the Galt House, will act as a committee on the part of the Trustees to take charge of the tags before the drawing, count them, place them in the wheel, and personally see that corresponding numbers for all the tickets sold go into the wheel, which with its contents, will be placed in the hands of a committee on the part of the ticket-holders to satisfy themselves whether all the tickets sold were represented in the drawing.

Blind children, in full view of the audience, will alternately draw the tags from one of the glass wheels and the gifts belonging to them from the other, and the official record of the drawing thus conducted will be kept by three tellers chosen from different banks in the city. The drawing will be published in the Louisville papers and New York Herald, and official copies sent to all parties out of Louisville to whom tickets have been sent by letter.

The remnant of tickets yet unsold will be furnished to those who first apply for them, and as general a distribution of them will be made among agents as their limited number will permit. No agent will be permitted, on any account whatever, to hold or sell a ticket for the management after the 25th of November, 1872.

This postponement has been made by advice of the Trustees, with the sole object of the real benefit of both the ticket-holder and the Public Library, and all concerned may rest perfectly assured that the positive and final programme here announced will be carried out to the letter.

USE BUCHMAN'S
PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pasture" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

FOR SALE BY ALL DRUGGISTS,
Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was put on sale by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SENEGA ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!
Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Cough, Croup, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the opinion of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful sickns come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

AYER'S
SARSAPARILLA
FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Itch or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

CAUTION.
THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.
In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.
The Success of the Company is far beyond that of any other similar concern; the
Daily Manufacture
OF
400 OF THE SINGERS
Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,
All others being copied from its first model, does two-thirds the sewing done in this country and preserves its advantages over all others combined.
It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

The Chronicle.

WHERE IS HE?—George Williams, who was twenty-eight years of age when the war broke out, and who served in the Twenty-second Ohio, has fallen heir to $20,000 by the death of his grandmother in this city. But George Williams can't be found. Since three days after the capture of Memphis, at which he was present, nothing has been seen or heard of him. He was not killed or wounded, so far as his comrades could learn, and the rumors that he had deserted, or had been drowned, could not be traced to any reliable source. In the search for him there it was found reported—and the report was believed by many, that he had been killed in a saloon in Memphis, in the Irving Block, near Jackson square, by a citizen, in the course of a quarrel about the capture of the city. His relatives, however, always had an idea that he had deserted and followed Horace Greeley's advice to young men. He was nearly six feet high, had black hair and eyes and a prominent nose, and cultivated long whiskers. Here is a chance for a Tichborne case on a small scale. Williams, or any one wishing to personate him, can obtain further information from the Chief of Police, of Memphis.—*Cincinnati Com.*

—A chap who went to Danbury on the cars, Thursday, to take part in the fair as a vender of pop corn, finding that he would have to pay a carman fifty cents for transportation to the grounds, started off on foot, carrying a barrel of the delicious fruit by the chimes, with a half barrel on top of that, and a large basket full to one arm. When he grows old and feeble he will take great pride in rehearsing that incident to the children who may be visiting the poor house.

FIRST PRINTING OFFICE IN NEW HAMPSHIRE.

HISTORY OF THE
New Hampshire Gazette,

THE OLDEST NEWSPAPER IN AMERICA.

BY F. W. MILLER.

It gives me pleasure, Messrs. Editors,—although it involves not a little study and research—to comply with your request that I furnish for publication on the occasion of the one hundredth and sixteenth anniversary of the establishing of the Gazette, an outline of the salient points in the history of its long and not uneventful life. And while I hope to interest somewhat the general reader, and the friends of the paper in particular, I trust a less busy and more able pen will yet write out this history,—which is coeval with that of the town,—more fully than my time will allow or the limits of a newspaper article permit. I will premise that this article is taken largely from one written and collated by me at the request of the editor of the N. E. Historical and Genealogical Magazine—a work worthy of the largest circulation among all who are interested in New England History.

Daniel Fowle, who was the first to introduce printing and start a paper in New Hampshire, was born in Massachusetts, and was a publisher and seller of books and papers in Boston. A political pamphlet lampooning the Massachusetts House of Representatives,—which Fowle denied printing but acknowledged selling—so irritated that august body, that they arrested and imprisoned Fowle,—who was so disgusted with the arbitrary proceedings in the case, that he removed, as did many another in those early days, to the free soil of New Hampshire. Being invited and doubtless promised support, by several "respectable" gentlemen of Portsmouth, he issued the first number of the New Hampshire Gazette here October 7th, 1756, and if we may judge from the result, those respectable gentlemen were either more capable of fulfilling their agreements or more faithful in keeping their word, than some others have been in similar cases we have all heard of in later days.

Fowle was a good printer, a capable business man, a patriot and gentleman; but his history having already been given in these columns by the late Rev. T. H Miller, I shall not repeat—my business at this time being chiefly with the paper itself. The Gazette, (an exact *fac simile* of which is furnished with each copy of the paper to-day,) was by measure 17x10 inches, and was fashioned almost exactly after the Boston *Chronicle* of that day. The present size is 29x42 inches.

The Gazette was published in its original form but about three months, and at the beginning of the next year, 1757, the matter was made up in two pages of three columns each, running the long way of the paper the same size as at first. A double (or folded) sheet, of four pages, like these two described was issued for the first time on July 29th, 1757, and thereafter whenever occasion demanded, or the supply of paper, or advertisements or other matter warranted. The single leaf or sheet was continued much of the time, into the present century, and the usual size of the page was not again materially changed until 1797; but the subscribers never could have known just what sort of a paper to expect, for the small four-page sheet was resumed repeatedly,—for instance, in February and March, 1758, and from March to August, 1763 (except for one issue in May, which was both large and double), and there were ten small numbers in June, 1764; and all these changes were made without the least notice, explanation or allusion to them by the editor. Neither was the removal of the office referred to editorially or otherwise, nor even all changes in editors or proprietors.—in fact, local matters were almost entirely ignored in those days, everybody probably being expected to know as much about these as the printers. The news from afar was what was desired. The price of $1 per year was not changed until 1797.

It will be seen that no place of issue is stated in the publisher's imprint or elsewhere; but a daughter of the late John Melcher, Esq., (Fowle's successor and heir), still living, states positively that the singular and quaint old wooden building, of which we present an exact picture herewith (from a photograph by Davis Brothers,) was Fowle's original office, and so the site of the first printing office in New Hampshire. It is located on the corner of Pleasant, Washington and Howard streets, and opposite the beautiful and famous old Wentworth mansion; in the near vicinity of the original meeting-house, and in what was then the business centre as well as the "court end" of the town. The office (that is the material and the business,—not the building) was after a few years removed by Fowle to Fore or Paved street, now Market; but had it been retained in the first location, it would have escaped the fires which have several times threatened it in various others, but which have never devastated the south end of the town. The first statement of the location of the office is made when Daniel and Robert Fowle are the publishers, June 12 b, 1767, "near State House, in Street leading to Ferry"—now Market Street: and this was doubtless the date of the first removal. The present office is on the same street, and not many rods above the original location, but there have been numerous other sites occupied in the mean time.

By a deed from Daniel Fowle to Thomas Fluker, in 1772, now in possession of Mr Isaiah Wilson of this city, (present owner of the premises,) Fowle conveys the lot on Pleasant Street, for many years known as Brimstone Hill, "with the building on the same now improved by me as a printing office." Mr. Wilson suggests that the rocky old lot (which his enterprise has made to blossom like the rose) might have obtained its name from the printer's devil, instead of from Sandemanian or other theological sentiments connected with the locality. However this may be, and while there would seem no question but this deed proves Fowle to have had an office on this hill; still, with the evidence of Mr. Melcher's family, I see no great reason to doubt that the original office was as before stated, at Howard Street, as was believed by the late T. H. Miller and C. W. Brewster, and is held by Mr. J. H. Bowles of New York—all of them well versed in our local history. Still, it does seem a little queer, that Fowle should remove his office from Howard to Market Street in 1767, and be back again on Pleasant Street in 1772.

Fowle's opening address is pronounced by Rev. Dr. Peabody, in his printing centennial address, to be a masterpiece of its kind; and no one can inspect the volumes of the paper under his management, without conceiving a most favorable idea of his ability and discretion, integrity and honor, public spirit and patriotism. He continued in business in Portsmouth for about thirty years, for a portion of the time having a less worthy nephew connected with him; but for the most part assisted chiefly by his negro slave, Primus, an excellent pressman, although he did not know a letter, and who lived to the age of 90. Dr. Peabody also remarks "that the N H. Gazette is believed to be the only newspaper in this country which has had a continuous existence for a century, without a change of name. But this was said in 1856, at the centennial celebration of the Gazette; and since that time, at least two others have completed their hundred years. The *North American* in Philadelphia, and The Newport *Mercury* in Rhode Island.

Pictorial illustrations were perhaps as popular then as now, but engravings were scarce, and engravers scarcer. Fowle had brought with him, from his Boston printing office, a set of wood-cuts, probably of Æsop's fables; and with that of the fox and the crow, as will be seen, the head of the Gazette was at first adorned. Whether the public was the crow, and Fowle the fox, we cannot say, nor how the emblem or device was to be taken; but this cut was soon broken, and was replaced by that of Jupiter and the peacock. Some time afterward the royal arms took their place in the head, and kept it until displaced by the American revolution.

Mr. Fowle did little else than print his paper, the province laws, and a few pamphlets. The governor appointed him a justice of the peace soon after his arrival. He was a correct and industrious printer, and an agreeable man, and succeeded in accumulating a considerable property. He published the Gazette, alone or with a partner, till 1765; when he transferred it to John Melcher and George Jerry Osborn, two of his apprentices. Mr. Fowle died in 1787, aged about seventy years, leaving most or all of his estate to John Melcher, according to his agreement when young Melcher went to live with and work for him. Melcher died in 1850, aged nearly ninety years, and his highly respectable descendants are still enjoying the competency thus gained from Fowle, and increased by himself.

The exact chronology of the Gazette is as follows: Daniel Fowle printed it from 1756 to 1764, when Robert Fowle became associated with him. They continued till 1773, when Robert went to Exeter and started the first paper there. In 1776, Benjamin Dearborn became publisher; but two years after, Mr. Fowle again resumed the publication, and continued it to 1785, when Melcher & Osborn took it. A part of the old wooden building, then standing on what is now Market street, which was occupied as a printing office by Fowle and his successors, is now a dwelling on Russell street.

Mr. Osborn soon left the firm, but Melcher continued the business of printer and bookseller till 1802, when he sold out to Nathaniel S. & Washington Peirce, who changed the politics of the Gazette from federal to republican. Melcher was the first state-printer of New Hampshire, and his several successors filled that office up to 1814. On the 28th of June, 1814, Messrs. Beck & Foster announced that, by vote of the legislature, the Gazette was deprived of the publication of government lands; and thereafterward the title of "Printer to the State" is no longer found in the imprint, where it had continued from Melcher in 1787. He imported a fount of pica type upon which to print the laws of the state, and it was in regular use for more than sixty years. The writer now has in his possession, the original press used in printing the Gazette, also a large earthern ink-stand, a settee, and several founts of type, which descended from Fowle to Melcher, and were bestowed by his family on the writer's father, the late Rev. Tobias H. Miller, himself a prominent editor in this city for nearly fifty years past, until 1870. Mr. Melcher filled the high office of coroner for many years, was a very exact and accurate printer and business man, and having made a snug property in his trade, lived in the best of health and spirits almost half a century after he retired from it. Many readers will remember his nice, prim appearance as a veritable gentleman of the old school, in our streets, during his last years.

N. S. & W. Peirce, in connection with Benjamin Hill and Samuel Gardner, published the Gazette about seven years, and in 1809 sold it to William Weeks, who came from Portland, Me. Up to this time very little editorial matter had appeared in the paper, except a little political writing at certain periods. The scissors (or, rather, a penknife was used then.) did most of the work. The "news" and selected matter were all that was expected—and it was of no consequence if the news from Washington was several days, or from Europe several weeks old, instead of hours or minutes, as now. Mr. Weeks held an able pen, and wrote more than his predecessors. He remained editor for more than four years of a stormy period, and at the close of 1813 was succeeded by Beck & Foster. Mr. Weeks was a caustic writer, and was once threatened with a libel suit for a political squib on Gen. Upham; but escaped it, by publishing a recantation, in his next paper,—which was not much of a retraction, after all. We do not notice in the files, any other allusion to libel suits on the Gazette editors, until we come down to very recent times—when of two suits brought, one was speedily decided in the favor of the publishers, by a jury, and the other would have been similarly disposed of had it gone to a jury.

The firm of Beck & Foster continued until dissolved by the death of David C. Foster in 1823. From this time till 1834, Gideon Beck was the publisher; then Albert Greenleaf was admitted partner, and the next year, 1838, Mr. Beck left the business. Now appear the names of Thomas B. Leighton (afterward well know at the Isles of Shoals), and Abner Greenleaf, Jr., in the imprint, for a year or less; when Mr. Greenleaf alone conducts the paper up to 1841. Then Samuel W. Moses, alone or with Joel C. Virgin or George Greenleaf, published it until 1844; Abner Greenleaf (senior) is named as editor, then A. Greenleaf & Son. This year, 1844, closes without any imprint, and for the next two years there was none, the paper being then owned by prominent democrats, and managed by them and their friends.

In 1847, William P. Hill, a son of Isaac Hill, came from Concord, in this state, and bought the Gazette, and also another opposition sheet which had been started; and uniting the two, enlarged the Gazette, and called it "The N. H. Gazette and Republican Union." He was unsuccessful, and lost several thousand dollars in the publication; and after in vain attempting to establish a daily Gazette in connection therewith, he left the paper in 1850, and was succeeded by Gideon H. Rundlett, of Portsmouth, who ably and faithfully edited and published the paper for its owners, who were leading members of the democratic party—he himself being one of the proprietors.

Edward N. Fuller, from Manchester, relieved Mr. Rundlett after his two years' service, in 1852, and remained in charge of the business until 1858, when, after making another creditable but unsuccessful attempt to establish a daily Gazette, he left the state, and was for several years connected with the Newark *Journal* in New Jersey. Mr. Fuller was an able man and skillful journalist, but had a difficult field to work in here. He was succeeded in the management of the Gazette, by Amos S. Alexander, Esq., from Concord,—a man of more ability than discretion in the use of the pen; a most social and agreeable gentleman, of Falstaffian personal proportions. This "Alexander the Great" (as he was sometimes called by rival editors) was obliged to vacate his position as custom-house officer and editor, in favor of Mr. Samuel Gray, of Portsmouth, who now bought the office, in February, 1859. Mr. Gray was a good printer, and capable business man, and conducted the paper to the satisfaction of his patrons, until Sept. 14, 1861, when he sold out to Frank W. Miller, who united the Gazette with the Chronicle (a daily and weekly paper established in 1852 by these same men, with others, then partners, as Millers & Gray), in which connection it is still published. Five years previous, in 1856, the firm of Miller & Gray was dissolved, Frank W. Miller remaining as sole owner and publisher. A few months prior to this, they had purchased the New-Hampshire *Phœnix*, a temperance paper printed in Concord, and uniting the same with the weekly Rockingham Chronicle, put the titles of both at the head; and when the Gazette was joined with the Chronicle, in 1861, the names of all three were kept at the head for several months, the Gazette leading, as usual. This cannibalistic performance of swallowing numerous other papers, has been the experience of many old publications.

Mr. George W. Marston was admitted partner with Mr. Miller, April 13, 1868, under the style of Frank W. Miller & Co.; and Mr. Miller sold his interest to Mr. Washington Freeman, Oct. 13, 1870, just two years ago, since which the business is conducted by Marston & Freeman.

The Gazette was strongly loyal to the British crown for many years; so much so, that in 1765, it was feared the editor would not oppose the stamp act vigorously enough, and another paper called the Portsmouth *Mercury* was started, but after three years it ran out. But I find by the files, that the number of the Gazette for Oct. 31, 1768, is dressed in the deepest mourning, with very heavy inverted column rules (although still bearing the English royal arms at the head), on account of the stamp act, and is loud in lamentations, and strong in denunciation of the outrage, threatening to suspend publication, rather than submit to it. In 1802, the Gazette was changed to republican, but about Jackson's time espoused the democratic cause, and followed the fortunes of that party until united with the Chronicle. Thenceforth, with T. H. Miller continuously, and three of his sons at different times as editors (with whom Jacob H. Thompson, now of the New-York *Times*, was for several years a valuable assistant), and later under Mr. Marston's management, the Gazette has been and is a supporter of the republican party. By these changes, it has happened that the paper has defended all the great wars of our government, of whatever party—whether the revolutionary contest, the republican war of 1812, the democratic war with Mexico, or the republican war to crush the late democratic rebellion.

It must not be supposed that the printers of the Gazette enjoyed a monopoly of the business in Portsmouth during all these years. Far from it. Nearly or quite thirty other different papers have been started, and for the last eighty years there have been commonly three weeklies issued, and within twenty years two dailies have been established in addition. Of these, up to the time of the very successful *Chronicle*, in 1852, only one had succeeded with any great degree of permanence,—the *Oracle*, now Portsmouth *Journal*.

In 1793, Charles Peirce commenced a semi-weekly called the "*United States Oracle the Day*," but in about two years changed it to a weekly, and in 1801 sold it to William Treadwell; and after passing through other hands, the name was altered to "Portsmouth *Journal*" (which it still retains), by N. A. Haven, Jr., who became editor in 1821; and it was in 1825 sold to Charles W. Brewster and Tobias H. Miller, both recently deceased. In 1835, Mr. Brewster bought out Mr. Miller, and the paper is still published by his son, Lewis W. Brewster, for several years his partner.

Mr. Brewster, senior, made one or two efforts, many years ago, to start a small daily, but not immediately receiving what he deemed adequate encouragement, he declined to go on. His two volumes of valuable and interesting local history, known as "Rambles about Portsmouth," and his noble essay entitled "Fifty years in a Printing Office," are, in addition to his weekly *Journal*, an ample record of a well-spent life. Verily his works do follow him, and his children rise up and call him blessed.

His old partner, Tobias H. Miller,—printer, editor, publisher, and minister of the gospel,—was for more than half a century prominently connected with the press of his native state; and no doubt, at one time or other, was interested in more different newspapers than any other man who ever lived in New-Hampshire. As an editor, few have shown more ability or been more popular, though he was outspoken as Fowle; but, unlike Fowle, he cared not to amass wealth. He was a clergyman of good standing, first in the Orthodox Congregational, and afterward in the Universalist denomination; and keeping both pen and voice active almost to the day of his death, he was a year or two since gathered with our list of worthies, of whom he was proud to be accounted one. His six sons have all had more or less connection with the printing office, four of them being editors of newspapers.

It may not be out of place, in speaking of this late editor of the Gazette, to allude to one of the singular coincidences,—that Rev. T. H. Miller, who in his youth was office-mate with Wm. Lloyd Garrison at Newburyport, and whose exertions through life to promote the temperance and anti-slavery reforms were untiring, should be buried on the very day that the fifteenth amendment to the United States constitution was ratified. Mr. Miller was one of the earliest and most earnest anti-slavery men in the State, although never fanatical nor impractical on any subject; and although he was never imprisoned, like Fowle, for his sentiments, yet a public meeting was called and held in Portsmouth, about 1837, to prevent his delivering an anti-slavery address on the 4th of July. And although the adverse movement was not successful, the church where the services were held was surrounded by a noisy mob, windows were broken, the bell-rope was pulled out-side the belfry, and the bell rung to disturb the meeting and excite the town. The late Phinehas Nichols, Esq., who was in the pulpit at the time, said to me, years afterward, that he rather expected to be pulled or driven from it, but had fully made up his mind to defend his rights, even in that sacred place. And in later years, our citizens saw a hooting mob of several hundred how fellows follow the brave old gentleman (Rev Mr M.) through the streets of Portsmouth to a railroad station; he with the mayor and city marshal, escorting and protecting a visiting agent sent by the State Temperance Society to enforce the liquor law, but whose coming Mr. Miller did not procure, recommend or desire.

It is curious to look at the ages of the first printers of Portsmouth. Fowle lived to be about 70 years old, working nearly fifty; Primus, his slave, to be 90, working more than fifty; Melcher, Fowle's apprentice, and in part his successor, to be 70, working forty-five; and T. H. Miller, who first worked with Whidden to be 68, working fifty-five years. Of all these men, probably the first, Daniel Fowle, made more money by the printing business, than has been made by any other in this State, even to the present day; although Mr. Melcher, who inherited Fowle's property and increased it in other ways than by printing, doubtless gathered a larger estate than he. Fowle held the office of justice of the peace, a position conferring power and emolument in those days; Melcher was for years the coroner, a respectable and profitable office; and the publisher or editor of the Gazette has usually been the recipient of some profitable government office, in the customs or postal department. Before the year 1800, eight several and distinct papers competed with the Gazette, at different times; since that time, at least twenty of all sorts have begun and ended. Of the men, besides the Gazette pioneers and their near successors; Charles Peirce, who started the *Oracle* (now *Journal*), and the late lamented Charles W. Brewster, also of the *Journal*, all of whom accumulated a comfortable competency,—few if any of their numerous competitors and followers, except the *Chronicle* publishers, have added much to their substance by their hard labors, though some of them were very able and worthy men. The *Oracle* and *Journal*—throughout have had able writers. The Gazette, from the time Mr. William Weeks took it, in 1809, has been actively edited, and usually with ability.

It is fitting and proper here to note the fact that the antiquity of the N. H. Gazette has been disputed and denied by some, especially by the Newport *Mercury* of Rhode Island, which was started two years after the Gazette, by Benjamin Franklin's less worthy brother James. The form, size and entire make-up of the little *Mercury* (as shown by the *fac simile* issued at the time of *their* centennial celebration, in 1858) clearly evince that it was patterned, as near as might be, after Fowle's Gazette, or both after the Boston *Chronicle*; and the *Mercury* bases its claims to greater antiquity than the Gazette, or the statement that the Gazette was for a year or more, about 1775, suspended from publication, or else published under a different name. But neither of these statements is true, as the files and all the records of history show. For although there have at various times been several other titles connected with that of New-Hampshire Gazette, this has never been omitted, nor has the paper ever failed of regular and continuous issue. There appears at one time to have been another New-Hampshire Gazette, printed at Exeter, fourteen miles distant from Portsmouth, by one Robert Fowle, whom Dr. Peabody alludes to as an unworthy nephew of the great Daniel; this was issued irregularly for a year or two, first called "A New-Hampshire Gazette," and afterward "The New Hampshire Gazette," and its brief existence may have caused the misapprehension as to the veritable Gazette. At any rate, the bound files of the Gazette, which still exist, almost complete if not entirely so, in the Athenæums of Portsmouth and Boston, show that this charge is not correct, and the evidence is good and sufficient of the superior age of the paper. Rev. Dr. Peabody, in his address, sustains this view; and the late Rev. T. H. Miller, who had thoroughly studied the subject, also insisted on it. Thomas, in his *History of Printing*, more than half a century since, said, "The New-Hampshire Gazette is the oldest paper in New-England," and it is very certain that it has not grown any younger, nor any of its cotemporaries relatively any older since. The files show that the name of N. H Gazette and *Historical Chronicle* was, May 5, 1776, changed to Freeman's *Journal* or N. H. Gazette; and about one year afterwards was again changed to N. H. Gazette, or State *Journal* and General *Advertiser*. But the original title of New-Hampshire Gazette, which Fowle gave it, has always been sustained at the head of the paper, and this is beyond question the oldest paper, not only in New England, but in the United States.

And there is only one other paper, so far as I can discover, that at any time, within many years back, could have disputed successfully the claims of the N. H. Gazette to priority in the Union. We allude to the Virginia *Gazette*, which was established at Williamsburg in 1736, twenty years before Fowle's, and was among the earliest papers started in the country. The publishers most of the time during the last twenty years have been two brothers of the name of Lively, to whose courtesy I am indebted for some information concerning the paper, and for copies of the last issues, as late as 1869, which prove them a bile journalists. Mr. Lively states that he has valuable bound files of the paper, sufficient to fill a horse-cart; but that its publication has been suspended and resumed several times during its long career,—if, indeed, such an interrupted and broken series of existences can be termed and counted as one and the same life. In one case, at least, Messrs. Lively abandoned the old historic name, but resumed it again after a few months. In 1862, this Virginia *Gazette* was necessarily discontinued for a while, by reason of the U. S. forces occupying the town of Williamsburg, and a sheet was issued from the office by some of the printer "boys in blue." At the close of the war, the former publishers resumed the old *Gazette*, but did not continue to print it long, and it is now undergoing one of its silent or hibernating periods. But as its last able and gentlemanly editor informs me that there is now a good opening for a paper in Williamsburg, let us hope that this, one of the earliest of our many old "*Gazettes*," may soon be resuscitated to new and long continued life.

As for the New-Hampshire Gazette, the worthy subject of this brief and imperfect sketch, which yet has grown far beyond the limits I intended,—this is still alive, indeed, and is now published, (as its numerous readers well know,) by Messrs. Marston & Freeman, in quarto form of eight pages of six columns each; and is one of the largest, and most flourishing papers in the state. It was issued in its present shape for the first time by the writer of this article, Nov. 16, 1867. The long-continued support of this old newspaper by the people of Portsmouth and vicinity, would seem to be another evidence of their noted steadfastness, reliability and thrift in the olden times, as now.

Rev. Mr. Peabody also states in his address, that "this town can claim the distinction of having issued the first religious newspaper in the country, and I am inclined to think in the world." This was the "*Herald of Gospel Liberty*," which was started by Rev. Elias Smith, the very able founder here of the Christian Baptist or Christian sect; whose son, Rev. Matthew Hale Smith, has for years been the spicy New York correspondent of the Boston *Journal*. The paper, after several changes of name and location, is still published under its original title, in Dayton, Ohio. I am well aware that some persons attempt to disprove this claim of priority likewise, but in vain. Dr. Peabody further says, "I am also led to believe that the earliest religious magazine published in America was, *The Piscataqua Evangelical Magazine*,' issued in Portsmouth four or five years, beginning in 1805."

A very interesting celebration of the one hundredth anniversary of the introduction of printing into New-Hampshire, really the celebration of the establishing of the Gazette,—was held in Portsmouth, October 6, 1856. The movement was originated by the New-Hampshire State Historical Society, and was largely indebted for its success to the intelligent and untiring efforts of Edward N. Fuller, Esq., then publisher of the Gazette, and his brother, now Hon. Frank Fuller, of Utah. Mr. E. N. Fuller published at the time, a pamphlet of sixty pages, containing full account of the proceedings on the occasion,—the street procession and decorations, and the indoor festivities.—the oration, poem, &c., in the Temple, originally the church built for Elder Elias Smith; the dinner in the historic Jefferson Hall, with the after-feast of speeches, sentiments, &c. The oration of Rev. Dr. A. P. Peabody, then pastor of the Unitarian Church in Portsmouth, and editor of the North American *Review*, although written at a very short notice, was of course an able and elequent production, and no less a glowing tribute to the "art preservative," than a valuable compilation of and contribution to the general and local history of the craft, the devotees of which perhaps have proved themselves generally less crafty than most other guilds. Benjamin P Shillaber, Esq., well known as Mrs. Partington, delivered the poem on the occasion; and Albert Laighton, who has been styled the poet of New Hampshire, and Thomas B. Aldrich, the poet and man of letters, wrote odes which were sung by a select choir,—all the three poets being natives of Portsmouth.

The famous battalion of Amoskeag Veterans, from Manchester, N. H., under command of the late Col. Chandler E. Potter, the well-known historian, performed escort duty for the imposing street procession, which embraced the fire department and military and civil organizations of the city, and a small mechanical department. The great attraction was the old wood and stone printing-press (often called Ramage, but I think older than that pattern), which had been owned and worked by Franklin J. Draper, of Boston, and Daniel Fowle and John Melcher of Portsmouth, and upon which the New-Hampshire Gazette was first printed. Mr. George W. Bazin, of Boston, who was an apprentice in the Portsmouth *Oracle* office about 1814; (and about that time, in the office of Samuel Whidden, gave the late T. H. Miller his first lessons in type-setting), and who now, at the age of 78 years, is making weekly bills as compositor at the Boston office of Rand & Avery, thinks this is incorrect, and that the press was made by Ramage; but I am sure the late Mr. Miller held the view stated above. Mr. Bazin is correct in stating that an old press was carried from Portsmouth to Boston to join in the great Franklin statute celebration, and this press may, as he says, have borne the name of A. Ramage: but Mr. Isaac Frye, also an old Portsmouth and Boston printer, remembers two presses in the Melcher office, and thinks the oldest was not a Ramage. At any rate, my old press is inscribed "T. D. 1732," and has no name of Ramage upon it. It has long been claimed that "Franklin worked on this press," as it is for scores of others; and possibly he did pull a sheet or two, when travelling as Postmaster-General, and calling at printing offices—to please the boys. This historic press was set up in a hay-rack in the most *outre* style, and was operated as the procession moved along the streets, with the old inkballs and all; and *fac-similes* of the first number of the Gazette were distributed to the eager populace, just a century from the appearance of the original from the same press—like those issued to-day as a supplement to this number of the Gazette, the first of the 117th volume.

But the fathers, where are they? and the prophets, do they live forever? Nay, verily; but let us all emulate their noble examples, and endeavor that our names be worthy of a record with, though far below theirs.

The Grand Result.

After one of the most bitter political campaigns that Americans ever engaged in, the States on which the supporters of Horace Greeley relied to indicate the great change which was to take place in November, have spoken, and in unmistakable terms. Following New Hampshire, Rhode Island, Connecticut, North Carolina, Vermont and Maine, comes Pennsylvania with her magnificent majority of over 25,000, Ohio with 15,000, despite the German defection, Indiana and Nebraska.

There is a significance in these elections which is evident to political leaders, business men and the masses of laboring voters. The coalitionists had no nobler rallying cry than "anything to beat Grant." A tried and trusted Chief Magistrate had been found not wanting in sterling common sense. He had his victories alike in war and peace. Proving faithful in all things, it was natural that he should inspire confidence among those who do not trade in politics. Place hunters chose to deride him; the crystalized opposition which lasted through the decade during which the Rebellion had been quelled was ready to unite in crushing its chief actor. A few discontented spirits, who failed to make their old associates appreciate their assumed value, chose to join in a combination which might bring to them spoils or public favor. Others, deluded by sophistry or led astray by personal sympathy, joined a movement which has terminated disastrously.

The campaign was commenced by the opposition in a singularly personal manner, and being continued in the same spirit, no candid person need be surprised at the result. Contumely and slander has been met patiently; false charges have been exploded. It is a fact the leaders of the Greeley movement neglected to remember, that abuse causes sympathy. The Pennsylvania canvass is a case in point. The Republican candidate for Governor, a gallant soldier, was assailed so venomously that the most lukewarm of his supporters rallied in indignation to help sustain him and crush out his slanderers.

Witness the result. After a canvass which has not had its equal of late years, he is sustained by an overwhelming vote. A campaign of braggadocio and slander cannot be sustained without reaction. Pennsylvania indicates the nation's firm resolve. It was not necessary for President Grant to appear at every cross road and country village to defend himself against the accusations so freely made. Remarkably patient under the obloquy which his slanderers endeavored to heap upon him, he made no counter charge to that of the Chappaqua candidate, simply declaring that he was willing to weigh his past acts in the same scale with Greeley's words.

A result other than that arrived at in the States voting on the 8th instant, would have been surprising and humiliating. The American people are keenly alive to a sense of justice and to the best interests of the nation. Among thinking men, it was a foregone conclusion that a corrupt coalition, no matter how strong may have been its elements, could not hope for permanent success. The only fear has been that the worst classes might control the South with its nearly forty per cent. of the electoral vote, and that in some portions of the East and West, there might be a defection caused by false issues which by reason of deception might turn the scale against stable government.

In the future, we trust there will be no danger from such a source. Had the Southern people been as correctly and generally educated as are the citizens of States enjoying better privileges, Horace Greeley's candidacy would have had even less opportunities of success. With the growing sentiment of respect for labor and regard to justice and duty which is to obtain in the South, there will come greater security of life and property, and consequently less liability for a successful prosecution of political canvasses where animosity is engendered by lack of controlling principle.

The elections of this week have practically and most emphatically settled the Presidential campaign. We find among Democrats no man who in conversation expresses himself as hopeful of Horace Greeley's election. The handwriting on the wall is as visible to them as to the most enthusiastic supporter of the present national administration. The hopelessness of their cause is as patent as that of the crushed Rebellion, and, no doubt, in the secrets of their hearts is the satisfactory feeling that even were they to stultify themselves by voting for their life long traducer for President, they would achieve but a barren triumph and obtain, to say the least, no administration which would honor the country more or sustain its integrity better than that of President Grant.

How Willie Feels.

Willie, who has so industriously hashed crow for feeding his brother Greeleymocrats since the word was passed by the Democratic wire-pullers that the party must eat crow or die, got out the most entertaining issue of the *Lyre* we have seen, Wednesday evening. He evidently feels badly as the hoped-for office recedes from his view; doubtless his loss—if that can be called lost which is never possessed—is really great, for if his services (!) in a State campaign were rewarded by an Assistant Secretaryship in the State Senate, he might reasonably expect to be Postmaster or Collector of Customs and to "have the running of the Navy Yard," if Honest Horace was elected.

A gentleman who was stopping at the American House, Boston, sent us a reliable dispatch on Tuesday night, saying that Indiana, Ohio and Pennsylvania had gone Republican; whereupon Sweet William shows his amiable disposition, saying the dispatch was sent "from some cheap eating house," which is exceedingly complimentary to Boston's favorite hostelry! It occurs to us to say that Sweet W. cannot find any unpaid board bills of the gentleman referred to at eating house or hotel!

Willie couldn't understand our big chicken at all, Wednesday morning, as "the New York *Herald* and the New York *Tribune* of this morning both claim that the Democrats have carried Pennsylvania by over 5000," and "the Grantites concede that we have carried Indiana." Well, what of it,—if it were true? We have as much right to crow over copperhead victories as the Greeleymocrats had to fire a salute over the Republican success in North Carolina.

Willie has unearthed another "outrage;" the President has ordered every laborer on the Navy Yard to "buy a cape and torch or pay $3," or clear out! What makes Willie so much afraid that the Republicans will increase the number of their already numerous Grant & Wilson Guards? We're not a bit afraid the Greeley Greybacks will encumber the streets with their numbers!

—The question which now agitates the scientific world is "When does a post cease to be a post and become a pole?"

The Farce Ends and the "Curtin" Drops.

Pennsylvania.

The New York *Tribune* puts Hartranft's majority at 25,000, and thinks the Administration has held its own and made some gains in Congressmen. It estimates Hantranft's net gain outside of Philadelphia over last year at 1026. The three Republican Congressmen-at-large are elected by overwhelming majorities.

Gen. Hartranft predicts that Grant will carry the State next month by 100,000 majority.

Hartranft's majority in Philadelphia is 15,823.

A dispatch received at the New York Union League Club from the Philadelphia Union League Club, says that the Republican majority in Pennsylvania will be anywhere between 25,000 and 40,000.

The New York *Herald* says the elections resulted in a sweeping Republican victory, a victory that settles the Presidential contest and proves beyond doubt that the attempt to hand over the Federal Government to a new party, composed of Democrats and dissatisfied Republicans, has proved a complete failure. It considers Hartranft elected Governor of Pennsylvania by over 20,000 majority, in spite of the tremendous efforts of Buckalew.

A dispatch from Phildelphia says Hartranft's estimated majority is 30 374.

Forney's *Press*, which has opposed Hartranft, says:—"It would be folly to allege that Hartranft's majority is the offspring of fraud. We believe it to be a legitimate majority."

The Congressional delegation will embrace eighteen Republicans and nine Democrats.

Greeleyism in Pennsylvania.

Light Up!

The Grant and Wilson Guards will celebrate the glorious victories of Tuesday with a grand torchlight demonstration this evening. The procession will form on Market square at half-past seven o'clock, right resting on North Church, and move through Market, Deer, Vaughan, Congress, Islington, Middle, Court, Water, State, Middle, and Congress streets to Market square and dismiss. The members of the cavalry company are directed to assemble on the square at 7 o'clock promptly. Republican citizens residing on the line of march are requested to illuminate.

All Fixed.

Willie has been at work at figures again, this time to cypher out a Democratic victory in the late election. He can do it, if it can be done by anybody—for we don't know of any one who can knock the spots out of the multiplication table equal to him. He makes a qualified acknowledgement that "the Grantites have carried Pennsylvania by a majority of a few thousand;" says "Ohio is still uncertain and it may require days to decide which party will carry the State;" and that "the dispatches from Indiana show Democratic gains, and there is scarcely any room for doubt that the Liberals have carried the State by a large majority." He shows that the Democrats were too much in a hurry with their despondency, by the following:

To sum up the result of Tuesday's election, we can only say that, as it now looks, the Liberal ticket has gained all that was needed to secure the election of Greeley.

That's what's called "letting 'em down easy." But it's too late—they're flat already.

—The old fashion of a visiting book in which the visitor writes his name has been revived.

A TEN STRIKE!

Set 'Em up on the other Alley.

Ohio.

The New York *Tribune* puts the Republican majority in the State at 10,000.

The New York *Times'* Columbus dispatch says: As far as heard from in Ohio, the Congressional delegation will stand 13 Republicans to 7 Democrats. One district is in doubt. The Liberal gains were almost wholly from the German Republicans. The strong Democratic counties of Crawford, Richmond, Tuscarora and Allen show reduced Democratic majorities. Two hundred and sixteen towns and cities, not including Cincinnati, show a Republican gain of 2553 over last year. The State Republican majority will be from 15,000 to 17,000.

The Democrats have elected Sayler and Banning to Congress; the former by 3974 majority, and the latter by 1490.

The Sandusky, Ohio, district, has elected Foster, Republican, by 600 majority. This district was considered extremely doubtful, the Democrats claiming it by 1000 majority.

The Heart Bowed Down.

Hand-Clasping.

Our sanctum was crowded until near daylight with gentlemen of both political parties, Tuesday night, awaiting anxiously the election returns, and to have a friendly shake over a chasm that wasn't bloody. On behalf of the company assembled we return hearty thanks to Mr. Richard D. Smart for his share of the entertainment. He has "a kindly failing of making all happy," said one of the callers—which wasn't at all untrue. The closing hand shake will take place on Tuesday, Nov. 8th.

Laconics.

Dr. Thomas M. Potter has reported for duty at this Naval Station.

Capt. Robert W. Huntington, of the Marine Corps, has been detached from duty at this Naval Station, and is ordered to Washington.

The race at the Trotting Park, Wednesday, was won by the Lawrence mare Blanche.

Mr. Wm. Fellowes is removed from the position of master iron plater at the Navy Yard, and is succeeded by Mr. John D. Swain.

Mr. Stodder, Executive officer's clerk at the Navy Yard, goes to the Pacific as Rear Admiral Pennock's secretary. We do not learn who his successor is to be.

The office of chief accountant at the Navy Yard is to be filled by a Maine man—as no New Hampshire man will accept the sinecure.

The "Dolly Varden Club" hold their regular weekly assembly at Congress Hall this (Thursday) evening. Music by Turner's full Quadrille Band. Floor tickets 50 cents, Gallery 25 cents.

An old-line Democrat of this city, in conversation with a Republican, on Wednesday, remarked; "Gen. Grant deserves a vote of thanks from the American people, for defeating that old fool, Greeley." Grant had nothing to do with it, further than that he had satisfied "the people" by giving them an honest and able administration of the government, and that "the people" did not care to swop him off for a lame duck—dead duck, now.

Mr. Benjamin R. Hoyt, (who at the time of his death was the senior ordained minister of the Methodist Episcopal Church in New England,) died at his residence in Salem, N. H., on the afternoon of October 3d. His funeral took place on Sunday, the 5th, and on Wednesday his remains were brought to this city and interred in the lot of his son (Col. Albert H. Hoyt) in Harmony Grove Cemetery. Mr. Hoyt was born in New Braintree, July 6, 1789, and consequently was aged 89 years, 3 months and 27 days at the time of his death.

The Woods Were Full Of 'Em,

AND THEY STAYED THERE!

Indiana.

The New York *Herald* says: Indiana, even with the great strength of Hendricks, has refused to repudiate the Republicans.

A dispatch from Indianapolis says Gen. Browne's (Republican) majority for Governor cannot fall short of 5,000.

Niblack, Democrat, who was elected to the present Congress by 2500 majority, is beaten by Heilman, Republican, in the 1st district.

Ninety-eight towns in Indiana give a Republican gain of 1860. Dan Voorhees is defeated for Congressman. Browne will have 2500 majority for Governor.

State News.

There will be a grand Republican Mass Meeting and Torchlight procession at Concord, on the afternoon and evening of October 15th. There will be speaking in the afternoon, for which prominent speakers have been engaged. A collation will be provided by the citizens of Concord, to be served at 6 o'clock, for all organized companies bearing torches. The procession will be formed at 7.30 o'clock, and will make a grand parade. All organizations in the State are cordially invited to join.

Ex-Gov. Harriman has returned to New Hampshire from Pennsylvania, where he has been doing gallant service in the Republican cause, having addressed eighteen immense mass meetings in sixteen days.

WHAT A DOG KNOWS.—We know of no more singular canine sagacity, says the Harford *Times*, than one which was related to us a day or two since. The gentleman who owned the dog lived, at the time the occurrence happened, in Southington. It was a good while ago. His dog, a fox-hound, was bitten in the nose by a red adder. This is a snake whose venomous quality is only inferior to that of the rattlesnake. It will always kill a man.

The dog, though bitten, continued to assail the snake, and succeeded in killing it. To the surprise of his owner, who had witnessed the combat, the dog then turned and fled at his best speed for home, the home being two miles distant. The people at the house saw him come rushing up the road and plunge into the open cellar-way.

There they found him energetically pawing up the moist earth of the cellar bottom, and into the hole thus made he stuck his nose, and then holding it there, he pawed more dirt around his head, so as to bury his face and head out of sight.

They could not call or coax him away, and there he stayed—so far as the family were observers of him—for two days, and his head and face buried in the moist ground in the cellar. Then he came forth, all well.

How did that dog know that that singular treatment would save him?

—A Port Jervis boy, aged nine years, persuaded his three year-old sister to lie down in a hole in his father's yard, then covered her with dirt. Her mother discovered the freshly moved dirt and uncovered the helpless little one just in time to save her from suffocation.

—A lady of this city was surprised, yesterday, to find a bird's nest cunningly wrought in hair on the window-sill of her chamber, the material of which the little warbler had stolen from the dressing-table of this lady.—*Biddeford Times.*

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

NOTHING ELSE WILL ANSWER!—If you are hoarse, have a cold, or a hard cough, ask your druggist for *Hale's Honey of Horehound and Tar*. Take nothing else. It is the one sovereign remedy for all complaints of the throat and lungs. Crittenton's 7 4th Avenue. Sold by all Druggists. 29

Pike's Toothache Drops cure in 1 minute.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

THE JUSTICE OF THE VERDICT rendered by the public years ago in favor of the MEXICAN MUSTANG LINIMENT must be apparent to all who have used that famous preparation or seen it used. Its healing influence is irresistible. The most obstinate forms of neuralgic or rheumatic disease are totally cured by it, in an inconceivably short space of time. External injuries or sores, whether of man or beast, as well as all equine or human maladies for which a liniment may be used, are speedily remedied by its use. Remember it is not merely a palliative but an eradicant of disease.

TROOPS OF AILMENTS VANQUISHED.—On account of the promptness with which it checks the fevers generated by unhealthy exhalations Hostetter's Stomach Bitter's is considered an indispensable family medicine on the borders of our Southern and Western rivers, and in new settlements where the plough and the axe are for the first time disturbing the solitudes of nature. Its reputation, however, is not confined to such localities. Wherever the elements of disease are rife it is the surest safeguard of health; wherever sickness prevails, it is efficacious as a remedy. Among the serious diseases which it is guaranteed to control are indigestion, biliousness, and all the minor ailments connected with derangements of the stomach, the liver, and the bowels—such as heartburn, headache, flatulence, costiveness, nausea, distaste for food, languor and debility, palpitation of the heart, trembling of the hands, noises in the ears, disordered vision, disturbed sleep, and mental inquietude. At these physical and mental disturbances tend to a general failure of all the powers of the system, they should be at once corrected—as they always may be by a course of Hostetter's Stomach Bitters.

HOLLOWAY'S OINTMENT.—Asthma, tightness of the chest, and the various diseases of the throat and lungs, as well as the innumerable eruptions and ulcers which attack the skin and flesh, yield invariably to this preparation. Sold 78 Maiden Lane, N. Y. Price 25 cents per pot. Ask for the new style; the old is counterfeited.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Instepps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUGHS, and Much has been said many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and efficacious, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

CORNS, Bunions, Bad Nails, and other diseases of the feet, Scrofulous and Cancerous Humors, Piles, etc., skillfully treated at the great central Chiropodical and Healing Institute, No. 705 Broadway, New York. DR. J. BRIGGS, President; DR. ALEXANDER WEBBER, Secretary. ap9

Mount Desert.

CHAPTER VII.

We had the table and the waiters all to ourselves at dinner, for we were late,—our first dinner at Deering's, too. But the inquiring German joined us before we got through, coming in all of a breeze over a "narrow escape" he had just had on the water. He and another artist went out to sketch from some of the pretty little islands in the bay where most lovely views of the mountains are obtained. But during the forenoon the wind rose and the sea roughened to such a degree that rowing home was both difficult and dangerous. This is the regular ending of water-parties at Mt. Desert, according to all I hear,—this or worse. The storm-wind comes down "like the wolf on the fold," the swift spirit of the mountains, that gives them hardly time to send to the harbor for their lives. Yet the undi-mayed yachts and row-boats are busy all the time. Aware of a constitutional inability to refuse a request, the Mariner solemnly announced to me, before I asked him, that he wasn't going one step on the water; no boating and hair-breadth escapes for him.

In his whaling voyages and long cruises in the Pacific, Old Neptune had had a fair chance at him, and almost swallowed him once or twice, with which the Mariner seemed quite satisfied, and inclined to let well enough alone. He didn't burst out singing "A life on the ocean wave," or "A wet sheet and a flowing sea," at every pause in the conversation, like the drawing-room sailors who are sick as soon as they get outside the harbor. "The sea, the sea, the open sea" failed to excite the enthusiasm that song had led me to expect in a jolly tar. "I am where I would ever be, with the blue above and the blue below," was a sentiment he wouldn't endorse, for "the sea-faring man, though a fool," generally knows too much for that. I believe he hates that same sea, and considers it an insatiable ogre, very fond of all flesh, but with a peculiar weakness for old sailors. He always bristled when he spied "a rock awash" off shore, as he invariably did when we were in sight of the ocean, and I could see that he longed to "blast that rock," but, fearing the shock to my feelings, politely refrained. The meanness of the thing exasperated him; rocks and reefs that dared to show themselves were honored and respected, but this concealed assassin offended his chivalry.

What tales of shipwrecks and disaster he regaled me with! There seemed no end of them,—his mind was fairly haunted by "spectres of the deep," and he would have told as many stories as Scherherazade in the Arabian Nights if he had had as much time. I suppose I shall get the other nine hundred next summer. My hair often made an effort to stand on end, at the proper place in these recitals, but succumbed to the united opposition of braids and hair-pins. After all, he couldn't wholly resist the horrible fascination of the ocean, and if he had been of a poetical turn, which happily was not added to his other failings, he would probably have repeated for my benefit these verses of O. W. Holmes', all the better adapted to sea-side recitation because nobody can tell just what they mean.

Do you know the Old Man of the Sea, of the Sea,
Have you met with that dreadful old man?
If you haven't been caught, you will be, you will be;
For catch you he must and he can.

There's the charm of a snake in his eye, in his eye,
And a polypus-grip in his hands;
You cannot go back, nor get by, nor get by,
If you look at the spot where he stands.

O the dreadful Old Man of the Sea, of the Sea!
He's come back like the Wandering Jew!
He has had his cold claw upon me, upon me,—
And be sure that he'll have it on you!"

"Where do you go this afternoon?" asks our friend across the table. We are undecided—inclined to visit the Ovens, six miles from Deering's toward some point of the compass,—I won't venture to say which. "Oh! they are not very much to see; have you been to Otter Cliffs? No? Then you must go there by all means,"—and we went, because we always followed the advice last given, when starting on our peregrinations. It was now about four o'clock and gloriously bright; the great white clouds went flying from the face of the sun and the blue between them looked unfathomable. Out of this brightness we suddenly enter the deep-shaded road through the Gorge, completely concealed from either mountain summit by its over arching trees. Here "the twilight was like the truce of God with worldly woe and care."

"Under us lay the golden moss,
And above us the boughs of hemlock trees
Waved, and made the sign of the cross,
And whispered their benedicites.
And from the ground
Rose an odor, sweet and fragrant,
Of the wild-flowers, and the vagrant
Vines that wandered
Seeking the sunshine, round and round."

The sun broke throught the rifts in the green roof and splashed our path with gold, alternate gloom and glory all the way. The "strong terrible mountains" walled us in on either hand, one so near that the road was built along the margin of a stupendous side that crashed down its side in immemorial times, and piled millions of tons of broken granite at its foot. Not a particle of vegetation relieves the barrenness of this tremendous ruin; the whole mountain looks ready to crumble, age tells upon it, and the ancient crags frowning over the valley seem only waiting for a touch to send them thundering down the steep. This is Round Mountain again, the spur of Newport.

Along the base of Green Mountain, on our right, vast accumulations of debris tell the same story of slow but sure destruction—"rocks fall to dust, and mountain's melt away." O, the green and gold of the valley! The blue and gold of the sky! The peace of the mountains, not to be uttered! The silence that enfolds them,—the vast shadows lying at their feet, the light upon their foreheads, the sanctity of everlastingness around them. For five miles of beauty they are beside us, until they open their great gates to the glory of sea and sky, at Otter Creek.

Cow-bells tinkle down the clearing on the hill-side; a half-finished and wholly ruined house near the road tells of the man who "began to build and was not able to finish," and like every dilapidated building we see here, causes us to resolve that we will "camp out" in it with our friends next summer. We even wanted to appropriate a deserted school-house, standing hospitably open to the weather on Schooner Head road,—all teachers to be excluded from the party, lest the force of habit should prove irresistible, and they should try to improve our minds, which is what human nature can't endure, especially in summer. The road has the accustomed ending at a farmer's door, after leading us along the high banks of the creek, to admire its shelter, the dark woods overhanging it, the yachts and schooners at anchor, and the massiveness of the retreating mountains.—Another walk through mossy wood-paths, in sight and hearing of the ocean, climbing higher and higher as we follow voices in advance of us, out to the edge of the cliffs, and winding along the rock dotted with groups of gay young people, until I choose a seat where the "great woods climb the mountain at my back," and harebells quiver and green grass waves in the clefts of the rocks close by me. There is companionship with these short-lived things,—none with "old ocean's grey melancholy waste." I can see it, through a break in the cliff, lurking hungrily beneath, and looking up at me with an evil look, from under the black shadow of the rocks. The Mariner goes down as far as he is allowed to by my anxiety to keep the overwhelming majority for Grant and Wilson next November undiminished by the loss of a single vote. He exclaims at the awfulness of the scene, but that doesn't bring me down, partly because I am tired, but more because I am so satisfied where I am, looking at the loveliest scene that ever blest my sight.

The glorious cliffs extending far along the shore, green on their summits and sometimes forest-crowned, barren and terrible where they front the sea,—these alone would be enough for delight; but these are not all. For the same glance that rests on them takes in besides a kingly group of mountains, in robes of purple and gold, deep green and blue and black. Somehow or other Green and Newport have multiplied themselves and so piled up their peaks and spurs and humbler eminences, that mountain looks over mountain, height

rises beyond height, a perfect marvel of beautiful arrangement. There is something almost grotesque about them; they are shaped like living creatures, and have a kindly look, especially that huge elephant's back, reared against the sky, just behind the long snout of a gigantic tapir. This resemblance to the shape of animals, humanizes the group, (without Darwin to appeal to I shouldn't dare to use that word) and rather enhances than diminishes its beauty and grandeur. Here is the one picture I could not miss if I went to Mount Desert again, but this, more than any of the others perhaps, depends for its full effect upon a flight. "There are two voices, one of the mountains, another of the sea—each a mighty voice." Here they sound together and the universe listens. It is near sunset.—strange glories light the sea, the clouds catch wonderful tints, and miracles of color are wrought before us on the mountains. How can we go before the final miracle of sunset! Yet we must, for it soon grows dark in the gorge. We must leave these "Hills of the Lord," never to forget them, to see them again we hope, and our good bye shall be this song of peace:

"God ploughed one day with an earthquake,
And drove his furrows deep!
The buddling plains upstarted,
The hills were all asleep!
But that is the mountains' secret,
Age hidden in their breast;
"God's peace is everlasting,"
Are the dream words of their rest.

He hath made them the haunt of beauty,
The home elect of his grace;
He spreadeth his mornings on them,
His sunsets light their face;
The people of tired cities
Come up to their shrines and pray;
God freshens again within them,
As he passes by all day.

And lo! I have caught their secret,
The beauty deeper than all!
This faith that life's hard moments,
When the jarring sorrows befall,
Are but God ploughing his mountains;
And those mountains yet shall be
The source of his grace and freshness,
And his peace everlasting to me."

One last resentful glance of the Mariner at the sea, where he has found his old enemy, the "half-tide rock," again, —a glance which being interpreted, means "I know your tricks and your manners,"—then the ride home through the gorge where night is rising like the tide, higher and higher toward the mountain tops burning with sunset, till only a line of fire is left,—till that is gone, and darkness overflows the valley. But out in the open land we find the day again, with half an hour of sunny life before it. Supper is an event, after such a day, and all the meals are memorable, in this hungry place. The Mariner was driver again this afternoon, but we had a new horse, with such a queer rotatory motion at the first, owing to his great sociability, his wide acquaintance in the village and consequent tendency to stop at all the doors on each side of the road, that we had to give him a name descriptive of his peculiarity, and fixed upon Tornado John. In the gorge the road fortunately was so narrow that he had no choice but to go straight ahead. But *how* he went! down the frequent little hills and the loose-log bridges at the bottom, over dried-up-mountain brooks. After our first down-hill experience, we tried to restrain him, fearing for his anatomy as well as our own. But he was inexorable as fate. I don't believe an eternity is a clover-field with his best friends, if that had been offered him, would have induced him to walk over one of those bridges. His enthusiasm at sight of a slope with one of these at the foot amounted to a frenzy and we soon learned to grasp the wagon, close our eyes and clinch our teeth at every hill-top, resigning ourselves to destiny and Tornado John—false teeth would have gone at the first bridge. I dare not guess what the Mariner *might* have said when the first jolt bounced us into the air, wagon and all,—if the preventing pipe had not been in his mouth. "No great evil without some small good," and on this occasion tobacco *may* have saved too violent a use of the English language. But this is only speculation. Half a day of such jolting would have reduced the whole establishment to jelly. On the way over, rather in doubt, we asked some men mending the road, "if this was the road to Otter Cliffs?" "It will be, when it is finished," answered the wit of the party, and we went on rejoicing.

To close and crown this day of beauty, came the splendid corona of the Aurora Borealis, which was shining in the black heavens above the blacker bay as I looked my last from my little window in the roof, late at night. Cabalistic characters of fire flamed up into the centre of the splendid arch; I roused the poor Mariner, asleep in the next room, who got up and gave one drowsy look at them, as the easiest way to get rid of me—then went to sleep again and left them burning, and I did likewise. The Daily Chronicle,

Portsmouth, N. H.

FRIDAY, OCTOBER 11, 1872.

Pennsylvania.

The chairman of the Republican State committee telegraphs that returns embracing the entire State make Hartranft's majority 35,000. Twenty-three Republican and four Democratic congressmen are elected and the State legislature will have sixty Republicans to forty Democrats in the house, and eighteen Republicans to fifteen Democrats in the senate. Thus the election of a Republican U. S. Senator for the six years is secured.

Returns from Montgomery county, the home of J. T. Hartranft, show a majority for the Republican candidate for Governor of one, a Republican gain of 765.

Indiana.

The Democrats concede the legislature to the Republicans, which will insure the re-election of Senator Morton.

Hendricks runs ahead of the Democratic State ticket and may be elected. The Republicans carry the rest of the ticket. The official canvass only can decide who is elected Governor.

The Republicans claim 471 majority in Indiana.

NEW YORK, Oct. 10th.

In Pennsylvania, Hartranft's majority will be between 30,000 and 35,000. Ohio, 15,000 to 17,000 Republican majority. Indiana, very close on Governor—official news must determine; legislature Republican sure and Senator Morton's re-election certain. Voorhees and Mason are defeated. Indiana is good 10,000 majority for Grant. Now for New Hampshire! What will Portsmouth do? The New York *World* says of the Pennsylvania election:—"The liquor law worked against Buckalew." Not a dram shop was open during election hours. WILLIAM E. CHANDLER.

New York.

A dispatch to the Boston Advertiser on the 19th says:

Many democrats are hedging their bets on the State of New York and evidently fear Kernan's defeat. Bets that Dix will be the next governor are freely offered without takers. The large majority in Pennsylvania is evidently decisive of the fate of New York, which is now considered sure for the Republicans. Several clubs heretofore for Greeley and Brown will hold meetings between now and Saturday with a view to coming out for Grant. One club in ward 18 and another in ward 21 changed their colors to-night, and their members predict that many others will follow their example.

Congress.

The next Congress is to be overwhelmingly Republican. Pennsylvania elects twenty-three Republicans and four Democrats; in the present House, there are thirteen Republicans and eleven Democrats.

In Ohio, the Republicans have elected seventeen Congressmen and the Democrats, three; in the 42d Congress, there are fourteen Republicans and five Democrats.

In Indiana, ten Republicans and three Democrats are elected to Congress. This State is represented in the present Congress by six Republicans and five Democrats.

The News.

T. Milton Turner, United States minister to Liberia, a colored man, was fatally stabbed during a political altercation in St. Louis, Wednesday.

The amendment to the address to the King asking for the emancipation of slaves has been defeated in the Spanish Cortes.

There appears to be increased activity among the revolutionists in Cuba.

Mr. Greeley has gone to Baltimore.

How would it do for a certain party who has been doing a heavy stroke in the sage business to wrap the drapery of his white coat about him and lie down to pleasant dreams? asks the Boston *Transcript*.

Politicians are already speculating upon the composition of the next Cabinet and the new Senator from Massachusetts in place of Henry Wilson.

Gold has declined since the elections.

State News.

The Republicans of Lowell had a great Jubilee, Wednesday evening. 10,000 torches being in line; 1500 persons attended from Nashua and Manchester.

Manchester has two new cases of small pox.

The *Nashua Telegraph* calls for 10,000 majority for Grant and Wilson in New Hampshire.

—A Division street lady came out of spasms Friday to see a neighbor's new bonnet.—*Danbury News.*

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

IT IS NEVER TOO LATE TO USE *Hale's Honey of Horehound and Tar* as a Cough cure, but it is time to have recourse to it in the early stages of pulmonary disease, so as to secure *immediate* and *permanent* relief and avoid danger. Crittenton's, 7 6th Avenue. Sold by all Druggists.

IN THE GOLDEN AGE OF GIRLHOOD Preserve the beauty of the teeth with SOZODONT, and then, when, the hair is silvered and the eyes dimmed with years, the mouth will still reveal two glittering rows of unsullied ivory.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

☞ If you don't want to disgust everybody with your offensive breath, cure your Catarrh upon which it depends $500 reward is offered by the proprietor of Dr. Sage's Catarrh Remedy for a case of Catarrh which he cannot cure. It is sold by Druggists. 611.

THE JUSTICE OF THE VERDICT rendered by the public years ago in favor of the MEXICAN MUSTANG LINIMENT must be apparent to all who have used that famous preparation or seen it used. Its healing influence is irresistible. The most obstinate forms of neuralgic or rheumatic disease are totally cured by it, in an inconceivably short space of time. External injuries or sores, whether of man or beast, as well as all equine or human maladies for which a liniment may be used, are speedily remedied by its use. Remember it is not merely a palliative but an eradicant of disease.

TROOPS OF AILMENTS VANQUISHED.—On account of the promptness with which it checks the fevers generated by unhealthy exhalations Hostetter's Stomach Bitter's is considered an indispensable family medicine on the borders of our Southern and Western rivers, and in new settlements where the plough and the axe are for the first time disturbing the solitudes of nature. Its reputation, however, is not confined to such localities. Wherever the elements of disease are rife it is the surest safeguard of health; wherever sickness prevails, it is efficacious as a remedy. Among the serious diseases which it is guaranteed to control are indigestion, billiousness, and all the minor ailments connected with derangements of the stomach, the liver, and the bowels—such as heartburn, headache, flatulence, costiveness, nausea, distaste for food, languor and debility, palpitation of the heart, trembling of the hands, noises in the ears, disordered vision, disturbed sleep, and mental inquietude. As these physical and mental disturbances tend to a general failure of all the powers of the system, they should be at once corrected—as they always may be by a course of Hostetter's Stomach Bitters.

HOLLOWAY'S OINTMENT.—Asthma, tightness of the chest, and the various diseases of the throat and lungs, as well as the innumerable eruptions and ulcers which attack the skin and flesh, yield invariably to this preparation. Sold 78 Maiden Lane, N. Y. Price 25 cents per pot. Ask for the new style; the id is counterfeited.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

SO GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastiles for Coughs, Cherry Pectoral Cough Drops, Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever became so widely a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cure of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

A Grand Demonstration.

The torch-light procession in honor of the recent victories, Thursday evening, was a fine affair, several hundred being in the procession, including three companies of Grant and Wilson Guards, the Tanners, a cavalry company under command of Mr. John Stokell, and a mounted company from Kittery under command of Mr. Geo. D. Shannon. The Marine Band and the drum corps furnished most acceptable music. The illuminations were general throughout the city.

There are well meaning people who don't seem to realize that an editor cannot easily write editorials, or read exchanges, and answer questions at the same time.

Since the burning of Came's carriage factory, the proprietors have been urged to locate elsewhere, being offered exemption from taxation, and other favorable considerations. The workmen residing in this city have subscribed $1000 to be presented to the Came Brothers in case they decide to recommence business here. We hope other substantial encouragements will be offered and that Portsmouth will not lose the business which was being extensively developed previous to the late fire.

EASTERN RAILROAD SIGNALS.—Passengers over the Eastern railroad have noticed of late that numerous stations or boxes have been set up along the road, and many have doubtless been puzzled to discover in what manner they operated. The signals, which are operated by electricity, are of two kinds: one includes the constant use of the ordinary telegraph, by means of which the arrival and departure of every train is reported from all the principal stations, instantly, to the Boston office. By this means the superintendent can know the position of every train along the entire line at any moment. The other arrangement is designed to keep every train-engineer informed of the position of the train which immediately precedes his. This is done by means of signal flags and lights, which are operated by every passing train. The instant a train passes one of the signal stations—which are perhaps a mile apart—a red flag or disk appears, and continues until the train has passed the next signal station, and every train is required to stop five minutes unless the red flag or light by night, has disappeared; and after five minutes to proceed very slowly, with an extra lookout. Another part of this signaling apparatus, which is quite important, is the notice which a coming train gives the depot men of its approach. About a mile from the station, every approaching train sets a bell to ringing in the station, which is continued until the arrival of the train. Thus everything seems to be done to ensure entire safety from collisions. The enterprise and thoroughness which have been manifested by the officers of the road in the introduction of this system will be fully appreciated by the travelling public, and will doubtless stimulate other corporations to take similar action.—*Boston Globe.*

MARK TWAIN AND HIS ENGLISH EDITOR.—Mr. Samuel L. Clemens writes as follows to the London *Spectator*:

Sir:—I only venture to intrude upon you because I come, in some sense, in the interest of public morality, and this makes my mission respectable. Mr. John Camden Hotten, of London, has, of his own individual motion, republished several of my books in England. I do not protest against this, for there is no law that could give effect to the protest; and, besides, publishers are not accountable to the laws of heaven or earth in any country, as I understand it.

But my little grievance is this: My books are bad enough just as they are written; then what must they be after Mr. John Camden Hotten has composed half a dozen chapters and added the same to them? I feel that all true hearts will bleed for an author whose volumes have fallen under such a dispensation as this. If a friend of yours, or if even you yourself, were to write a book and send it adrift among the people, with the gravest apprehensions that it was not up to what it ought to be intellectually, how would you like to have John Camden Hotten sit down and stimulate his powers, and drool two or three original chapters on the end of that book? Would not the world seem cold and hollow to you? Would you not feel that you wanted to die and be at rest? Little the world knows of true suffering.

And suppose he should entitle these chapters "Holiday Literature," "True Story of Chicago," "On Children," "Train up a Child, and Away he Goes," and "Vengeance," and then, on the strength of having evolved such marvels from his own consciousness, go and "copyright" the entire book, and put in the titlepage a picture of a man with his hand in another man's pocket, and the legend "All Rights Reserved." (I only *suppose* the picture; still it would be a rather neat thing.)

And, further, suppose that in the kindness of his heart and the exuberance of his untaught fancy, this thoroughly well-meaning innocent should expunge the modest title which you had given your book, and replace it with so foul an invention as this, "Screamers and Eye-Openers," and went and got *that* copy-righted, too. And suppose that, on top of all this, he continually and persistently forgot to offer you a single penny or even send you a copy of your mutilated book to burn. Let him suppose all this. Let him suppose it with strength enough, and then he will know something about woe.

Sometimes when I read one of these additional chapters constructed by John Camden Hotten, I feel as if I wanted to take a broom-straw and go and knock that man's brains out. Not in anger, for I feel none. Oh! not in anger; but only to see, that is all. Mere idle curiosity.

And Mr. Hotten says that one *nom de plume* of mine is "Carl Byng." I hold that there is no affliction in this world that makes a man feel so down-trodden and abused as the giving him a name that does not belong to him. How would this sinful aborigine feel if I were to call him John Camden Hottentot, and come out in the papers and say he was entitled to it by divine right? I do honestly believe it would throw him into a brain fever, if there were not an insuperable obstacle in the way.

Yes—to come back to the original subject, which is the sorrow that is slowly but surely undermining my health—Mr. Hotten prints unrevised, uncorrected, and in some respects spurious books, with my name to them as author, and thus embitters his customers against one of the most innocent of men. Messrs. George Routledge & Sons are the only English publishers who pay me any copy-right, and therefore, if my books are to disseminate either suffering or crime among readers of our language, I would ever so much rather they did it through that house, and then I could contemplate the spectacle calmly as the dividends came in. I am, sir, etc.,

"MARK TWAIN."

BANG! FIZZ-z-z!—Our friend of the "*Moonly Voice*" must tune his pipes afresh, inspire more wind and prepare to maintain his contested honors. Mr J. T. Price, of St. Louis, addresses the world, commencing: "You are in the midst of a great revolution. The Hierarchies of Heaven and Hell look down upon you; they are intensely at work within us. Cohorts gather in every realm of thought! Armageddon is at hand! The changes lately made are startling; but if we consider the power of steam and electricity as moral agencies blasting with deadly torpor, or making grandly alive all responsible hearts on their pathway, you can have no difficulty in understanding those momentous combats, which during the last decade refuse the nations any repose." There are several columns of similar spasmodic rhetoric, at the close of which Mr. Price, saying that "our soul comes wafted from distant mountains—our ambition is not dazzled by the gew-gaws of office," flies into the distance with a blaze of adjectives, italics and exclamation points. Price is, of course, a Liberal politician, and must be a sweet article in a large family or small village. —*Phila. North American.*

—Street travel is quite exciting in Virginia City, Nevada. The other day a drove of cattle was wending its way through one of the chief thoroughfares of the city, when suddenly a majestic ox disappeared tail foremost from human vision. Investigation showed that the animal had fallen into an old mining shaft 500 feet deep, which had been insecurely bridged by the street commissioners.

—Two men got into a dispute at a church in Little Rock, Ark., as to which put the most money in the box. The minister proposed that they should try it again and he would see fair play, but they thought it would be cheaper to settle the dispute with revolvers, and so one of them was buried the next day.

—It is reported that the N. Y. *Tribune* will soon have a large number of libel suits on hand, parties who have been slandered in its columns being the plaintiffs. It is said that not less than ten libel suits will be begun next week, and the aggregate damages claimed amount to nearly one million dollars.

—Chicken pie festivals are the last rural amusement.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success o the Company is far beyond that o any other similar concern; the

Daily Manufacture

— OF —

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or fashion or finish, some advantage in running or needles or feed or prices —and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. does two-thirds the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

WHAT WILLIE'S PUPPY DID. —Two or three little boys, almost babies, were standing near a man who was whipping his horse to draw a very heavy load of coal. One of them called out, in his helpless indignation: —"Stop that, Mister! You shan't whip that nice old horsey any more!"

But still the smutty fellow laid the whip. Another of the children exclaimed:—"You better stop that, or—or—I'll whip you real hard with my horsewhip when I'm a man! Stop! else I'll tell my father of you!"

The man laughed till he looked up and saw the third baby-boy sitting down by a stone wall, crying bitterly, and rubbing his eyes with his white blouse.

He stopped his cruel work and called out:—"What are you crying for? This isn't your father's horse, little fellow."

"I'm crying 'cause—'cause—I don't want that nice old horsey hurted.

Please don't hurt him any more, and I'll help you push the cart, and Sam and Joe will push, too!"

The man laughed out very loud and said:—"Why, you couldn't draw the coal yourself! But why don't you like to see the horse whipped?"

"Cause, 'cause," sobbed out little Willie, "'cause I've got a puppy at home!"

Now, there seemed no sense, at first thought, in this reply of the dear, tender-hearted child; but there was a great deal of good sense in it. What Willie meant was this:—"I own a puppy that I love, and I could not have him whipped nor hurt in any way. And because I love my puppy and am tender to him, I love every other living thing."

Willie's puppy had taught him to be merciful to every dumb creature, and so had done a good work on his little heart.

The child who is tender of dog, cat, or bird, will never grow up to beat horses.

Let children have pets to love and care for. —*Methodist.*

THE GRAND GIFT CONCERT.

GIFT MONEY ALL UP.

$500,000 in Bank to Pay Prizes.

A Full Drawing in Sight.

The Grand Gift Concert, for the benefit of the Public Library of Kentucky, is postponed to Saturday, the 7th of December, for the following reasons:

1. The failure of certain agents to make returns in time for the drawing to take place Sept. 28.

2. The accumulation of orders during the last few days to such an extent that it was not possible to fill them and have the drawing on the 28th.

3. The generally expressed desire of ticket holders that a full drawing might be had, even if it made a short postponement necessary.

4. The belief of the management that by a short postponement the remnant of unsold tickets can be disposed of, and all the prizes paid in full without the necessity of any pro rata scaling down.

For these reasons, coupled with the earnest desire to benefit the Public Library by a larger balance and the ticket-holders by larger gifts, the concert and distribution have been postponed to Saturday, the 7th of December, 1872. On that day and no other the drawing will positively and unequivocally come off in the great hall of the Public Library building, beginning at precisely 8 o'clock A. M., and continue until the whole of the one thousand gifts are awarded.

The payment of the gifts will begin the 21 day after the drawing, and continue for six months, in current funds, by the Farmers' and Drovers' Bank, or by sight draft upon the Fourth National Bank, New York, at the option of the gift ticket-holders.

The money necessary to pay in full all the offered gifts is now upon deposit in the Farmers' and Drovers' Bank, as will be seen by the following certificate of the Cashier:

FARMERS' AND DROVERS' BANK,
LOUISVILLE, KY., Sept. 26, 1872.

This is to certify that there is now on deposit in this bank over half a million of dollars to the credit of the Gift Concert fund, $500,000 of which is held by this bank as Treasurer of the Public Library of Kentucky, to pay off all gifts to be awarded at the drawing. R. S. TEAGUE, Cashier.

Hon. JOHN BARRER, Manager of the Royal Insurance Company, Liverpool, and Col. JILSON F. JOHNSON, Proprietor of the Louisville Hotel, act as a committee on the part of the Trustees to take charge of the tags before the drawing, count them, place them in the wheel, and personally see that corresponding numbers are put into tickets sold go into the wheel, which with its contents, will be placed in the hands of a committee on the part of the ticket-holders to see and satisfy themselves that all the tickets sold were represented in the drawing.

Blind children, in full view of the audience, will alternately draw the tags from one of the glass wheels and the gifts belonging to them from the other, and the official record of the drawing thus conducted will be kept by three tellers chosen from different banks in the city. The drawing will be published in the Louisville papers and New York Herald, and official copies mailed to all parties out of Louisville to whom tickets have been sent by letter.

The remnant of tickets yet unsold will be furnished to those who first apply for them, and as general a distribution of them will be made among agents as their limited number will permit. No agent will be permitted, on any account whatever, to hold or sell a ticket for the management after the 25th of November, 1872.

This postponement has been made by advice of the Trustees, with the sole object of the real benefit of both the ticket-holder and the Public Library, and all concerned may rest perfectly assured that the positive and final programme here announced will be carried out to the letter.

AYER'S HAIR VIGOR.

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to fall off prematurely, and either effects unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; an always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

USE BUGHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, but was one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that of a physician by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians, and the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the ounce of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other opinions rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessary drawings made in Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the same ably and attentively conducted on their cases, and at very reasonable charges. JOHN TAGGART."

AYER'S

SARSAPARILLA

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the formation of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Dyspepsia, Liver Complaint, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

NATURE'S REMEDY.

VEGETINE

The Great Blood Purifier.

A valuable Indian compound for restoring the health, and for the permanent cure of all diseases arising from impurities of the blood, such as Scrofula, Scrofulous Humors, Cancerous Humor, Erysipelas, Canker, Salt Rheum, Pimples and Humors on the Face, Ulcers, Coughs, Catarrh, Bronchitis, Nervous Pains in the Side, Rheumatism, Dyspepsia, Constipation Costiveness, Dizziness, Female Headache, Nervousness, Faintness at the Stomach, Pains in the Back, Kidney Complaints, Female Weakness, and General Debility.

This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood, it has no equal. It never has failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon these complaints are surprising, and many have been cured by the VEGETINE that have tried many other remedies. It can well be called

$1000 REWARD.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUCHS. Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, sale and sure.

For sale by J. H. CHAGNON, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

CORNS, Bunions, Bad Nails, and other diseases of the feet, Scrofulous and Cancerous Humors, Piles, etc., skillfully treated at the great central Chiropodical and Healing Institute, No. 765 Broadway, New York. DR. J. BRIGGS, President; DR. ALEXANDER WEBBER, Secretary. ap9

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, or a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

Horace. Whitelaw, any news?

Whitelaw. Horace, you are beaten.

Sam. Sinclair to stockholders, (aside.) Where are our dividends?

Horace. I guess I'll go to my room.

Whitlaw. You have no room, here, Horace.

Horace. Villain!

Whitelaw. Liar!

Sam. Sinclair, (to stockholders aside.) The paper is ruined. Where are our dividends?

Horace. Make way. Let me go to my room.

Whitelaw, (in the doorway.) Call the police and put this old farmer out.

Horace. Young man, you are discharged. You lookedsee into this thing.

Whitelaw. 'Tis a lie. You did it all yourself. You can get no work here. Go West.

Sam. Sinclair, (to stockholders.) What shall we do? Where are your dividends? Let us send them both West.

Stockholders. Agreed.

A NOCTURNAL HORROR.—Belshazzar Smith had a very bad and very dangerous habit of walking in his sleep. His family feared that during some one of his somnabulistic saunterings, he would fall out of the window and kill himself; so they persuaded him to sleep with his little brother William, and to tie one end of a rope around the waist of little William. The very first night after his arrangement was made, Belshazzar dreamed that a burglar was pursuing him with a dagger. So he crept over to William's side of the bed, stepped over William's slumbering form, jumped out on the floor and slid under the bed.—He stayed there awhile, fast asleep; and then his nightmare having changed he emerged upon the other side of the bed and got under the cover in his old place.

The rope, it will be observed was *beneath* the bed; and it was pulled taut, too. Early in the morning Belshazzar about half awake, scrouged against William. To his surprise the movement jerked William clear out of bed. Belshazzar leaped out to ascertain the cause phenomenon; and at the same time his brother disappeared under the bed. Belshazzar, hardly yet awake, was scared, and he dived beneath his bedstead; as he did so he heard William skirmishing across the blankets over his head. Once more he rushed out and saw William receive glide over the other side. Belshazzar just then became sufficiently conscious to feel the rope pulling him. He comprehended the situation and disengaged himself. And perhaps little William was not mad? He was in the hospital undergoing repairs for about three weeks, and when he came out he had a strange desire to sleep alone. Belshazzar anchors himself now to an anvil.—*Max Adeler.*

SATURDAY, OCTOBER 12, 1872.

Death of Hon. Wm. H. Seward.

On Thursday, after a brief illness of chills and fever followed by a lung catarrh, Hon. Wm. H. Seward breathed his last. He was born in Florida, Orange County, New York, May 16th, 1801, and was seventy-one years and five months old. He graduated from Union College before reaching his majority and was admitted to the bar. In 1823 he removed to Auburn, where he continued to reside until his death, and there formed an advantageous legal connection with Judge Miller, whose daughter he soon afterward married. In 1836, he was elected Governor of New York, having been defeated as the whig candidate for the same position by Hon. Wm. L. Marcy, two years previous.

Resuming the practice of law in 1841, he labored earnestly to secure the election of Henry Clay to the presidency in '44, and in '48 he supported General Taylor. Elected to the Senate from New York in February, 1869, Mr. Seward at once became a friend and adviser of President Taylor, who had aroused the opposition of the slaveholding politicians of the South. From that time until 1861, when his second term closed, he was a foremost and untiring opponent of the slave power in Congress and before the people. During that time he was in full sympathy with the whig party except in disapproving of its platform of 1852, which indorsed the compromises of 1850. He opposed the native American movement, and in 1856 was a powerful laborer in support of General Fremont, having assisted in the formation of the Republican party. From that time until the end of his official career, his life is interwoven with the history of his country not less closely than that of Abraham Lincoln himself, whose most formidable competitor he was for the presidential nomination at Chicago in 1860.

The disaffection toward him of Mr. Greeley and others gave that nomination to Mr. Lincoln, although he had seventy more votes than the latter on the first ballot. Called to the position of Secretary of State, he discharged the duties of that position until the end of Mr. Johnson's term in 1868. His terrible experience on the night of the murder of Mr. Lincoln, April 14, 1865, when the assassin Payne sought to take his life, are still fresh in all our memories. Mr. Seward had met with a severe accident a few days before, having been thrown from his carriage, and suffered the fracture of his arm and jaw. While thus disabled, and lying in bed, the accomplice of Mr. Lincoln's murderer gained an entrance to his residence, and after attacking his son Frederick and fracturing his skull, rushed upon the Secretary with a knife, and though foiled in his efforts to kill him inflicted severe wounds on his neck and face. Although he never lost his mental energies, yet his physical powers were sadly diminished by the awful strain then imposed upon them, and during late years his nerves have been greatly affected and portions of his body have been paralyzed.

After retiring to private life in 1869, Mr. Seward remained for a time at his house in Auburn, and having regained in some degree his health, undertook a journey around the world, which occupied several months. He crossed the Pacific and visited the Oriental countries, India, Turkey, Russia and other nations, and was everywhere received with the most distinguished honors probably ever accorded to an American citizen abroad.

CONCORD, Oct. 10.

Messrs. Editors:—Here all is excitement, jollification, chagrin, wailing and gnashing of teeth. The city is in a blaze of excitement; the greatest enthusiasm prevails; music, torchlight processions, speeches and cheers upon cheers are seen and heard on every hand. Carriages of every description are coming in from all quarters, the streets are crowded with people, and as soon as they learn the news up goes a cheer for Grant and Wilson. The great mass of Republicans, who have felt confident of success from the opening of the present campaign, seem roused to the highest pitch of enthusiasm, not only "to beat Greeley" but to give Grant and Wilson the largest majority ever given to a successful candidate. All say the result of the recent elections will give the Republicans at least 10,000 majority in New Hampshire on Nov. 5th. Everybody is happy, —no, not everybody, for alas! there is a certain class who found it very convenient to be from home, (perhaps at some court) and they feel badly. Most of them have dyspepsia; their food (crow) don't set well on their stomachs, —it keeps coming up in their throats.

9 o'clock, P. M.

Many of the latter class are at home soaking their feet for fear of apoplexy. They must all go to farming with Dr. Greeley in the Spring or log-rolling this Winter. We saw tears in their eyes and began to pity, and were only prevented from shedding a tear for them by their incessant gnashing of teeth. Their anger knows no bounds. The way they abuse the few renegades from the Republican party who made them such loud and long promises, is to say the least "dramatic." The cat is out of the bag; all can see the veritable "critter." The sorheads see it and even honest Democrats see it, but it is late in the entertainment. The cry has gone forth, all have heard, and the response will be worthy of the great and glorious cause. R.

State News.

The corporators of the Wolfeboro' Railroad held their annual meeting at Wolfeboro', Tuesday, and the following Board of Directors was chosen: Thornton K. Lothrop of Boston, Benj F. Reed of Boston, Geo. M. Burleigh of Great Falls, John M. Brackett of Wolfeboro', John W. Sanborn of Wakefield, Charles W. Thurston of Wolfeboro', Joseph L. Avery of Wolfeboro'. At a subsequent meeting of the Directors T. K. Lothrop of Boston, President of the Eastern Railroad, was chosen President, and John L. Peavey of Wolfeboro', Clerk.

At the session of the governor and council Thursday the following appointments were made: Commissioners on a hydrographic survey of the State, Hon. Asa Fowler of Concord, Thomas Ham of Guilford and Henry Colony of Keene; trustees of the normal school, Colonel A. H. Bellows of Walpole, Colonel Charles W. Pickering of Greenland, and John C. Ray of Dunbarion; Dr. Charles G. Kingsbury of Lyme was appointed a member of the board of agriculture.

The trustees of the Ohio Agricultural and Mechanical College have elected Hon. Jas. W. Patterson president of that institution.

The only persons left at the Tip-Top house on Mount Washington are three signal officers, who are equipped with a large stock of coal, four barrels of onions, about forty hams, twenty bushels of potatoes, a good supply of canned goods, and all manner of groceries in profusion, a violin, harmonicon, a good-sized library and quantities of newspapers, and expect to spend a pleasant winter.

The United States circuit court for the district of New Hampshire met at Exeter on Tuesday, and without transacting any business took a recess until November 19.

The house of Abner Lull at Cornish was destroyed by fire, Monday morning, and Mrs. Lull, seventy-eight years of age, perished in the flames. After the alarm both of the old people escaped from the building in their night-clothes, but Mr. Lull, thinking of something in the house he wished to save, went back, telling his wife to stay where she was until his return. When he came out no trace of her could be found, and her bones were subsequently discovered in the ruins.

Political.

In Philadelphia, Hartranft's majority is 20,437, and the majority for Congressmen at large 21,918.

In Indiana, the Republicans concede the election of Hendricks by 500 majority, but claim the congressmen-at-large, the lieutenant-governor and balance of the State ticket by from 400 to 600 majority. Niblack's majority in the first congressional district is 125. Hunter's (Republican) over Voorhees is 605. The Republicans claim 27 senators to 23 Democrats, and 55 Republicans to 45 Democrats in the house, giving them a majority of 14 on joint ballot.

Dakota has elected a Democratic delegate to Congress. The Republicans were divided between two candidates.

The News.

A large part of the village of Sing Sing, N. Y., was destroyed by fire on Wednesday night. The loss is about $290,000.

Quite a severe shock of earthquake was felt in parts of Iowa and Dakota on Wednesday. No material damage was done.

Mrs. Sara Payson Parton, better known as "Fanny Fern," the celebrated writer, died on Thursday after a lingering illness, aged 61 years.

It is stated that three million persons have perished from the famine in Persia, which is about one-fourth of the entire population.

The Evening *Bulletin* says: "The defeat of Buckalew is almost forgotten in view of the defeat of Forney, Curtin and McClure, and we rejoice of their discomfiture because it is the triumph of right over wrong, of truth over calumny. They deserve all their shame. An honorable foe can be beaten, forgiven and restored. But for guerillas like these, who have hounded down the good name of a brave soldier like John F. Hartranft, there is but one just fate. They have made their own bed; let them lie in it. We propose to speak boldly on this subject. We have maintained the cause of Gen. Hartranft, because we knew that it was a righteous cause. We have helped to win this great victory for Hartranft and Grant, and we have the right to say now and here, that we want no help in November from the men who deserted us in October. We protest in the name of the workingmen of the Republican party, in advance, against any recognition of John W. Forney or of Governor Curtin as advocates of President Grant in the remaining campaign. They would have beaten him yesterday if they could. We do not want their services now, and we demand, in the name of the thousands whom we know that we represent, that no Republican committee, national, State or local, shall permit these men to speak for us anywhere in pretended support of the national ticket, whose success we ensured yesterday. We will fight it out on October lines and under October's banners, and with October's leaders. Others may vote for Grant or not as they please. It is only those who voted for him Tuesday that have any right to enter into his coming triumph.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

THE JUSTICE OF THE VERDICT rendered by the public years ago in favor of the MEXICAN MUSTANG LINIMENT must be apparent to all who have used that famous preparation or seen it used. Its healing influence is irresistible. The most obstinate forms of neuralgic or rheumatic disease are totally cured by it, in an inconceivably short space of time. External injuries or sores, whether of man or beast, as well as all equine or human maladies for which a liniment may be used, are speedily remedied by its use. Remember it is not merely a palliative but an eradicant of disease.

TROOPS OF AILMENTS VANQUISHED.—On account of the promptness with which it checks the fevers generated by unhealthy exhalations Hostetter's Stomach Bitters is considered an indispensable family medicine on the borders of our Southern and Western rivers, and in new settlements where the plough and the axe are for the first time disturbing the solitudes of nature. Its reputation, however, is not confined to such localities. Wherever the elements of disease are rife it is the surest safeguard of health; wherever sickness prevails, it is efficacious as a remedy. Among the serious diseases which it is guaranteed to control are indigestion, biliousness, and all the minor ailments connected with derangements of the stomach, the liver, and the bowels—such as heartburn, headache, flatulence, costiveness, nausea, distaste for food, languor and debility, palpitation of the heart, trembling of the hands, noises in the ears, disordered vision, disturbed sleep, and mental inquietude. As these physical and mental disturbances tend to a general failure of all the powers of the system, they should be at once corrected—as they always may be by a course of Hostetter's Stomach Bitters.

OSSIAN E. DODGE has long kept from public sight; yet his love for "Milliken's" famous old hostelry is still fresh in the memory of many. Mine host Milliken has just completed extensive repairs which will render the new "MILLIKEN HOUSE," 187 Washington street, a few steps from the street one of the most popular in Boston, and at popular prices.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

So GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastiles for Coughs, Cherry Pectoral Cough Drops, Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

HOLLOWAY'S PILLS AND OINTMENT.—Habitual constipation, the parent of apoplexy general debility, and premature decay, is permanently cured by a course of the Pills, and Ointment. Sold 78 Maiden Lane, N. Y. Price, 25 cents per box or pot. Ask for the new style; the old is counterfeited. 19.

$1 000 Reward is offered by the proprietor of Dr. Pierce's Golden Medical Discovery for a medicine that will equal it in the cure of Bronchitis, severe Coughs, and the early stages of Consumption. 612.

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and expense is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

LOCAL AFFAIRS.

Business.

The Portsmouth correspondent of the Boston *Traveller* says "there has not been a time in ten years when good mechanics were so much in demand as at present. In fact, business generally is prosperous in this city." The same may be said of laborers. Portsmouth seems to have entered on a new period of prosperity and with the prospective benefits to be derived from the opening of a new route to the interior, the renewal of her commercial interests and ship building, and the rapid development of the facilities for making the city the centre of a great watering business, is certainly one of the most desirable places in New England wherein to locate.

A Nuisance.

We hear frequent complaints of the noise made in the Post Office, every day, by the boys attending the High School. Shortly after one o'clock, they make their regular appearance, passing through the office whether they have business there or not, and indulging in shrill whistles which the thoughtless youngsters seem to enjoy. At the risk of being deemed ungallant, we have to say that the noisy tapping of scores of young ladies on the glass near their boxes, all eager to be waited on at the same time, is not at all conducive to good nature. If the feminines cannot wait for their love letters a reasonable time, perhaps their good natured teachers might be gracious enough to dismiss them by the half dozen, commencing at noon—or appoint a committee at that time to take the letters from the office and distribute them before school is dismissed! The conduct of the boys is simply unbearable, and a policeman might find some not very difficult duty at the Post Office portals for ten minutes after one o'clock. And while we are about it, we would suggest that somebody—any one who can—clap a stopper on the game of "touch-and-run" which is popular with small boys between 5 and 6 o'clock, P. M., in and out through the Post Office doors.

City Council.

In Board of Aldermen, Thursday evening, the resignation of Thomas J. Mitchell as fireman of S. F. Engine, No. 1, was accepted.

Application of D. H. Montgomery for lease of store under City Rooms was received and filed, and it was voted that he have the refusal of the store when it becomes vacant.

A petition of engine companies requesting action on petition for increase of pay, was accepted.

City Marshal's quarterly report was accepted. During the quarter the whole number of arrests has been 255; lodgers, 78; amount of fines and costs paid into city treasury, $256.49.

Committee on Accounts reported bills on account of following departments, which were ordered to be paid:

Streets	$1180.24
Police	137.35
Contingent	46 30
Fire Department	293.40
School Houses	442.41
Watch	368.46
Reservoir on Hanover St.	598.72
Salaries	857.42
Roads, Dist. No. 3	198 80
Sidewalks	10.00
Sewers	177.73
Street Lights	353.28

Same Committee reported without recommendation bills of Wm. Hudson and U. S. Marine Band. Leave to withdraw was granted. Bill of Dennis Shea for freight of 47 pieces of pipe, $65.14, was ordered to be paid.

Chief Engineer's recommendation for appointment of fireman for steamer No. 1, was referred to Com. on Fire Dept., who were requested to reccommend a suitable person whose ordinary occupation is on this side the river. The Board of Engineers were authorized to employ a temporary fireman for the steamer.

The Committee on Bills on their 2d Reading, to whom the bills relating to organization and pay of the Fire Department were referred at previous meetings, reported a bill in a new draft, which was read once and referred.

It was voted that the easterly line of Brewery Lane be at land of Mrs. Frye and J. H. Morrison, and $100 land damages was granted to each owner on east side of the lane.

The Committee on City Lands and Buildings reported on title to Gun House lot, and it was

Voted, That the Governor and Council of the State of New Hampshire be informed that the City of Portsmouth claims the Arsenal lot and building on South Street.

Sam'l Adams and W. H. Rollins were directed to remove their fences to line of highway.

Laconics.

Mr. J. K. Osgood, of Gardiner, Me., President of the State Temperance Reform Association of Maine, will lecture at the Temple on Sunday evening. Mr. Osgood reformed about a year ago, and was the originator of the recent successful Washingtonian movement in Maine. The number of persons who have signed the pledge in that State since the movement began is said to be 16,000.

New Hampshire Lodge, No. 6, I. O. of O. F., have accepted the invitation of Essex and Fraternity Lodges, of Salem, Mass., to be their guests next Tuesday, and will be accompanied by Harlow's Marine Band. There is to be an afternoon parade and in the evening a reunion ball and supper.

Mr. Chas. E. Delaney, a writer in the Equipment Department at the Navy Yard, died on Friday at Kittery. Though he had no hands, Mr. Delany wrote rapidly, by holding the pen holder between his wrists. He had been very unfortunate in many particulars.

Kearsarge Steam Fire Engine Co., No. 3, have just purchased of Mr. Fred J. Miller, of New York, a full set of the latest style of fire hats.

Sweet William pretends to believe that a clerkship in the Pay Inspector's office is a sinecure. Should he undertake its duties for a month, he would soon become disabused of that idea and have performed more work in that time than during any month since he took up his residence in Portsmouth—and we all know he works hard, o'nights.

The meeting of the Grant and Wilson Guards, called for Monday evening, will be held this (Saturday) evening at half past 7 o'clock. A full attendance is requested, as action will be taken in regard to visiting Concord next Tuesday.

Clippings.

From the Portsmouth Journal.

—The canvasser in this city for a picture of Horace Greeley, says he finds that it takes better with the liberal element than with the democracy.

—Ship William Ross, 919 tons, built here and recently sold at Callao for £12,500, has been placed under the Peruvian flag, and her name changed to Augustina.

—The trial term of the Supreme Judicial Court meets in this city next Tuesday, the 15th. Among the most important cases to be tried is that of Jefferson C. Rowe vs. Eastern Railroad, for injuries received at the Revere accident.

—An evening singing school is to be among the free attractions for members of the Young People's Union during the winter months. This is in addition to classes in book-keeping and penmanship. The reading and amusement rooms are to receive additions. A public meeting of members and others interested is to be held at the rooms on Congress St. next Monday eve.

—Early in November, Mr. Thomas P. Moses will open, for the inspection of the public, an elegant gallery of art at the room in the rear of his studio in Exchange buildings. We have had the privilege of viewing many of his fine pictures in their present unfinished state; first and foremost of which are the superb marine views, in which which the inspirations of an innate love for the ocean, and a four years' experience in his boyhood, is strikingly evident. We quite coveted, also, a beautiful landscape view in rich old southern woods; a scene in one of his frequent walks while more recently residing in South Carolina. The paintings, thirty-six in number, are all from his own brush, and show a versatility of talent such as we seldom find in one artist. They will be enclosed in rich and costly frames, from the establishment of Messrs. J. B. Burleigh & Co., of this city. The room will be elegantly decorated and will invite a large attendance. The arrangement of his exhibition will be such that those holding season tickets will each stand a chance of becoming the owner of some one of the pictures, if not of the fine piano which will add its music to the other attractions. We bespeak for a most worthy home artist the liberal encouragement of all his fellow citizens at home, and of those abroad who, though they may not see the exhibition, may take pleasure in sending for a season ticket with a dollar and an encouraging word enclosed in their envelope.

Greenland.

Messrs. Editors: Seldom do we have a sensation up this way, but when we do it is of the real "wake up" kind. On Monday last, at noon, a short, thick set, light complectioned fellow with bare feet, applied for food at the house of Capt. Salter. His request was granted but he was seen in the neighborhood all the afternoon. During the afternoon Mrs. Salter and her son left the house, two daughters remaining at home. Just after 7 o'clock a noise was heard at a window and a door opened. The ladies remained quiet in their chamber and soon steps were heard outside: then the door opened and the beggar of the noontime appeared as the robber of the evening. A revolver was pointed by that heroic lady, Miss Lucy Salter, and but for the pleadings of the younger sister, that adventure had been his last. Speedily withdrawing he left the house for the barn.

Mrs. Salter and her son on returning were told of the adventure from the chamber window. They called from the road three young men, and with their aid the house and barn were searched for the chap, and at last he ran from the barn, leaped the fence into the main road and has not since been seen. It does not occur to the family that anything was taken. Credit is due to the young gentlemen for their timely aid, and courageous assistance.

One of your young lawyers was up here a short time since, hunting for squirrels, and a young man went with him to show him where one was sitting, but alas, the lawyer had a sudden attack of humility and laying low he discharged the contents of the gun into the ground near the man's feet. Suffice it to say, Mr. Lawyer hunted squirrels alone the rest of the afternoon, but nothing daunted by his sad experience, one of your West end school teachers shot a couple of ducks on the bay last Wednesday afternoon.

Eastern Railroad.

On and after Monday, Oct. 14, trains will leave Boston for North Conway and way stations on Portsmouth, Great Falls & Conway Division, at 8:30 A. M. and 3:15 P. M. Trains for Boston will leave North Conway at 7:30 A. M. and 2 P. M.; Wolfeboro', 8:30 A. M. and 3 P. M. Under this arrangement the following trains will be discontinued until further notice: 8:10 A. M. and 2:40 P. M., from Boston; 8 A. M., from North Conway; 6 A. M., from Wolfeboro'; and 10 A. M. and 6 P. M., from Portsmouth.

INJUNCTION GRANTED.—The case of the Portland, Saco and Portsmouth R. R. Co., complts., vs. Boston & Maine Railroad Co., came up in Portland recently. Petition for an injunction to restrain defendant corporation from building their road over their present location, at North Berwick, which is so near the track of plaintiffs as to obstruct its business and create damages to the travelling public, was made. Judge Walton granted a provisional injunction, applicable to passenger trains, but exempting construction trains, with the limitation that they shall not be run when trains on P. S. & P. road are due.

The health of Senator Sumner is reported to be worse rather than better then it was when he sailed for Paris.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success o the Company is far beyond that o any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model, does two-thirds the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

—Mrs. Fair shed copious tears over her verdict, and a telegram says the brave San Franciscoian wanted to lynch her. He that was without sin was about to shy the first stone, when "the better counsels of the law-abiding citizens" quieted the honest, virtuous masses.

—Another criminal's head came off while the Kentuckians were trying to hang him, the other day. He was old and didn't hang together as he ought. This sort of thing is probably full as pleasant for the criminal, but it spoils the subject for the the doctors.

Ballou's Magazine, for November is out, and is interesting.—grave and gay, lively and severe. The publishers propose to give a pretty little chromo to every subscriber the coming year, and may expect to see the publication increase rapidly in circulation. THE GRAND GIFT CONCERT.

GIFT MONEY ALL UP.

$500,000 in Bank to Pay Prizes.

A Full Drawing in Sight.

The Grand Gift Concert, for the benefit of the Public Library of Kentucky, is postponed to Saturday, the 7th of December, for the following reasons:

1. The failure of certain agents to make returns in time for the drawing to take place Sept. 28.

2. The accumulation of orders during the last few days to such an extent that it was not possible to fill them and have the drawing on the 28th

3. The generally expressed desire of ticket holders that a full drawing might be had, even if it made a short postponement necessary.

4. The belief of the management that by a short postponement the remnant of unsold tickets can be disposed of, and all the prizes paid in full without the necessity of any pro rata scaling down.

For these reasons, coupled with the earnest desire to benefit the Public Library by a larger balance and the ticket-holders by larger gifts, the concert and distribution have been postponed to Saturday, the 7th of December, 1872. On that day and no other the drawing will positively and unequivocally come off in the great hall of the Public Library building, beginning at precisely 6 o'clock A. M., and continue until the whole of the one thousand gifts are awarded.

The payment of the gifts will begin the 31 day after the drawing, and continue for six months, in current funds, by the Farmers' and Drovers' Bank, or by eight direct upon the French National Bank, New York, at the option of the gift ticket-holders.

The money necessary to pay in full all the offered gifts is now upon deposit in the Farmers' and Drovers' Bank, as will be seen by the following certificate of the Cashier:

FARMERS' AND DROVERS' BANK, }
LOUISVILLE, KY., Sept. 28, 1872. }

This is to certify that there is now on deposit in this bank over half a million of dollars to the credit of the Gift Concert fund, $500,000 of which is held by this bank as Trustee of the Public Library of Kentucky, to pay off all gifts to be awarded at the drawing. R. S. VEACH, Cashier.

Hon. JOHN BARBEE, Manager of the Royal Insurance Company, Liverpool, and Col. JILSON P. JOHNSON, Proprietor of the Galt House, will act as a committee on the part of the Trustees to take charge of the tags before the drawing, count them, place them in the wheel, and personally see that corresponding numbers for all the tickets sold go into the wheel, which with its contents, will be placed in the hands of a committee on the part of the ticket-holders to satisfy themselves whether all the tickets sold were represented in the drawing.

Blind children, in full view of the audience, will alternately draw the tags from one of the glass wheels and the gifts belonging to them from the other, and the official record of the drawing thus conducted will be kept by three tellers chosen from different banks in the city. The drawing will be published in the Louisville papers and New York Herald, and official copies mailed to all parties out of Louisville to whom tickets have been sent by letter.

The remnant of tickets yet unsold will be furnished to those who first apply for them, and as general a distribution of them will be made among agents as their limited number will permit. No agent will be permitted, on any account whatever, to hold or sell a ticket for the management after the 25th of November, 1872.

The postponement has been made by advice of the Trustees, with the sole object of the real benefit of both the ticket-holder and the Public Library, and all concerned may rest perfectly assured that the positive and final drawing have announced will be carried out to the letter.

$1000 REWARD.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUGHS. Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAYFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

AYER'S PURGATIVE PILLS.

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and one best cities, give send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

EFFECTS OF STAGNANT WATER.—A year or two since, a paragraph went the rounds of the papers, and was published in these columns, relating the fact that a young physician in Central New York had been experimenting on himself by drinking stagnant water. He found that after drinking it, his blood contained the same particles of organic matter that are seen by the use of the microscope, floating in the water, and concluded that fevers might be induced by the use of such water.

Not long since we published in our agricultural columns an article containing facts in English experience and given in the London *Milk Journal*, showing how contagious diseases were spread by the careless exposure of milk to the atmosphere of the room where patients were sick, and by persons milking the cows and handling the milk just as they were recovering from small-pox, scarlet fever, or other contagious diseases. It also gave instances of fevers caused among the patrons of milkmen who used bad water in washing their cans and milk-pails.

These were startling revelations, and showed the importance of care and caution in the management of milk. We now have an instance, nearer home, showing the necessity for the same care and caution in the production of milk, or in the food and drink of cows. It has long been known that the flavor of milk is very much affected by the food which the cows eat. Every family has had, at some time, the taste of leeks in their milk. The drink of the cow has an equal effect on the character of the lacteal secretions.

Prof. Law, of Cornell University, has recently had his attention called to milk that had an unusual ropy and bad appearance. Applying the microscope, he found it full of the vegetable organisms called fungi, peculiar to stagnant water. On inquired, he learned that the cows of the dairyman had only stagnant water to drink. An examination of the water revealed the same class of fungi. Carrying his investigation farther, the blood of the cows was found teeming with these fungi, and the animals were in a feverish, unhealthy condition.

This is an instance of tracing effect to cause which is conclusive and convincing. Prof. Law deserves the thanks of the community for the thoroughness of his investigations, and our dairymen should be wise enough to profit by his discovery and see that their animals have plenty of fresh, sweet water to drink. Using the milk of cows having access only to stagnant water may produce not only sickness but fatal results. In such cases, there is indeed death in the milk pail. Dairymen will see that it is impossible to make anything but a poor quality cheese out of such milk, and that one such mess as that examined by Prof. Law must inoculate and spoil a whole vat, producing cheese filled with the seeds of rottenness and dissolution, which must be very unwholesome to the consumer.—*Utica Herald.*

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

Independent Journalism.

What "independent journalism" is can be gathered from the columns of the New York *Tribune* better than from any other advocate of independent Democratic-Greeleyism, not even excepting the New York *Sun*. The *Sun's* editor is a self-convicted slanderer, having forfeited $5000 bonds rather than stand a trial in one case, and the paper is so notoriously mendacious that its approbation only is to be feared by any honest man. But the *Tribune* is a "high-toned" paper, and its editor amuses himself evenings (after exhausting himself by flinging mud at every opponent of Greeley during the day) by delivering lectures on the duty of editors to be truthful, honorable, gentlemanly and impersonal. Yet even the *Sun* has had hard work to hold its own with the *Tribune* in the matter of hurling falsehood and slander at men whom it knows to be as honorable as any in the land, since the *Tribune* became a Democratic organ.

No charge has been too gross, no slander has rested on too shaky a foundation, no libel has been aimed at too high a character, no idle tale has originated from a source too infamous—the *Tribune* has hastened to endorse and disseminate each and all, in Mr. Greeley's supposed interest.

This personification of "impersonality in journalism" has not allowed a single one of the innumerable slanders—many of which its editors must have *known* to be false, or at least *did not know* to be true—against the President and nearly every prominent man who supports his re-election, to escape without its endorsement; and when any story has been so completely refuted that its utility as a political missile has been utterly destroyed, the great "independent" journal has acted precisely as an old Democratic paper would have done—let the slander quietly drop, without retracting a word of it. In one case only has it acted differently.

The "Credit Mobilier" slander is an instance of what "independent journalism" can do. The whole story rested on the unsupported assertion of a man of feeble reputation, and was raked from its hiding place in a court by that high priest of slander, Chas. A. Dana of the *Sun*; the same court records contained the sworn statements of many men of the highest reputation, branding the whole story as a lie; the gentleman assailed indignantly and unequivocally denied any knowledge of such transactions as were alleged against them, more than one of them showed that the story *could* not be true, and Schuyler Colfax proved, to the satisfaction of every reasonable man, that the *Tribune* knew it could not be true at the time it published and endorsed it. But it was hoped political capital for Greeley could be made of the slander, so the *Tribune* earnestly protested that the oaths and words of respectable men were but trifles when opposed to the statement of a man of infamous character, if only the latter advocated a "purification and reform" in politics, *i. e.*, if he opposed Grant and supported Greeley.

Then there was the "Pacific Railroad Eastern Division business." Hon. James G. Blaine of Maine was felt to be a dangerous antagonist, and the old charge of bribery and corruption must be used against him. True, there was not,—could not be a shadow of proof brought against him, and he was known to be an honorable man; but slander, like death, loves a shining mark, and some kind of a charge must be trumped up against Mr. Blaine; it was only needed for a short time, anyway, and it would be easy to retract the slander after the elections were over and its work done. So Mr. Blaine was charged with having received a bribe of nearly two million dollars' worth of railroad stock for his services in securing the passage of the Pacific Railroad bill while he was Speaker of the House, in 1862. The advocates of purity and reform were too generous, not only with their railroad stock but with their offices—they not only gave away all that railroad stock but they gave it to a "Speaker of the House" who had not then been even nominated for Congress! The *Tribune*, in its zeal for reform, did not hesitate to say, (as it has said of so many other stories, equally false,) "*it is proved*" that Blaine received this stock as the price of his services. As in the Credit Mobilier case, the officers of the corporation implicated in the charge denied the truth of the story, and it was left entirely unsupported. Then Mr. Blaine showed that not only was it untrue but absurdly impossible, and that only superficial ignorance or reckless mendacity could have originated it; yet still the *Tribune* and its followers repeated the state and ridiculous slander. But the elections of October 8th showed that slander and falsehood were poor implements with which to open the White House doors to Horace Greeley; and now, after persisting in the calumny so long as it was expected to influence those elections, the *Tribune* says it "takes pleasure in withdrawing, in the fullest and prompt-est manner, the imputations on Speaker Blaine in reference to the supposed transactions with the Pacific Railroad, eastern division business." If "independent journalism" can offer anything meaner than the *Tribune's* course in slandering Mr. Blaine, it is this hypocritical pretense of honorable dealing in "withdrawing, in the fullest and *promptest* manner, the imputations" it repeated so many times after they were proved to be false,—even as Mr. Whitelaw Reid, representing the Pharisee and publicly thanking God before lyceum audiences that he is not like other editors, given to indulging in unworthy personalities and false aspersions of character, is infinitely more contemptible than Whitelaw Reid copying and endorsing the slanders of the New York *Sun*. Even the latter paper has decency enough not to pretend to be decent.

Indiana.

The latest returns from Indiana show that the Republicans have carried the congressional districts by a majority of nearly two thousand. The legislature is Republican in both branches. The indications of serious fraud, by which Hendricks was elected, are becoming more apparent every hour, and it is suspected that enough illegal votes will be thrown out to place him in the minority. The following are the majorities in the congressional districts, nearly all official, for congressmen:—

Conciliation.

Mr. Greeley's torchlight procession in Baltimore, Thursday night, succeeded in murdering two men and dangerously wounding a third. It appears that while part of the procession was on the way to pay its respects to Mr. Greeley, and while it was passing the Republican headquarters in Gay Street, the sidewalks around it being jammed with men, women and children, some one cried, "Three cheers for Grant!" A shout was raised from the procession, "Go for that crowd and clean them out!" In the rush Captain Barrett received his death-wound from a pistol shot. He was standing on the edge of the sidewalk, and being a well-known Republican and president of the fourteenth ward Grant and Wilson organization, he was undoubtedly singled out by his assassin, as the latter ran out of the ranks and when near him aimed deliberately and fired. Captain Barrett was a Union soldier during the war, commanding a company in the first Maryland regiment.

A NEW SPECULATION.—George W. Williams was arrested in Portland, Thursday, for altering and passing counterfeit railroad and steamboat tickets. He had done quite a business in Boston & Maine tickets, selling them freely at reduced prices. In his house were found cuts, type and plates, which enabled him to forge tickets on all the railroad and steamboat lines in the State. It is probable that others will be implicated with him.

IN THE GOLDEN AGE OF GIRLHOOD Preserve the beauty of the teeth with SOZODONT, and then, when, the hair is silvered and the eyes dimmed with years, the mouth will still reveal two glittering rows of unsullied ivory.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

THE JUSTICE OF THE VERDICT rendered by the public years ago in favor of the MEXICAN MUSTANG LINIMENT must be apparent to all who have used that famous preparation or seen it used. Its healing influence is irresistible. The most obstinate forms of neuralgic or rheumatic disease are totally cured by it, in an inconceivably short space of time. External injuries or sores, whether of man or beast, as well as all equine or human maladies for which a liniment may be used, are speedily remedied by its use. Remember it is not merely a palliative but an eradicant of disease.

TROOPS OF AILMENTS VANQUISHED.—On account of the promptness with which it checks the fevers generated by unhealthy exhalations Hostetter's Stomach Bitter's is considered an indispensable family medicine on the borders of our Southern and Western rivers, and in new settlements where the plough and the axe are for the first time disturbing the solitudes of nature. Its reputation, however, is not confined to such localities. Wherever the elements of disease are rife it is the surest safeguard of health; wherever sickness prevails, it is efficacious as a remedy. Among the serious diseases which it is guaranteed to control are indigestion, billousness, and all the minor ailments connected with derangements of the stomach, the liver, and the bowels—such as heartburn, headache, flatulence, costiveness, nausea, distaste for food, languor and debility, palpitation of the heart, trembling of the hands, noises in the ears, disordered vision, disturbed sleep, and mental inquietude. As these physical and mental disturbances tend to a general failure of all the powers of the system, they should be at once corrected—as they always may be by a course of Hostetter's Stomach Bitters.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

SO GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastiles for Coughs, Cherry Pectoral Cough Drops, Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

BOSTON TO HALIFAX.—We learn that in two weeks the "missing link" in railway communication between St. John and Halifax (the section between Amherst and Truro) will be completed and trains will commence running regularly immediately thereafter. Passengers will then be ticketed and baggage checked through from Boston to Halifax, "all rail," except the ferry from Carleton to St. John. Passengers from Europe can by taking the cars at Halifax get to New York some seventy hours sooner than they can by remaining on the steamer, and save seven hundred miles and two or three days of ocean travel. In short, it reduces the time between London and New York to six or seven days. Arrangements have been made to place Pullman cars on the railway as soon as the line is completed.—*Banger Whig.*

Fire.

The alarm of fire, Sunday morning at 1 o'clock, was occasioned by the partial burning of Mr. B. F. Thorndike's job-printing office on Ladd Street. Messrs. Raynes and Freeman of the bank-watch patrol, passed the place on their rounds at half past 12 o'clock, at which time there was no indication of fire; but a half-hour later, when they were on the sidewalk opposite, a bright light suddenly filled the room. The patrolmen immediately gave the alarm and forced the door leading to the office, but found the entry filled with smoke and intensely heated, and had to withdraw. The fire department soon arrived and the fire was confined to the room in which it originated. The printing office was pretty well cleaned out by the fire, and the room over it damaged by water. Mr. J. M. Tebbett's millinery store, underneath, was also water-soaked, but not until his entire stock had been safely removed. Mr. Hiram C. Locke was less fortunate, his fruit and confectionery establishment being drowned out and none of his stock removed.

Laconics.

Wanted at this office, copies of the NEW HAMPSHIRE GAZETTE of September 14th, to complete files.

The great mass meeting at Concord, to-morrow, will be addressed by Gov. Jewell of Connecticut, General Harriman, Senators Cragin and Patterson, and Senator-elect Wadleigh. The Grant and Wilson Guards of this city will not attend.

We are requested to call attention to an advertisement in another column, relative to the visit of New Hampshire Lodge, I. O. of O. F., to Salem.

A Manchester dispatch to the Boston *Transcript* says the Tanners of Manchester, 700 in number, are desirous of visiting Portsmouth.

—The Portsmouth CHRONICLE of yesterday fairly excelled itself as a pictorial paper. Wednesday it was great, but Thursday it eclipsed every sheet seen this week in the illustrated-newspaper line.—*Boston Transcript.*

A National Thanksgiving.

By the President of the United States of America:—

A PROCLAMATION.

Whereas, the revolution of another year has again brought the time when it is usual to look back upon the past and publicly thank the Almighty for his blessings; and whereas, if any one people has more occasion than another for such thankfulness, it is the citizens of the United States, whose government is their creature, subject to their behests; who have reserved to themselves ample civil and religious freedom and equality before the law; who during the last twelve months have enjoyed exemption from any grievous or general calamity, and to whom prosperity in agriculture, manufactures and commerce has been vouchsafed.

Therefore, by these considerations, I recommend that on Thursday, the 28th day of November next, the people meet in their respective places of worship and there make their acknowledgments to God for his kindness and bounty.

In witness whereof I hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this 11th day of October, in the year of our Lord 1872, and of the independence of the United States the 97th.

By the President: U. S. GRANT.
HAMILTON FISH, Secretary of State.

State News.

As Napoleon Pouliot, a French boy, was crossing the trestle work at Berlin, on the Mills Branch, he fell through between the ties, striking on a stick of timber with such force as to break his neck and cause instant death. He was seven years old.

The pigeons are harvesting blue-berries at Contoocook, and the sportsman are harvesting pigeons.

Mrs. Dorcas Plaintin, a negress, who was a native of New Boston, and supposed to be about 100 years old, died in that town on the seventh of October. Her parents were slaves.

The Boston *Journal* says Grant will carry New Hampshire by 1500 to 2000 majority. Correct.

The disciples of the law are cudgeling their brains over a case that is shortly to be tried in one of the courts of this State. A short time since the body of a man was found in the woods of Wentworth. The deceased, it appears, had one son who is also dead. A considerable property remains to be enjoyed by the heir or heirs. Now, it so happened that the death of the son occurred in December by the evidence so far produced. If the father died first, then the estate would descend to the son, and from him to a half-brother named Campbell. Whereas, if the son died first, the estate would go to the brothers and sisters of the father.

The house and barns of Mr. Charles Bryant, at Laconia, were burned on Wednesday night. Loss about $1200, with an insurance of $700.

The News.

Reddy the Blacksmith was intensely interested on learning the fact that he was arrested in Philadelphia about noon for having voted illegally three times in one ward of the Quaker City. Mr. Varley was in the Fourteenth ward of New York just about that time.

Mrs Laura D. Fair's mother attempted suicide by poison on Thursday last.

A fire in Fredericton, Mo., on Thursday, caused a loss of $250,000.

Lieutenant Crosby of the 17th infantry was killed by Indians on the 5th instant. This officer belonged to Stanley's expedition, and was killed a short distance from the column, while hunting antelopes.

Philip C. Gormley, a boy about fourteen years old, while leading his father's horse in a field near South Worcester, Mass., carelessly fastened the halter around his own body. The horse became frightened and ran, dragging the boy a considerable distance. He received severe bruises and internal injuries which resulted in death in a few hours.

A new building in process of erection at Louisville, Ky., fell and crushed in the rear of two houses adjoining. The family of Henry Notie, consisting of himself, wife, five children and a journeyman named Lewis Johns, were at supper and were buried in the ruins and killed.

Bangor had a $200,000 fire, Friday night. Schwartz's new block was burned. Wm. H. Brackett was killed by the falling walls.

Hon. Wm. H. Seward left an estate of $260,000.

Three New Bedford vessels, the Helen Snow, the Roscoe and the Sea Breeze, have been lost in the Arctic Ocean.

Political.

The vote in Philadelphia was one of the smallest polled for several years, not reaching in the aggregate 119,000, while in 1868 it reached 122,009. In 1871 the vote was, Republican 62,005, Democratic 50,511; total, 112,516. Republican majority 11,494. The reckless charge of the coalitionists, therefore, of extensive frauds and repeating does not hold good.

The universal testimony of Pennsylvanians is that the unexpected majority in the State is due very largely to the failure of the Democrats to support the ticket. Many refrained entirely from voting, and others voted the Republican ticket because they interpreted a vote for Buckalew to be a vote for Greeley. The testimony is also universal that business Democrats especially repudiated the Greeley ticket.

The New Jersey straight-out Democrats have nominated an electoral ticket.

The Chicago *Times* is out for O'Conor and Adams.

The Democratic party is divided into straight-outs and laid-outs.

Tammany has nominated Abraham R. Lawrence for mayor of New York.

The new liberal State ticket of Arkansas has been formally withdrawn.

The straight-out Democrats have had a meeting in Columbus, O., and resolved to call a convention, to meet on the 23d of October, to nominate O'Conor electors.

The New York *Tribune*, commenting upon the Pennsylvania election, exclaims: "And now we are in the open field!" The man who fell out of a third story window was at first confused, "but the moment," he said, "I struck the sidewalk I knew where I was."

The *Nation* thinks the country is to be heartily congratulated on the thorough destruction of the hopes of as greedy and false pretenders to the name of reformers and reconcilers as ever undertook to wear those names.

The New York *World* says: It were idle to deny that the results of the elections on Tuesday in Pennsylvania and Ohio have thrown a decided damper on the spirits of those enthusiastic Democrats and Liberals who had permitted themselves to be deluded by the hubbub which attended the nominations of Mr. Greeley at Cincinnati and Baltimore into expecting a sort of Sennacherib rout of the cohorts of Grant.

As the result goes, says the *Nation*, speaking of the recent elections, we have one more proof of a fact which this campaign has abundantly proved by many instances, that no matter how great a war governor you may be, or how high-toned a Senator, or how powerful an organ, it is mainly as the governor and Senator and organ of your party and not of yourself, that you are really influential. Mr. Curtin, for example, and Mr. Forney are notable exemplifications of this truth, and in a month every State in the Union will be full of similar illustrations.

The Boston *Post* on the receipt of the election news from Pennsylvania, Ohio, etc., says: "It cost us nothing for powder yesterday!" Sick, but jolly.

"I demand that there shall be open, free discussion before the Southern people. If, after an honest, unterrified, unconstrained vote, it they prove that the people of the South say they want disunion, I will consent to it."—*Horace Greeley* at Pittsburg, Sept. 19, 1872.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture!

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand,

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them see them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model, does two-thirds the sewing done in this country and preserves its advantages over all others combined.

Its is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is lighter speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

Morning Chronicle.

—Mr. Greeley chiefly provides the humorous features of the political campaign, but occasionally a story is told of which he is not the hero. Mr. Hendricks of Indiana is the latest victim. He is travelling all over the State, talking by day and riding by night, and recently wanting to go to a small station on one of the railroads, he telegraphed from the town where he was to the managers to know if the train could be stopped there for him. The answer returned was,—"No one will stop for you." Mr. Hendricks was naturally indignant, and at once inserted in his speech a crushing paragraph about railroad monopolies, of course charging their crimes upon the administration. Some days after, in making complaint at the headquarters of the railroad he was shown the original despatch. All the trains on the road were numbered and the message originally read.—"No. 1 will stop for you." Mr. Hendricks' wrath was appeased and he now leaves out the paragraph about monopolies from his speech.

—Fools, drunkards and the insane are the wards of a special Providence that helps them through predicaments in which the sane and sensible would have to perish. An Illinois crazy man recently escaped from the county insane asylum at Jefferson and took to the railroad track. There he stood till the cars of the Northwestern road came along at the rate of thirty miles an hour. His position was so near the rails that the engine would surely strike him. The whistle failed to warn him and the engineer expected a harrowing scene, when just as the engine came up with him he gave a leap and landed safely on the cowcatcher. He sprained his ankle and bumped his forehead, but he accomplished a leap that is unparalleled, and far beyond any of the great Sam Patch's.

THE GRAND GIFT CONCERT.

GIFT MONEY ALL UP.

$500,000 in Bank to Pay Prizes.

A Full Drawing in Sight.

The Grand Gift Concert, for the benefit of the Public Library of Kentucky, is proposed to be distributed, the 7th of December, for the following reasons:

1. The failure of certain agents to make returns in time for the drawing to take place Sept 28.

2. The accumulation of orders during the last few days to such an extent that it was not possible to fill them and have the drawing on the 28th.

3. The generally expressed desire of ticket holders that a full drawing might be had, even if it made a short postponement necessary.

4. The belief of the management that by a short postponement the remnant of unsold tickets can be disposed of, and all the gift money paid in full without the necessity of any pro rata scaling down.

For those reasons, coupled with the earnest desire to benefit the Public Library by a larger balance and the ticket-holders by larger gifts, the concert and distribution have been postponed to Saturday, the 7th of December, 1872. On that day and no other the drawing will positively and unequivocally come off in the great hall of the Public Library building, beginning at precisely 8 o'clock A. M., and continue until the whole of the one thousand gifts are awarded.

The payment of the gifts will begin the 31 day after the drawing, and continue for six months, in current funds, by the Farmers' and Drovers' Bank, or by sight draft upon the Fourth National Bank, New York, at the option of the gift ticket-holders.

The money necessary to pay in full all the offered gifts is now upon deposit in the Farmers' and Drovers' Bank, as will be seen by the following certificate of the Cashier:

FARMERS' AND DROVERS' BANK, LOUISVILLE, KY., Sept. 26, 1872.

This is to certify that there is now on deposit in this bank over half a million of dollars to the credit of the Gift Concert Fund. $500,000 of which is held by this bank as Treasurer of the Public Library of Kentucky, to pay off all gifts to be awarded at the drawing. R. S. VEAGH, Cashier.

Hon. John Barner, Manager of the Royal Insurance Company, Liverpool, and Col. Julson P. Johnson, Proprietor of the Gait House, will act as a committee on the part of the Trustees to take charge of the tags before the drawing, count them, place them in the wheel, and personally see that corresponding numbers for all the tickets sold go into the wheel, which with its contents, will be placed in the hands of a committee on the part of the ticket-holders to satisfy themselves whether all the tickets sold were represented in the drawing.

Blind children, in full view of the audience, will alternately draw the tags from one of the glass wheels and the gifts belonging to them from the other, and the official record of the drawing thus conducted will be kept by three tellers chosen from different banks in the city. The drawing will be published in the Louisville papers and New York Herald, and official copies mailed to all parties out of Louisville to whom tickets have been sent by letter.

The remnant of tickets yet unsold will be furnished to those who first apply for them, and as general a distribution of them will be made among agents as their limited number will permit. No agent will be permitted, on any account whatever, to hold or sell a ticket for the management after the 25th of November, 1872.

This postponement has been made by advice of the Trustees, with the sole object of the real benefit of both the ticket-holder and the Public Library, and all concerned may rest perfectly assured that the positive and final programme here announced will be carried out to the letter.

AYER'S HAIR VIGOR.

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to fall off prematurely, and render it unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; an always restores to faded and gray hair its natural color, with the glossy freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered that we have AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of this art. If you are disfigured, or made old, unsightly and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

USE BUCHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the compilation specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his office practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is an Expectorant, PURIFIER, and stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the ounce of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of the FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all who neglect BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) the sudden feeling of suffocating feeling at the lungs, and the patient's danger is past.

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with dispatch. Examinations made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved to inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

AYER'S

SARSAPARILLA

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, expels from it the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearances on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, of organs whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Pustules Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from uterine ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

VEGETINE

The Great Blood Purifier.

A valuable Indian compound, for restoring the health, and for the speedy cure of all diseases arising from impurities of the blood, such as

Scrofula Scrofulous Humors, Cancers, Cancerous Humor Erysipelas, Tanker, Salt Rheum, Pimples and Humors on the Face Ulcers, Coughs, Catarrh, Bronchitis, Neuralgia, Pains in the Side, Rheumatism, Dyspepsia, Constipation Costiveness, Dizziness Piles, Headache, Costiveness, Faintness at the Stomach Pains in the Back, Kidney Complaints

Female Weakness, and General Debility.

This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any mineral compound. For eradicating the system of all impurities of the blood, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon these complaints are surprising to all. Many have been cured by the VEGETINE that have tried many other remedies. It can well be called

AYER'S PURGATIVE PILLS.
For all the purposes of a Family Physic,
CURING
Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Fetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,
Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

$1000 REWARD.
BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.
COUGHS. Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.
CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Pedrol Corns, Inflamed and Ulcerated Bunions, the severest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.
PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile remedies are mild, safe and sure.
For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.
CORNS, Bunions, Bad Nails, and other diseases of the feet, Scrofulous and Cancerous Humors, Piles, etc., skillfully treated at the great central Chiropodical and Healing Institute, No. 765 Broadway, New York. Dr. J. BRIGGS, President; DR. ALEXANDER WEBBER, Secretary. sp9

The Chronicle.

The Rich Men of Gotham.

How purely relative a term wealth is may be understood from the difference between what is considered wealth here and in other cities of the country.

To speak of a man as rich in New York means a great deal—more probably than in any other center of civilization. It signifies a million at least, usually several millions; for old residents, worth much more than the former figure, are never heard of beyond their immediate circle of acquaintances. The graduating scale in Gotham is this: Rich, $1,000 000 and upwards; well-off, $500,000 to $800 000; independent, $250,000 to $400,000; a little property, $150,000 to $200,000; poor, anything less than $100,000; suffering, $50,000, or thereabouts; a miserable devil (financially), $25,000 to $30,000.

What then, asks a provincial reader, does New York say or think of fellows having only from $10,000 to $20,000? It does not say anything of them, good reader, and never thinks of them at all.

Beyond our fifty-millions-of-dollars-apiece residents, William B Astor, Alexander T. Stewart, and Cornelius Vanderbilt, hardly anybody knows or cares who is rich here. Daniel Drew loom-up frequently in Wall street speculations, and is occasionally mentioned in Methodist circles and weeklies as a large contributor to churches and colleges of that sect. He is a shrewd old fox, and almost always gets ahead of the boys, as he calls the members of the Stock Exchange, when he has a fancy for a big operation. He has made a vast deal of money in the last two years, and is now reputed to be worth $40,000,000.

One of the most successful speculators in the street of late is Henry N. Smith, reported to have cleared $5,000,000 or $6,000,000 in the last twelve months.

Jay Gould is said to have added some $2,000,000 to his capital since the coup d'etat in Erie, and ten or twelve other bold operators might be named who have bulled and beared and gotten up corners until they have augmented their fortunes in a single year by $1,000,000 to $1,500,000 apiece.

I have mentioned that any of our rich citizens are seldom spoken of as rich, because there are others so much richer.

Take Alexander and Robert L. Stuart, the sugar refiners, for instance who began life as ragged urchins, peddling molasses candy at a penny a stick Their estates are estimated at $4,000,000 to $5,000,000 each.

Ancient George Law, whom the Herald once galvanized into a temporary notoriety by christening him "Live-oak George," and nominating him for the Presidency, is probably worth $6,000,000. Yet he is generally supposed to be dead. He is very much alive, however, and may be always seen driving about in a ricketty wagon, looking after his ferry and other interests with as much zeal and pertinacity as if he had to earn the price of his dinner before eating it. Law has always been extremely lucky, and believes in luck. No wonder, either, for he came to this rustic home in Washington county so absolutely penniless that he was forced to work his passage down the Hudson Almost the only unlucky transaction he ever had was in the purchase of the muskets known as the George Law muskets, for the Lopez filibuster expedition. They were seized as contraband on board the steamer Grapeshot, and Law protesting that they were not intended for Cuba, appealed to the courts. Before the legislation had ended, the Lopez expedition failed, and the leader was garroted. The muskets subsequently proved to be so valueless that it was well the insurgent Cubans missed them. Even Law lost money on them, and he has made it a rule to put all his losses upon those having dealings with him.

August Belmont counts his dollars by the millions, and is presumed to make on an average $2,000,000 a year by his adroit operations in American securities. He is a German by birth; came here as the agent of the Rothschilds; married a niece of Commodore Perry; has been prominent in politics as the president of the National Democratic Committee, and has long been an authority on matters relating to finance and the turf.

The famous bankers, Brown Brothers, do a very tranquil but enormous business, and have fortunes ranging from $12,000,000 to $15,000,000 each. They are natives of Ireland, though rather Scotch than Irish, inferred from their shrewdness, energy and acquisitiveness. The founder of the house, James Brown, commenced his commercial career as a linen draper, and having prospered went into banking, where he still remains. Brown Brothers are extremely orthodox—a fact which renders them remarkable, since theology is not, as a rule, one of the vices of Wall street. They live comfortably, but unostentatiously; making much less display than some of the young brokers who frequently place all their ready means upon a margin, and take the chances of a favorable turn.

The exemplary and highly esteemed Peter Cooper is one of our rich citizens, and one of the few old men who were born on this island. His father was a poor hatter, and Peter worked hard in the paternal shop for the mere stipulance.

Always desirous to be educated, he never was enabled to attend school beyond a single year, and then only half the time; the other half being devoted to earning his daily bread. This deprivation of his youth he felt so keenly that he determined, should he ever acquire a fortune, to do something for the cause of free education. He adhered to his determination, and the Cooper Institute is the glorious result. Cooper's estate is worth $4,000,000.

Horace B. Claflin, of the firm of H. B. Claflin and Company, the second largest dry goods establishment in town, has an individual property valued at $15,000,000 to $20,000,000. He is a native of New England, and has the appearance and bearing of a genuine "Yankee." He is much more popular than his rival, A. T. Stewart, and seems to be a man of much broader sympathies and more generous instincts.

Abel A. Low, long the President of the Chamber of Commerce, and the great tea importer, has a very long purse very full of sequins. He may be set down in figures at $6,000,000 or $7,000,000, and this is rather an under than over estimate.

E. S. Jaffrey, the Broadway importer, is of Scotch extraction, and rich as a Fugger. No one knows the exact extent of his worldly goods, though it is presumed they would represent in cash $4,000,000 or $5,000,000 to $6,000,000.

I might fill half a dozen letters in enumerating Manhattan millionaires, who are so over-topped by the Astors, Vanderbilts and Stewarts that they are rarely thought of in connection with money. Suffice it to say, that there are some two hundred of our citizens worth over $1,000,000; nearly one thousand worth $500,000 and upwards, and an endless list having estates of from $250,000 to $400,000.

There is so much wealth here that even newspaper publishers and journalists have managed to get a portion of it. James Gordon Bennett (by inheritance from his father) must be worth $5,000,000 or $6,000,000; but no other member of his guild makes a pecuniary approach to him.

William Cullen Bryant, of the Evening *Post*, has an estate valued at $400,000 or $500,000; so has George Jones of the *Times*, and Manton Marble of the *World*. Samuel Sinclair, publisher of the *Tribune*, is probably worth not far from $400,000; Hugh J. Hastings of the *Commercial Advertiser*, in real and personal property, would, no doubt, foot up $600,000; Parke Godwin of the Evening *Post*, though he has no interest in the paper now, will leave to his heirs some $350,000; James and Erastus Brooks, of the Evening *Express*, have probably $200,000 each; and even Horace Greeley, who has been opposed to making money all his life, might be sold out for $150,000.

Coming to the weekly press, Robert Bonner, of the *Ledger*, has realized directly and indirectly from his story paper about $700,000, and Henry C. Bowen has cleared by the *Independent*, $400,000 or $500,000; having taken hold of it after failing disastrously as an importer of silks and dealer in dry goods.

From this account one would imagine it to be the inevitable destiny of a New Yorker to grow rich. So it seems, when we walk or ride through Broadway and the Avenue, which have a tendency to make us forget that there are more than half a million of wretches dwelling here in tenement houses; that there are nearly as many more, better dressed, more intelligent, but well nigh as wretched—who may live, if not from hand to mouth, from week to week, as poor at the end as at the beginning of the year, without a future, without any genuine comfort, without the slightest hope of obtaining independence.

A large number of our citizens, having liberal incomes from their business, keep themselves poor by their continued purchases of real estate, in the hope of making great fortunes thereby. So much money has been gained by speculations in land in and about the city that a sort of craze seems to be prevalent in this regard. I could name scores of persons who, for ten or fifteen years, have been "shinning" from cramped circumstances; they would persist in putting whatever ready cash came to their hand, into real estate. The sensible idea of money is to enjoy it rationally. It becomes a curse instead of a blessing when men use it merely to get more.

Not long ago, a speculator here died from over-anxiety and excessive work. For at least twelve years he had been toiling night and day to get rich, and when he passed away he was supposed to be bankrupt. The real estate he left could not be disposed of, and a long while after he had been buried and forgotten it began to advance, and his indigent family is wealthy at last.

But what good did the poor fellow get out of his frettings and fevers and struggles except six feet of space in ground that he did not own.—*N. Y. Correspondence St. Louis Globe.*

The News.

Small-pox is again increasing in New York city, and now prevails to an alarming extent.

Mattie Howe, who was indicted for murder in the first degree for killing her new born child, was on Thursday found guilty in Poughkeepsie of manslaughter in the fourth degree, and sentenced to one year's imprisonment in the Albany penitentiary.

Tickets for Gilmore's ball, Thursday evening, are going with great rapidity.

Iowa is out of debt.

Mr. Charles Lane, of the firm of Charles Lane & Co., commission merchanes, was called to the door of his residence on Hancock street, Dorchester, Mass., by the ringing of the door-bell, just before nine o'clock Sunday evening, and had hardly opened the door when he received a shot from a pistol in the abdomen, and the assassin, to whom no clew has been obtained, ran away. Mr. Lane was an old man, was possessed of considerable property, but had not an enemy in the world that he knew of.

The deaths from small-pox last week in Boston were 22, an increase of four.

On Thursday night a gang of ruffians overpowered the bridge tender on the Delaware and Lackawanna road near West Patterson, N. J., and piled rocks and railroad ties on the track, which here runs on a trestle work forty feet high, intending to wreck and rob the train. Fortunately they were discovered by the train-walker.

At quarter-past four o'clock on Saturday morning two shocks of earthquake, of several seconds' duration, were felt at San Francisco with oscilations from east to west. There was no damage done.

The Savannah *Republican* (Democratic) calls the result of the elections "a cold water dash from the North," and says: In the heated state of our feelings here, after our late signal victory—and the confidence of our northern friends as to what they would and could do yesterday—the news of those election tious has fallen a cold-water dash, after a hot bath, upon our exulting people.

The Great Falls *Journal* says that Seaver Jones, of Hingham, Mass., formerly of Lebanon, Me, was bitten on the leg by a hog a short time since, and immediately became very ill, growing worse until Sunday, when he died from the effects of the poison from the wound, suffering the greatest agony.

The Saratoga County Bank at Waterford, N. Y., was robbed of over $300,000, Monday morning, by nine desperadoes disguised in Ku-Klux uniforms. The robbers secreted themselves in the house of the cashier, D. M. Van Hoevanburgh, Sunday evening, and afterward bound and gagged the entire family, except the cashier, whom they compelled to open the vaults of the bank.

State News.

Mr. John Drew of North Wolfeborough, while driving home a few evenings since, was fired upon by an unknowa person as he was passing through the woods. One shot took effect in one of his legs just above the knee, where it still remains.

Messrs G. F. Canis and W. F. Stark of Manchester have issued a new eight-page monthly paper.

The Grant and Wilson Club of Peterborough have purchased the title and good-will of the Greeley and Brown party in their new flag for a merely nominal price. It will float to the breeze this week inscribed with the victorious names of Grant and Wilson.

Mr. Brooks Shattuck died at Lowell, Saturday morning of paralysis. He was once superintendent of the State reform school in Manchester.

A physician in Keene has forty cases of typhoid fever under his care.

A few days ago a son of Mr. Frank Reed of Gorham had one of his heels taken off at a saw mill on the Glen road.

The Universalists of South Newmarket have organized a society and contracted for the building of a church to cost $8000.

Base Ball.

The Bostons defeated the Baltimores at Baltimore on Saturday by a score of 9 to 8 in six innings. The Bostons and Athletics are to make a tour in England, playing match games in the principal cities.

Political.

Many a Liberal organ might learn decency from the old Democratic Richmond *Enquirer*, which says: "The private life of the President has been very rudely assailed. We have abstained from any such beastly assults; for we have too high a respect for the office, and we are too good an American to beleive the American people would have such a man as he has been represented in certain quarters to be, in that high position. The Southern people have political and not personal objections to Gen. Grant."

Our Republican friends, says the Albany *Journal*, are uncharitable in claiming all the States for President Grant The Greeleyites want some ground for a cemetery.

Soliloquy of the Springfield *Republican* in view of the situation: "One of its inevitable effects will be to cause a general surge of the floating vote, the waiters on events, toward Grant. The chances are that the Liberals will not exert themselves effectually to arrest this movement. A certain percentage of them will undoubtedly take the short road out by deserting, bag and baggage, to the administration camp. Of the remainder, it is to be feared that too many will go into action with the faint heart which invites the defeat it *expects*."

Gen. Early has come out for Mr. Greeley. Though late in speaking, Gen. "Lee's bad old man" is early enough in the field to share in defeats.

Suppose Yerkes had not been pardoned, and the seventeen Grant papers had not opposed Hartranft, and Governor Curtin had not taken part in the campaign, what would Hartranft's majority have been? We submit the conundrum to the organs which claimed that the pardon lost 10,000 votes, the newspaper opposition at least 15,000, and that the influence of Governor Curtin was worth at least as many more.

The official vote of Pennsylvania, except twelve counties, and with those estimated, shows a majority for Hartranft of 35,726.

The Republican triumph in Indiana has a single drawback. Hendricks is carried through "by the skin of his teeth." The Republicans elect every other candidate on the State ticket, with nine of thirteen members of Congress, by a majority of 2338, and a Republican majority in both houses of the Legislature, thus securing the return of Governor Morton to the United States Senate, and the State for Grant by a majority so large that Greeley will swear that he was not running.

The South Carolina State election, to be held on Wednesday, attracts but little attention, though the sympathy seems generally with the bolters' ticket. The Democrats have no ticket in the field and will divide their vote between both the Republican tickets.

Further and more numerous returns from different parts of Pennsylvania confirm reports heretofore received of a general bolting of the ticket on the part of the Democrats. In Erie the Democratic committee sold out all their torches before noon of the day after election, and all the lumber in stands and such other campaign material as would sell. The liberals in the town protested vigorously against it as an absolute retreat from the field, but the Democrats replied that they had a good chance to sell out and make a part of their campaign expenses, as the Republicans were gathering stores of material for the approaching demonstration.

After a parade and serenade at Norristown, Pennsylvania, his home, Governor Hartranft made a speech on Saturday night, stating that his lips had been sealed during the campaign; but now he would say the charges made against him were from men who robbed the treasury, and he would compel them todisgorge.

Memoranda of a codicil picked up in the vicinity of the New York *Tribune* office: Let it be a plain slab. No Latin—no embellishments. State when nominated and when deceased. Get Cochrane to write epitaph—his style is so simple. Whitelaw will distribute locks of my hair. Be kind to Tilton—he is foolish, but young. Plant me in my favorite pumpkin arbor, with a gooseberry bush for a footstone. H. G.

The *Times'* special from Indianapolis says that Orth and Williams (Republicans) are elected to Congress at large, the former leading Browne, the gubernatorial canidate, 853, and the latter 1110 votes. Shanks (Republican) is defeated in the ninth district by 28 votes. The congressional delegation stands nine Republicans and four Democrats.

IN THE GOLDEN AGE OF GIRLHOOD Preserve the beauty of the teeth with SOZODONT, and then, when, the hair is silvered and the eyes dimmed with years, the mouth will still reveal two glittering rows of unsullied ivory.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

MEDICAL BUBBLES.—Columns would be required to enumerate the medicines that have risen to the surface and burst since Hostetter's Stomach Bitters became the standard tonic of the Western Hemisphere. Beside the most extravagant fabrications the most preposterous, and the most sickening, have in turn been employed to bolster up the worthless preparations that have from time to time been introduced, in hope to be dividing the field with that famous vegetable remedy. Signal failure has been the lot of each and all. The reputation of the Bitters as a preventive of epidemics, a stomachic an invigorant, a general restorative and a specific for indigestion, bilious affections, rheumatism, nervous debility, constitutional weakess, paroxysmal fevers, and and all complaints to which the more sensitive sex is exclusively liable, is established upon the sound basis of more than twenty years' experience, and can no more be shaken by the clap-trap nostrums of ignorant scientific pretenders than the everlasting hills by the winds that rustle through their defiles.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

HAVE YOU SEEN HER?—A lady who for the last five years has been a leader of fashion in New York, and who may be seen twice a week in her elegant caleche driving a pair of superb ponies in Central Park, has recently stated, in the select circle to which she belongs, that the only article in existence which imparts beauty and lustre to the complexion without ultimately impairing the texture of the skin and causing it to collapse and wrinkle, is HAGAN'S MAGNOLIA BALM The name of the distinguished member of the beau monde who has made this declaration cannot with propriety be given, but it may be mentioned en passant that she has spent several years of her life in Europe and is familiar with all the arts and preparations employed by the court beauties of the old world to enhance their charms.

SO GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastilles for Coughs, Cherry Pectoral Cough Drops. Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. al2

No. 38 Islington Street

Will be sold at public Auction on

THURSDAY, OCT. 17, at 12 o'clock,

On the premises; house three stories high, with a large and convenient Stable attached. The House has a Furnace, Gas and Water, and the location is one of the best in the city.

Terms at sale. H. F. WENDELL, Auctioneer.

THE STANDARD IN THE VAN!

All other Church Music Books, of whatever degree of excellence, are respectfully invited to fall in the rear of

THE STANDARD!

OUR NEW COLLECTION OF MUSIC FOR CHOIRS, CONVENTIONS and SINGING SCHOOLS. It cannot be excelled in quality, and intends to lead in circulation.

Some of the Merits.—Short Theory, Abundant Material, Sacred and Secular, for practice. Excellent set of Metrical Tunes, *in large and clear print and not crowded*:—a great advantage. Unusually good collection of Anthems, Set Pieces, &c. The compilers, Messrs. L. O. EMERSON, of Boston, and H. R. PALMER of Chicago, are perhaps the most skilful men of their time in adapting music to the wants of the "singing" public. Price $1.50. Specimen copies sent, for the present, post-paid, for $1.25.

A Perfect Success! The printers cannot keep pace with the demand! Ditson & Co's

GEMS OF STRAUSS!

By Johann Strauss!

It is a large book (of 250 pages, full sheet music size), filled with the best Strauss Waltzes, Polkas, Quadrilles, &c., including those performed in this country, under the direction of the great composer.

About $4.9 worth of music are included in the "Gems" which are, however, sold for the diminutive price of $2.50 in Boards, $3 in Cloth. Sent, post-paid, for the retail price.

LOCAL AFFAIRS.

Laconics.

Now is the time for railroad contractors to commence thinking of making estimates for building sections of the Portsmouth & Dover road-bed.

Lieut George E. Wingate, U. S. N., of this city, has been ordered to duty as executive officer of U. S. S. Terror.

You cannot wear anything this season that will not be called stylish provided it has ruffles enough to make you look like a demoralized rag-baby, and is bunched together sufficiently to look as if you were wearing your whole wardrobe at once.

At present, Jefferson Market has the appearance of a "slewd" Greeleyite—but will soon put on airs.

Quon-Quin is not at all perplexed at the every-other-day rain-fall. Q. Q. says the 365 days of Presidential election are always noted for "wetting down" among politicians.

Immunity from dust is the gentle housewife's tribute of remembrance for the summer rains.

If the Portsmouth & Dover Railroad depot should be located at the West-end—which it wont—will a horse railroad be laid from Market Square to it—or otherwise?

The chirp of the mournful cricket is the lullaby of the grasshopper's "wake."

When you feel the east wind's chilly breath, remember there's a law of storms, and consult your rheumatic neighbors for indications.

You dig your potatoes and think they are sound. You pare those potatoes and change your mind.

If a horse can trot under water from Spring Market to Navy Yard bridge, what time can sculpins make on the Newmarket or Exeter road, attached to a coal cart?

Circuses of the year 1872 are a past glory unto the children of the New England saints.

If you engage in agricultural pursuits next Spring, it is best to remember that crook-necks are the only anti-bug squashes.

This is a ciderial year.

Visions of tin horns and hollow pumpkins illuminate, haunt the dreams of Smallboize—for isn't the 5th of November approaching and can't the juveniles celebrate "Pope night" and the election of President, together? We trow.

If you can't sleep o'nights, get up and do something.

Storms in September are dangerous to ladies without escorts after dark. The coasting fishermen discern the signs of the times afar off, and haste to fill their kegs with usquebaugh before the denizens of village, town and city discern the coming elemental commotion.

If you have no hog nature about you, you don't think a stiff nor'-west breeze worth growling about.

Our imp can't imagine why Portsmouth Plains is so called, when he sees the faces of the pretty girls who attend the school in the little brick domicile there situate. It is evident that the imp never crossed the Plains to the tavern!

Gen. B. F. Butler is in demand for a campaign speech to the Republicans of this city.

It isn't necessary to go to Kittery for nice attention from the ladies, though some people persist in taking that direction and are nicely taken care of.

The lively ant will soon go into winter quarters.

Will the Rye Beach travel stop at Greenland or North Hampton, hereafter? is an Eastern Railroad conundrum.

Foster's and Adams' circulating libraries are well patronized. Portsmouth is a reading community.

The development of manufactures, ship building and commerce is Portsmouth's best business security for the future.

Can't some humane individ invent an ointment for the horse, which will discourage the fly?

When the new bridge from Newington to Dover Point or thereabouts is constructed, will you drive your team to Dover *via* Newmarket or South Berwick?

Past glory isn't what Portsmouth is content to live upon.

Imagine the literary "Buggins" perched on a cider barrel on Market Square, offering a whole family of last year's cider barrels for sale. But how can he make such cider as he does, in last year's casks?

A special train will take New Hampshire Lodge, I. O. O. F., with Harlow's Band, to Salem, Mass., at half-past two o'clock, this afternoon, returning at midnight.

If 2100 votes are to be thrown in Portsmouth how many will Horace get?

A lamentable display of wasted pluck will be the first parade of the Greeley Guards, this evening. They'll not have time to soil their uniforms before election, will they?

When you are impecunious keep away from billiard saloons.

When you are engaged in writing, isn't it pleasant to have a kindly disposed person come in, ask questions and yawn?

The fall term of the Supreme Judi-Court meets in this city to-day.

Manager Hatch and other railroad officials perambulated the proposed route of the Portsmouth & Dover Railroad, Monday.

Why not put Willie at the head of the Fire department? He would generate gas enough to fill the Extinguishers without co-t to the city and put out all fires with "showers of communications."

The Charlestown *Advertiser* says the immediate cause of the sudden death of Mr. William A. Gove in that city last week, was rupture of the brain vessels.

Senator Wilson will speak at the Concord mass meeting to-day. The torch-light procession will move at 8.40 this evening. Half fare on the railroads.

Notwithstanding the heavy rain, Sunday evening, the temperance gathering was quite respectable in point of numbers and influence. The next lecture will be delivered next Sunday evening by Mr. H. M. Bryant of Lewiston, Me.

1st Ass't. Engineer Joseph B. Upham, U. S. N., has been detached from duty at this Station and is ordered to U. S. S. Hartford.

It is worthy of remark that the cesspool's dreaded scent was fainter during the warm months than for two years or during the war previous.

Musquitoes now relapse into their autumnal quietude and flies monopolize the country trade.

"After Many Days."

We are informed that the Greeley Greybacks have at last received fifty uniforms and torches. Glad of it; we feared, from the enthusiastic manner in which the "young men between 18 and 23 years of age" hung back and didn't join the organization, that notwithstanding the herculean exertions of the Greeley leaders, their furnishing of uniforms gratis and their earnest and piteous appeals to the voters to take their places in the ranks of the mourners, that we should never be favored with a sight of the "men in grey." We learn that the preliminary funeral procession will exhibit this week,—a very judicious move on the part of our Greeley friends, for if they wait until November there won't be enough of their party left to hold a funeral service over.

The world offers few more sublime spectacles than that of a man bravely struggling against Fate. With what admiration do we look upon the brave soldier as he makes a last desperate stand against the advancing foe, reckless alike that his comrades are routed and retreating and that his self-sacrificing courage cannot for one instant turn the tide of battle; When we see the doomed seaman, borne swiftly to a death from which God alone can save him, by the furious winds and treacherous waves,—when we see him, undismayed by the horrors which none other can realize so well as he, coolly working his fated craft with the consummate skill of the thorough sailor, and battling with the elements for that life whose moments the spectator can number, how we forget our sympathy for the doomed man in our wondering admiration of the hero.

With something of this involuntary hero-worship do we look upon the hopeless efforts of the noble army of Straightouters, deserted—nay, sold, by their old-time leaders and wire-pullers, disheartened at the outset of their movement by the refusal of Mr. O'Conor to accept their nomination, and with a certainty of four years more of Republican rule in national affairs, still striving—hoping against hope that they may be able to save at least the organization and ancient name of their old party, or failing in that, determined to fall with their colors flying, their drums beating and their faces towards their foes.

And similarly do we wonder at and admire the desperate determination not to "give in" displayed by our Greeley brethren in this city, as shown in the Greyback business. If disheartened, certainly not cowed by the brilliant success of their political opponents in raising a large body of uniformed men for street parade while the Greyback organization has remained in *statu quo*, (wherever that is,) undismayed by the Waterloo defeat of their party in Pennsylvania and the West, not wholly demoralized even by Horace Greeley's stump speeches, our Greeley brethren keep bravely at work on their "Greeley and Brown Guards." The managers may be sustained in their struggle with adverse circumstances by something which we do not know of; possibly by the tremendous (but carefully concealed) "enthusiasm" for Horace which his organ has so often assured us exists in this city; but be this as it may, we lift an imaginary hat from our head as the Greeley Guards parade before our mind's eye,—a tribute of respect to brave men engaged in a hopeless contest.

PRESENT TO THE FAST HORSES.—A very handsome and very appropriate gift has just been made to each of the famous horses that are now attracting public attention, Goldsmith Maid, Lucy and Occident. The gift consisted of a complete and beautiful set of stable and parade robes or coverings, blankets, neck and ear coverings. The material is of the finest cloth made at the Mission Woollen Mills, and presented by Donald McLennan, Esq. The work of cutting, fitting, trimming, &c., was done and prepared at the Saddlery Warehouse of Messrs. Main & Winchester in their best style, and presented by them. A very appropriate gift by appropriate donors to very appropriate parties, and it was done in a very delicate and appropriate manner, reflecting credit upon all.—*San Francisco Farmer.*

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. does two-thirds the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

Morning Chronicle.

—One of the best political notes of the day occurred at Fairhaven. On returning home from church, little Freddy, who is about five years old, said to his father; "Our minister is a republican, ain't he pa?" "I hope so, my son; but why do you think he is?" "Because, when he was praying this morning he said, "Grant, our heavenly father." If he had been a Democrat he would have said, "Greeley, our Heavenly Father."

—A man who was too mean to advertise land which he wanted to sell put up a written notice in one of the Hotels. A man who was inquiring for a small farm was referred to the written notice, when he replied: "I can't buy land at a fair price of any man who does his advertising in that way. He'd steal the fence, the pump-handle and and the barn doors, before he gave up possession.

—The Chicago *Times* has received an original poem on "The Burnt district at Midnight." The 1024 verse reads: "The wall. The brick piles are quiet; the rick stands still 'gainst the half-finished wall. The brick piles are quiet; the stones are at rest. To morrow they'll rise, nine or ten stories tall, in huge, massive structures—the worst in the West."

—The pipe water was shut off abruptly this morning. Men who haven't touched a drop of spirituous liquor in years, wept like a child. —*Danbury News.*

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and military predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the glossy and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of this art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

USE BUCHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified, in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

FOR SALE BY ALL DRUGGISTS,

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL is no new discovery. Twenty-three years ago it was made by a New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a powerful BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the ounce of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. The use of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," the possession of this PANACEA MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) gives the panting, suffocating feeling at the lungs, and the patient's danger is past.

Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

AYER'S

SARSAPARILLA

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. Impurities in the blood, purposely left lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearances on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Boils or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Subject to the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

AYER'S PURGATIVE PILLS.

For all the purposes of a Family Physic,
CURING
Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupulina, Oil of Juniper, and Alcohol. This compound is unequaled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUCHS. Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest Instep, the largest and soverest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Alleviator for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREPEPHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

The Chronicle.

The Acquittal of Mrs. Fair.

The San Francisco Morning Chronicle, October 1, gives the following description of the closing scene of the Laura Fair trial, beginning at the moment when judge, jury and prisoner entered the court-room:

In a few moments three figures appeared in the corridor outside the court-room. There were two men—sober, solemn-looking men—and one woman, a tearful, trembling, half-fainting woman. The group were Judge Curtis, Mrs. Fair and Judge Quint. Behind them walked two deputy sheriffs, and in this order the party entered the court-room. A hungry, eager, sensation-loving crowd followed close upon their heels, but comparatively few were permitted to enter the court-room. The reporters and three or four lady sympathizers were on hand, as usual, and took their accustomed seats. Mrs. Fair was placed in a chair between her counsel, Mr. Curtis and Judge Quint, while District Attorney Murphy and Judge Campbell sat to the left and next the jury. Mr. Murphy chewed his tobacco with a vigor that denoted the man of deep thought. He seemed perplexed about something. He sat and toyed with his rubber tobacco pouch, and looked at Mr. Campbell as though devising some plan of action in case the jury should disagree as all expected.

In a few moments the jury appeared, being marshalled in by the big Court bailiff. They stalked through the court-room in double file, Mr. Englander and Mr. Sherwood at the head. Their faces wore a solemn, serious look, indicative of anything but glad tidings to at least one breathless spectator in the room. As soon as the jury were seated, Judge Reardon was notified and at once came from his chambers. As he walked quickly across the room every eye was on him, and the silence was so great that a pin might have been heard to drop upon the carpet. The Judge took his seat, and then the big bailiff rapped with his lead-pencil upon the railing. Mrs. Fair gave a quick, nervous start as her eye rested upon the Judge, but a look from Mr. Curtis quieted her. Then the big bailiff opened the Court.

"Hear ye, Hear ye, Hear ye, the Honorable, the Fifteenth District Court of the State of California is open pursuant to adjournment."

"Mr. Clerk, call the jurors," said the Judge. The Clerk then called the names of the twelve very wise men. During the calling of the jury the interest in the court-room was intense. The reporters sat toying with their pencils, but with their eyes glued to the woman's face. The faces in the rear of the Court were eagerly bent towards the jurors, in the hope of reading the result of their sixty-four hours' deliberation. But every face was as cold and as hard as marble. Mrs. Fair turned her head, and gave one sweeping look at the two rows of impenetrable faces, and then turned away with a shudder, clenched her fingers in Judge Curtis's arm, and held on tightly for support. Mr. Murphy watched the jury, and Judge Quint looked as solemn as an owl. Judge Curtis devoted his whole attention to the trembling woman beside him, while Judge Reardon looked down from the bench with a cold, pitying look.

As the last name was called, the Clerk announced that all the jurors were present. Another dread silence then fell upon the court-room. Every eye was on the Judge. For a moment he sat with his head resting on his hand, and then turning to the Clerk, he nodded and said something in an inaudible tone. The Clerk nodded to Judge Curtis, who at once arose and lifted the nervous and terror-stricken woman to her feet, and placing his arm close around her waist, held her with her face to the jury. Judge Quint also stood up and held one of Mrs. Fair's hands. Both counsel on the other side also got up and faced the jury box. The spectators bent forward in breathless anxiety to catch every word that should now be uttered. Then the Clerk spoke:—

"Gentlemen of the jury, have you agreed upon a verdict?"

Mr. Byington, the foreman of the jury, arose and passed to the Judge a folded slip of paper. The Judge without looking at it, passed it over his desk to the clerk below. The clerk slowly opened the paper and for several seconds kept his eyes and brain busy with the words. During this little scene Mrs. Fair rested with her eyes on the floor. She seemed to have lost all physical power, and fairly hung like a child in Judge Curtis' arms.

The clerk then read from the paper, amid the most breathless stillness, these words:

"We, the jurors in the case of the People of the State of California against Laura D. Fair, indicted for the murder of Alexander P. Crittenden, do find the defendent not——"

Before the word "guilty" could be uttered, a low, thrilling moan was heard which went through every heart in the court room, and in another instant two thin, white, chalk-like wrists were clasped around Judge Curtis' neck and a wealth of golden hair lay streaming on his breast. The little black figure

lay in the arms of the strong man like a corpse. The next instant all was confusion. The ladies rushed up to Mrs. Fair and tendered their assistance. But the piping notes of the big bailiff soon restored order. Judge Curtis carried his lifeless burden to a settee and laid her gently down. Water was called for, and in a moment she had returned to consciousness, but could not seem to understand the turn affairs had taken.

After the ceremony of recording the verdict was finished, the Judge formally discharged the jury, thanking them for their patience and cheerful acquiescence in all the requirements, and then turning to Sheriff Adams, he said: "Mr. Sheriff, Mrs. Laura D. Fair, by a verdict of this jury, is no longer a prisoner. She is therefore discharged from your custody." The Sheriff bowed and then saluted Mrs Fair, who smiled in a sickly way at the compliment. In a moment the Court was adjourned and then a crowd soon gathered around the freed woman. Jurors crowded around her and several of them, as they took Mrs. Fair's hand, cried like children. From all sides came warm congratulations from lawyers and others to Mr. Curtis and Judge Quint upon their success.

WEDNESDAY, OCTOBER 16, 1872.

Keep the Ball Rolling.

The October elections have occasioned wide-spread demoralization in the ranks of the party (or conglomeration of fragments of parties) which opened the Presidential campaign with a rush and a loud "Horrah, boys!" and has since carried it on wholly with bluster and brag for their own side and slander and misrepresentation for their opponents. Greeley and Brown clubs are dissolving, Democratic organizations have in several places sold out their campaign stock to the Republicans, and the Greeley and Brownies of Peterborough (in this State) have disposed of their new flag to the Grant and Wilson club of that town. From all quarters come such indications that the coalitionists regard the election of Horace Greeley as hopeless.

But more striking proofs that the Greeleymocracy recognize the hopelessness of electing their candidate and are disheartened by it to the last degree, are shown in the lack of interest taken in politics now by men who were boiling over with "enthusiasm" for Greeley a few weeks ago, and in the astonishing change of tune among the Greeley organs. Gratz Brown's statement that he would not be surprised if Grant did not carry three States is not referred to, and instead of shouts that the woods are chock full of deserters from the Republican ranks and nearly every Northern State and all the Southern ones except South Carolina sure for Greeley, the coalition papers are hard at work to prove that the crushing defeat of their party on the 8th instant was not a crushing defeat, and urging their followers to work hard that Greeley may be elected.

The Manchester *Union* says "the election of Mr. Greeley is quite as probable as it was a week ago"—which we do not deny, for we never at any time had the least idea that his election was among the probabilities at all. Having figured out a decided advantage for Greeley in the late elections and shown that the Democrats have no reason to be depressed, the *Union* appeals to the party in this State, as follows:

We have shown that there is nothing discouraging in the situation beyond, and there is no more doubt than that the day of election will come, that we can win if we try. Let us give some reasons why we should try. First, it is possible the vote of this State may elect; 2d, whatever the general result may be, we want this State for our own use. If we carry it now we shall carry it next Spring easier; if we lose it now, we may possibly lose it then, together with our members of Congress. * * * * *Victory is certainly possible*, and with less cost and work than we have often given to a State election. But what is indispensable is immediate organization in every town. There are obvious reasons why such organization is more important than usual, and we trust it will be no longer neglected.

The *italics* are the *Union*'s, and markedly emphasize the change of tune we have already alluded to. A month ago victory was certain, and the only question with some of the Greeley papers was whether Horace Greeley would have 5,000 or 10,000 majority in this State; now "victory is certainly *possible*," but "immediate organization in every town," too long neglected, "is indispensible." The brag and bluster with which the Greeley campaign was commenced has died away, the Greeley balloon has had the gas let out of it, and instead of fretting lest there should not be enough of the demoralized Republican party left for the Greeleymocracy to beat on the 5th of November, the Greeley press now urgently appeal to their party friends not to give up in despair, but to organize and work, as "victory is certainly *possible*."

This is good advice, and we repeat it to *our* party friends,—*organize and work*. Do not trust entirely to the utter demoralization of your opponents; victory for you is not only "certainly possible," but absolutely certain, and by a rousing majority—but it will not come of itself; it must be won. Republicans in this State do not need to go far back in their memories to find an unpleasant reminder of this; our three Democratic Congressmen prove that the Democratic party are good on a "still hunt" when their antagonists are so foolish as to stand idle, in expectation that the game will come to them unsought.

The Democratic party in this State has exhibited wonderful tenacity of purpose in working hard against repeated defeats and discouragements in the past, and in its death struggle, (for we hope and believe that this campaign will end the old Democratic party as an organization,) if encouraged by any seeming apathy on the part of Republicans or by their over-confident neglect of thorough campaign work, may make a fight which will shame us worse than did the election of last year. All that is now needed to prevent such an unpleasantness and to give Grant and Wilson a sweeping majority, is for the Republicans to continue their work as they have begun it, and not "let up" an instant until Grant and Wilson electors have been triumphantly chosen.

Indiana.

An official vote of 77 counties, with semi-official returns from the other 18 counties, give Hendricks (Democrat) for governor, 849 majority; Sexton (Republican) for lieutenant-governor, 1318 majority; Curry (Republican) for secretary of State, 1163; Wiedmar (Republican) for auditor, 1224; Glover (Republican) for treasurer, 1520; Orth (Republican) for Congress at large, 1147, and Williams (Republican) for Congress at large, 1474 majority. For superintendent of public instruction, Milton B. Hopkins (Democrat) is elected. The legislature, from official returns, will stand 54 Republicans and 46 Democrats in the house and 27 Republicans and 23 Democrats in the senate. The official vote of the 9th congressional district elects Neff over Shanks (Rep.) by 28 votes; but in one township in Adams county, Shanks's district, 47 Republican votes were thrown out on account of the words "Republican ticket" being printed at the head of the ticket. If these votes are allowed Shanks will be elected by 19 votes.

Political.

The Greeley Republicans in New Hampshire would like to see the Democrats go over to O'Conor, so they could have sufficient excuse for voting for Grant. There are about ninety of them in the State and they feel bad.

Hon. Jerome B. Chaffee's (Republican) majority for delegate to Congress from Colorado Territory is 1336; his majority in 1870 was 1392.

Burned out—the coal-ition.—*Lowell Courier.*

The Brooklyn *Eagle* cheers the drooping Chow Chows of Kings county, and strengthens their souls for the contest of November by summoning them to remember that Goethe once said: "The spirit in which we work is the chief matter." 'Twas worthy of Gratz Brown himself, but the great Missourian would have quoted it differently—even thus: "The spirit that works in us is the chief matter.

A crow eating exchange says the Grantites in all the State canvasses have had "all the money, all the machinery, all the corporations and all the adventitious aids to help them." It might have added—"and most of the votes." The only thing which the Greeleyites monopolized were the bragging and lying, which don't count.—*Portland Press.*

The hole that Greeley was lost in—The "opening" of the campaign.

The Philadelphia *Post* (Greeley) acknowledges that further effort for its candidate is useless. It says: To carry on a Greeley campaign in Pennsylvania now would be grand, it would be noble, it would be heroic, but it would not be successful. Colonel McClure may be the boy who will stand on the burning deck, but it will be infernally hot for him.

The Virginia Republicans are making a very active canvass of that State.

Mr. Samuel Bowles, seeing no hope for Greeley, has begun to say sweet things of Mr. Colfax. He thinks the Indiana legislature couldn't do a better thing than elect the Vice President to the Senate. It might do worse.

THE MOST THOROUGH REFITTING of a Hotel in Boston has just been consummated at the new "MILLIKEN HOUSE," 187 Washington street. The old landlord, F. Milliken, so well known a score of years since as a most successful caterer, resumes his position under the most auspicious circumstances.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

IT IS NEVER TOO LATE TO USE *Hale's Honey of Horehound and Tar* as a Cough cure, but it is best to have recourse to it in the early stages of pulmonary disease, so as to secure *immediate* and *permanent* relief and avoid danger. Crittenton's, 7 6th Avenue. Sold by all Druggists.

Pike's Toothache Drops cure in 1 minute.

HOLLOWAY'S PILLS and OINTMNT.—Habitual constipation, the parent of apoplexy, general debility, and premature decay, is permanently cured by a course of the Pills, and Ointment. Sold 78 Maiden Lane, N. Y. Price, 25 cents per box or pot. Ask for the new style; the old is counterfeited. 19.

IN THE GOLDEN AGE OF GIRLHOOD Preserve the beauty of the teeth with SOZODONT, and then, when, the hair is silvered and the eyes dimmed with years, the mouth will still reveal two glittering rows of unsullied ivory.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

MEDICAL BUBBLES.—Columns would be required to enumerate the medicines that have risen to the surface and burst since Hostetter's Stomach Bitters became the standard tonic of the Western Hemisphere. Boasts the most elegant fabrications the most preposterous, cant the most sickening, have in turn been employed to bolster up the worthless preparations that have from time to time been introduced, in hope to be dividing the field with that famous vegetable remedy. Signal failure has been the lot of each and all. The reputation of the Bitters as a preventive of epidemics, a stomachic, an invigorant, a general restorative, and a specific for indigestion, bilious affections, rheumatism, nervous debility, constitutional weakess, paroxysmal fevers, and and all complaints to which the more sensitive sex is exclusively liable, is established upon the sound basis of more than twenty years' experience, and can no more be shaken by the clap-trap nostrums of unscientific pretenders than the everlasting hills by the winds that rustle through their defiles.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

HAVE YOU SEEN HER?—A lady who for the last five years has been a leader of fashion in New York, and who may be seen twice a week in her elegant caleche driving a pair of superb ponies in Central Park, has recently stated, in the select circle to which she belongs, that the only article in existence which imparts beauty and lustre to the complexion without ultimately impairing the texture of the skin and causing it to collapse and wrinkle, is HAGAN'S MAGNOLIA BALM. The name of the distinguished member of the beau monde who has made this declaration cannot with propriety be given, but it may be mentioned *en passant* that she has spent several years of her life in Europe and is familiar with all the arts and preparations employed by the court beauties of the old world to enhance their charms.

SO GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastiles for Coughs, Cherry Pectoral Cough Drops, Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. al2

Gives It Up:

An influential Democrat of the third Ward who had bet with a prominent Republican that Greeley would be elected and that he would get New Hampshire's electoral vote, accosted the gentleman he had wagered the money with, on Saturday, with "Well, ——, you may take that money for those bets. I give it up."

A Flash in the Pan.

The 1st company of Greeley and Brown Guards will meet at headquarters on Tuesday evening, at 7:30, to receive their uniforms and take their first street drill. Prompt attendance is requested.—*Lyre, Oct. 14th.*

Where, oh! where—where *are* those Greeley and Brown Guards? Their proposed celebration of the Republican victory in Indiana was to have come off last evening, promptly at 7:30; but we waited until promptly a good deal past 8 o'clock, hope gave way to anxiety and anxiety was merged in despair, and not a "1st company"—or any other company—of Greeley and Brown Guards met our eager gaze. Is it to take as long to get the Greybacks into the street as it did to get them into the company? Or is the whole affair a flash in the pan, as an O'Conor Democrat said was the case, last evening?

Joined the "Tanners."

A very well-known citizen of Portsmouth a few days since was engaged in showing a gentleman from Chicago the manufacturing establishments of our city, though with no idea of rivalling the "Phœnix of the West." The tour of inspection, which would hardly have been a long one, was made even shorter by the occurrence of an unexpected incident at a tan-yard at the North End. The guide, after inspecting the bark-mill, in order to point out some object of interest to his guest, stepped back a few paces and suddenly disappeared from view. It was one of the biggest "hides" in one of the deep vats where other hides were being converted into leather. With some difficulty the involuntary bather was fished out, but the proprietor of the tannery, a prominent Democrat, desires those wishing to join the Tanners not to use his premises as a theatre when they wish to "fall in" for such political purposes.

A Memorial.

A neat little volume for private circulation has been issued from the press of Mr. Lewis W. Brewster, entitled "Memorial of Hon. Richard Jenness." John S. Jenness, Esq., is the author, and the work shows much research. It is illustrated by views in Deerfield, Rye and Portsmouth, and is a worthy tribute to a departed citizen—whose immediate family and friends will value the "Memorial" highly. A photograph of Mr. Jenness adorns the opening page of the volume.

S. J. Court.

Judge Doe opened the October term of the S. J. Court, Tuesday, prayer being offered by Rev. Carlos Martyn. The grand jury is composed as follows:

John J. Robinson, Newmarket, foreman; Jay Dearborn, Brentwood; Reuben H. Dunn, Candia; Frederick A. Morse, Chester; Daniel Clifford, Danville; Robert C. Bickford, Deerfield; Jacob S. Couch, Derry; John S. Currier, East Kingston; James B. Parsons, Epping; John H. Kimball, Exeter; George F Beede, Fremont; Thomas J. Berry, Greenland; Henry Putnam, Hampstead; Samuel A. Towle, Hampton; John A. Brown, Hampton Falls; Charles A. Evans, Kensington; Daniel Wadleigh, Kingston; Washington Perkins, Londonderry; James W. Flynn, Newcastle; Frederick W. de Rochemont, Jr., Newington; David C. Prescott, Newton.

It is thought this term of the Court will be a brief one.

THE LOSS OF THE GOLDEN HIND.—A gentleman on board the United States steamer Ossipee sends to the Philadelphia *Bulletin* the following statement of Mr. John Saville, late chief mate of the ship Golden Hind, Capt. B. F. Robbins, from New York, bound to San Francisco:

On the morning of the 23d we sighted Cape Gloucester, Charles Island, western coast of Patagonia, the ship unmanageable. Finding there could be nothing further done, we let go both anchors, which served to check temporarily the driving of the ship on the breaker-lined coast, and succeeded in launching three boats, taking every soul out of the ship. During the first night we lost sight of one boat, in charge of the second mate, William Webb, containing himself and six seamen, whom we never saw again. The other two boats, with six men in each, besides the Captain and myself, kept company until the 9th of August, having suffered everything that man could endure and still live. We lost during that period of forty-eight days of suffering five men from sheer starvation; and the rest of us would not have lasted three days longer if, under God's providence, a small sealing schooner had not discovered us in the small cove on Terra del Fuego, which we had reached in our efforts to get to Sandy Point. Several days after leaving the wreck our Captain's boat was upset, and we lost our charts and instruments and most of our provisions, which left us at the mercy of the winds and tides. For fifteen days we were within sixty miles of this haven of rest without knowing where we were. We were, upon our arrival, treated with the utmost kindness by the Chilean Governor until the arrival of the United States steamship Ossipee, and are now on board her. On arrival at Sandy Point we were mere skeletons and cripples, with our legs swollen so we were scarcely able to walk. Too much praise cannot be awarded to the officers and crew of the Ossipee for the manner in which we were taken hold of and cared for.

Cholera is reported as ravaging several large towns in Poland, and thousands have died.

Two inches of snow fell in Windsor, N. Y., on Sunday night.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success o the Company is far beyond that o any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. does two-thirds the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

Improprieties at Funerals.

Now, more than some years ago, it is customary to eulogize the departed in what is said on funeral occasions. This is not the object for such services. It is not fitting, only in some particular cases when persons of great worth have departed,—and then in slight allusions.

I was at a funeral not long ago, and while the procession was moving in carriages to the cemetery, one of the relatives struck a match, lighted his pipe, and went to smoking. If there is a time for smoking, that was not the proper time.

Sorrowing friends are gazed at impolitely at funerals. When a procession is formed from a dwelling, it often has to pass through a throng at the door, all gazing at the couples as they come out.—When friends take the last look at the departed in a dwelling, in a church or at the grave, all who will can look with intense interest to see how the afflicted appear, how much grief and emotion they manifest. It seems to me this is neither good taste nor good manners. J. F.

HAVING FUN.—There lives in Amboy, Oswego county, New York, a man by the name of John Parks, whose idea of "having fun" is novel, to say the least. About three weeks since Parks returned from the "Centre," accompanied by another man, both being in a state well calculated for fun. As they were opposite the pasture of Mr. Kinney, Parks said to his comrade, "You hold my coat if you want to see some fun." Whereupon Parks got over the fence into the pasture, and getting down upon "all fours," proceeded toward a two year old bull, for the purpose of frightening him. Taurus waited his approach with a calmness which Parks thought would terminate in fright, but he was mistaken. When he had got near enough, his bullship made a charge on Park's sitting down place, which he very speedily transformed into something which resembled a skimmer. Surgeons and tailors say that it's the worst job of repairing they have had in some time. Some one has been cruel enough to ask Parks why he was like a locomotive.

—In the course of a month or two there will be placed a line of very large and powerful steamtugs at both entrances of the Straits of Magellan for the purpose of towing sailing-vessels bound to and from the west coast of South America through the Straights, thus doing away with the difficult and often times dangerous voyage round Cape Horn.

—A Western man's grief at the death of his father was in a great measure ameliorated by the intelligence that he had drawn a four dollar breast pin in a Gift Distribution.

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The compatibility few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, remove its youthful color, and with your features to their original softness and agreeable expression.

As a elegant dressing for beautifying the Hair, it has no superior.

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. Every family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred PULMONARY DISEASES, at all times prevalent, it is the ounce of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As a stitch in time saves nine, "an ounce of PREVENTION" is worth a pound of CURE. It prevents the spread of disease. Parents seeing their children gasping with pale, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the foundation of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

For Coughs,
Croup,
Diphtheria,
Asthma, &c.

USE BUCHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, but an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. But of ingredients which each and our best educated physicians daily use for the complaints specified, in some form or other. The recipe is that persisted by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs,* No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON, After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

AYER'S

SARSAPARILLA

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, and expels from the living humors in the system, which undermine health and open into troubles more disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and where substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they create disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Erupitive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcerous Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the speedy and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

VEGETINE

The Great Blood Purifier.

A valuable Indian compound, for restoring the health, and for the permanent cure of all diseases arising from impurities of the blood, such as

Scrofula Scrofulous Humors, Cancers, Cancerous Humors, Erysipelas, Cankers, Salt Rheum, Pimples and Humors on the Face Ulcers, Coughs, Catarrh, Bronchitis, Neuralgia, Pains in the Side, Rheumatism, Dyspepsia, Constipation Costiveness, Dizziness, Piles, Headache, Nervousness, Faintness at the Stomach Pains in the Back, Kidney Complaints Female Weakness, and General Debility.

This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon these complaints are surprising to all. Many have been saved by the VEGETINE that have tried many other remedies. It can well be called

AYER'S PURGATIVE PILLS.

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupulina, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure early eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy and $1000 will be paid if found different from representation.

COUGHS, and Much has been said and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the softest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled for the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and preventing their formation is absolutely uncelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

A ROMANCE OF THE WAR.—An incident has lately occurred at Tiffin, near Cleveland, Ohio, springing out of the war, which has caused much talk and admiration there. As an evidence of gratitude for a signal service performed, gratitude not affected by time, but cherished in silence for years until the opportunity came to express it in act as well as words, the case is interesting and exemplary.

It appears that before the war Tiffin and its neighborhood had an itinerant preacher named Downey. On the outbreak of hostilities this man, a pro-late Unionist, entered a volunteer regiment as captain. When the government determined on employing negro troops, Downey became colonel of a colored regiment. During the campaign in Tennessee this regiment chanced to be encamped upon the estate of one Colonel Washington, near Nashville. Exasperated by some cause not related, the troops became insubordinate during their colonel's absence. A number of them invaded Colonel Washington's grounds and burst into and pillaged his house. Remonstrated with by the owner, they became exasperated, seized and bound him, and were on the point of putting him to death.

Colonel Downey arrived at the critical moment, just when his captors, wild with drink and rage, were about to shoot Washington through the heart. Without an instant's hesitation Downey rushed between them, and, at the imminent peril of his own life, saved that of Colonel Washington. The latter, profoundly moved, warmly expressed his obligations, and promised never to forget them. Will he, however, the matter rested, and amid many succeeding scenes of wild excitement Downey dismissed the subject from his mind. He remained to the national service until the close of war, and then, returning home, settled down to a quiet, domestic life. Within a short time he died, leaving his wife and children in straightened circumstances. Mrs. Downey was compelled to resort to her needle to get even a bare support for herself and little ones. But a change was soon to be wrought in her condition.

A month or two ago, Colonel Washington died; and it has now been found that his whole estate, including 1,000 acres of land, improved farms close by Nashville, and valued at over one hundred thousand dollars, a sum of ten thousand dollars in cash, and other property, has been left by him outright to the wife and children of his preserver, Colonel Downey. Our civil war witnessed many strange episodes, too many, unhappily, of a mournful description, and some far surpassing fiction in the strangeness and improbability of their incidents. But the tale we have related, honorable as it is to all concerned, is one that will be read only with pleasure. It is not always in this world that good deeds are thus requited, or that an honest purpose of reward is thus steadily carried out at a remote period; and such an action gives pleasure not only for its intrinsic worth, and the thought of the relief thus creditably conferred, but because of the manifest value of so noble an example.—*New York Times.*

RARE NEEDLE WORK.—On the first day of this month a new museum was opened in Paris—the municipal museum—in the old Hotel Carnavalet. It is a collection of objects forming the material history of the city—arms, pictures, manuscripts, jewels, etc., either characteristic of Paris or illustrating its progress or history. One of the rooms is a museum of women's work, and there, in a well-stocked case, the whole progressive history of the needle is told. Needles of every kind, are there; needles of stone, of bone, of wood, of iron, of steel. The room also contains tapestry and embroidery frames, winders, and all sorts of implements of feminine work of all ages since Paris existed. Some are historical—tambour frames which belonged to the queens of France, a thimble ornamented with turquoises, once the Empress Josephine's, and four reels upon which four queens of the House of Bourbon wound their thread, these last being given by the Comte de Chambord.

—A man who lately jumped from the rear of an express train on the Cleveland & Pittsburg road, and whirled over and over for a distance of two hundred feet was found to have a substance resembling brains in his head, although what use he ever made of it is past finding out.

—An Indianapolis lady lost her pocket book containing $13.75 one day last week. It was picked up by a newsboy and promptly returned to the owner, who rewarded his honesty by making him a present of the entire amount.

—A Mississippi sheriff went for a judge to arrest him, but after the judge had put three or four bullets through him, he changed his mind and composed himself to join the innumerable caravan.

—One of the most pleasing things to contemplate in this world is the weekly paper which has no circulation outside of its city publishing a couple of columns of "Information to Farmers."

Too Much Victory.

The State elections of last week resulted more favorably for the Republican cause than its most sanguine supporters had dared to hope, and—promising that the Republicans continue to *work*, and do not lay idly back under a mistaken idea that victory in November will win itself—decided the Presidential contest adversely to the Tammany candidate.

In Pennsylvania, notwithstanding the calumny heaped upon the Republican gubernatorial candidate, the bitter opposition of many papers calling themselves straight Republican, and the defection of ex-Gov. Curtin and other hitherto influential men, the majority for Hartranft and the State ticket is immense; Ohio has shown that Schurz and Hassaurek are not able to tumble it into Greeley's arms; Nebraska is right side up with care; and in Indiana the Republican victory is a great one, notwithstanding the election of Mr. Hendricks as governor, for the rest of the Republican State ticket is elected and the legislature is Republican, (which secures the return of Mr. Morton to the United States Senate and destroys the senatorial hopes of Mr. Hendricks,) and on the Congressional delegation the Republicans have made a decided gain. That Mr. Hendricks is so much stronger than his party as to run several hundred votes ahead of his ticket and win the barren honor of the governorship of a State whose legislature is Republican in both branches, is the one small crumb of comfort the Greeley men can pick out of the election results in four States.

The Republican gain of Congressmen in these four States has been *too great* to entirely please us; for while we do not undervalue the moral—or demoralizing—effect such gains have had and will have upon the Greeley crowd, we think the Republican majority in the 42d Congress quite large enough, and look upon the addition of twenty or twenty-five to the majority in the next Congress as not wholly desirable. Unwieldy majorities are apt to foster faction quarrels and we believe a good working majority would be better for the party and the country than the overwhelming one which is now promised. But the gain of Congressmen, more even than the large popular majorities in the States which voted on the 8th inst., shows the "powerful weakness" of the Greeley movement; and our preference of a moderate to a very large majority in the U. S. House of Representatives will not prevent us from doing what we can with vote and pen to send three good Grant Republicans there from this State next Spring, in place of the three Democrats who accidentally got there last year.

A FRANK LETTER.—The following letter from Col. C. C. Webster, a prominent and well-known merchant in Concord, will be read with interest. Col. Webster's name stands upon the circulars and letter headings of the "sore-headed" Greeley movement as a member of their State Central Committee, without his consent or approval. The movers in this *mongrel concern* had the impudence to snatch up names and herald them over the country as sympathizers with the movement. Col. Webster proves himself right in the following letter.

CONCORD, Oct. 12, 1872.

O. C. MOORE, Esq.,
Chairman Rep. State Committee.

DEAR SIR:—In a conversation with you a few weeks ago, I told you I was not a member of the Liberal Republican State Committee, and did not act with that party, as many of my friends and acquaintances know. In a letter to the Chairman of that Committee, soon after I received notice of my appointment, I said these words: "I must decline to serve on the committee or act with you in any way;" and I will say now that I have not met with them nor any other organization of the party for the reason that I cannot vote with them. I write this because I have been informed within a few days that my name is being circulated as a member of that committee and party. I am now, as I always have been, a Republican from principle, and shall so vote.

Yours, C. C. WEBSTER.

Political.

Hon. Justin S. Morrill has been re-chosen United States Senator for six years, from Vermont, by the following vote; Senate 26, unanimous; house, 185 to 16 for Waldo Brigham, Democrat.

The Philadelphia *Post*, bought up by Greeleyites at the opening of the campaign, has suspended.

The *Liberal Republican*, a newspaper started as the especial exponent of Greeleyism at Augusta, Maine, has suspended for lack of support. The October elections destroyed its last lingering hope.

Speaking at Indianapolis recently, Gen. Butler quoted the following from the Democratic *Daily Standard*: "The most horrid face ever seen upon a human being is that of Butler; so disgusting is it that those who know him best call him Beast Butler, so brutish is he." He then paid his respects to Bingham, the editor, as follows: "Well now, my friends, I am here, as you see, just as I happen to be. I would have been as good looking a man as the editor of the *Sentinel* if I could, because I claim it as a great right to be the equal of any other man if I can. I do not feel particularly responsible for my looks, but I flatter myself (and I am open to inspection on that point), that I have not very much abused them. You see no whisky pimples on my face. (Laughter.) My face will not do to put as a sign at any whisky shop. (Uproarious laughter, and cries of 'Good,' 'Where are you, Bingham?' 'Hit him again,' etc.) Hit him again—hit who? (Cries of 'Bingham, Bingham,' 'Hit him again.') My friends, I assure you I never saw the editor of the *Sentinel* in my life. (Cries of 'That's too thin' 'Yes you did, though.') I was only speaking of *my* nose and *my* face." (Cheers.)

The Republican torchlight procession at Boston on the 30th will be an immense affair. Organizations from all the New England States will be present, and delegations are promised from New York, New Jersey and Pennsylvania. There will probably be five thousand cavalrymen and thirty thousand or more torch bearers.

A Greeley paper in Minneapolis, Minnesota, "accepted the situation" as follows: There were rumors in town early this morning that elections had been held in several towns and cities in the unimportant states of Pennsylvania, Ohio and Indiana, and that the party called "Republican" developed considerable strength, and elected some of their candidates—and on the strength of these miserable rumors that "blarsted" old *Tribune* rooster wakened us from our morning nap with his senseless crowing. What it published as "election returns" is a mass of halting facts and rash speculations, which give no actual results—but the general indications are that "we have met the enemy, and"—are somewhat disappointed at the result. Decidedly, they are *not* "ours," according to present appearances. Under existing circumstances, it is a comfort to know that we are saved from the trouble of keeping or paroling them—that we are now in no degree responsible for their conduct or its consequences, and if ever so many of them get into State offices and pecome defaulters and steal the public money, they can never "shake their gory locks at" us and say *we did it.*

—The making of the popularity of a hotel is largely in the hands of its Clerk, and the proprietor of the Eagle is lucky in having the services of one whose cosmopolitanism and natural genius perfectly suit him to the situation. Mr. John F. Byron has been connected with the Eagle for years enough to show that his qualities are well appreciated. He has a ready eye to everything; an ever-present disposition to oblige; an undeviating attachment to order and propriety; a polite word, or a hearty joke to dispense as things may warrant; a keen power of analyzing human nature, and a knack of treating it accordingly; a happy nature and an appearance and deportment invariably showing it; in fact a model clerk in every way. His popularity is as true as a proverb. His political position is very decided, as that of a man in his situation ought to be; and no one can doubt, after holding political conversation with him, that he is a devoted supporter of the Greeley-Grant-O'Conor ticket for President, with a tendency of bolting in favor of Daniel Pratt or George Francis Train.—*Concord Patriot.*

—*Counsel*—"How long was this meat in the wagon?"

Witness—"Oh! dat! Vell, now, I not sold any meat so. I all time weigh him; never measure meat, not yet. But I dinks 'bout three feet. (Here the spectators and his Honor and the jury smile audibly.) "I know not, shentlemens, how is dis. I tell you all I can as good as I know."

Counsel—"Look here, I want to know how long the meat was in the wagon before it was taken away?"

Witness (Looking very knowingly at counsel) "Now you try and get me in a scrape. 'Dat meat vas shoost so long in der vagon as he vas in der shop. Dat's all I told you. Dat meat was dead meat. He don't got much longer in den donsan' years, not mooch."

Counsel—"That will do."

—A Detroit boot-black, who lay dozing among his boxes and brushes recently, was accosted by a professional brother: "Here, you Able Thomas, you'd better be a gitting! Your old dad's house has been on fire and everything's 'bout clean gone!" "Sho!" yelled Abe in reply, "then I'm dog goned if I ain't out twenty cents which I paid for two dime novels only last night."

—The St. Louis *Democrat* prints this nice little story: "There is a covered bridge at Peoria five hundred feet above high-water mark. A drover recently attempted to drive a thousand sheep across it. When about half-way over the bell-weather noticed an open window, and, recognizing his destiny, made a strike for glory and the grave. When he reached the sunlight he at once appreciated his critical situation, and, with a leg stretched toward each cardinal point of the compass, he uttered a plaintive 'Ma-a!' and descended to his fate. The next sheep and the next followed, imitating the gesture and the remark of the leader. For hours it rained sheep. The erewhile placid stream was incarnable with the life blood of moribund mutton, and not until the brief tale of the last sheep as it disappeared through the window waved adieu to a wicked world did the movement cease."

—An inebriated Louisvillain chalked the end of his rosy bugle recently, under the belief that it was a billiard-cue.

—A negress in New Jersey has been arrested for feeding a neighbor's baby with bent pins.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

IT IS NEVER TOO LATE TO USE *Hale's Honey of Horehound and Tar* as a Cough cure, but it is best to have recourse to it in the early stages of pulmonary disease, so as to secure *immediate* and *permanent* relief and avoid danger. Crittenton's, 7 6th Avenue. Sold by all Druggists.

HOLLOWAY'S PILLS and OINTMENT.—Habitual constipation, the parent of apoplexy, general debility, and premature decay, is permanently cured by a course of the Pills, and Ointment. Sold 78 Maiden Lane, N. Y. Price, 25 cents per box or pot. Ask for the new style; the old is counterfeited. 19.

LAUGHTER LENDS A NEW CHARM to beauty, when it disclosed a new set of teeth. Whiteness, when nature has supplied this element of loveliness, may be retained through life, by using the fragrant SOZODONT.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Morphia, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

MEDICAL BUBBLES.—Columns would be required to enumerate the medicines that have risen to the surface and burst since Hostetter's Stomach Bitters became the standard cure of the Western Hemisphere. Boasts the most extravagant, fabrications the most preposterous, cant the most sickening, have in turn been employed to bolster up the worthless preparations that have from time to time been introduced, in hope to be dividing the field with that famous vegetable remedy. Signal failure has been the lot of each and all. The reputation of the Bitters as a preventive of epidemics, a stomachic, an invigorant, a general restorative, and a specific for indigestion, bilious affections, rheumatism, nervous debility, constitutional weakness, paroxysmal fevers, and all complaints to which the more sensitive sex is exclusively liable, is established upon the sound basis of more than twenty years' experience, and can no more be shaken by the clap-trap nostrums of unscientific pretenders than the everlasting hills by the winds that rustle through their defiles.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

HAVE YOU SEEN HER?—A lady who for the last five years has been a leader of fashion in New York, and who may be seen twice a week in her elegant caleche driving a pair of superb ponies in Central Park, has recently stated, in the select circle to which she belongs, that she only article in existence which imparts beauty and haste to the complexion without ultimately impairing the texture of the skin and causing it to collapse and wrinkle, is HAGAN'S MAGNOLIA BALM. The name of the distinguished member of the beau monde who has made this declaration cannot with propriety be given, but it may be mentioned *en passant* that she has spent several years of her life in Europe and is familiar with all the arts and preparations employed by the court beauties of the old world to enhance their charms.

SO GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastiles for Coughs, Cherry Pectoral Cough Drops, Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bonions, Ingrowing Nails, Sore Instepes, Blistered Heels, Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. al2

The grand jury will probably report to-day. It is said div-rs indictments will be found against liquor sellers in this county.

Trafton's fast freight business is a success.

The sewing machine business must be a profitable one, judging by the number of agents established here. A "Howe" agent is the latest arrival.

Ice will soon ripen.

A stroll through Harmony Grove Cemetery will surprise persons who have not been there for a twelvemonth. Improvements are marked and numerous, under the superintendency of Benjamin Cheever, Esq. One is liable to remember, also, that more persons have died than now live.

It is said that Mr. and Mrs. Edwin Booth will appear here Oct. 29th as "Romeo and Juliet."

The Greeley flag formerly flung across Islington Street from Congress Block has gone to tatters, but the names of Greeley & Brown had nearly faded from view before it was wrecked. The Grant flags still fly high in air, having been but slightly damaged by Boreas and Pluvius.

The hangers-on at Court do not seem to know what to do with themselves when Court is not in session.

Hon. Frank Jones, president of the Portsmoth and Dover Railroad, has given his personal attention to bonding almost the entire land required for the use of the road between Portsmouth and Dover.

We were mistaken about the hand organ man's departure with the potato bug. He returned on the 16th.

The Concord *Peanut* is much exercised about Greeley's majority in Portsmouth. The indications now are that Grant and Wilson's majority in Portsmouth will reach 500, and would be 1000 if all the Democrats who proffer votes for Navy Yard jobs could be accomodated.

The urbane and gentlemanly editor of the Concord *Patriot* seems to find it harder work to swallow the results of the late elections than he did to swallow boiled crow, and "goes for" whatever annoys him something after the manner of the lady fishdealer of Billingsgate. He says "The editor of the Portsmouth Popgun takes off his hat in imagination to the Greeley guard. This practically solves the problem concerning taking nothing from nothing." You are mistaken, Mr. *Patriot;* it was not the editor of the Portsmouth Popgun, (which is a crow-mangling sheet) who removed the imaginary hat, but the editor of the CHRONICLE; and we removed it from *our* head and not from yours or the Greeley guards'. But had it been the Popgun's editor, as you imagined, your "old white coat" must be terribly thin when a popgun missile could make you hop so.

All those who enjoy a good time should not forget the Social Assembly at Congress Hall this (Thursday) evening. Floor tickets 50 cents, Gallery 25 cents.

A legal gentleman says that the public trial of divorce cases at the S. J. Court would be liable to discourage any parties now contemplating matrimony who listen to the evidence.

Good "Pluck."

Obstinate, bull-dog determination or "pluck," even when displayed in a bad cause, always wins a certain amount of admiration for those who display it, except when it is displayed by a wife in opposition to her "lord and master," in which case the latter seldom sees anything to admire in it. The most marked exhibition of this quality which has come under our notice has been shown by the getters-up of the Greeley and Brown Guards in this city. Long ago, at the time all the prominent Republicans and very nearly all the less noted ones were hastening to place themselves under the Greeleycratic banner, and the woods were crowded with deserters from the "office-holders' party" to that of the office-seekers, a Greeley and Brown Club was formed. On the 31st of August, the local Greeley organ announced that "the young men of this city between the ages of 18 and 21 years, propose to organize a company of Greeley and Brown Guards. They will meet at the Greeley and Brown headquarters on Congress Street next Tuesday evening, for the purpose of effecting an organization."

On the 2d of October the same paper called for "a full attendance" of the "Young Men's Greeley and Brown Club" "for the purpose of drill,"—from which an anxious public naturally gathered that a company of Greybacks had been formed; and on October 3d hope was ripened into certainty by the announcement in Mr. Greeley's *Lyre* that "last evening the club formed a guard,"—most encouraging progress, and a good illustration of the tremendous enthusiasm for Greeley in this city, when the club managed to form a guard just a month from the evening on which they first met "for the purpose of effecting an organization." But even with a month of preparation, and cheered and encouraged as they were by the "five per cent. gains in Maine" which assured Greeley's election, the Greyback organizers had not succeeded in so far cooling the enthusiasm of their followers that they dared trust them on the streets to hurrah for Greeley when the glorious Dolly Varden victories in Pennsylvania, Ohio, Indiana and Nebraska were announced; and finally, after the *Lyre* of October 14th had proclaimed positively that the "first street drill" would take place on the evening of the 15th, just *six weeks* after the first meeting "for the purpose of effecting an organization," the promised first street drill didn't come off and a waiting city-full went to bed disappointed. We are told that the torches and uniforms didn't arrive in time, which shows the bad effects of having too much enthusiasm to be able to attend to details, for a less enthusiastic crowd would have managed in some way to have got their torches and uniforms ready in six weeks. Nothing daunted, however, the Greeley managers have persisted in their work and at last have really got a company of Greeley and Brown Guards to appear in Horace's livery on our streets.

On Wednesday evening, Oct. 16, at about 8 o'clock, the roll o' the stirring drum was heard on Congress Street and the funeral procession moved. In the ranks were just thirty-eight torches, about ten men and numerous boys,—from which it seems that it has taken fully a day to get up each Greeley Guardsman, forty-four days having been used up in making ready a company of not fifty persons. And this in a city where there are 140 "liberal" Republicans and not five Democrats who will not vote for Greeley!

The procession was expected to move at half past 7 o'clock, and after the crowd had waited for some time past that hour and no procession appeared, an injurious rumor was circulated to the effect that the corpse was lost; but the suspense was soon ended by the appearance of the handsome white uniforms of the mourners, who started up Congress Street,—few in numbers, sad, but resolute. As a show it was good, but not imposing. As a political demonstration it was an unapproachable fizzle,—tho' it was quite as good as the present quotations of Greeley stock would warrant.

State News.

Governor Straw and Ex-Governor Smyth have each, for several years past, been engaged in the erection of elegant mansions in the northerly part of Manchester, where they purpose to spend the autumn of their days.

B. F. Moody's farm house and outbuildings in Sanbornton were burned Tuesday morning. Loss, $1500; insurance, $850 in New Hampshire company.

Senator Wilson and Gov. Jewell of Connecticut addressed the Republican mass meeting at Concord, Tuesday. In the evening there was a grand procession, 3000 torches being in line. At the State House, there was a brilliant display of fireworks.

Several bears were seen in the vicinity of the Halfway House, on Mount Washington carriage road, by workmen a few days since.

PLANTS GROWING IN WINDOWS.—Thousands who try to grow plants in pots, tubs or boxes fail, mostly because they let the pots be exposed to the hot sun. Now we never see the roots—that is, that part which draws nutriment from the soil—fully exposed to the sun in a state of nature, and this should teach window gardeners to shade the pots and boxes in which their plants grow.

Another cause of failure is allowing the leaves to get dusty. The leaves being in reality the lungs of the plant, it is imperative that they should be kept clean. I have often been asked why plants did not do well in windows, and it is often quite difficult to answer without seeing the plants but the general failures occur from the causes I have named, for it stands to reason that if half the roots of a plant are burned off repeatedly and the leaves are killed with dust, that sickness will be the result. It is easy to clean off the dust by taking a little broom or brush and dipping it in water and flirting it over the leaves of the plants two or three times a week. Try it, ladies.—*Prairie Farmer.*

Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE

SEWING MACHINE
IN THE MARKET,
All others being copied from its first model. does two-thirds the sewing done in this country and preserves its advantages over all others combined.
It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

Morning Chronicle.

SAGACITY OF A MARE.—A remarkable instance of the sagacity (is it not reason?) of a horse has come to our notice. Mr. John Fletcher of Norwegian owns an unbroken cayuse mare, which runs in a pasture adjoining his house. The mare (which is very wild) has a young colt at her side. A few nights since, after Mr. Fletcher had retired, he was aroused by the mare coming to the window of his house, and by pawing, neighing and in every way possible trying to get his attention. This continuing for sometime, he got up and went out and drove her away and returned again to bed; but she immediately returned, and, if possible, increased her demonstrations.

He again went out, when the mare came up to him and rubbed her nose against him, although always before she had been very shy of allowing any one to come within reach of her, then ran on a few yards before him continuing her neighing; then, as he did not follow her, she returned to him in the most demonstrative manner. He attempted to drive her off, struck her with a stick, and followed her a few yards to frighten her away. As soon, however, as he turned towards the house she returned and tried in every way to prevent him from doing so. He then remarked that her colt was not with her, a fact he had not noticed before as it was quite dark. It occurred to him then to follow her, which he did.

So soon as she saw he was doing so, she ran off before him, stopping every few yards, turning around to see that he was still following, then again running on, keeping up her calling, until she reached a distant part of the field, where she stopped at an old "prospect hole." On coming up with her she again commenced rubbing against him, and drew his attention to the hole, where he soon discovered the colt. It appears it had slipped into it and was unable to get out, and the mare had taken this method to obtain assistance.

Being unable to get it out alone, Mr. Fletcher went for some of his neighbors, and with them returned. While they were taking the little fellow out, the mare manifested the most intense delight, and seemed almost beside herself with joy; and afterwards, when the men had got out of the hole she came up to Mr. Fletcher, and placing her nose on his shoulder gave every sign of gratitude that a human mother might under similar circumstances. Who will say the horse does not reason?—*Virginia City Montanian.*

AYER'S HAIR VIGOR
FOR RESTORING GRAY HAIR
TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of these causes tends to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S compound still has introduced as excellent for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the glossy and freshness of youth. The comparatively few bald and gray heads, that we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your youth restore to their original brightness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY DURATIVE he could prescribe. After a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many incredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating the increase expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic, and a powerful aid to the digestive organs. It is a gentle aperient, and relieves constipation. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!
Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the choice of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning; when a physician may be not at immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all the afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

For Coughs,
Croup,
Diphtheria,
Asthma, &c.
USE BUCHMAN'S
PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, it not an experiment, is not composed of any ingredients "discovered" by traveling in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured thousands. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters relating thereto. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioner with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors who may desire to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

AYER'S
SARSAPARILLA
FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always aggravating and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome diseases. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some vital organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Erysipelas and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration, and uterine diseases, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

AYER'S
CHERRY PECTORAL
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public short forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never enjoyed by any other medicines. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded. If the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the trouble it affords in sudden attacks, and by its timely use.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

AYER'S PURGATIVE PILLS.

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Ulcer, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupulina, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, Itching, Humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUGHS, Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the piercing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Alleviator for ordinary corns and preventing their formation is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACKER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

The Latest Style NECK-TIES, COLLARS, and CUFFS. CHAS. E. SHEDD & CO.

The Chronicle.

—A story comes from France which illustrates for the hundredth time the great danger incurred by people who, through affection or the dread of drawing public attention to the most terrible of family taints, neglect to put their lunatic kindred under adequate restraint. A member of a highly respectable family became so seriously affected by mental disease that his relations felt that he could no longer remain with them, but, unfortunately, instead of placing him in an asylum, sent him to a country-house belonging to a member of the family, who, however, did not reside there, and put him under the surveillance of a trustworthy female nurse and a gardener. One afternoon, when the gardener had gone to the village, the madman summoned the house-maid, and broke to her the cheerful news that he was prepared to put an end to both their lives. With the view of ridding death of its sting, he said he could contrive it so as to be perfectly painless, and that he should kill himself immediately after he had despatched her. The poor woman entirely lost her presence of mind, and, casting herself at his feet, implored his mercy; but in vain. When, in a few minutes, he advanced, with hand upraised, she, in despair bounded to the balcony, and, throwing herself off it, landed fainting below, her fall being broken, (and subsequently her life saved,) by clusters of bushes. When the gardener came home, the unhappy man was hanging to the bulusters.

A MAN WHO KNEW ANN STREET.—In coming from Syracuse I met with a *contre-temps*, or rather a country-temps. Says he, "Be you from York?" Says I, "I'm your vinegar." Says he, "Much acquainted down there?" Says I, "That's me exactly." Says he, "Do you know Ann Street?" Says I, "Unusually so." Says he, "Well, I declare. I want to know if you really do know Ann street?" Says I, "Sure as a pickery." Says he, "Well, how does she get along?" Says I, "She's flourishing." Says he, "I suppose she's growing finely?" Says I, "Growing? I guess she is growing! They are putting up a building seven or eight stories high on one of her corners for the *Herald*." He looked at me amazed, and Says he, "Putting up a building on one of her corners?" Says I, "Yes." Says he, "Look here stranger, there's some mistake. I guess the Ann Street I mean and the Ann street you mean, are two different people. I was talking about a niece of mine who went to New York a year ago to learn the millinery business." Says I, "Why in thunder didn't you say so?" Says he, "I did."

—The quintessence of the omnivorous is supposed to be imaged in the hog, but a hog is a Peabody among animals alongside of a hen. Hens are by nature monopolists. When the subject of victuals is mentioned they are evidently listening. Throw a handful of corn into a ten-acre lot, and every hen in the enclosure will get a dab at it. The last hen on the spot may not secure more than two kernels, but nothing in the hen's appearance will indicate that. It will step around with as much precision and gratitude as any in the flock, and wear the most pensive smile you ever saw. A hen will not eat everything it sees, but it will try to, and there isn't one on the face of this earth but that can tell you the taste of everything it has seen within the radius of half a mile of its house. It is only when a man has kicked at a hen and missed it that he begins to understand how thoroughly hollow and deceitful this world is, and it is a marvelous fact in this connection that he will miss the hen if does kick at it and misses it if he don't.—*Danbury (Conn.) The Daily Chronicle,

Portsmouth, N. H.

FRIDAY, OCTOBER 18, 1872.

Not Transferable.

A marked difference in the power over their respective parties wielded by "leading men" among the Republicans and among the Democrats, has been developed by the present Presidential contest. Men who had acted for years as leaders in both parties, who had been supposed to "carry their party with them" and to be able to a great extent to shape the course of their constituents, entered into a conspiracy—the Democratic conspirators agreeing to carry their party over to the support of a man who had all his life been calling them such pet names as "lovers of rum," "haters of niggers," "lewd, ruffianly and dangerous classes," "horse-thieves," etc., and the Republican conspirators promising to bring over a sufficient slice of their party to insure the triumphant success of that elevated, noble abd godlike principle, "anything to beat Grant."

That Greeley and the Cincinnati platform were as distasteful a dose as could be offered the Democratic masses, no one who has talked with a score of Democrats since Greeley's nomination at Baltimore can doubt; but they were told by their leaders to swallow it, and they meekly obeyed. True, a fraction of the party refused—and still refuses, to partake of the nauseating dose, but the insubordinate Democrats are hardly more numerous or of more importance than the renegade Republicans; the great mass of the Democratic party blindly obeyed the orders of their trafficking leaders, and swallowed the "bitter pill,"—all the more bitter now that it is felt to have been poison instead of a beneficial medicine.

The deserting Republican leaders also ordered their followers to swallow the nasty mess concocted at Cincinnati and Baltimore; but how wretchedly they had mistaken their influence. Instead of being humbly followed into the coalition camp by the thousands they had expected, a beggarly array of dozens only came. "Go, if you will, but you cannot carry us with you," was the response to their orders, from the men they had always fancied they led—not merely represented.

Yet the renegade Republican leaders stood as high with their party, and as long as they worked in the party seemed to be as powerful as the Democratic leaders. Sumner, Trumbull, Schurz, Greeley, Fenton, Banks, Cochrane, McClure and Curtin were apparently as influential with their party as Hendricks, Voorhees, the Blairs, Beck, Eldridge, Fernando and Ben Wood were with theirs; and the very small following the former could detach from the Republican party was owing to the fact that the party supported *principles* and not merely men, and that it was as exponents and advocates of those principles and not as "great men" that the Republican party had elevated them to places of honor and trust. Horace Greeley as editor of the leading Republican paper of the country, was a power; Horace Greeley scolding the Republican party for refusing to restore to power the men who tried to destroy the Union, is a laughing-stock. Charles Sumner as the champion of equal rights was an idol; Charles Sumner attempting to throw the freedmen back upon the tender mercies of their former masters, is repudiated. And thus with them all; so long as they worked for the advancement of the principles of the Republican party they were applauded and supported; the moment they deserted those principles they found themselves abandoned by their party. The Republican masses *think for themselves*, and men who once fancied they "led" the party are just finding it out.

Greeley.

Among the odd developments of this extraordinary campaign is one that is too good to be suffered to pass unnoticed. It has transpired that, before the opening of the last session of Congress, the leading Republicans had consulted together upon some means of harmonizing the party and settling some of the distractions that threatened to tear the whole organization to pieces. Of these, as usual, the most conspicuous and formidable was Horace Greeley. All previous efforts to satisfy or pacify him had failed. His own paper has boasted that he had been offered important European missions by Lincoln and others, and had refused them. One of these, the mission to Austria, he did not deem important enough for his great pretensions. He wanted either the mission to France or England, or to go into the Cabinet. It may be considered remarkably fortunate that such a blundering mischief-maker, as he showed himself in his Canada negotiations, did not get a chance to embroil us with any European power.

These facts being known at Washington to the Republican leaders, it was determined to offer Greeley the Vice Presidency, as in that position he would be comparatively harmless, and yet the dignity might satisfy his vanity. He accepted the offer, and in pursuance of the agreement, Vice President Colfax wrote and published his letter declining again to be a candidate, and withdrawing from public life. Mr. Colfax thus generously sacrificed himself to satisfy the mad and desperate ambition of Horace Greeley, and to harmonize the Republican party. But after all this was done, some southern politicians invited Horace to visit the south, which he did, and during his tour they flattered and caressed him to such an extent as completely to upset his judgment; so that, on his return, he expressed himself as strong enough to take the first place on the ticket instead of the second. This, of course, put him out of the Republican calculations. He could not get the party nomination for President, and he knew it, because the party was overwhelmingly against him; so he set himself to intrigue for a coalition nomination, and got it.

But in the meantime his shifting and changeful course had put Mr. Colfax out of the field, without helping the party; and those who had been determined not to accept Horace, even for Vice President, had already occupied the field with arrangements to nominate Henry Wilson. We cite these facts for the purpose of showing that Mr. Greeley's present position is attributable to no public principle at all, but solely to his desperate ambition and overweening vanity. At almost any period of his public life he could have commanded important and influential positions, but whenever any of these were placed within his reach he did not think them important enough, and demanded something higher. And even at the time when he was maintaining a separate Republican organization of his own in New York city, in the interest of the Tammany Ring, he was a candidate first for Governor of New York and next for United States Senator.

The public at large, which had been kept in ignorance of these things, and misled by an extraordinary belief that Horace Greeley was an honest though misguided fanatic, has given him a vast power to do mischief, and he has used it most unscrupulously. President Lincoln's wearied and hopeless exclamation, "Will nothing quiet Horace Greeley?" expresses the spirit of all the leading Republicans whose judgment was of any value. They were embarrassed and annoyed beyond the power of expression by a man controlling a paper of such circulation and influence, who was forever dictating policies, and demanding acts of the most extraordinary character, who had not the faintest capacity for legislation or administration, and yet who was perpetually admonishing or denouncing those who had proven their high capacity.

The agreement to nominate him for the Vice Presidency was a despairing effort of men who were fairly at their wit's end to know what to do with such an *enfant terrible*. As for openly attempting to do anything to offend the representative of such a body of enthusiastic Republicans as the subscribers of the *Tribune* no one dreamed of it. Fortunately, however, Mr. Greeley saved us a great deal of trouble, by going over to the enemy. That at once cleared the field of action. We all knew then that his power for mischief was at an end; that his Republican followers would desert him, and that now at last he would be quieted. Once safely lodged in the Democratic ranks a humiliated and defeated candidate, he may blaze away at the Republican policy and party to his heart's content, for it will do us less real damage than the ingenious, well written assaults of the *World*. It was only his position as a leading Republican that gave him the power to do so much mischief.

In some of his public speeches in this canvass Greeley has complained of the attacks made upon him, which attacks, however, were nothing more than overhauling his record, as in Buckalew's case. Yet at the same time his own paper, the New York *Tribune*, has been filled with slanders of Gen. Grant and all his officials and supporters, against whom any semblance of a charge could be manufactured. It has attempted to blast the good name of the gallant Hartranft by the most venomous and disgraceful slanders. It has industriously propagated every false charge that could be found anywhere against all the leading Republican supporters of Grant, and has, in fact, degenerated into a mere sluice-way for political garbage. During the recent gubernatorial canvass it saw fit to continually address the *North American* in an artful manner, in the hope of enticing us to waste time in a newspaper controversy; and it complained because we refused to fall in the snare. But the *Tribune's* high position is lost. Its power is gone, and we trust it will be a long time before so many of our people shall again repose so much confidence in so unworthy a quarter. — *Philadelphia North American.*

Political.

Gen. Hawley has been unanimously nominated for Congressman by the Republicans of the First Congressional District of Connecticut.

New Yorkers are betting $100 to $10 that Grant carries the State.

Mr. Samuel Bowles of the Springfield *Republican* is one of the four editorial daddies of the Cincinnati ticket, and he knows all about it. He has heard from the October elections, and, though cast down, is not dismayed. He still hopes for victory if the courageous Liberals will "steady the column and push ahead." Just as if the whole thing *hadn't* been going stern foremost ever since it was set afloat, says the Missouri *Democrat*.

South Carolina.

The State election occurred Wednesday. The Democrats had no ticket in the field, the contest being between factions of the Republican party. But few returns are in, but the election of the regular ticket—that with F. J. Moses, Jr., for governor—is conceded, and the majority over the bolters' ticket is thought to be 20,000. The only Democratic opposition was in the fourth congressional distict, and the Democratic candidate is probably elected. Four Republicans are elected to Congress—the same as in 1870.

State News.

The barn, twenty tons of hay, four oxen and farming implements of Levi M. Glidden of New Durham were totally consumed by fire about ten o'clock Monday night. It was the work of an incendiary. No clue has yet been obtained to the perpetrator of the deed. Loss $2000; insurance $300.

The barn of F. E. Ladd of Laconia was burned Tuesday night, with considerable wheat and rye. Insured $300; loss $800.

Mrs. Mary Keyser, who was shot by Henry Harrison Nutting of Mason, because she would not marry him, has sworn out the proper papers against him, and had him arrested.

The News.

Senator Patterson has accepted the Presidency of the Ohio Agricultural and Mechanical College, and will enter upon its duties at the close of his Senatorial term.

The steamer Providence of the Fall River line came in contact with a dredging-schooner last Tuesday night, on her trip from New York, and was subsequently run aground. She was disabled, and her passengers transferred to the Narragansett.

The foundering of the steamer Lac La Belle continues to excite particular interest at Milwaukee. The captain, officers and crew and several passengers have arrived there. The actual number of lives lost is still uncertain, but it is estimated from fifty to seventy-five. The scene when the vessel was foundering was terrible. The loss on the steamer is estimated at $30,000. The cause of the disaster is believed to be shifting the cargo.

—A Bethel man discovered that a stranger he rescued from a watery grave was not a long lost brother, but a party he owed three dollars and a half for turnips. The Bethel man retired in disgust.—*Danbury News.*

CASTORIA.—A substitute for Castor Oil—is a physic which does not distress or gripe, but is sure to operate when all other remedies have failed. You may confidently rely upon the Castoria in Stomach-ache, Constipation, Flatulency, Croup, Worms, Piles or deranged Liver. It contains neither Minerals, Morphine, Opium nor Alcohol, but is purely a vegetable preparation, perfectly harmless, and above all, pleasant to take. The Castoria soothes and quiets the system, and produces natural sleep. It is a wonderful thing to assimilate the food of children and prevent them from crying. A 35 cent bottle will do the work for a family and save many doctors' bills.

MEDICAL BUBBLES.—Columns would be required to enumerate the medicines that have risen to the surface and burst since Hostetter's Stomach Bitters became the standard tonic of the Western Hemisphere. Boasts the most extravagant, fabrications the most preposterous, cast the most sickening, have in turn been employed to bolster up the worthless preparations that have from time to time been introduced, in hope to be dividing the field with that famous vegetable remedy. Signal failure has been the lot of each and all. The reputation of the Bitters as a preventive of epidemics, a stomachic, an invigorant, a general restorative, and a specific for indigestion, bilious affections, rheumatism, nervous debility, constitutional weakess, paroxysmal fevers, and and all complaints to which the more sensitive sex is exclusively liable, is established upon the sound basis of more than twenty years' experience, and can no more be shaken by the clap-trap nostrums of unscientific pretenders than the everlasting hills by the winds that rustle through their dells.

PILES.—The unceasing torture from internal bleeding, external and itching piles is fast wearing away the thousands of those who are afflicted and their hope and courage have long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using BRIGGS' PILE REMEDIES.

USE BUCHMAN'S PULMOCINE CORDIAL for all throat diseases. For sale at the Union Store.

HAVE YOU SEEN HER?—A lady who for the last five years has been a leader of fashion in New York, and who may be seen twice a week in her elegant caleche driving a pair of superb ponies in Central Park, has recently stated, in the select circle to which she belongs, that the only article in existence which imparts beauty and lustre to the complexion without ultimately impairing the texture of the skin and causing it to collapse and wrinkle, is HAGAN'S MAGNOLIA BALM. The name of this lady is published member of the beau monde who has made this declaration cannot with propriety be given, but it may be mentioned *en passant* that she has spent several years of her life in Europe and is familiar with all the arts and preparations employed by the court beauties of the old world to enhance their charms.

SO GENERAL has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral. Lozenges, Dr. Ayer's Troches, Ayer's Pastiles for Coughs, Cherry Pectoral Cough Drops. Ayer's Fever and Ague Cure, Dr. Ayer's Indian Pills, &c., (none of which are Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes elude the law, and purchasers must protect themselves by refusing to be deceived by them.

CORNS.—Since pride and fashion have had control of mankind, and shoemakers were compelled to make boots and shoes to fit fancy instead of the feet, the suffering from Corns, Bunions, Ingrowing Nails, Sore Insteps, Blistered Heels; Callosities on the bottom of the feet, &c., cannot be described. But Briggs' Corn and Bunion Remedies will cure all such torments, and proper fitting boots will prevent their reproduction. Sold by all druggists. a12

LOCAL AFFAIRS.

Laconics.

If what the poet says is true, that "Moonlight hours are made for love," there has been a light exchange of that commodity since the entrance of the year 1872.

A citizen suggests the building of a bridge across the gully near the Universalist church on Pleasant Street.

The uniform of the Greeley Guards is highly admired by the servant girls.

Says a correspondent, referring to our answers to Willie's malignant attacks on citizens, "why waste cannon balls on a mosquito?"

Who "*compelled*" the workmen at the Navy Yard to buy torches and capes? Did *you*, Elbridge? Silly Billy says somebody did.

The south-enders fully appreciate the improvements made on the streets in their part of the city. No property holder regrets the money invested in the betterment of streets and sidewalks not only as a benefit but as one of the chief features of attraction to any place.

Visitors to North Conway speak in glowing language of the beautiful and varied tints of the Autumnal foliage which is seen along the Portsmouth, Great Falls and Conway R. R. Vine, shrub and tree have photographed the hues of summer sunsets, and nook, valley, hill and mountain are gleaming in one grand melange of colors which might vie in brilliancy with the scintillations of fallen rainbows. Every lover of nature should visit and behold this glorious panorama, which is only seen at this season.

Willie, of the *Lyre*, objects to our calling the editor of the Concord *Patriot* "urbane and gentlemanly." Who on earth set *him* up as a judge of what constitutes a "gentlemanly editor," or a gentleman, anyway?

Did you ever notice how a whipped dunghill rooster will spunk up and ruffle his feathers at his victorious antagonist when another bird of his breed comes to his rescue?

The Springfield *Republican* calls the great American standard-bearer, Sergeant Bates, "the champion jackass of the world." This will be discouraging news to Willie.

Mr. Eldredge's house at No. 38 Islington Street was sold by auction on Thursday to Mr. John S. Grant for $4600.

The editor of the Manchester *Union*, who has been visiting the Lincoln Street School in that city, "found all the scholars of eight divisions assembled in the upper hall ready for exercises of the morning. There were 325 scholars, of both sexes, *not one* of whom was tardy, and eight young ladies, assistant teachers, all under the general direction of Mr. B. F. Dame, the teacher, who led the morning devotional exercises. We tremble for Mr. Dame lest in his management, he should arrive at absolute perfection and have to sit down and cry, as Alexander did, because there is no more to be done." Mr. Dame's departure from Portsmouth was Portsmouth's loss and Manchester's gain.

Miss Rice's Bequests.

The will of the late Arabella Rice of Portsmouth was presented for probate at Exeter on Saturday. The whole amount of her estate is said to be about $600,000. Her bequests were as follows: To each of her first cousins, $12,000; Alexander Rice of Portsmouth, $6000; Miss Eliza Rice of Portsmouth, $6000; Mrs. Edgecomb and Miss Sarah Edgecomb of Washington, D. C., $6000 each; Miss Mary and Lucretia Larkin of Portsmouth, $6000 each; Hon. Ichabod Goodwin of Portsmouth, $3000. To each of the following charitable societies in Portsmouth $3000: Portsmouth Marine Society, Domestic Missionary Society, Howard Benevolent Society and Humane Society. The annual income only of each sum to be used. To Portsmouth Athenæum $3000, the income to be used for the purchase of books; South Parish (Unitarian) of Portsmouth $3000, one-third of income to keep family cemetery lot in order, and balance to the poor; town of Kittery $20,000, the income to be used for a town library, under restrictions; insane asylum at Concord $20,000, the income for the support of insane poor. To charitable societies in Boston $5000 each, as follows: Association for relief of aged and indigent females, Channing Hospital for women, Society for Prevention of Pauperism, Seaman's Aid Society, Boston Dispensary—in each case the income only to be used. Sailor's Snug Harbor, Boston, $20,000. General Theological Society, Boston, $3000. To the Misses Coffin, Boston, her grandmother Morton's Bible, family mourning ring, dated 1748, two silver tankards and other family relics. In the codicil she gives $2000 each additional to the Howard Benevolent and Domestic Missionary Society in Portsmouth; $10,000 more to the Free Library in Kittery, and $5000 to each of these Boston societies—Howard Benevolent Society, Boston Provident Association, Boston Seamen's Aid Society, Home for Aged Men, Consumptives' Home, Massachusetts Infant Asylum and to Massachusetts General Hospital (for free beds.) Her first cousins are made residuary legatees, and her cousins Thos. Coffin, John Coffin and Edwin Rice are the executors. The will was made in May, 1867, and the codicil in July, 1868.

S. J. Court.

The first week of the term was assigned for the trial of actions upon the Equity Docket.

The following divorces have been decreed:

Dorothy W. Adams from John S. Adams.

Dulcinea H. Jones from Charles H. Jones.

Elizabeth Grimshaw from John Grimshaw.

Mary E. Carr from Nowell O. Carr.

John P. Sanborn from Mary J. Sanborn.

Thankful Quint from Joseph Quint.

Joseph Pinkham, petitioner *vs.* persons unknown. Judgment on report for partition.

The Grand Jury returned 30 indictments on Thursday afternoon, and were discharged; 13 indictments are for violation of the liquor law. The following arraignments were made:

John. F. Miles, Epping, selling liquor; plea *nol con.* Fined $50 and costs.

John Smith, a French Canadian, for aiding in robbing dwelling and store of John E. Holmes at Greenland. Plea "guilty;" sentenced to State Prison for three years.

Matthew McCloud, Portsmouth, for stealing watch from a brothel kept by Archibald McDougall; plea "guilty." As he stated that money was taken from him in the brothel and he took the watch to get even, Judge Doe gave him a light sentence—$1 fine and one week's imprisonment in jail.

Alfred Randall, Londonderry, three indictments for assaults on George E. Anderson and resisting Sheriff Dustin. Plea, "not guilty." To be tried.

James Stanley, charged with larceny from a schooner at this port, plead "not guilty." To be tried.

Dennis McCarthy, Portsmouth, assault with intent to commit rape on Henrietta Morrill; plea, "not guilty." To be tried.

Nettie Simes, for firing a barn in Nottingham, cause jealousy; plea, "not guilty." To be tried.

A PETRIFIED BABY.—A petrified baby has been exhumed from a Chicago cemetery. The *Times* report says: "All save the mother of the little infant stood mutely looking upon it and she became nearly frantic with excitement from the first moment that the body was exposed to view. She had endeavored to take it from the coffin, crying bitterly, and wildly insisting upon taking it with her to her home. Her husband held her back and would not allow her to remove it. The mother seemed nearly distracted with grief at the thought of its being re-interred. It looked so natural and so beautiful, so like the baby she had placed in the grave ten years ago, that it brought up all her sorrow afresh, as if she was now laying the beloved darling in the earth. The body was removed, with others which the family had come there to exhume, to Graceland and re-buried. The family are Swedes, and, it was learned, reside a short distance out of the city. The child so remarkably preserved has been buried more than ten years."

THE PAPER BAG INVENTION.—Miss Maggie Knight, of Holyoke, has originated and successfuly patented a square bottomed paper bag, which is, without a doubt, destined to supersede all other styles for the general use of grocers and others, the invention securing far greater convenience in handling and additional strength. Miss Knight has now further increased the value of her discovery by inventing a machine for folding the bags, which has also been patented, and the first large machine is now building at the Ames Company's machine shop in Chicopee. The machine is designed to do the work of thirty girls, cutting, folding, pasting and drying 30,000 per day-with the assistance of two girls as tenders. When the fact is taken into consideration that about half a billion sharp-bottomed bags were made and used in this country last year, the importance and probable financial results of these patents will be more readily appreciated.—*Woman's Journal.*

—A California farmer has shipped 600 tons of fruit from 190 acres this year.

—An elderly Danbury gentleman is shocked at the intelligence that almost every young lady carries a paper to back her.

—We note with pleasure one excellent result of Laura Fair's acquittal, to wit: The organization of the San Francisco Married Woman's Mutual Protection Association.

—Holyoke has an amateur drum corps consisting of eight or ten members, who were out for drill on Friday evening for the first time, and intend to do duty during the present Presidential canvass. Bets are freely offered that they can make more noise than any band in the country.—*Boston Globe.*

Portsmouth's drum corps can discount them.

—A little Danbury boy ran away from school, Monday, to go chestnuting. During the expedition he fell twice out of one tree to the imminent danger of breaking his neck, was licked by one of the other boys whose breath he materially lessened by stumbling against his stomach, ran a sliver into his knee and was bitten violently on the neck by a new kind of bug. When he got home his father anointed him with the boss end of a billiard cue, and the next day at school the teacher escorted him twice around the room by his poorest ear. He says that chestnuts are so wormy this year that it don't pay to go after them.—*News.*

—A Halifax man married a lady without consulting his grown-up daughters. They whipped him, pulled his hair, and took him home in triumph.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model, does two-thirds the sewing done in this country and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

Old Time Chronicles, No. 59.

BY UNCLE JOSEPH.

DIXVILLE.—In the early part of the present century there lived in Boscawen, Colonel Timothy Dix. He was a surveyor of land and was employed in surveying portions of the almost unexplored regions back of the White Mountains in the northern part of the State. In part pay for his services, a territory of land was granted him in 1805 for a township, and in honor of him, was named Dixville, which name it still bears. Hon. John Langdon of Portsmouth was Governor that year and the legislature granted an act of incorporation. The town is large, embracing more than thirty-one thousand acres. This is nearly equal to the whole of the four towns Greenland, Stratham, North Hampton and Rye. It is one of the extreme northerly towns in the State and is 146 miles miles from Concord. It was then covered by the primeval forests and very much of it remains so to this day.

How much the avails of this grant were to Col. Dix we do not know. One account is that he settled there himself, but we doubt it. Somebody settled there, however, for in 1805 it was found by taking the census that the population was 2. Wonder if there was more than one family! But "increase and multiply" is the Divine law, and in 1810 the population was 12. This was the greatest number it has ever had. In 1820 it was down to 2 again. By the census of 1870 it was three.

The town is mountainous, and a gap, through which is a road, is called the Dixville Notch. The walls of stone on each side raise 600 and 800 feet high. It is thought that if that part of the State shall be largely settled this Notch may be visited by parties for recreation and pleasure. And the wood and timber of the town may be valuable.

It is only to be added that this Col. Dix, to whom the town was granted, was the father of Hon. John A. Dix of the State of New York, who has been nominated by the Republicans for Governor of that State.

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of these causes tends to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with your features to their original softness and agreeable expression.

It is an elegant dressing for beautifying the Hair, it has no superior.

Buchman's Pulmocine Cordial

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best PULMONARY CURATIVE he could prescribe, after a dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are WILD CHERRY BARK, SQUILL ROOT, LIQUORICE ROOT, BLOOD ROOT, &c. It is a BLOOD PURIFIER, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England,

Pulmocine Cordial

Is a speedy and reliable Preventive and Remedy. EVERY FAMILY should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred THROAT DISEASES at all times prevalent, it is the ounce of PREVENTION. Children attacked with Whooping Cough or Croup should be immediately cared for. Those painful attacks come with scarcely a moment's warning when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," to dose the possession of this FAMILY MEDICINE prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, &c.

USE BUCHMAN'S

PULMOCINE CORDIAL.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our educated physicians daily use for the complaints specified, in some form or other. A recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the public and to the public exclusively pure and unadulterated.

AYER'S

SARSAPARILLA

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always often baffling and tedious trial. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into grievous or dangerous disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Impurities Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

AYER'S

CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one medicine has secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about thirty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

AYER'S PURGATIVE PILLS.

For all the purposes of a Family Physic, CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

$1000 REWARD.

BRIGGS' ALLEVANTOR is composed of Ammonia, Chloroform, Spirits of Camphor, Tincture of Lupuline, Oil of Juniper, and Alcohol. This compound is unequalled in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Trembling or Twitching of the Nerves, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, humors, &c.; it equalizes the circulation, invigorates the system, increases the action of the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. Briggs' Allevantor absolutely possesses more curative properties than any other preparation. Physicians, chemists, and others are requested to examine and test the remedy, and $1000 will be paid if found different from representation.

COUCHS, Much has been said and written, and many remedies have been offered for the relief and cure of throat and lung diseases; but nothing has been so eminently successful, or obtained such a wide celebrity, as Briggs' Throat and Lung Healer.

CORNS! The excruciating pain produced by Corns, the unceasing twinging from Bunions, the throbbing, distressing pain from Ingrowing Nails, cannot be described. Thousands suffer, not knowing there is a cure. Briggs' Corn and Bunion Remedies are no acid or potash compounds, but are reliable, soothing, and effectual, and just merit the success they have earned from an appreciative public. The Curative is a healing ointment; immediate relief is obtained by its application, and it will positively cure the worst cases of Festered Corns, Inflamed and Ulcerated Bunions, the sorest instep, the largest and severest Blisters, the most extensive Callosities on the soles or heels of the feet, unequalled in the cure of Chilblains or Frosted Feet. The Allevantor for ordinary corns and providing their information is absolutely unexcelled by anything ever known.

PILES have been a terror to mankind for centuries, and almost every attempt to cure them has been baffled. By unceasing study and experimenting, Dr. Briggs has discovered an absolutely cure for internal, bleeding, external, and itching piles. Briggs' Pile Remedies are mild, safe and sure.

For sale by J. H. THACHER, WM. R. PRESTON, Portsmouth; JAMES O. TREFETHEN, Kittery; E. S. SAFFORD, Kittery Point; H. M. CURTIS, Newcastle, and dealers generally.

CORNS, Bunions, Bad Nails, and other diseases of the feet, Scrofulous and Cancerous Humors, Piles, etc., skillfully treated at the great central Chiropodical and Healing Institute, No. 765 Broadway, New York. DR. J. BRIGGS, President; DR. ALEXANDER WEBBER, Secretary. — ap9

The Chronicle.

AUTUMN.—The Providence *Journal*, says: "It is a year of abundant harvest. The vines are loaded with grapes; the limbs of the peach trees touch the ground with their weight of luscious fruits; the apple orchards are blushing rosy-red; and the pear trees are laden with their graceful pendants from the topmost branch. Stores of floral treasures contribute their share to the great store-house. Around many a murmuring brook the cardinal flower raises his regal head; the cematis weaves its feathery garlands over wall and tree-trunk; fragrant elethra perfumes the air; while the golden rod waves its graceful wand, and innumerable asters peep forth with their eyes like stars. Signs of coming change are increasing every day. The sumac has already put on its crimson crown; the woodbine has donned its robes of russet brown; the scarlet maple scattered here and there its gorgeous leaf; and the elm tree dropped its first golden shower, while shortening days and vanishing twilight are symbols of the decadence which in things terrestrial always follow maturity.

The Portland *Transcript* says: "Brown October has come, and shortening days give token of the changing season. The goldenrod and the wild-eyed aster close up the procession of the flowers. The sumac is blushing crimson, the maple drops its scarlet leaf, the elm is turning into gold, the woodbine dons its richest robes, and the climbing clematis weaves its feathery garland.

Somebody also writes upon a kindred subject. Having had the folly to get out of bed at an unreasonable hour he said: 'From four o'clock to seven there is a period as distinct from the day as is the time of six in the evening until ten. Most persons understand the meaning of evening; but morning means no more than a point—a mere time to get up and dress for the day. But decidedly the richest, most marked part of the day—the fullest of unique joys, songs and suggestions is the morning. Thomas Fuller (is it?) says, 'Do not spill thy morning (the quintessence of the day) in recreations.' That is it exactly, the quintessence. About four of an August morning the great wave of bird song reaches you. Where it started I don't know. Probably on the Atlantic, with red birds; but it always comes with the sun, from the east. At first you hear just one inquiring note, away down the valley; after a little, another sleepy twill, then another and another, keener, fuller, wide awake, joyful until the valley is rocking and rolling with a tide of song. And all the while it is drawing nearer. A robin shouts in the elm over the roof; the tide dashes and flows over you—on, on to the Pacific. For half an hour every bird in all your world is half crazed with inspiration, pouring forth the exquisite rhythm of his being in a hallelujah chorus. And then the perfume and purity of the air. It has an odor neither of night nor of day; but the dew seems to hold in solution those peculiar honeysuckle odors that are never emitted till night."

A CONDUCTOR'S PUNCH.—The conductors of the Tremont street horse-cars are rejoicing over the possession of a new and shiny toy, which has been bestowed upon them by their employers, to beguile their leisure moments as they pass to and fro over the somewhat monotonous and uninteresting route which those cars are ordained to travel. The instrument seems to combine in about equal proportions the useful and the musical, is called the "conductor's punch," and is applied thus:—

The conductor is furnished with a long, printed strip of paper, called a trip card, upon which there is a double row of numbers, each representing the amount of one fare. As six cents is the fare in our city, the numbers range on the strip thus: 6, 12, 18, 24, 30, 36, 42, and so on. When the conductor receives a cash fare he punches out the 6, and as he does so a small gong, loud enough to be heard throughout the car, strikes within the punch, announcing to all that one fare has been collected; at the same moment the hands on a dial arranged like the face of a watch and situated inside the punch are moved forward and register one fare, and the fragment of the card with the figure 6 drops into a receptacle attached beneath the dial and there it remains until the end of the trip. When the officers of the road hand the punch over to the conductor they register the number indicated by the dial, lock the openings securely and the machine is so arranged that the least attempt to tamper with it is detected.

Accordingly, the conductor's progress through his car, during the fare-taking episode of the trip, is, in some degree, a reminder of the party of whom it is said in nursery rhyme "she shall have music wherever she goes." The sound of the gong is very melodious, as the communicative tell-tale nippers are both put up and shut up with each movement of the conductor's elbow. The performance will prove vastly entertaining to children, and will materially add to the attractions which a ride in the jaunting car already has for that class of the population. Notices printed in letters of bold type are placed in handsome frames and hung

conspicuously in the cars, informing the passengers of the purposes of this new device, the implication whereof is that the virtuous public is expected to take note whether the conductor nips the pasteboard every time he takes a fare, and, in the event of any wavering from rectitude on his part, to report the same at the office and prepare themselves for a cross-examination at the hands of some of the urbane counsel who act for the defendants in the Municipal Court, that is, if the case should be carried to the tribunal.

The nipper is said to be in successful use on the street railways of Chicago, Louisville, Hartford, Providence and Buffalo. During the few days in which it has been employed on the Tremont street line, the receipts at the office have averaged from ten to fifteen per cent. more than were turned in previous to its introduction. The Metropolitan Company estimate the daily loss on that road, on all its lines, by peculation, at from $200 to $300. Unless the acuteness of the gentlemanly conductor shall in some unforeseen way prove superior to the ingenuity of the lucky inventor, who is now selling the machines at twelve dollars each, a general distribution of these tinkling symbols of honest service may be looked for, on all the lines of the corporation, at an early day.—*Boston Globe.*

Political.

A grand Republican mass meeting and torchlight procession was held in Dover. The procession was a very long one, there being nearly a thousand torches therein. Besides the Dover Club delegations were present from Rochester, Great Falls, Farmington and Alton, with four bands of music. The illuminations were extensive. Morrill's Block, Russell B. Wiggin's residence, the New Hampshire House, Col. Joshua B. Hall's, Ex-Mayor Brewster's and many others were expressly fine. The City Hall was crowded to listen to an excellent address by U. S. Senator elect Wadleigh, and a few appropriate remarks by Hon. J. D. Lyman of Exeter. After the meeting Mr. Wadleigh held a levee at the American House, it being his first visit their since his election. He spoke at Littleton last evening and will speak here next Thursday.

The Concord *Peanut* regrets that the opening of the Radical campaign in Concord was not big enough to bury itself in, probably because of its two failures to sell itself at auction.

"Greeley has carried three States," said one boy to another on the street, yesterday. "No yer don't, Bill; he's yet $5000, he hasn't. What are they?" "The State of Georgia, the state of disappointment, and the state of despair—where's yer peanuts?"—*Biddeford Jour.*

Rev. A. G. Comings of Lee, a recent temperance candidate for Governor of this State, has written a long letter advocating the re-election of President Grant.

The Republican National and New York State Committees, instead of relaxing their efforts after the recent success in Pennsylvania, Ohio and Indiana, display more activity than ever. Thousands of campaign documents and political pamphlets are being sent to all parts of the country and State. In fact, they are working as hard as though they had extraordinary obstacles to overcome.

The trouble among the Republicans of the Petersburg, Virginia, district has been settled in such a way as to insure the election of the regular Republican candidate to Congress. Charles H. Porter, running as an independent, has withdrawn.

It is reported that Mr. O'Conor's growing fame as the "Great American letter-writer" has driven Henry A. Wise to confess that he doesn't care how soon he dies.

Hon. Frank W. Bird has been nominated for Governor by the Democrats and Liberals of Massachusetts, in place of Senator Sumner.

Four new indictments have been found against the Tammany thieves—two against Tweed and two conjointly against Tweed, Connolly and Hall.

Bross and Grant.

Some ten years ago Gen. Grant was in command at Cairo, and received instructions from Gen. Halleck, then in charge of the western department, to make a demonstration against Columbus, Ky., to prevent the garrison at that point from being weakened to reinforce Bowling Green, against which Gen. Buell was then moving. To make the movement a success it was absolutely necessary that the enemy should be led to believe it no feint, but a serious operation. Gen. C. H. Smith was marched from Paducah, across Kentucky, and Gen. Oglesby from Bird's Point through Missouri. Gen. Grant in person taking command of the expedition by river, a flotilla of transports guarded by gunboats. To maintain the secrecy necessary to success, orders were issued that no civilians whomsoever should be permitted to accompany the expedition.

Gov. Bross was then at Cairo. Gov. Bross, in the pre-Horatian age, was a power of the *Tribune*. What he wrote was sure to appear unmangled by scissors and unmutilated by pencil. Nay, his very articles on Colorado and the Canadian canals eluded the waste basket. That any general order excluding the press should apply to the *Tribune*, or that Governor Bross should be included in the common category of civilians, seemed too absurd for belief. Accordingly he presented himself before General Grant and asked leave to accompany the troops. The general politely declined. The deacon explained. The general firmly reiterated his refusal. The deacon waxed indignant. The general became icy in his determination.
